smith&burton®

NATURALLY EFFECTIVE SKIN & COAT CARE, WITHOUT COMPROMISE

LOVE · LUXE · LUSTRE

A dog grooming range like no other - the most
luxurious, naturally effective health, beauty
and wellness grooming range available.
For the best a dog can get.

Proudly crafted and made in New Zealand
to bring a new range of luxurious, truly
distinctive products that are, good for
dogs and the planet.

OUR PHILOSOPHY

smith&burton's philosophy is to use the best of nature combined with knowledge-backed science to produce naturally derived products that work to the highest standards. We use local native bioactive ingredients such as Kawakawa Leaf Extract, Kowhai Extract, Pohutakawa Extract, and New Zealand Manuka Honey blended with the best scientifically proven and natural ingredients earth has to offer such as Argan Oil, Jojoba Extract, Hydrolyzed Silk, Pomegranate, and more.

As with human skin and beauty brands, we apply the same natural product credentials and healthy lifestyle choices for dogs. Our belief is that the future of sustainable business is through transparency and integrity, exceptional service, and building desirable brands that reward our customers.

At the heart of our brand is 'Unconditional Love' it is with this that we aim to respect nature and utilise science to create products that are the best a dog can get, without compromise.

OUR BRAND STORY

SMITH&BURTON IS GROUNDED IN NATURE, SUPPORTED THROUGH SCIENCE, DRIVEN BY INNOVATION AND INSPIRED BY THE LOVE OF DOGS.

We use the power of botanical science to create clean, gentle, luxurious products that are naturally effective. Our plant-based formulations use the finest quality ingredients enriched with vitamins, antioxidants and antibacterial properties combined with powerful New Zealand bioactive botanicals and 'liquid gold' Manuka Honey.

Our blends are purifying and moisturising and designed to suit any coat and skin type, including sensitive skin. Delicately fragranced with our beautiful 100% natural signature scents. Leaving the coat smelling fresh, clean with lustre and shine.

LOVE · LUXE · LUSTRE

OUR PROMISE

**WE HOLD OURSELVES TO A HIGHER STANDARD IN BEAUTY, HEALTH AND WELLNESS
DOG GROOMING PRODUCTS AND STAND BEHIND OUR CANINE COLLECTION
BECAUSE WE BELIEVE THEY ARE THE BEST A DOG CAN GET.**

Our unique formulations are specifically designed and purposely chosen for dogs. Helping to promote and improve healthy skin, coat and general health, their coats will actually benefit from our formulations.

- We are committed to being transparent with every ingredient that goes into our products and state exactly what percentage of each product is of total natural origin.
- We have even gone further by providing a full ingredients glossary of each and every one of the ingredients we use across our product range.
- We will only use the finest quality plant-based ingredients and recyclable packaging available to us with equal respect for the environment.
- We will always consider the sensitivity of a dog's sense of smell. We ensure all our signature scents are certified 100 percent natural fragrance (the highest in the world), delicate and perfectly balanced, light, elegant and dog appropriate.

- We will never use nasties or potential irritants in our products.
- We never test on animals, we are cruelty free and pet friendly.
- Our products are proudly crafted and made in New Zealand with love.
- We will continuously strive to design superior, innovative blends and formulations and progressive products that are naturally effective for all dogs.

OUR RANGE IS CREATED AND MADE IN NEW ZEALAND WITH LOVE

New Zealand is renowned for its beautiful coastline, green rainforests, snow-capped mountains and pristine seas. It is one of the most cleanest environments in the world.

Our products are proudly made in New Zealand with love, using elite chemists, perfumers and leading industry professionals, including **New Zealand's leading and most trusted skincare, haircare and cosmetic contract manufacturer.** Maintaining the highest quality and safety standards.

Our locally made products use the **finest human quality plant-based ingredients, ethically sourced and manufactured.**

We are committed to obtaining our **ingredients locally from our New Zealand home when we are able.**

Local ingredients is also at the very heart of our product philosophy - New Zealand nature: bioactive native botanicals, flora, fauna, fruits and 'liquid gold' Manuka Honey.

