Our Blends

36.6° Unique double layer

A unique double layer system has been developed to help you maintain your optimum body temperature (36.6) in any situation. Products using our dual layer system are high performance, and designed to suit an active, outdoor lifestyle.

We use our double layer knitting technique in a variety of different yarn blends to suit any climate or activity:

Pure Wool and Possum and Lambswool and

Eco Blend: Polypropylene Blend: Polypropylene Blend:

Hardwearing and Durable and warm in Ideal for year-round heavyweight for all environments, but use in all weather

ultimate outdoor light in weight to wear.conditions

performance

35% Polypropylene, 35% Polypropylene,

Outer: 21% Possum, 65% Lambswool

100% Pure Wool 34% Merino,

Lining: 6% Nylon

65% NZ Wool,

25% Possum,

10% Nylon

Eco Blend

Ecoblend yarn is created using fibre fluff that is normally discarded during the yarn manufacturing process. We have collected and respun these fibres to create an entirely new yarn with exceptional properties. Its an innovation that has turned production waste into premium yarn that combines the best characteristics of its component fibres.

25% Recycled Possum Fibre,
60% Natural Fibres - Silk, Wool, Angora,
15% Nylon.

Possum Merino

Having a hollow fibre, possum fur is lighter and warmer in weight than other natural fibres. Blending with high quality merino, a silky fibre is produced that is soft and comfy. Our specialised blends are light to wear, ideal for the outdoors, withstand freezing temperatures and is pill resistant.

Silk Blend:

70% Superfine Merino,
20% Possum Fur,
10% Silk

Essential Blend:

60% Merino,
30% Possum Fur,
10% Nylon

100% Wool

Wool is one of the most effective natural forms of all-weather protection. It has a naturally high UV resistance, is flame retardant, and can regulate body temperature by absorbing and releasing moisture away from the body. Wool is ideal for year-round comfort – never too hot, never too cold. The fibres resilience ensures garments keep their easy care quality for years.

MENSWEAR

Using state of the art technology and fibre integration, we create knitwear garments that lead the industry in performance, versatility, and durability.
