— LIGHT OF ITALY —

The expression of centuries of Italian tradition
for the harmony of things done well.

Euroluce Light of Italy has been operating in the lighting industry for 25 years. With its Elegance and Twenty Brand Design product lines, it tells the story of an established Italian brand, a dynamic story that is renewed day after day by the success of the collections and the trust of customers. A statement linked to the human factor and the important know-how that has been gained by their team of artisans, technicians, and designers. They represent the pursuit of perfection, attention to detail, quality of manufacturing, and excellence of materials and components. All pieces are designed and made exclusively in Italy assuring the design, aesthetics, elegance and style of Made in Italy.

PASSION. ELEGANCE. MADE IN ITALY.

ABOUT US

The search for perfection, attention to detail and the highest-quality manufacturing: their creations are the fruit of the work of skilled craftsmen. They handle most of the production process of their lighting within the company. They have a mechanical workshop, an assembly and prototype area, and a specialized lampshade making department. Their products feature blown glass molded in the most acclaimed Italian furnaces by the greatest master glassmakers and involve skilled artisans to hand grind crystals to make their collections unique. The in-house team of designers are capable of designing customized solutions according to the client's needs and ideas, taking into account factors such as architecture and settings, safety, energy savings, and automation.

DESIGNER PICK:

Corallo Collection

Inspired by the quiet beauty of coral islands, this lighting piece captures the magic of sunlit seascapes. Its form echoes the cliff sides carved from wind and water erosion—natural, sculptural, and serene. The crystal is designed to catch and reflect light just like water kissed by the sun, casting a glimmering glow that feels both calming and alive.

Each curve and shimmer tells a story of nature at its most peaceful, where light dances across the waves and time seems to slow.

“I WISH I COULD
TOUCH THE
LIGHT BUT I
CAN'T.

I CAN ONLY
ADMIRE ITS
BEAUTY.”

- MICHELE LOSITO, CEO
