## FOOTBALL'S MOST CUSTOMIZABLE HELMET

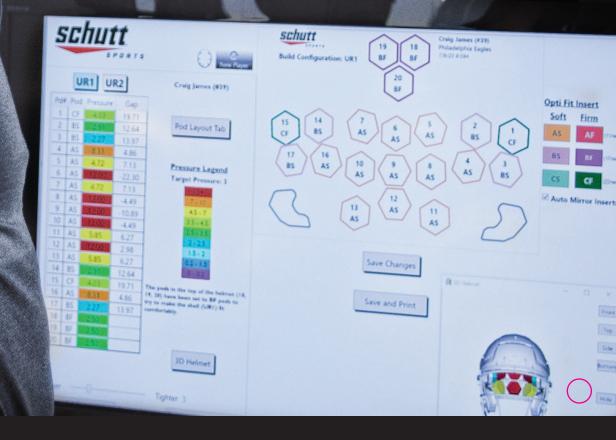

schutt

The Future of Football Helmets.

A custom fit helmet for a single player. This is the future of football helmets. Schutt has the answer in our UR1 helmet line. With multiple sizes of optimal fit inserts available and 20 individual insert locations, the UR1 boasts 3.6 quadrillions of potential fit configurations. These configurations allow an athlete to have the exact fit needed to provide both protection and comfort. The best part is the UR1 can be re-configured as many times as you want, for as many players as you want. It's football's most configurable custom helmet.

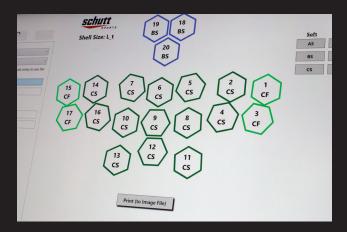

## **F7 UR1**Football's Most Custom Fit Helmet on the Market.

Virtual fitting technology that creates a unique, custom fit for every player. We capture the shape of the player's head using a full contact mapping system inside the **UR1-FC Fitting Helmet (shown below)**. The fitting helmet uses ten, full contact sensors to create a complete pressure map of the player's head. The data is then sent to a computer wirelessly where the ARE (Avatar Rendering Engine) system calculates the custom fit right on the screen.

# AVATAR RENDERING ENGINE Over 3.6 Quadrillion Different Configurations are Possible. (ARE)

F7 UR1 is RE-CONFIGURABLE. Meaning you can re-configure the helmet for the same player or for a completely new player.

Each athlete instantly gets a personal digital mapping profile read-out sent directly from the fitting helmet to a mobile device that can be used to build the helmet and saved for future reference.

Each pressure map ARE rendering varies among athletes resulting in a perfect customized fit that can be assembled very quickly by a numbering system.

#### LOW-PROFILE FACEGUARDS MADE FROM TITANIUM

All F7 LTD faceguards are designed to help reduce impact on the helmet. All F7 LTD guards are made from titanium - up to 60% lighter than traditional carbon steel guards. F7 LTD faceguards feature six attachment points. This new design accommodates all major brands of eye shields / visors.

WARNING: Keep your head up. Do not butt, ram, spear, or strike an opponent with any part of this helmet or faceguard. This is a violation of football rules and may cause you to suffer severe brain or neck injury, including paralysis or death and possible injury to your opponent. Contact in football may result in Concussion/Brain injury which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea, or confusion. If you have symptoms, immediately stop and report them to your coach, trainer, and parents. Do not return to a game or contact until all symptoms are gone and you receive medical clearance. Ignoring this warning may lead to another and more serious or fatal brain injury. NO HELMET SYSTEM CAN PROTECT YOU FROM SERIOUS BRAIN AND/OR NECK INJURIES INCLUDING PARALYSIS OR DEATH. TO AVOID THESE RISKS, DO NOT ENGAGE IN THE SPORT OF FOOTBALL. TO ACHIEVE THE MOST EFFECTIVE PERFORMANCE OF A Schutt HELMET, USE ONLY SCHUTT SPORTS REPLACEMENT COMPONENTS. WARNING: Do not attach any accessories that are not supplied by and/or approved to be worn with Schutt helmets. Attachment of accessories

not supplied by or recommended for Schutt helmets will void the warranty and could adversely affect the protective capabilities of the helmet. If you are unsure if an accessory is approved, please visit schuttsports.com. Due to differences in head shapes and sizes, adjustments may be needed to achieve proper fit and/or comfort. Please refer to the fitting instructions booklet included with each new Schutt helmet. Also available at schuttsports.com. Using jaw pads from suppliers other than Schutt Sports will void the warranty.

## <u>schutt</u>

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Lubricate the pump needle generously and insert needle as shown. Do not force the needle into the port; doing so may puncture the liner's opposite wall.

Begin with bottom inflation port on back of helmet. Perform 1-3 pumps. Helmet should be snug against player's head but not overly tight. Excess air is released with valve.

