Our Mission

We deliver uncommon innovation to the forgotten links of the supply chain.

WE BELIEVE IN:

TRUST AND COMMUNICATION

SUPPORTING OUR CLIENTS

WITH FULLY CUSTOMIZED SOLUTIONS

THAT BEST SERVE THEIR NEEDS

From first mile to last mile, we're bridging the gap between what logistics is, and what it should be.

The Seamless Delivery Experience

In line with traditional fulfillment when an order is placed

- Customer / Distributor - Order is placed with the manufacturer
 - The manufacturer acknowledges order with ship lead time.
 - Order moves to production or ship schedule.
 - Acknowledge order is ready for shipping.
-

The Seamless Delivery Experience Includes:

- **Seamless optimized - we find the best mode of transport depending on customer needs.**
(reactive, proactive, new clients, grand openings)
- **Seamless proactively tracks the shipment through the carrier network.**
- **Seamless contacts the delivery terminal and provides delivery requirements.**
(Example: Do not deliver between 11 AM and 2 PM, etc.)
- **Seamless notifies the consignee of shipment details.**
- **Seamless tracks to ensure delivery is made with no exceptions.**
- **Freight bill audit and weekly billing.**
- **Reliable, consistent service regardless of the location.**
(Available in North America only.)

The services listed above are at no additional cost to you.

National Rollout Management

Equipment delivery, installation, and maintenance can be a constant challenge.

Our comprehensive suite of equipment management services will take the burden off your shoulders.

We'll handle it all, so you don't have to.

Standard Delivery / Removal

We stand apart from the others because we will communicate with you every step of the way. National coverage with access to over 300 FMP locations.

White Glove Delivery

We deliver, plug in perform light assembly, and remove all debris. For removals, we will crate and reallocate, or recycle. National coverage with access to over 300 FMP locations.

National Rollout Management

We can provide full project management of national rollout programs. We handle it all from site survey to delivery, light assembly, training, light plumbing and electric, and removal.

Planned Maintenance

Our skilled teams can be deployed to perform your planned equipment maintenance.

Authorized Service Agents (ASA)

Our technicians are trained by the manufacturers on your specific equipment models.

360° Surveys / Asset Management

Our 360° site survey is one of the most robust in the industry. Our video surveys can be used to identify equipment, capture serial numbers, record measurements, capture kitchen layouts, the exterior to the building, and more.

Warehouse / Distribution / Consolidation

Let us consolidate your equipment for ease of distribution. We'll communicate with the warehouse to ensure units are staged and ready on schedule.

Planned Replacement Program Management

We are skilled at coordinating new equipment shipping, delivery, installation, and removal.

Equipment Return Management

We will crate your equipment and communicate with you from start to finish.

Whether you require a single service or a comprehensive package, we'll work closely with you to design a customized solution that fits your unique requirements. Experience the confidence of having a reliable partner in equipment management.