WE KNOW THE SCIENCE OF A BEAUTIFUL COAT

Most of our shampoos are formulated with Vitamin B5 due to its application to enable thirsty skin to moisturise, soothe, heal and regenerate. When applied to the coat it takes on a pro-vitamin form, improving effects of the coats elasticity, moisture retention, adds lustre and flexibility. Vitamin B cannot be produced naturally in large quantities anywhere in the world. We believe the benefit on the skin outweighs its non-natural form, hence balancing science with nature.

smith&burton uses botanical science to produce gentle, naturally effective products.

We know the importance of combining nature and science, and we **utilise the highest quality** of both to create a delicate yet highly functional balm, **without compromising on performance.**

We utilise ingredients derived from nature but engineered with science, because we want to **make clean, safe and efficient products that will make a difference.**

We are **meticulous in crafting our formulations.** We believe products must be high performing, not just natural for natural sake, but be **naturally effective.**

Our natural products lather (something very rare with naturally derived products), they rinse off easily and don't leave a sticky feeling on the coat.

We use the **science of cosmeceuticals** for the medicinal properties of benefit to a dog's skin and coat.

We reject any harsh chemicals that could irritate or be unsafe.

We don't rest until our **products are perfect - safe enough and powerful enough for noticeable results.**

WE USE THE BEST NATURAL INGREDIENTS EARTH HAS TO OFFER, RARELY FOUND IN DOG GROOMING PRODUCTS

POMEGRANATE, ROSEHIP,
SWEET ALMOND, ARGAN OIL,
LICORICE, JOJOBA,
HYDROLISED SILK,
GINSENG, BALM MINT,
CALENDULA, ROSEMARY,
KAKADU, KARANJA, LINSEED,
OAT, NEEM, SHEA BUTTER,
COCONUT, ALOE VERA,
COCOA BUTTER, SUNFLOWER,
MARULA, EVENING PRIMROSE,
& MORE

We create the **most gentle, naturally effective products** we can using only **ingredients that are good for dogs and of benefit.**

Crafted with nature's most effective natural ingredients, **rich in vitamins, nutrients and antioxidants.** We hand-select superb plant-based ingredients, proven for their effectiveness and **ability to deliver outstanding results.**

We use only the **highest quality human ingredients** available and believe **if you can't put it on your body, your dog shouldn't either.**

We have **the most extensive list of nature's power ingredients of any dog grooming range.**

UNIQUE, PROVEN & POWERFUL NEW ZEALAND NATURE, LIKE NO OTHER

smith&burton proudly celebrates the unique nature, flora, fauna and fruits of New Zealand found nowhere else in the world.

We harness the **proven power** of these superb ingredients from one of the **world's cleanest environments** to preserve their purity and activity.

New Zealand's fertile soils, clear air, high sunshine hours, clean rainfall and fresh seas help create these antioxidant-packed, nutrient-rich ingredients, **sought after for their unique bioactivity** to effectively improve a dogs' skin & coat condition.

WE LEAD THE WORLD WITH OUR NATURAL SIGNATURE SCENTS

SMITH&BURTON PREMIUM RANGE OF SIGNATURE SCENTS ARE UNIQUE, EXQUISITE FRAGRANCES DEVELOPED BY EXPERT PERFUMERS PROVIDING LUSCIOUS SCENTS THAT LINGER FOR DAYS. CONSCIOUSLY CREATED AND DESIGNED SPECIFICALLY FOR DOGS.

We hold ourselves to a **higher standard using the highest recognised natural, sustainable plant source for our Fragrances.** Our signature scents are **Certified 100% Natural fragrance** at the highest recognised standard in the world, created in New Zealand from French-born perfumer (who learnt the art of olfaction and scent design from a Chanel perfumer) and then developed in Grasse, France.

Designed consciously and specifically for dogs. Gender-neutral, perfectly balanced, and carefully **formulated for the sensitivity of a dog's sense of smell.** Giving dogs, and their owners, the **safety and luxury they deserve.**

Dog's noses are around 40 times more sensitive than ours. That is why we take extra care with the fragrances in our collection to ensure the scents are light and delicate and won't cause stress.

