Fuelling Progress...

About Us

Eco Diesel, your pioneering choice for low-sulphur fuel solutions and cost-effective innovative alternatives.

As experts in the petrochemical industry, we take immense pride in delivering innovative products and premium services to clients nationwide, spanning various sectors such as wholesale fuel, diesel, petrol and paraffin, agriculture, transportation, construction and many more. At Eco Diesel, we are dedicated to providing solutions that optimise efficiency. Whether you require large-scale bulk purchases or smaller, tailored deliveries, we offer a comprehensive turnkey solution to meet your specific requirements.

At Eco Diesel, our mission is to be a catalyst for positive change by leading the way in innovative fuel solutions. We are dedicated to revolutionising the energy sector and fostering progress. Our commitment extends beyond providing fuels; it encompasses shaping a future where businesses thrive. At the core of our mission is the belief that responsible practices can drive progress and propel industries toward a more conscious future.

Powering Sustainability

Our Values

At Eco Diesel, values are not just words on paper; they are the guiding principles that shape our identity and drive our actions. These values are more than a statement; they are the essence of who we are and the foundation of our commitment to a sustainable future.

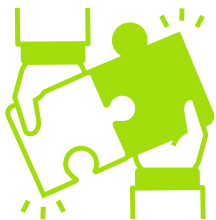

Integrity

We prioritize transparency and honesty in all our relationships with clients, partners, and stakeholders, making integrity the cornerstone of our operations.

Innovation

At the core of our ethos, we continuously explore and implement the latest advancements in sustainable fuel solutions, driving us towards a more sustainable future.

Collaboration

We actively engage with clients and industry partners, weaving collaboration into our fabric to collectively drive positive change.

Mission-driven

At Eco Diesel, we are more than just a fuel provider; we are stewards of a sustainable future, anchored in unwavering values and driven by our mission.

Our Offerings

Here's what we offer in our bulk fuel deliveries.

- Fuel loads ranging from 7,000 lt to 40,000 lt
- Fast lead times of 6 to 24 hours (terms and conditions apply)
- Real-time updates on deliveries for enhanced transparency

3

Conscious Value-Added Benefits. Enhancing Quality & Savings.

At Eco Diesel, we don't just provide fuel; we offer substantial value through our commitment to quality and cost-effectiveness. Our strategic procurement and quality assurance measures ensure that you get the best value for your investment, ensuring optimal performance for your operations.

Here are value-added benefits you receive:

- Competitive rates due to bulk procurement of sustainable fuels.
- Full compliance with environmental regulations.
- Supply of certified, premium-quality fuel.
- Strive towards using low sulphur fuel.
- Utilisation of cutting-edge lab services to guarantee premium fuel quality.

State Of The Art Fuel Laboratory Services. Setting New Standards In Fuel Quality.

Quality assurance is at the forefront of our services, and this commitment is evident in our state of the art fuel laboratory services. Each truck loaded is tested by our very own lab before delivering to our customers, ensuring quality and peace of mind. The lab tests are sent to clients with each delivery. This offering sets us apart from competitors, putting you, our valued customer, first.

Here's what our State of the Art Fuel Laboratory.

- Accurate fuel quality testing.
- Laboratory tests on fuel to ensure compliance and premium quality.

On The Road: Fuel Management. Sustainable Efficient Fleet.

At Eco Diesel, we understand the importance of efficient fleet management. Our On-The-Road software fuel management system, available soon, empowers you to monitor sustainable fuel spend and vehicle mileage in real-time. Furthermore, our personalised account managers ensure a seamless experience.

Here's what you can expect from our “On The Road” services:

- Real-time sustainable fleet control through innovative fuel management software
- Track sustainable fuel spend and vehicle mileage via smart devices
- Dedicated account manager as your sole point of contact for account queries and support while on the eco-conscious road

6

One Stop Truck Depots. Revolutionising Trucking: on Route 82

At Eco Diesel, we're dedicated to providing reliable, high-quality imported fuel products at competitive prices. After detailed surveys, we've identified Route 82, as a strategic route and acquired 50,000 sqm of land to develop a state-of-the-art truck stop. This facility on one of South Africa's busiest truck routes will include overnight parking, truck wash bays, restaurants, entertainment rooms, and refreshing shower facilities.

Our truck stop aims to enhance the overall journey for truckers, increasing efficiency and comfort. We're also acquiring land in KZN Bluff & Mpumalanga, key locations for the coal route to Richard's Bay and the logistics route for transporting containers from the KZN Port Southward, as part of our vision to enter the sub-Saharan market.

Here's how our One Stop Truck Depots can benefit you:

- Enhanced trucker experience with state-of-the-art facilities, including overnight parking, truck wash bays, restaurants, entertainment rooms, and refreshing shower facilities.
- Increased efficiency and comfort for truckers, contributing to smoother journeys and improved operations for clients

Eco Diesel Fuel Consultancy Services. **Optimising Your Fuel Strategy.**

We believe in creating solutions that add significant value to your business. With fuel accounting for a substantial monthly expense, particularly for companies with vehicle fleets, our expert team at Eco Diesel is here to conduct a full evaluation of your monthly fuel usage and requirements.

Here's how our Fuel Consultancy Services can benefit you:

- Customised solutions to optimise eco-conscious fuel spend.
- Expert evaluation of monthly fuel usage and requirements.
- Smart strategies for savings during fuel price fluctuations.
