Liquid level gauges

Meet SOLAS 1981 requirements for passenger and cargo ships

Approved/accepted in an appropriate construction by:
Department of Transport (UK)
Canadian Transport Commission
Dutch Register of Shipping (UK)
American Bureau of Shipping (USA)
RINA (Italy)

Department of Transport (Hong Kong)
Dyngemestofsetur, Reykjavik (Iceland)
Dansk Register (Denmark)
Dansk Register (Denmark)
Dansk Register (Denmark)
Dansk Register (Denmark)

US Coast Guard (USA)
Bureau Veritas (France)
Det Norske Veritas (Norway)
Dansk Register (Denmark)
Dansk Register (Denmark)

Seetru liquid level gauges are selected by shipbuilders worldwide.

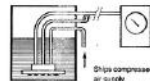

Direct level or remote contents indication

SEEFLEX model
Direct reading column gauge with float glass, for
harmless tank contents in cargo ships.
● Push-button operated self-cleaning bubble valve.
● Gauge lengths available to suit new buildings and
existing ships tanks.

Push to read
self-cleaning valve

SPURITE model
Remotes indicating gauge for cargo and passenger ships.
● Operated from ships compressed air system - has
contact between the air and tank contents.
● Sensors for mounting on tank floor or submerged
made tank.
● Single display or multi display from each tank.

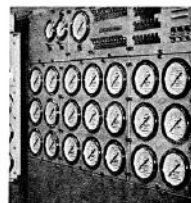

Ships compressed
air supply

Continuous display of
tank contents

Continuous display of
tank contents, with
high and low levels
alarm

Typical multi display console

Seetru Bolts help make motorways safer

— just the
cost of a few
Seetru Anchorage Bolts

Accepted by the Department of Environment
in accordance with Technical Memorandum
BE5 for fastening bridge parapet rails.
Used by Highway Engineers to give extra safety
to tension beam posts, lighting columns and
expansion joints.

The seetru bolt excels where energy absorption
is a critical factor in minimising injury risks,
damage to vehicles and road furnishings.
FIT SEETRU RESILIENT GRIP BOLTS
for extra protection on impact.