Our fragrance is **extracted in the cleanest, purest ways** for the least chance of causing any irritation, allergies or be problematic to a dogs nose and skin. To give dogs, and their owners, the **luxury and safety they deserve.**

We are **one-of, if not the only dog grooming range in the world to use this luxurious level of fragrance.**

Our fragrance, like a perfume, allows for **absolute control and organisation of the layered scents.**

We don't believe in using essential oils for fragrance as organic compounds, are concentrated **very high for a dog's sense of smell with many being toxic to dogs.** Therefore our natural fragrances are designed at the highest safety for dogs.

**CREATED IN NEW ZEALAND,
DEVELOPED IN THE SOUTH OF FRANCE**

MADE CONSCIOUSLY FOR DOGS SENSITIVE NOSE AND SKIN

Our sophisticated fragrances are formulated with raw plant-derived materials and processes certified by Ecocert to the Cosmos standard. The fragrance components are extracted using the cleanest and purest ways of obtaining extracts and actives, for the least chance of causing any irritation, allergies or be problematic to dogs nose and skin; the extraction of non-natural solvents is not permitted. These potentially harmful solvents are often used in the manufacturing of absolute and fragrance oils.

WE HAVE THE MOST EXTENSIVE LIST OF NO NASTIES

It is what smith&burton products don't use that is every bit as important as what we do use, and that is what makes us special. So we have left out the nasties.

Our unique formulations are specifically designed for the wellbeing of dogs, to aid in maintaining and promoting a dog's healthy skin and coat. **So we have left out potential irritants and nasties.**

All our products are FREE OF: Parabens, Cocamide DEA, SLS/SLES/SLES, Phthalates, Phosphates, PEGs, PPGs, EDTA, DPEG, Silicone, Petro-Chemicals, Artificial Colours, Mineral Oils, Synthetic Fragrances or Dyes.

The **most extensive 'no nasties' list** of any dog grooming range.

We believe **that taking these harsh ingredients away** not only **improves the dog's skin and coat** for the better, it can also make a **positive difference to their overall health too.**

We use only the highest quality human ingredients and believe if you can't put it on your body, your dog shouldn't either.

With many groomers and people **suffering red, sore, irritated hands** even with 'so-called' natural products, to find a product that **causes no reaction is a welcomed bonus.** We had exceptional results from our allergy-prone human testing of no skin-irritation.

Good for dogs, you and the planet.

∅ NO NASTIES

WE ARE CRUELTY-FREE AND DOG FRIENDLY

We are cruelty-free, and all our products are tested thoroughly on humans first.

At **no stage** of development **are they tested on animals.**

Only once we are completely satisfied with the product, we **ensure the pH levels are balanced for dogs**, this **means they are ultra-safe and of high quality.**

Then, and only then, are they approved by, Smith and Burton, along with their dog (and human) friends.

We use **only the highest quality human ingredients and believe if you can't put it on your body, your dog shouldn't either.**

All our products are Human-Friendly too, so they can be used on yourself as well, which many of our customers do! We are the **first dog grooming range to claim this.**

∞ PH BALANCED FOR DOGS

OUR SUSTAINABLE PACKAGING GETS NOTICED

Not only is our packaging stylish and purposely designed to proudly show off in any home, it disrupts the pet category.

For e-commerce channels, when the smell of our gorgeous signature scents is not available, the products stand out and gets cut-through.

The black premium PET bottle packaging is also chosen to intentionally protect the natural ingredients, which are sensitive and vulnerable to light.

Our packaging helps with preserving the formulation and keeps the contents in a UV protected, safe and stable environment.

The packaging is designed to minimise waste and is 100 percent recyclable.

All our PET bottles are BPA Free.

Our balm is packaged in 100 percent recyclable aluminium tin.

WE ARE DRIVEN BY INNOVATION AND CONTINUOUS IMPROVEMENT, WITHOUT COMPROMISE

We will continuously strive to design superior, innovative blends and formulations and progressive skin and coat beauty, health and wellness tools for all dogs.

