Rhodium White Premium | Extra \$595

The 3-row Mazda CX-90 was made with your comfort in mind, helping up to eight passengers enjoy every moment on the road together.

AVAILABLE PANORAMIC MOONROOF

Bring natural light and open ambience to your daily drive. The available panoramic moonroof makes it easier to connect to the world around you on every journey, big and small.

INTERIOR DETAILS

The luxurious interior cabin is crafted with intention to create a quiet, harmonious space for the driver and passengers. Drive in comfort with premium materials, an available Bose® sound system, and multiple power outlets.

3-Row Configuration

The Mazda CX-90 is the largest SUV in the Mazda Fleet with flexible seating options to fit any family. Both the second-row bench seat and optional dual captain's chairs make it easy to enter and exit the vehicle from the third row.⁵

Expansive Cargo Space

Give everyone space—and everything a place. The Mazda CX-90 offers up to 14.9 cu ft of initial cargo space, or expand the area by folding the 2nd- and 3rd-row seatbacks.⁶

Rear Power Liftgate

Take on any large cargo with ease when you use our available hands-free Rear Power Liftgate.⁷

Smart Brake Support—Front Crossing

When approaching an intersection at low speeds, this available feature can activate automatic emergency braking if a potential collision is predicted with vehicles crossing from either side. ¹¹

Smart Brake Support and Turn-Across Traffic

When making a left turn at an intersection across oncoming traffic, this available feature can alert the driver of an oncoming vehicle in the opposing lane and activate automatic emergency braking if a potential collision is predicted. ¹²

Road Keep Assist

If your vehicle begins to depart from the road, this available feature can provide alerts and momentary steering assistance to help avoid roadway departures above about 40 mph. ¹³

360° VIEW MONITOR

The available 360° View Monitor with See-through View and Trailer Hitch View gives you an enhanced view of the area directly ahead of and beside your vehicle that would normally be obstructed, visible on the center display.

CONVENIENTLY PLACED POWER OUTLETS

Make sure every passenger, even those seated in the third row, can stay fully charged with access to a front 12-volt accessory outlet and USB-C charging outlets in the 2nd and 3rd row (available on select models).

New CX-90 3.3 Turbo S Premium Sport

The CX-90 3.3 Turbo S Premium Sport offers up to 340-hp e-SKYACTIV®-G 3.3L Turbo Inline 6 engine when using the recommended premium fuel. That means you won't have to sacrifice the powerful driving dynamics you want for the spacious, 2nd-row bench seating your family needs.

Flexible Mi-Drive Technology

With Mi-Drive, drivers can switch between four distinct modes designed to optimize power delivery and responsiveness: Normal, Sport, Off-road and available Towing.

Kinematic Posture Control

Kinematic Posture Control (KPC) helps minimize vehicle body roll while enhancing cornering. The result is improved steering feel without sacrificing comfort.
