### Brand Name Batteries

Since the early 90's, Supreme has partnered with some of the world's biggest names in batteries such as Duracell, Energizer and Panasonic, providing our customers across the globe with an ever-expanding, value for money product range.

Supreme also have an exclusive licensing agreement for JCB batteries, which is fast becoming a top brand in the discount sector offering all types of batteries such as dry cell, rechargeable and coin cell.

### Battery Sales Experts

Servicing over 30% of the UK market, Supreme now supplies over 50,000 retail, wholesale, independent and online outlets with more than 300 million batteries per year. This has only been possible with the support of our exclusive **agreements with brand partners**.

### Quick & Easy Distribution

Our state-of-the-art warehouse and distribution facility in Manchester allows us to supply wholesale batteries direct to customers anywhere in the world. We're able to supply batteries in retail-ready packaging, along with the Point of Sale displays you need to start generating immediate returns.

# ULTIMATE LITHIUM

Wherever you work whether it's a construction site, facility maintenance, medical centre, business office or classroom: no professional portfolio last longer, these Lithium batteries keep your electronics ready for the job. Based on standard use, they're 100% leak proof to protect your work site devices. And, if you work outdoors or in environment where the temperature may vary, these batteries operate in temperatures ranging from -40°C to 60°C.

All that lithium performance comes in a heavy-duty battery that weighs 33% less than a standard alkaline, making them ideal for portable devices.

- Holds power for up to 25 years shelf life
- Features leak-proof construction
- World's longest-lasting AA battery\* (check \*reference)
- Works in extreme temperatures from -40°C to 60°C

## eneloop

- eneloop can be used 2100 times to save money!
- On average families use around 70 batteries per year.\* By switching to eneloop, a single charger makes it possible to charge a year's worth of batteries.
- Unique technologies reduce self-discharge.
- By improving the lattice size of metal hydride alloy, eneloop keeps 70% capacity even after 10 years of storage.
- Lasts much longer than an alkaline battery.
- Longer lasting than an alkaline battery thanks to its stable voltage.
- Usable in low temperatures, such as in ski resorts.
- Keeps higher voltage than an alkaline battery, at low temperatures.
- Plastic free packaging

\* Number used annually by a family with two adults and two children.

## Alkaline Power

Panasonic's Pro Power battery is the ideal battery for personal appliances.

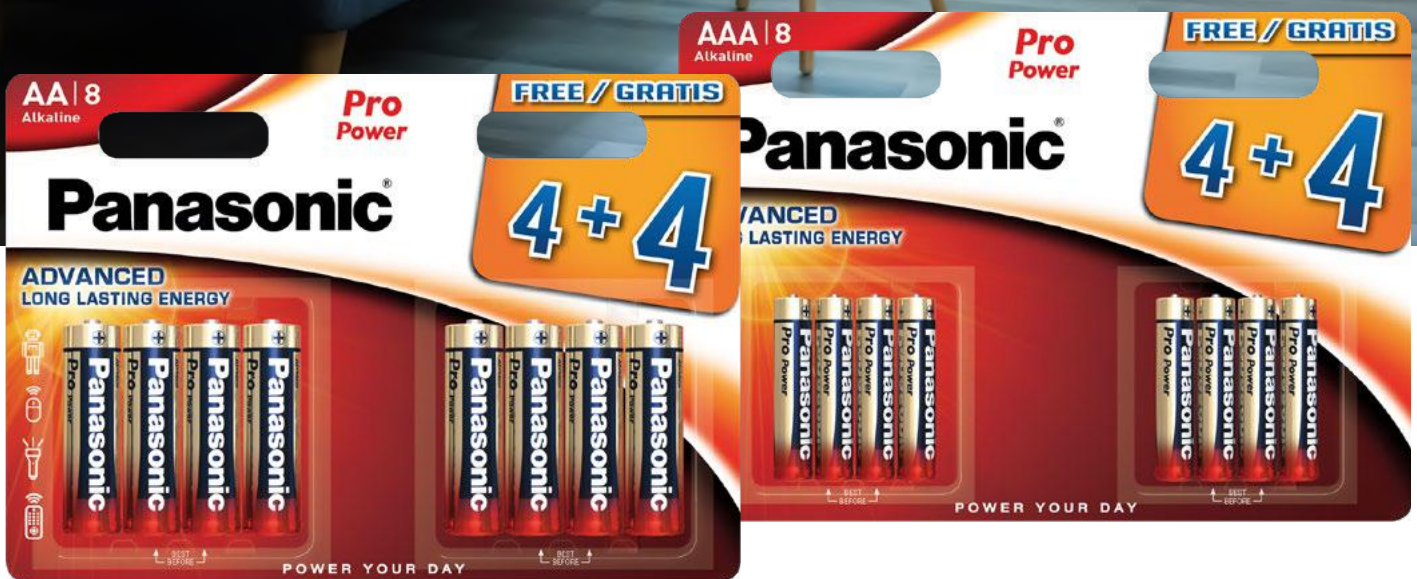

- Premium alkaline range: developed to provide reliable and dependable power, any place any time
- The green apple: Panasonic's alkaline batteries are less harmful to the ozone layer through a reduction of Volatile Organic Components (VOC) emitted during the production process
- Gold award
- Increased performance over the Panasonic xtreme alkaline (up to 10% longer lasting)
- Replaces the Panasonic xtreme alkaline

## Zinc

Panasonic's zinc carbon batteries provide an economical power source for devices requiring low drain intermittent usage. The main benefits include:

- Excellent price versus quality ratio
- Economical in terms of cost per hour for low drain appliances
- Full and comprehensive product line up
- Simple and reliable technology

Ideal for Clocks, Small Torches and Toys

# SUPER ALKALINE

JCB Super Alkaline batteries provide premium alkaline quality for high and medium drain appliances ensuring reliable and dependable power lasting up to 30% longer than standard alkaline batteries. They are the most popular choice for consumers and industrial applications where an economical and general-purpose battery is required. Working well at low temperatures, the key advantages to the JCB Super Alkaline batteries include a high energy output, reliability and a long shelf life.