In doing so we have created the most luxurious (super-premium) range in the market.

We are dedicated to continuous improvement, refinement and perfection, we don't settle until our products are the best they can be.

It is this dedication that drives our demand for quality, safe, honest products for dogs everywhere.

FOR THE BEST A DOG CAN GET

OUR SCENT PROFILES

SCENT NO.1

The deluxe Scent No.1 is a lively, elegant scent of fresh marine bouquet and woody-green top notes with lingering hints of dark earth and spice. This light, clean, sleek scent leaves lasting impressions of Exotic Woods Accord, Sandalwood, Vanilla, Musk, Vetiver and Aqueous Accord. A luxurious, delicate fragrance that will have your dog feeling relaxed and truly pampered.

SCENT NO.2

The luxurious Scent No.2 is a delicious scent of sweet, mossy and green-floral top notes delightfully stimulating the olfactory senses and dries down to perfect accords of Patchouli, Candyfloss Impression, Musk and Tonka Bean Absolute. It creates a creamy, warm and unique harmony you'll want to snuggle up to. This indulgent, delicate-sweet scent will leave your dog with a nourishing and sumptuous feeling.

SCENT NO.3

The exquisite Scent No.3 is a soothing, elegant delight to the olfactory senses of floral-savory and green top notes, with lingering notes of gorgeous Magnolia and Rose, blending the woody-sweet aroma of Cedarwood Virginia and fresh Coriander. The lasting impressions of creamy-soft Vanilla and warm-woody Sandalwood are gentle and delicate. This enchanting, soft fragrance will leave your dog with a calming, comforting and lavish feeling.

HYDRATING RANGE

KIWI, ALOE VERA, COCONUT, GINSENG AND MANUKA HONEY

SCENT NO.1

Naturally effective, luxurious plant-based blend rich in vitamins, antioxidants and New Zealand botanicals.

HYDRATE. INVIGORATE. REPLENISH.

This luxurious blend is especially suitable as an everyday, go-to range for all coat types, from pups to seniors, especially good for smooth, short, wire and combination coat and breed types.

Combining antioxidant-rich, superfood Kiwi Fruit Extract and Aloe Vera to hydrate and replenish the coat. With Coconut a multi-tasking wonder oil, incredibly moisturising, hydrating and immune-boosting, it gently cleanses and protects the skin's moisture balance.

Jojoba pro-vitamin A and E smooths the epidermis. Ginseng invigorates and restores.

Harnessing the proven power of New Zealand's 'liquid gold,' Manuka Honey to feed, protect and renew dogs' skin, and as a natural humectant, it draws in moisture for lustre and high-shine.

With New Zealand bioactive botanicals Kiwi, Flax and Pohutakawa, rich in vital minerals and antioxidants to deeply condition, nourish and moisturise the skin and coat.

KEY BENEFITS:

- Hydrates the skin and coat naturally
- Replenishes naturally by returning moisture to the skin and coat,
- Moisturising dry, brittle coats
- Invigorates by deeply cleansing without irritating or stripping the natural oils
- Natural properties known to be immune-boosting
- Helps combat oily or greasy coats.
- Deeply conditioning
- Natural properties known to be antibacterial and odour eliminating
- Natural whitener
- Natural ingredients rich in minerals and antioxidant-rich, pro-vitamin A, vitamin C and omega 3 and 6 fatty acids
- Added vitamin B5 and E for optimal coat health
- Softens the coat
- Promotes lustre and shine
- Gentle formula for more frequent washing
- Scent No.1 luxurious, delicate fragrance leaves a dog relaxed and truly pampered
- pH balanced
- Cruelty-free
- No Nasties
- Cat friendly

Our PUPPY RANGE is suitable for all Puppy Coats and Breeds.

DETANGLER SPRAY & LEAVE-IN CONDITIONER

SILK PROTEIN, JOJOBA AND MANUKA HONEY

Naturally effective, luxurious plant-based blend rich in vitamins, antioxidants and New Zealand botanicals.

