Expand GrandFabric

The Expand GrandFabric is our most popular portable backwall available in many different widths and heights. Choose between a straight or curved backwall in different sizes. It is easy to connect and combine as you like. All of these backwalls can be connected to one another with our different feet and connector options. Use the walls as stand-alone pieces or combine multiple backwall units to create a variety of different unique configurations.

- Quick set up - no tools needed
- Choose single or double-sided print
- Reusable - just update fabric print
- Straight or Curved backwalls
- Custom sizes available
- Connect several walls
- Add additional storage by creating a lockable closet area

Easy! No tools needed for set up

Hello!

Why Expand GrandFabric vs. traditional SEG and Hard Panels?

- Less Expensive
- Easier to set up.
- No complicated pieces to assemble.
- Minimum labor required.
- Lighter Weight
- Less drayage

Square Frame

- Professional SEG look
- Professional grade that lasts years and has limited lifetime warranty
- Can be used in large-scale tradeshow booths, easily connects with other frames
- Supports monitors, shelves, lights and other accessories
- Toolless

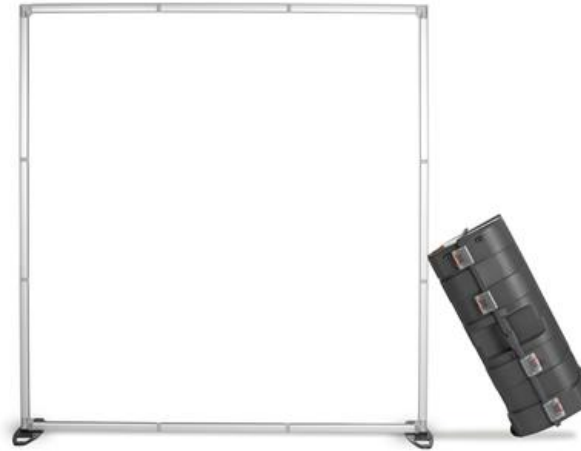

VS

Round Frame

- Poles are more likely to break/crack/dent
- Many singular frames are intended as free-standing frames without an option for additional accessories
- Not always toolless

Straight

A 3D rendered scene of trade show booth components. In the foreground, there is a curved, light gray counter. Behind it, several rectangular pillars of varying heights are arranged. Some pillars have square cutouts. The background shows more of these pillars and a tall, thin vertical display panel on the right. The entire scene is rendered in a clean, minimalist style with soft shadows on a light gray floor.
