Warranty

Structure	25-15 years
Steel	5-10 years
Paint	2 years
Plastic	5-10 years
Rubber	1-3 years
Moving parts	2 years
Detailed information in the warranty document	

Material specification

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

The bumpers of the devices are made of durable rubber material.

The sliding weight rail is made of high-quality stainless steel, which guarantees the product's long-term durability and resistance to weathering.

The device is fitted with composite bearings that are weather-resistant. The bearing does not require regular maintenance.

The device is equipped with two 40 kg weights, which allow you to perform workouts of varying intensity.