Luxurious, high-performance blend to condition while removing mats, knots and tangles and as a conditioning spray it leaves the coat more manageable, giving a soft, smooth, silky texture and high-shine.

Crafted explicitly with Hydrolyzed Silk Protein, treasured as one of the strongest natural fibres in the world. It forms a protective barrier around the coat's hair follicle and remains anchored to the outer layer of the coat, providing a smooth and moisturising effect. Jojoba gives a restorative boost of moisture and nutrients helping protecting against dryness and breakages, with calming properties to condition the coat leaving a smooth, silky finish.

Combined, these ingredients improve elasticity and resilience. Softening and protecting the coat so knots, tangles and mats can be separated and removed painlessly, or sprayed over the entire coat as a leave-in conditioner. It stays on the coat to prevent additional matting and tangles, yet will not produce any sticky build-up leaving it silky smooth.

Harnessing the proven power of New Zealand's 'liquid gold,' Manuka Honey for lustre and high-shine with New Zealand bioactive botanicals Manuka, Flax and Pohutakawa for a healthy glossy coat. Infused with vitamin E to help hydrate, protect and condition.

KEY BENEFITS:

- Improves coat elasticity and resilience
- Helps remove mats, knots and tangles with ease
- Hydrates and conditions the coat
- Soften and protects the coat
- Restores moisture and nutrients
- Alleviates dry and dull coat
- Protects against dryness and breakages
- Leaves the coat smooth, silky and glossy.
- No sticky build-up
- Natural properties known for their antibacterial, antifungal and anti-inflammatory qualities
- Antioxidant-rich
- Added vitamin E for optimal coat health
- Promotes lustre and high-shine
- Only the raw ingredients of this product make up the naturally occurring aroma
- pH balanced
- Cruelty-free
- No Nasties
- Cat friendly

HEAL & PROTECT SOOTHE BALM WITH MANUKA HONEY

An amazing multi-tasking wonder balm for paws, nose, elbows, dry spots, abrasions and more.

This 100% natural balm contains powerful natural ingredients with properties which may assist in the repair and maintenance of cuts, cracks, dry, rough elbows, calluses and areas of dry skin irritation on the body like early, dry hot spots and rashes, dry or cracked paws, crusty or cracked nose, or skin-fold irritations.

With moisturising properties to help smooth dry skin from everyday wear and tear.

It helps protect paws and noses by creating a barrier from the elements and everyday terrain and promotes repair from existing damage. This barrier may help prevent infection and promote healing of minor scars post-injury and surgery.

Harnessing the proven power of New Zealand's Manuka Honey and Manuka oil, with known antibacterial properties and as a natural humectant, it draws moisture in making it an effective hydrator. Combining Jojoba with vitamins A and E, helps smooth the epidermis, Coconut known as multi-tasking wonder oil, is incredibly moisturising, hydrating and immune-boosting, it gently cleanses and protects the skin's moisture balance.

Enriched with Shea Butter, Sweet Almond and Linseed to soften, nourish and condition the skin. With added vitamin E to promote good skin health. A truly remarkable, powerful blend.

A multi-tasking wonder balm. Lick safe. Perfect for human skin too!

NATURE'S POWER INGREDIENTS

New Zealand Manuka Honey, Sweet Almond Oil, Shea Butter, Coconut Oil, Linseed Oil, Jojoba Seed Oil, Cocoa Seed Butter, Lavender Oil, Manuka Oil.

Designed to solve the various needs across all breed & coat types, issues & actions.

SMITH&BURTON PRODUCT PROMISE. ALL OUR PRODUCTS ARE FREE OF:

■ **Parabens**, are a common type of preservative used in dog care products. Whether your product is natural or not, they need preservatives to stop bacteria growing.

■ **Cocamide DEA**, are hormone-disrupting chemicals that can form cancer-causing nitrates and nitrosamines. These chemicals are already restricted in Europe due to known carcinogenic effects.

