## Voxie Tactics

**Voxie Tactics** is an online Free To Play Tactical Role Playing Game (RPG) with dynamic gameplay and allows true player ownership in the form of cryptocurrency and in-game NFT items. The game currently has 2 modes of PvP gameplay:

- **Draft Arena** - players can play using the free Starter Voxies from a selection of certain classes and earn VOXEL tokens or NFT drop rewards if they win a battle
- **Extreme Arena** - players can play with the Voxies NFT that can be equipped with the Voxie Tactics Items NFT and win a battle to earn rewards. The Voxies NFT increases the VOXEL tokens earned and NFT drop chance depending on their rarity and other factors compared to Draft Arena, but Extreme has increased complexity due to the wide range of team compositions that can be made.

The game is currently only playable in Windows. AlwaysGeeky Games is aiming to release the game's **Unity Version** in **Q1 2024** that promises vast improvements to the legacy version of the game and will pave the way to the game becoming available in Mac and mobile devices.

## Voxies and Voxie Tactics Items NFT Collections

- **Voxies NFT** - Voxies are the main and playable characters of Voxie Tactics. The 10,000 Voxies are very diverse, with unique appearances, 21 classes and 9 races. Each Voxie also has a Rarity, ranging from Common to Godly, which affects the VOXEL tokens earned and NFT drop chance after winning a battle in the Extreme Arena. The Voxies NFT collection is an ERC-721 token in the Polygon network which started as one of the early Ethereum NFT projects in 2021 that employed bonding curves during minting and later migrated into Polygon.
- **Voxie Tactics Items NFT** - The item NFTs can be equipped to Voxies to improve their potential in battle and come in 14 weapon types, armors for light, medium and heavy classes, offhand magical artifacts and shields, accessories, and even pets! There are also items like crystals and essences that can be used in the Arcanist's Forge to create more powerful items. The item NFTs are also in the Polygon network.

Both collections can be purchased in the [Voxies Marketplace](#) or in [opensea.io](#) ([Voxies](#), [Items](#)).

- Bone Fragments were converted in the Marketplace Services (now Tavern) into three event-exclusive boxes: **Lil Flame Chest**, **Smoldering Magma Chest**, and **Roaring Inferno Chest**. The exclusive rewards from opening the boxes in the Arcanist's Forge were the **Bone Dragon pet** with the reraise pet skill and the **epic Bone Dragon heavy armor** items. Bone Fragments could also be earned from using the Arcanist's Forge and Services, buying and selling in the Marketplace, and buying merchandise from the Voxies Merch Shop.
- There were 3 leaderboards during the event: **Total Damage**, **Top Damage**, and **Total Fragments**. The Rank 1 rewards for the leaderboards were a **Godly Blueprint**, the special **Skeletal Lord Wings** accessory which gives +2 movement stat and float status, and a Bone Dragon pet, with the Total Damage Rank 1 reward as the special rarity, undead skeleton **Voxie #8** instead of a Godly Blueprint. ## Voxie Tactics Events in 2023 (Continued)

### Godly Blueprint Reveal (November 29<sup>th</sup> – December 1<sup>st</sup>)

- The event finally let the **28 Godly Blueprints** be opened for only 1 VOXEL in the Arcanist's Forge. The Blueprints first appeared as a won battle reward on July 27, 2022, and have been rewarded since then from the Smelting recipes, the Roaring Inferno Chest of Dragonfest, and the Top 1 prize of the three Dragonfest leaderboards until the 28<sup>th</sup> Blueprint was minted on June 23, 2023.
- Opening the Godly Blueprints yielded the **Frost Forged Godly** items, which has one item for each weapon and armor type (except accessory) and all have the Ice element. Befitting as Godly items, each weapon gives high stats and damage for the classes that can use it, and each piece of armor per type gives equal amounts of Strength, Dexterity and Intelligence stats and even gives 2 Movement stat.
- While the event was scheduled to run until January 16, 2024, the last Godly Blueprint was opened on December 1, 2023.

