METAL & WOOD SLAT CEILINGS

- Specific face widths and custom finishes allow air devices to blend into design features
- Four-point suspension systems to match any ceiling contour
- Mock-up capability to physically model and test performance for any specialized design or application

SUSPENDED CEILINGS

- Standard options fit into any ceiling suspension system
- Uniquely designed frames integrate directly into any TechZone configuration
- Many products are designed to be flush, maintaining the continuity of the ceiling plane
- Superior performance ensures a comfortable, quiet indoor environment

DRYWALL CEILINGS

- Continuous ceiling and wall curves and miters available
- Frame options for invisible flanges or concealed mounting hardware
- Adjustable deflection maximizes occupant comfort
