A photograph of a modern building with a brick facade and a blue sky. The building has a large window and a sign that reads "FAB TECH INDIA". The image is overlaid with a semi-transparent white banner containing the text "WHY FURNISYS?".

FAB TECH INDIA

WHY FURNISYS ?

At Furnisys, we aim to improve the quality of workspaces which in turn exponentially boosts the efficiency and bottom line of the company. Our systems help you enhance your workspaces dynamics through:

Lean Thinking

Improve productivity by combining lean initiatives with value stream mapping and 5S with our solution

The System Concept

All products can be freely integrated & combined

Custom Play

For customers with specific needs

Maximum Flexibility

With choice of colours, configuration options & more

Buying Guide

Selection guides, Product Comparisons, Case Studies, Reference Work Gallery

Ergonomics

Product designs helps to minimize injuries & help maximize productivity

Comprehensive Range

Multiple product options for your operational needs

Expert Planning

with 3D modeling visualization software

Wide Range of Service

Such as Installation, After-sales support etc.

Made in INDIA

Committed to manufacturing highest quality of metal based industrial furniture in INDIA

Our Value chain

Engineering Design

Value Addition, R&D

Project Management

Individualized attention, Time-Sensitive

Product Management

Value Delivery, Consistency

Sales & Marketing

Solutions, Engagement

Manufacturing Infrastructure:

Furnisys is supported by multiple self-owned factories located in over 25,000 sq.ft. in Navi Mumbai. Manufacturing all products in-house provides us with the opportunity to control 100% of the product quality and ability to facilitate projects of all sizes while maintaining competitive pricing and outstanding lead times. All of the factories feature the latest machinery and technology available to use.

CASE STUDY

Kritsnam Technologies

Hyderabad

Introduction

Founded in 2015 in Kanpur, Kritsnam Technologies creates AI-backed solutions for sustainable water resource management. Their product, Dhaara, is a revolutionary water budgeting application for businesses.

The Story

Their procurement head connected with Furnisys via an online marketplace seeking workstations for assembly and testing. A meeting with their Opex specialist covered requirements such as operation type, weight capacity, applications, number of users, accessories, and ESD safety. Based on these discussions, Furnisys proposed an ESD-safe workstation.

The Challenge

Kritsnam faced issues with fabricated tables that lacked configurability, had poor powder coating, and underwhelming design.

Why Kritsnam Chose Furnisys

Furnisys impressed Kritsnam with their versatile, configurable offerings and pre-configured series, which facilitated swift decision-making. The products' future scalability, seamless accessory integration, and easy assembly helped avoid additional installation expenses.

How Furnisys Responded

After discussions and resource exchange, Furnisys delivered Link Workstations with ESD provisions.

The Results

The workstation came with user-friendly assembly instructions, enabling effortless setup. The integrated ESD protection created a secure testing environment, enhancing operational safety and efficiency.
