What is an **NFT**

One common misconception about NFT's is that the image one sees...the image of artwork, or music or whatever asset owned by the holder...is an NFT. In reality, an NFT, or non-fungible token, is a line of code which is powered by what is called a smart contract. The smart contract is a digital contract, programmed to understand pre-established conditions and to automatically execute those conditions. In other words, it knows what to do and does it...without any involvement from the owner or any other third party.

- All of the unique information regarding the NFT, such as ownership, transferability, properties and certain rules and conditions are coded into the smart contract and securely stored on the blockchain. For example, if you mint an image of your puppy wearing a tuxedo and driving an Aston Martin...anyone can simply right-click the mouse and copy the image to use as their own, even though they don't really own it. You are the owner because you own the code for that image...and your ownership can be verified through your smart contract. So...while coding and smart contracts and blockchains might all sound complicated, they are really quite simple to understand

Why buy an ArchieNeko NFT

Many non-utility NFTs have no real value other than the value a buyer or community believes it to have, based upon the rarity of its collectability or current hype surrounding the subject.
This is where ArchieNeko vastly differs...*in a very good way...* from other NFT projects currently available.

Passive Income

Our NFTs are created different. We have taken our Archie's original picture and have an artist draw out images that resembles his behavior. These NFTs are the Citizens of our ArchieMeta. They will perform different duties. For example, Mayor, Police Chief, Casino Manager, to name a few. And they will get a percentage of Net Revenue each one of those projects they are assigned to. We will then create a threshold (for now \$500) and pay out to NFT owners in USDC via smart contract.

UBET Rewards

We are introducing a betting program for your unique NFTs with a chance for winning up to 1000x of your bet as well as 5% of the bet as a bonus to the NFT owner. Details to follow.

Other benefits

Discounted entry to parts of ArchieMeta and FREE tokens to play in Games. Details to follow

**Minted & Ready
to Buy**

You never have to guess which NFT you will receive. All our ArchieNekoNFT collections are minted and please visit www.archiNEKO.NFT.io and DYOR before you buy at opensea.

ArchieChain (ARC) is a decentralized public blockchain that has high performance and EVM compatibilities. The purpose of the blockchain is to solve problems such as low performance and high transactions costs with a faster, more convenient, and lower-cost experience.

ArchieScan is a block explorer for ARC ArchieScan is a service on which any user can view **ARC** network statistics. The main task of the platform is to display information about the latest blocks and transactions of the network.

ArchieSwap is a cryptocurrency exchange which uses a decentralized network protocol

ArcCoin (\$ARC) will be the native coin of ARC Network. The entirety of the **\$ARC** coins supply will be pre-mined upon the release of the main net. **\$ARC** is used for fueling transactions, smart contracts, and dApps.

Users can lock their **ArcCoin(\$ARC)** on the cross-chain protocol to receive **\$WARC** on the **ArchieChain** blockchain. Users can use **\$WARC** to deploy and interact with smart contracts, pay transaction fees, and participate in the governance of **ArchieChain**. Users can destroy **\$WARC** and reclaim their native **ArcCoin(\$ARC)**.

ARCHIE ECO SYSTEM

ISLAND OF ARCHIE

Island of Archie is a 13000 acres (20 Sq Miles) island system to represent our ArchieMeta. From the tranquil river estuary, breath-taking mountains and sun-drenched beaches, to the modern and futuristic architecture of its city structures.

archieMeta[™]

Archie Metaverse (Island of Archie), a photorealistic metaverse island built on its own unique Archie blockchain, a living experience that is designed to exist continuously and in real time, just as it does in the physical world.

archieAggregator[™]

Multi Chain DEFI Exchange that enables you to swap 10000+ assets between 18 Blockchains.

BANK OF ARCHIE[™]

AN ARCHIE META EXCHANGE

Bank of Archie is used to convert the **\$ARC (Arccoin)** to whatever the cash or currency that you need to play the actual game with in the ArchieMeta.

archiENEKONFT[™]

WITH PASSIVE INCOME TO HOLDERS

Many non-utility NFTs have no real value other than the value a buyer or community believes it to have, based upon the rarity of its collectability or current hype surrounding the subject. ArchienekoNFT is connected to ArchieMeta and these NFTs are the workers or managers who run these projects and their earnings are paid to the NFT owners as a Passive Income via smart contract.

archieMetaNFT[™]

ArchieMeta NFTs are created with one thing in mind. Affordability with added benefits to Archie holders. ArchieMeta NFTs are based of 3D Avatar photo realistic models from different parts of the world.

archieplace[™]

NFT MARKET PLACE

Fully functional marketplace for NFT to launch with our low gas fee \$ARC.

ARCHIE WALLET[™]

3FA FOR SAFETY AND SECURITY

Security at the topmost priority. 3FA wallet with the ability to create up to 100 sub-wallets.

ARCHIEMETA INTRODUCTION

archieMeta™

Welcome to Archie Metaverse (Island of Archie), a photorealistic metaverse island built on its own unique Archie blockchain; a living experience that is designed to exist continuously and in real time, just as it does in the physical world.

Planning and development of this nearly 13000 acre(20 square miles) scenic island Metaverse is already underway. From the tranquil river estuary, breath-taking mountains and sun-drenched beaches, to the modern and futuristic architecture of its city structures, Archie Metaverse is designed to be a beautiful, harmonious blend of both landscape and cityscape.

