*"If you want to shine like a Sun, first
burn like the Sun" – APJ Abdul Kalam*

**July,
When solar rays dance with
monsoon molecules, creating
nature's own science experiment**

Every month at Param we have something
new happen, here is a glimpse of us going
through the lovely month

Congratulations ISRO!

We at Param had the privilege to witness the Chandrayaan-3 successfully take off on its voyage to the Moon's South Pole. This mission is a proud reminder of the heights India has achieved in space exploration, technology and other advancements; standing shoulder to shoulder with leading nations!

Team Param is growing Bigger and Stronger!

This month we welcome experienced
Designers & Architects.

THE PARAM SCIENCE EXPERIENCE

As time passes, our teams
have been working
rigorously **Implementing** the
best of the best **Designs** for
the world to see!

Design X Implementation

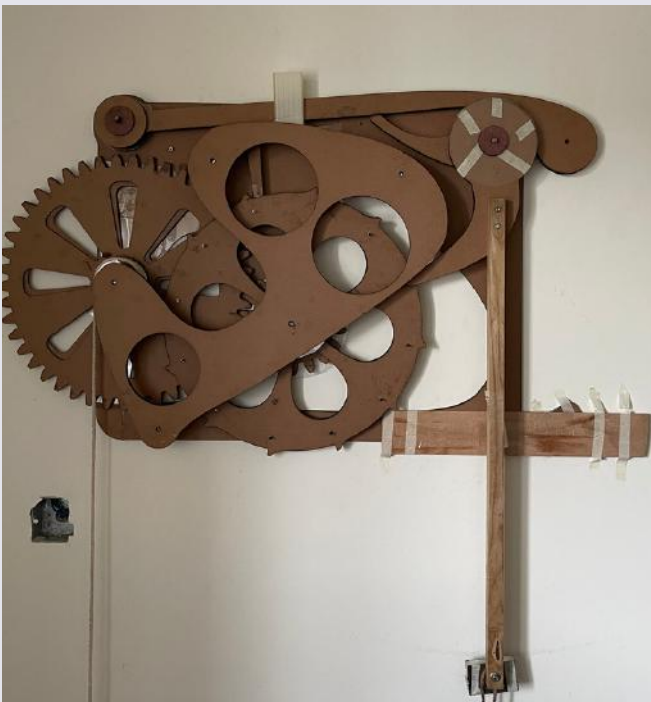

This month they created...

Chaos Pendulum

Heron's Fountain

Escapement

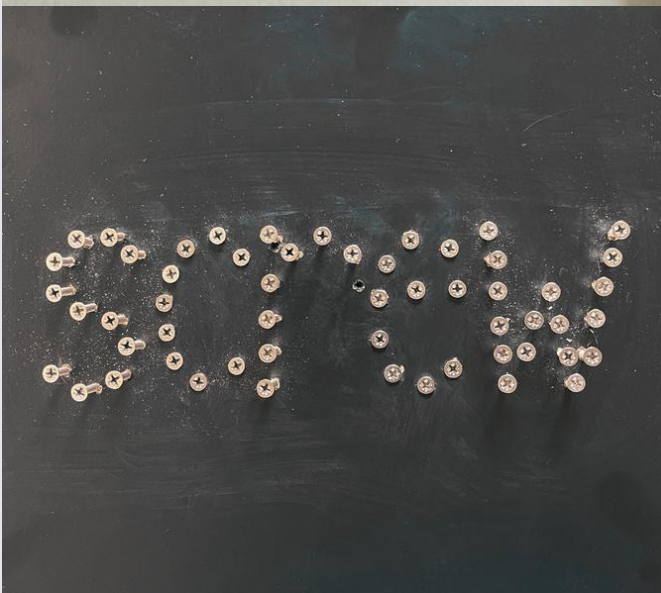

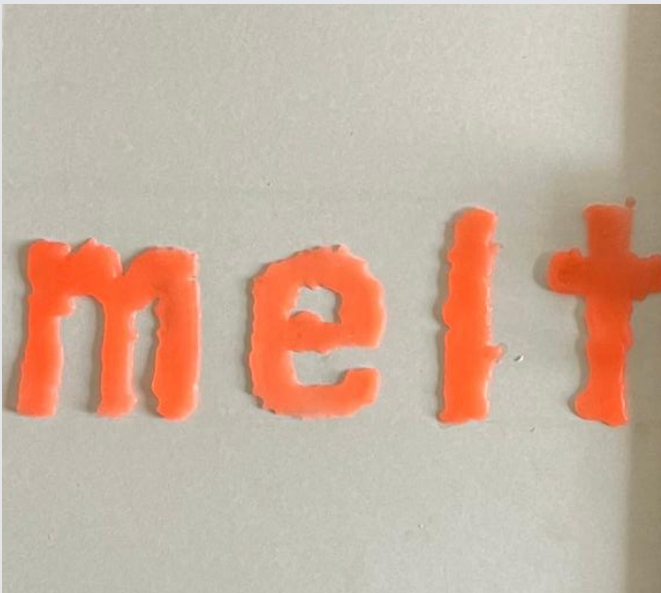

Ball Hole Puzzle

Meet the curators

that created these

The team carefully crafted these murals to visualise everyday Implementation and Design words.

DESIGN'S DAY OUT!

Now bigger and stronger, the Design Team visited the Param site and other museums around Bengaluru to better understand the city's needs!

JULY 2023

Interns host Townhall to bid adieu!

They quickly noticed our food obsessions, bought us delicious treats, and made a place in our hearts.

They will be missed!

"We all had a great experience, love you all from Hrishikesh, Abhinand, Tishang and Abhay. HATA"

THE PARAM SCIENCE EXPERIENCE

Abhinand S S

Implementation Team

I had the chance to work on cutting-edge initiatives at Param during this dynamic and engaging internship. The collaborative environment among team members fostered a sense of support and growth.

I was able to see how my efforts contributed to the company's expansion, which made the experience quite satisfying.

In general, my time at Param Innovations was transformative and gave me invaluable knowledge and skills for my future job.

S K Jayanthi

Implementation Team

Working with Param has been a wonderful experience, way different from other corporates. I started to work on new things which I have never seen been done before at least in India, I also enjoyed the new lifestyle with a group full of youngsters in mode of passion, with full confidence about taking on new things.

There are innovations many people of India do not have access to. Keeping that in mind as the goal, Param is trying to convey the message of science to our people.

Working together to make this wonderful science centre. I felt very happy to be a part of this wonderful organisation where nothing happens with a routine.