■ **SLS/SLES**, this surfactant (think foaming) can be found in more than 90 percent of personal and hair care products, as well as dog care products. Animals exposed to SLS can experience eye damage, depression, laboured breathing, diarrhoea, severe skin irritation and even death. A potential carcinogen.

■ **Phthalates**, are petrol-based chemical substances. See petrochemicals below.

■ **Phosphates**, like surfactant, can be found in many dog care products and as a chemical sulphate with many belonging to the petrochemical group, there is an increasing chance of cancers and other illnesses.

■ **PEGs and DPEG** are emulsifiers or thickeners. They can reduce the skin's natural moisture.

■ **PPGs**, irritation can be seen at low levels of Propylene Glycol and is a potential carcinogen.

■ **EDTA**, Tetrasodium EDTA is a penetration enhancer, meaning that breaks down the skin's protective barrier.

■ **Silicone**, are commonly used in dog care products to help improve the feel on the skin and hair, and to help lock in moisture. However, they can build up on the hair locking in dirt and bacteria too, causing skin irritation, possible dermatitis and fungal diseases.

■ **Petrochemicals**, petrochemicals are chemicals made from crude oil and natural gas. There is an increased chance of cancer and other illnesses in dogs. They are not good for dogs, you, or the environment!

■ **Artificial Colours or Dyes** a lot of shampoos and conditioners are dyed with an artificial or synthetic colour to make them more appealing. These colours come from petroleum or coal-tar sources, all of which come with harmful health effects.

■ **Mineral Oil** is a petroleum-based ingredient, which can be found in some dog care products.

■ **Synthetic Fragrances**, for dogs with sensitive skin and allergies, synthetic perfumes can be a big trigger. As well as be problematic and have the potential to cause stress due to dog's sense of smell. smith&burton uses only Certified 100% Natural fragrance.

WE HOLD OURSELVES TO A HIGHER STANDARD, ONLY PROVIDING PH BALANCED, CRUELTY-FREE*, DOG-FRIENDLY PRODUCTS.

*We are cruelty free, and all our products are tested thoroughly on humans first. At no stage of development are they tested on animals. Only once we are completely satisfied with the product, we ensure the pH levels are balanced for dogs, this means they are ultra-safe and of a high quality. Then approved by Smith and Burton.

FERNMARK LICENCE

REPRESENTING NEW ZEALAND ON THE WORLD STAGE.

The Silver Fern is one of New Zealand's most recognised, long-standing, and respected national symbols. And now, the FernMark gives us the opportunity to represent New Zealand on the world stage.

smith&burton is a licensee of the official FernMark Licence Programme. It's a programme designed to protect and promote Kiwi products to the world. Equally, being a licensee now makes smith&burton an ambassador for New Zealand, which is both a privilege and an exciting opportunity.

A licence to bear the FernMark is a formal government recognition of our product's connection to New Zealand and clearly communicates our country of origin to consumers around the globe.

A TICK OF APPROVAL THAT BUILDS TRUST

The FernMark Licence Programme is the Government's official 'country of origin' accreditation programme designed to protect and promote New Zealand products to the world. That means smith&burton products have met the New Zealand Government's eligibility criteria as well as being locally owned it also requires that licensed smith&burton products are made, grown or designed in New Zealand.

This 'tick of approval' should give you huge amounts of confidence in what you're buying. The FernMark proudly endorses those who support the values of our nation. When you see the FernMark you can be confident that it represents a product born of New Zealand.

Ultimately, the FernMark Licence Programme delivers consumer trust. Carrying the FernMark means New Zealand companies are able to authenticate their products as being from New Zealand, while consumers can trust that they're buying authentic products. And in turn, the Programme entrusts us to represent New Zealand at its best.

You can find our brand on the FernMark website here:

smith&burton - a great product born of New Zealand! (nzstory.govt.nz).

NEW ZEALAND.COM
Licence No 100655

smith&burton crafts formulations of exceptional quality and meticulous detail, with a leadership approach to providing only the very best canine skin and coat care. We are a product-focussed company meeting the genuine needs of customers to provide a leading-edge natural canine grooming range.
