HOW WE CAN HELP

Elevate support for staff and patients

Elevate your healthcare facility with advanced equipment and features that streamline processes and automate redundant tasks.

Our technology can:

Provide direct technical support to patients

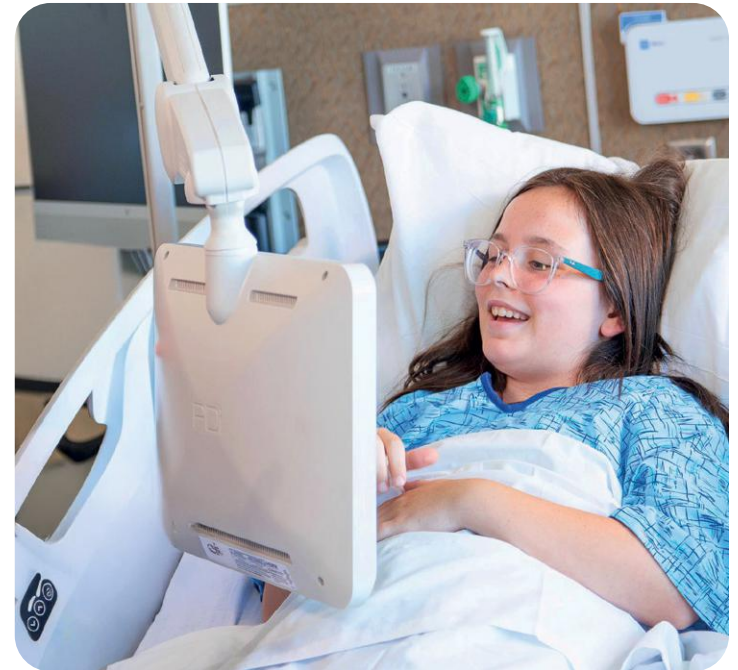

Simplify meal ordering directly through the bedside terminal

Communicate important announcements effectively

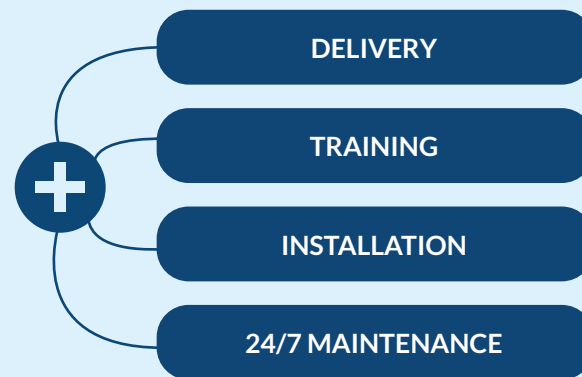

And much more

Our tech solutions are tailored to empower healthcare facilities

At LOC Medical, we're dedicated to meeting the unique needs of every healthcare environment. We ensure rapid deployment with minimal disruption to patients, enhancing your facility's operational efficiency while prioritizing patient comfort and satisfaction.

Compatible with pillow speakers
for maximum patient comfort

HARDWARE SOLUTIONS

Touchscreen Integrated Bedside Terminals (IBTs)

A touchscreen integrated bedside terminal—also known as an IBT, Personal Patient TV Terminal or Patient Entertainment System—is a touchscreen device designed for individual use in healthcare environments. Positioned at the patient's bedside or dialysis chair, it offers a more private, comfortable, and interactive entertainment experience.

-  Touchscreen device
-  Intuitive and user-friendly interface
-  Perfect for elderly patients and children
-  Reduces noise and light to promote rest
-  Configurable for various healthcare settings
-  Infection control compliant and withstands frequent cleanings

Revolutionize patient entertainment

Traditional cable TV is no longer enough. As technology advances, so should the entertainment systems in hospitals.

LOC Medical offers a cutting-edge entertainment and information hub designed to elevate the patient journey and enhance their overall experience.

-  1 Diverse infotainment options
-  2 Accessible information
-  3 Home-like comfort
-  4 Advanced technology

HARDWARE SOLUTIONS

Touchscreen Integrated Bedside Terminals (IBTs)

HARDWARE SOLUTIONS

Commercial TVs & digital signage solutions

Enhancing patient experience and communication

Designed for continuous operation, our commercial-grade TVs ensure durability, reliability, and ease of use, making them an ideal choice for hospitals and clinics. Whether in waiting rooms, lobbies, bathrooms, or boardrooms, our TVs help improve the visitor experience by displaying engaging content, providing vital information, and making wait times feel shorter.

Key technical features

- ✓ **Models available for 16/7 or 24/7 operation**
- ✓ **Easy Content Management**
Some models include simple editing tools and a variety of templates for seamless content updates.
- ✓ **USB Cloning**
Quickly copy TV settings to multiple units, simplifying setup.
- ✓ **IR Out for Unified Control (Optional)**
Operate multiple TVs using a single remote with an interactive set-top-box.
- ✓ **Multi-Image Display (Optional)**
Show multiple visuals or messages simultaneously.
- ✓ **External Speaker Out**
Connect additional speakers to enhance audio coverage in larger spaces.
- ✓ **Supports Chromecast and user friendly streaming apps**
Cast content directly from their devices without additional hardware.
Secure Chromecast with anti-theft covers.

Turn your TVs into dynamic digital signage

Some of our commercial-grade TVs offer built-in digital signage capabilities, enabling your facility to share essential announcements, wayfinding information, or promotional content.
