**DUAL POSITION SEAT
& ARMPADS**

Item No: SU85313

UPC: 7-16943-85313-8

MSRP: \$99.99

SEAT AREA | Bottom: 18" W x 12" L x 2.5" D
Back: 12" W x 20" H x 2" D

- The new Dual Position Seat features additional slide bar buckles on the straps connected to the bottom pad, allowing you to better fine-tune how high or low you sit in your climber. This bundle also comes with three matching replacement armpads.
- For bow hunting, the Dual Position Seat can be adjusted to the high, alternative position, making it level with your climber's seat frame. This offers greater clearance from the front bar, giving you more room for a better draw and shot.
- When rifle hunting, you can opt for a more standard seat setup. Sitting lower can allow you to use the front bar as a built-in gun rest.
- Compatible with the Viper® SD, Mini Viper® SD, Goliath® SD, Summit Titan® SD, Viper PRO SD, Dual Threat PRO SD and Viper® Steel
- Comes in Mossy Oak® Original Bottomland® camo

LEGACY SERIES MINERALS

Promote antler growth by giving deer crucial bone-building minerals like calcium, phosphorus, and important trace minerals like copper, zinc, selenium, and manganese that are often missing in the diets of whitetail deer. Chelated minerals help increase absorption by up to 70%, while vitamins, minerals, probiotics, and essential oils help deer boost their own immune systems contributing to the health of the herd. Bonus attractants make these minerals irresistible!

TECHNOLOGY THAT GIVES DEER WHAT NATURE DOESN'T PROVIDE

Antlers - Chelated minerals designed to increase antler size and quality. Less minerals are pulled from stored minerals in the body.

Rumen/Stomach - Probiotics designed to improve absorption of key nutrients and keep a stable population of bacteria in the rumen. Also designed to work with the natural ingredients in the environment and fight against harmful bacteria and viruses.

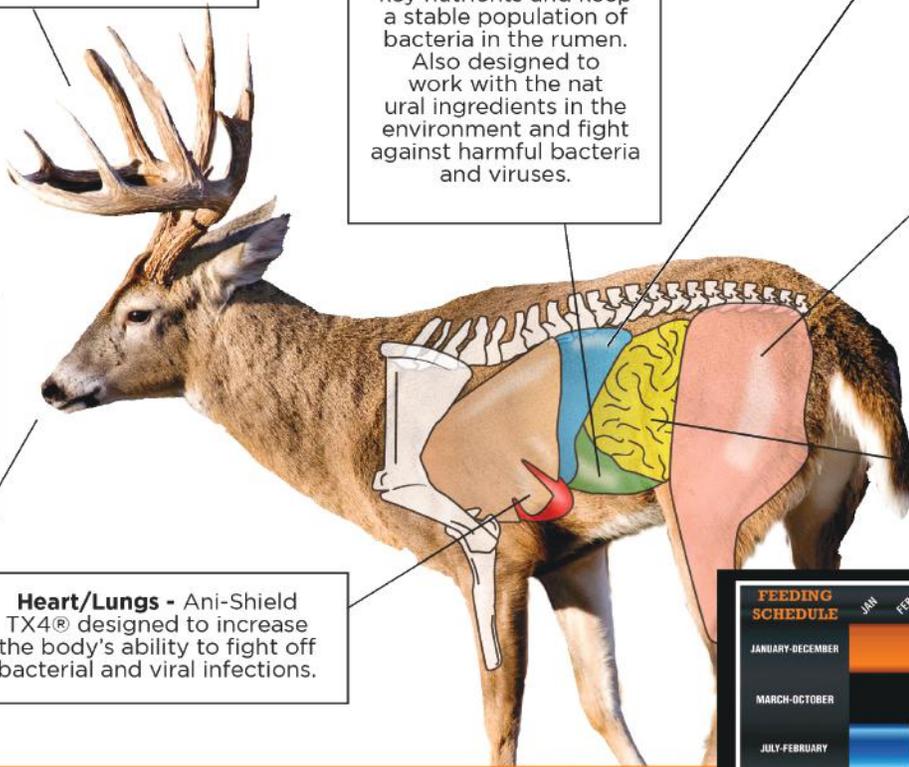

Liver - Chelated minerals designed to increase the amount of mineral available to the animal for antler growth, immune response, and body growth.

Muscle/Bone - Balanced protein and energy content of Ani-Supplement Gold® designed to provide essential building blocks to increase antler growth and body mass which can help fight off disease and predators.

Taste/Smell - Attractants and flavor designed to increase feed intake due to olfactory stimulation with superior palatability.

Heart/Lungs - Ani-Shield TX4® designed to increase the body's ability to fight off bacterial and viral infections.

Intestinal Health - Probiotics designed to increase intestinal efficiency to utilize feed stuffs, allowing the deer to put energy into antler growth, immune function, and body mass.

This perennial blend offers the killer combination of highly digestible clovers and a large leaf forage chicory, giving deer extremely high protein levels to promote herd health and increase antler growth. Two unique advantages of this blend include clover's ability to fixate nitrogen, helping to feed the chicory, increasing overall forage tonnage and chicory's sesquiterpene lactones, working to lower internal parasite burdens in your deer herd. Lasting 3-5 years in the field, Clover plus Chicory goes the extra mile, giving your deer an attractive nutrition source all season long, making it a great choice for food plots of all sizes!

Give deer the beans they crave! Plant CRUSH® Seeds of Science® Pro Bean Blend this spring and grow your next killer food plot. Beans are high in protein and offer crucial health and antler-boosting nutrients. Not only are they healthy, but beans are also extremely attractive to deer. Lee and Tiffany know just how much deer love soybeans, but they also know that deer can devour a bean plot in a very short time. This soybean/legume mix withstands heavy grazing pressure and produces large amounts of forage and grain including shatter-resistant varieties, giving your deer herd a continuous food source from spring through the hunting season!

GRASSES AND WEEDS CAN CROWD OUT YOUR CAREFULLY PLANTED FOOD PLOTS BY COMPETING WITH THEM FOR VALUABLE SPACE, NUTRIENTS AND MOISTURE. ARREST MAX IS A HERBICIDE THAT WILL CONTROL MOST GRASSES, WITHOUT HARMING CLOVER, ALFALFA, CHICORY OR ANY WHITETAIL INSTITUTE PERENNIAL PRODUCT. ARREST MAX IS EASILY APPLIED BY HAND, 4-WHEELER OR TRACTOR SPRAYER AND HAS PROVEN EFFECTIVE IN EXTENSIVE FIELD TESTS. SLAY IS FIELD-TESTED AND PROVEN EFFECTIVE FOR CONTROLLING BROADLEAF WEEDS IN CLOVER OR ALFALFA FIELDS. SLAY CAN BE EASILY APPLIED WITH A 4-WHEELER OR TRACTOR SPRAYER. USING THE RIGHT HERBICIDE CAN ELIMINATE THE NEED FOR REPLANTING AS OFTEN AND ENSURE THAT YOUR FOOD PLOTS HAVE MAXIMUM LONGEVITY.