When finished, repeat for top inflation port. Proper inflation will usually require 0-2 pumps, but that may vary.

Helmet's front edge and nose bumper should be approximately 1" above the player's eyebrows.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

WARNING: Keep your head up. Do not butt, ram, spear, or strike an opponent with any part of this helmet or faceguard. This is a violation of football rules and may cause you to suffer severe brain or neck injury, including paralysis or death and possible injury to your opponent. Contact in football may result in Concussion/Brain injury which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea, or confusion. If you have symptoms, immediately stop and report them to your coach, trainer, and parents. Do not return to a game or contact until all symptoms are gone and you receive medical clearance. Ignoring this warning may lead to another and more serious or fatal brain injury. NO HELMET SYSTEM CAN PROTECT YOU FROM SERIOUS BRAIN AND/OR NECK INJURIES INCLUDING PARALYSIS OR DEATH. TO AVOID THESE RISKS, DO NOT ENGAGE IN THE SPORT OF FOOTBALL. TO ACHIEVE THE MOST EFFECTIVE PERFORMANCE OF A Schutt HELMET, USE ONLY SCHUTT SPORTS REPLACEMENT COMPONENTS. WARNING: Do not attach any accessories that are not supplied by and/or approved to be worn with Schutt helmets. Attachment of accessories

not supplied by or recommended for Schutt helmets will void the warranty and could adversely affect the protective capabilities of the helmet. If you are unsure if an accessory is approved, please visit schuttsports.com. Due to differences in head shapes and sizes, adjustments may be needed to achieve proper fit and/or comfort. Please refer to the fitting instructions booklet included with each new Schutt helmet. Also available at schuttsports.com. Using jaw pads from suppliers other than Schutt Sports will void the warranty.

This product can expose you to chemicals including Ethylerezere, which is known to the State of Ethylerezere, which is known to the State of Scalifornia to case cancer, and Tolorae, which is known to the State of California to case brith declors or other reproductive harm.

## schutt

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Lubricate the pump needle generously and insert needle as shown. Do not force the needle into the port; doing so may puncture the liner's opposite wall.

Begin with bottom inflation port on back of helmet. Perform 1-3 pumps. Helmet should be snug against player's head but not overly tight. Excess air is released with valve.

When finished, repeat for top inflation port. Proper inflation will usually require 0-2 pumps, but that may vary.

Helmet's front edge and nose bumper should be approximately 1" above the player's eyebrows.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

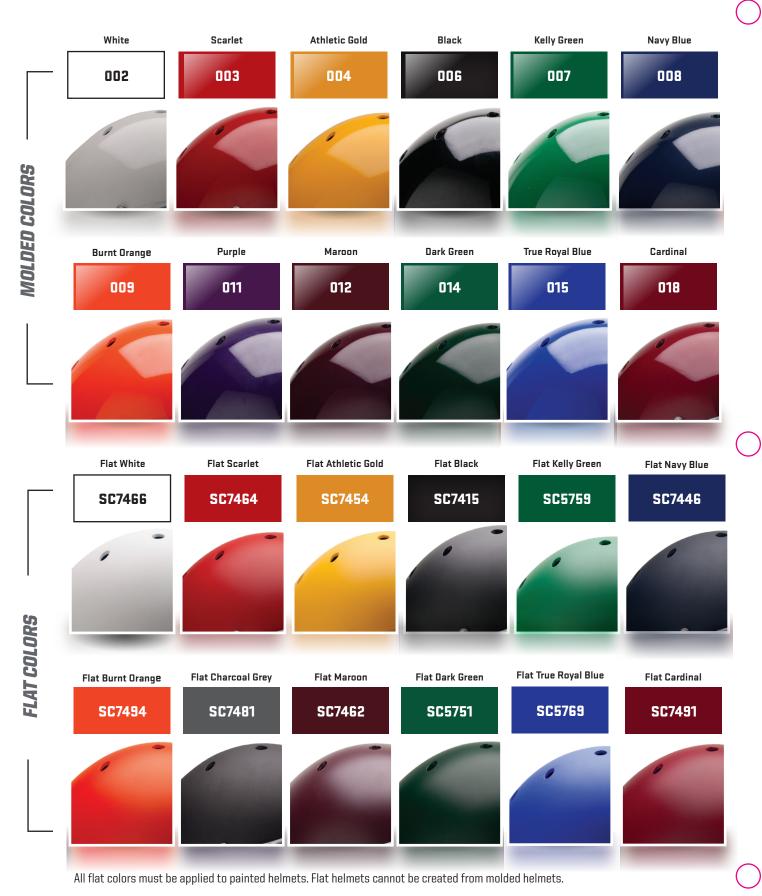

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

The Alpha Series from Pro Gear is the ultimate shoulder pad for the elite athlete. All Alpha Series pads are air management pads, feature a flat, low-profile pad design, as well as patented Energy-Loc Foam in the epaulets and shoulder areas. For additional protection and comfort, the Alphas also feature memory foam in the Performance Fit stitching areas.

