

Rowan

Specification

BISLEY

Our Rowan family was developed with modern Scandi elegance in mind, with sleek clean-cut lines and gorgeous wooden details. Providing a true home from home, this capsule collection balances character and charm with simplicity and function you want to maximise your storage capacity with a Rowan piece tucked into an alcove or want to make a statement with pieces proudly placed on a feature wall, Rowan can be as subtle or as bold as you desire.

Each piece in our Rowan capsule collection is beautifully British made, deriving from sustainable sources, and is meticulously made for life whilst also being fully recyclable. The collection was cultivated around versatility so that each piece can reside stylishly and seamlessly in multiple rooms of your home as your needs change. The collection is chic, sturdy and timeless, providing endless storage solutions.

Rowan Mini may start as your ideal bedside stowaway, but through time, its purpose may change to become the perfect sofa side table to hold your favourite book and brew. Rowan Maxi stylishly holds maximum capacity storage for a bedroom but may also be the indefectible boot room coat and wellie cupboard every hallway needs.

From mood-boosting bright and adventurous colour statements to calming mellow neutrals, you can design the look and feel that reflects your personality, suits your style, and complements your hotel's décor. Choose from powder coated steel or wood fronted doors and drawers and select from either turned solid wood or colourful steel hairpin legs to give that personal touch to your furniture and create your desired aesthetic.

Rowan – timeless versatility for you.

Features

Designed with timeless, minimal pull handles.

Customisation is at the heart of the range - you can choose a combination of steel/wood doors, drawers, and feet to match your aesthetic.

Double skinned steel doors that are MIG welded for a seamless finish.

The carcass is made of MFC so is recycled material.

Soft close doors and drawers and undermounted (non-visible) slides.

Door pulls are made of lathe turned solid wood.

Each of the feet can be chosen in either durable, painted metal hairpin legs that are colour matched or solid wood feet.

Wardrobes and larger carcasses (shoe rack and chests of drawers) feature a tether.

Benefits

Wardrobes are a CAM and pin flatpack construction so easy to transport upstairs.

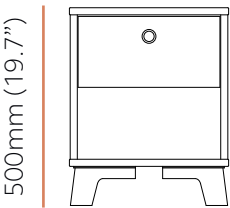

The ergonomics of the units demand that height and width differ across the range to afford user optimal usability.