ARCHIE TM
ALLIANCE

Most virtual worlds are being built on one of the existing Metaverse platforms...which means they are basically “renting” the space where their world will reside. ArchieNeko, on the other hand, will launch its own platform, the ArchieMeta where users will be able to interact and exist digitally with each other. Why pay to rent space when you can build your own and reinvest the savings back into the project? This type of forward thinking is a prime example of how ArchieNeko is always working on ways to better benefit its investors.

At the center of ArchieMeta is Archie City. Archie City will not only provide a fully functioning economy where individuals and business can buy, sell and trade virtual assets and services using ArchieNeko NFTs, it will also collect revenue from various businesses and governmental departments within its Metaverse.

With one public and four private beaches, there is sure to be enough sparkling sand for everyone. Whether it's enjoying beach sports, sunbathing or just reading a book under a beach umbrella, a day at the beach is, well, a day at the beach at Archie Metaverse.

THERE WILL BE 20 UNIQUE GAME ARCADES THROUGH OUT THE METAVERSE MORE DETAILS
TBA

SECTION 4

GAME CENTERSS

Games for Adults &
Kids

If you just want to lounge and play some games by yourself or with your friends, let ArchieGame be your playing ground. They'll be great games for everyone's enjoyment!

There will be a total of 20 Game Arcade Centers and more information to follow

GAME ROOM 1-20. TOTAL NFTS 2085

How do ArchieNekoNFT Generate Passive Income

At the center of ArchieMeta is Island of Archie. Island of Archie will not only provide a fully functioning economy where individuals and business can buy, sell and trade virtual assets and services using ArchieNeko NFTs, it will also collect revenue from various businesses and governmental departments within its Metaverse.

Just like in a real-world city, Archie City will need employees to oversee the daily operations of its businesses, services, and government in order to keep things running smoothly. Think of each unique ArchieNeko NFT as an employee...who has a job in the ArchieNeko Metaverse...and who receives an actual salary for performing this job. The amount of the employee's salary is based on the occupation held, and is paid from the revenue collected from various enterprises throughout ArchieNeko Metaverse. *Because you own the designated NFT, that salary is actually paid, in USDC, to you!*

HOW ARE ARCHIENEKO NFT PAID

Each NFT that is listed is connected to ArchieMeta with Passive Income. Based on the Factual Data and Actual Income, we will set threshold to distribute passive income through a smart contract

Payments to the wallet owned the NFT will be made in USDC

FAQ

- ❑ How do I find out use case of the NFT, Open Sea does not show the description or use case?
 - *Please refer to the pdf attached in the website and/or check the pinned message on our Telegram Chat https://t.me/archieneko_universal*
- ❑ Where do I get the most updated information about the project?
 - Please follow our social media accounts listed in this website

Please make sure the link is correct. There are so many fake accounts pops up every day.

- ❑ Where do we buy Archieneko NFT?
 - *All available NFTS are listed on OpenSea*
 - ✓ Archieneko Collection. <https://opensea.io/collection/archienekonft>
 - ✓ Hachi Collection <https://opensea.io/collection/hachinfnt>

FAQ

- ❑ What's the reason for suggesting one (1) NFT per Wallet?
 - We are in a new block chain and trying to do something no one ever tried to do in the past. It is for our easiness of fixing any errors incase, one of your NFTs doesn't get paid right through our Smart Contract system. Not only that, it will be easy for you to track the earnings every time.

- ❑ What happens when I sell an NFT of mine to another person?
 - The sale gets recorded just like when you bought the original NFT and it will have a new wallet address that will get paid. The only issue here is, if the payment is not made because of the threshold situation, you may lose part of the current NFT payment

FAQ

- ❑ Can you stake your Archieneko NFTs?
 - We do not offer staking facility for our NFTs instead, we have the passive income attached to it

- ❑ How many NFTs of each collection are there?
 - Archie Collection has 15000 minted of which 9352 are listed and the rest will be used on new projects or in eCommerce section
 - Hachi Collection has a total of 1000 minted and 350 will be used in P2E and the rest will be in the new phases of ArchieMeta

- ❑ Will it be ok to transfer Nft to cold wallet and still I will be getting passive income?
 - Absolutely. Any measures that you take to protect your investment is welcomed at Archie and will work along with you.

FAQ

- ❑ When transferring NFTs to someone to a new wallet, will that person be able to get the passive income ?
 - Absolutely, transfer is just like another sale and new wallet will be entered into our system

- ❑ Difference between Hachi and ArchieNekoNFT collection and will there be new collection?
 - Archie Collection is the main collection of our NFT Collections. Hachi collection was introduced to work in Archie Aggregator part of the ArchieMeta exclusively
 - When we introduce our real estate side, there will be multiple new collections and information will be posted here in this website and all our social media.

FAQ

- ❑ How will I know if my NFT is getting paid the right amount?
 - All projects in ArchieMeta will be on smart contract and your NFTs will be connected via the wallet holding the NFT to the payout. It will be recorded on ArchieScan for transparency and safety of our holders
- ❑ What is the guarantee that I will get paid as the passive income shown in your list?
 - No one can guarantee anything. But, we have taken every step to ensure that those numbers are achievable. Several online studies were taken into consideration to come up with the factual data that we are using.
- ❑ Will you be adding more NFTs later?
 - That's a question requires a long explanation. We will not add any more NFTs to the existing projects . For example, Proj No. 2.1.A. Everest Casino only will have 253 NFTs no matter how big the revenue grows. Your NFTs are based on a percentage of the revenue for your protection.
 - Second part of the answer will be, we will be adding more projects alter on to our ArchieMeta and that will have adequate number of NFTs to be added. But, it will not ever affect your percentage or passive income in anyways.

"THANK YOU"
