

UNIQUE

BRINGING IDEAS TO LIFE

INTRODUCTION

TAILORED TO YOUR

VISION

By definition, Unique by Level 4 aims to create a variety of bespoke merchandise, tailored to your requirements. This guide will take you through the process and create a simple journey from enquiry to the delivery of product.

At Level 4, we have a wealth of resource at our disposal including first-class creative and commercial teams who have the knowledge and attention to detail that is required to execute the ordering and origination process efficiently.

PRODUCTION

QUALITY FIRST

Our established network of factories across the Far East have worked with Level 4 and some of the biggest brands in golf for many years and appreciate our demands for quality and innovation. This is now backed up by our own QC based in mainland China who takes personal responsibility for ensuring all goods leave the production facilities to the required exacting standards.

We have a simple premise here at Level 4. Anything is possible to make your products personal. Read on to find out more..

ORDER FLOW

CREATIVE PROCESSES

01

ORDER ENQUIRY

The first step in the process is to establish your requirements. We have a wealth of experience with previous projects to draw on that can set the scene for your next order and plenty of inspiration to help you choose the right product and finish.

Your area retail consultant will be able to scope your project with you and create an order form that captures all the information related to your unique brassware project.

02

COST ESTIMATION

Once we have collated the information for your project, we estimate the costs for production and provide you with the details of this. We do not usually start the proofing and specification process until the costs have been agreed between you and your area retail consultant.

03

PROOF & SPECIFICATION

At this stage of the process we bring your ideas to life by producing artwork – or even a series of ideas if this has been agreed between you and your area retail consultant. At this stage, we may also need to carry out any logo or club crest re-drawing if the artwork you have supplied us is not production ready*.

Once we've finished our proofing and specification, we will provide you with a PDF for you to approve before going into production.

04

SUBMISSION

Providing you are happy with the proof and specification, we are then able to send your project into production. At this point we will be able to give a more accurate lead time, but typically we estimate 45 days from submission to delivery.

*Whether or not your artwork is production ready is at the discretion of the Level 4 team. We can only accept the following file formats for bespoke products: .ai, .eps, .svg and .pdf (providing it has been produced using vector drawing software).

UNIQUE

YOUR CHOICE OF...

DESIGN

Your choice of logos
and design elements

MATERIAL

Premium leathers and
fabrics of your choice

THREAD COLOUR

Wide choice of thread