### Search for the Snow Crystal (December 18<sup>th</sup> – until all 21 Snow Crystals are forged)

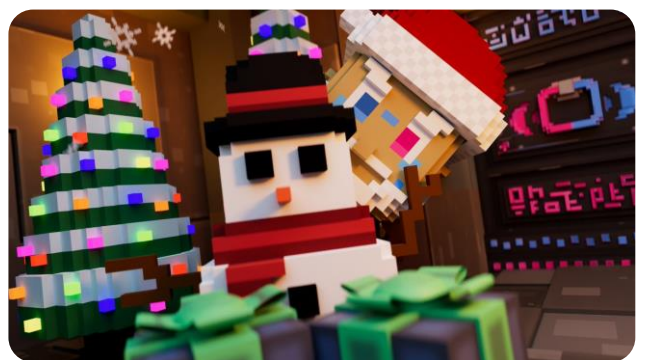

- **Search for the Snow Crystal** is a Voxies Marketplace exclusive event that has started on December 18<sup>th</sup> and will end once all of the 21 Snow Crystal necklace accessories have been forged.
- The event features **The Snow Crystal** accessory, and the search for it involves using the new forge recipes to forge the new **3 Gem Necklaces (Gem of Power, Gem of Purity and Gem of Harmony)**, then forging these 3 together and 1000 VOXEL into one of the 21 Snow Crystals. The special rarity Snow Crystal boasts stat increases of +10 HP/MP, +10 Strength/Dexterity/Intelligence, +6 Luck, and is currently the only item to have resistance to all 9 elements (40 points resistance to all elements = 20% damage reduction to elemental damage).
- There will only be 21 Snow Crystals: 20 will come from forging the 3 gem necklaces, and 1 Snow Crystal will be the prize for the random winner of the event giveaway on gleam.io until January 31, 2024, in which participants need to enter the **secret code** to enter the giveaway.

## The Voxies Ecosystem in 2023

### Voxies Marketplace

- **Voxies Marketplace v2** was released on August 1<sup>st</sup> as a huge improvement over the old version, carrying over the essential marketplace functions but with a fresh redesign: enhanced user interface (UI) and user experience (UX), and groundbreaking features to elevate the Voxie Tactics gaming experience to new heights. The new Voxies Marketplace was designed to be the foundation of upcoming and important marketplace features in the future. The update had significant improvements such as a better filter system for Voxies and items, notifications, and support for more Web3 wallets.
- **VOXEL Claiming in Marketplace** was released on October 27<sup>th</sup> as an alternative to in-game VOXEL claiming. VOXEL earned in-game can be claimed through the Profile page in the Marketplace. Both methods of claiming still follow the twice a week claiming deadline and distribution schedule.
- **Templates** for rental and sale listings were released on December 21<sup>st</sup> which let players save listing settings like upfront price and duration for multiple NFTs bundled in one listing in a few steps. This feature saves time for players by having the NFTs and settings recorded in a template which can be used to quickly set up a listing when renewing rentals or edit the NFTs included to change team composition and gear.

### The Arcanist's Forge

The Arcanist was incredibly busy in 2023 releasing more recipes and rewards for the players:

- **Infusion** was released on April 1<sup>st</sup> which allows players to infuse a Physical element base item with a crystal and elemental essences to make a higher rarity variant of the base item with the element of the essences and higher stats. Players can also re-infuse certain items to change their element while retaining the rarity.

## The Voxies Ecosystem in 2023 (Continued)

### The Arcanist's Forge (Continued)

- **Dragonfest recipes** were added on April 3<sup>rd</sup> to let players open the exclusive chests of Dragonfest that were made from Bone Fragments: Lil Flame Chest, Smoldering Magma Chest, and Roaring Inferno Chest.

- The rewards of the **smelting recipes** were **updated** on November 24<sup>th</sup>, removing the movement boots from the rewards and introducing Translucent Necklace and Elemental Trinkets, infusable accessories with high elemental resistance, 3 new legendary weapon sets which can be dual-wielded, and the special Pendant of Pursuit accessory which gives 2 movement stat. The required legendary items for the Legendary Smelting recipe was also reduced from 3 to 2.

## About The Author

**Moonscaper** here! I'm a Voxies and Voxel Tactics Items NFT holder from the Philippines and I've been a part of the Voxies community since June 2021. The Voxies Monthly News initially started in October 2021 as the Voxies Weekly News which I posted independently on Twitter (now X). It then restarted as a monthly newsletter in November 2022 in partnership with AlwaysGeeky Games. And now this issue is my first ever attempt to make a yearly news, covering all about Voxies and Voxel Tactics in 2023. Just by looking at the timeline on pages 4 to 5, you can see that a lot happened with the project. All the more exciting with the Unity version launching this Q1 2024!