Virtually anything on the Alpha Series pads can be customized for you. Not just team colors but real performance enhancements: epaulet design, additional Energy-Loc Foam redundant thickness as well as the main body cushion thickness. This is truly an elite, Custom Built shoulder pad for today's elite, Custom Built athlete!

PL Series pads

↑ WARNING:
This product can expose you to chemicals including Nickel, which is known to the State of Calfornia to cause cancer. For more information go to www.P65Warnings.ca.gov

High Octane, Pro-Level Performance, Super Fit and Breathability. Completely Customizable. The PL Series uses sophisticated air management technology, features a low-profile, flat pad design, Performance Fit stitching, optional cool mesh liners and much more. The PL Series features a wide array of custom options, from Total Custom to some models being available in Standard for easy ordering and quick turn-around.

"Total Custom" means a lot more than just team colors for us. Here's just a few of the things you can customize with our Total Custom:

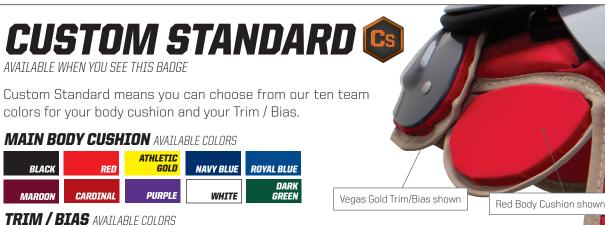

- · Many styles of epaulets and cups
- Thickness of main body cushion
- Redundant pad thickness
- Many channels and auxilliaries to choose
- · Choice of material for belts and webbing
- · Virtually unlimited number of colors for trim / bias (not limited to team colors)
- · Virtually unlimited number of colors for main body cushion (not limited to team colors)
- AND MUCH MORE!

#### **Custom Built Gear for** Custom Built Athletes.

Medium	17 - 18"
Large	18 - 19"
X-Large	19 - 20"
2X-Large	20 - 21"

#### SHOULDER PAD SCIENCE THAT DOMINATES

An Air Management pad that offers unmatched comfort, fit and targeted breathability. Air Management padding is positioned in the main hitting areas over the shoulders. The front and back of the pad are protected by heat management, perforated EVA body cushion bundled with high-density 3D molded EVA inserts. It's a combination never before seen on the field! Tactical arch designs maximize range of motion, while Performance Fit stitching brings the fit closer to your body and creates a sleek, more comfortable profile. Energy Lock redundant padding, along with TPU Cushioning maximize impact absorption and performance.

## schutt

# HOW TO FIT YOUR SHOULDER PADS

Identify the player's position and choose the appropriate Schutt shoulder pad model.

Measure the width of the shoulder span, from the right to left tips of the humerus, using a cloth measuring tape.

Using the cloth measuring tape, wrap around the player's torso to measure the player's chest circumference.

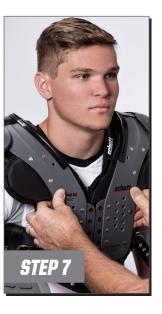

Determine the proper size of shoulder pad (from the measurements) and place them onto the player's shoulders.

Buckle the belts then connect any straps that the shoulder pad uses. Ensure a good, tight fit in the chest and back areas.

Ensure the shoulder pads are providing proper front coverage by confirming the pads cover the sternum, as well as the front upper shoulders.

Check the collar and neck area to ensure there is no pinching and the fit is not too tight.

For proper coverage in the back, confirm the pads are covering the scapula and rhomboid areas. The player should have maximum range of arm motion.

MSRP: \$1200

- · Tapered sleeve design
- · Moisture wicking polyester fabric with mesh vents

# TARGET TRAINING SYSTEMS

MSRP: \$275<sup>00</sup>

The Dead-On Target Training System trains your mind as well as your body. The patented design of Dead-On Sports Precision Targets gives a visual imprint and extends beyond your regular training routines by using mind mapping to increase accuracy and consistency. Accuracy is built through increased concentration and focus, and Dead-On targets encourage these.

#### ACCURACY-BUILDING TARGETS

Improves accuracy and consistency by giving you a precise point of impact while blocking out visual noise for maximum concentration.

#### **VERSATILE DESIGNS**

Makes it ideal for long snappers and QBs, setters as well as hitters. The frame can be outfitted with a Strike Zone for softball or baseball pitching and fielding practice.

#### **DURABLE CONSTRUCTION**

The frame is built from 16-gauge steel tubes and the target sheets are created from ultra-durable 18-oz vinyl. You can expect years of use from your targets.

ITEM #	DESCRIPTION
12829308	Complete football set
	(includes DO-18 target)
12829305	DO-18 Target
12829304	DO-15 Target
