AEG

WE ARE AEG

We lead by challenging convention and creating innovations that go beyond what you expect from appliances in your home.

We create innovations that stand out today and help build a better tomorrow.

With our constant drive to aim higher, our uncompromising approach to innovation and relentless responsibility, we challenge the expected and create responsible innovations that redefine how you use your appliances.

Since our start in Berlin in 1887, we have never settled for good enough. And we don't think you should have to either.

PREMIER. A MINIMUM STANDARD FOR OUR PARTNERS

When you step into a kitchen studio with approved AEG Premier Partner status, you know you're going to get the exceptional level of performance and service that you come to expect from AEG.

AEG

Premier Partner

TAKE ADVANTAGE OF THESE
BENEFITS WHEN YOU VISIT
ONE OF OUR PARTNER
KITCHEN STUDIOS.

5-year warranty cover on all appliances in this brochure

Access to exclusive models and ranges

Exclusive brand promotions and rewards

Exceptional service combined with kitchen design expertise

AEG

Premier Partner

5 year warranty available on
AEG Premier Partner core range
appliances as standard.

PEACE OF MIND, BUILT IN

All our appliances featured within this brochure are available through our AEG Premier Partner retailers and are covered by our extended five year parts and labour warranty. Your Premier Partner will register them on your behalf so you don't have to worry about a thing. During your warranty period you are protected against the cost of parts, call-out and labour charges.

All work is carried out by our national network of approved AEG engineers.

SENSEPRO®

SLEEK. SEAMLESS. SUPERIOR

The Matt Black Collection from AEG brings together years of material engineering for an exclusive and premium execution. The quality of the materials are brought to life with architectural edges and tactile surfaces, with polished displays and interaction areas bringing new aesthetics and improved functionality to an increasingly sophisticated kitchen space.

INSPIRATION BEHIND THE DESIGN

“The matt glass fascia is created by an etching process, a technology from the architectural world. The matt texture has natural anti-fingerprint properties, which is tested to be much more resistant to stains and easier to clean, bringing an advanced level of performance.”

REFRIGERATION

We design solutions to protect food quality so that people can enjoy a healthy diet and a sustainable life. We help consumers avoid food waste by protecting food quality. We work with circular, recyclable and conscious solutions and materials and reduce environmental footprint.

COLDSENSE

Flavour is all about freshness and storing ingredients – the right humidity and temperature is vital. But how do you want your fridge arranged?

Our solution lets you decide. Everything and anything fits in perfectly for long-lasting flavour, while maintaining energy efficiency, protecting your environment and your budget.

TWINTECH® NOFROST

Our Zero Degree compartments make it possible to create different chilling conditions in each part of your refrigerator. Adjust each drawer's temperature at a touch.

GREENZONE

IN THIS SECTION

Integrated Fridge Freezers

Integrated Fridges and Freezers

Freestanding Fridge Freezers

Wine Cooling

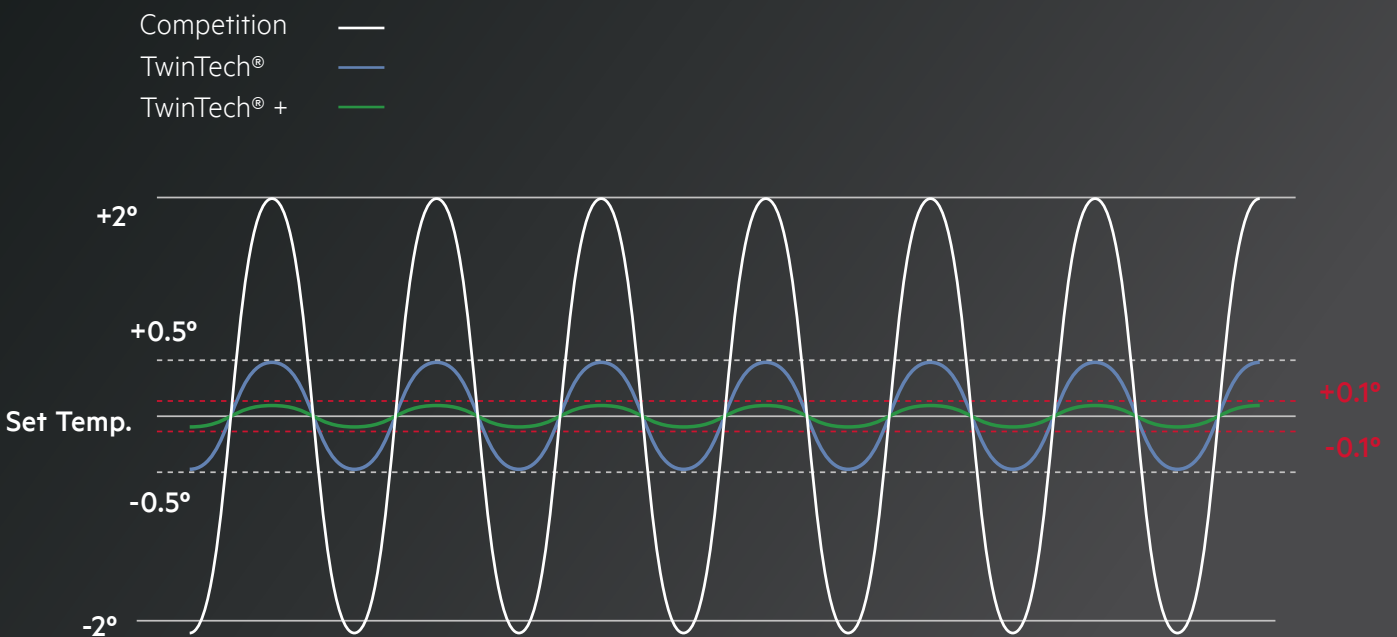

COOL ON EVERY LEVEL

TwinTech® NoFrost

Unlike conventional fridge freezers that use cold, ultra-dry air from the freezer and recirculate it to cool the fridge, TwinTech® NoFrost units have two separate cooling systems. This provides the ideal humidity in each compartment, preventing food from drying out in the fridge and delivering frost-free storage in the freezer.

DynamicAir

DynamicAir technology maintains the airflow inside the fridge, ensuring a consistent temperature at every shelf so that your ingredients stay fresh.

With NoFrost

Without NoFrost

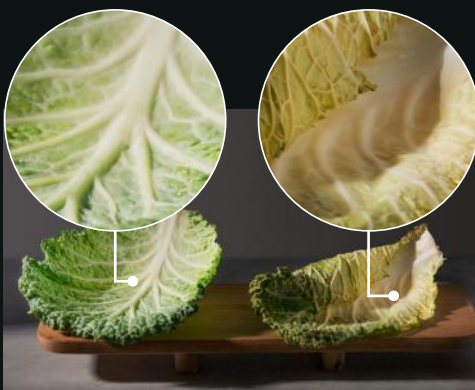

NoFrost

Never defrost your freezer again. NoFrost freezers offer efficient and effective freezing with quicker, more even freezing for better food preservation.

With LongFresh

Without LongFresh

LongFresh

The LongFresh feature is a Zero Degree compartment with adjustable temperature settings and separate humidity. The two Zero Degree compartments in the AEG refrigerator allow you to choose and adjust the humidity and temperature settings in each drawer.

ADAPTABLE FOR EVERY TASTE

CustomFlex®

Create your own perfectly organised fridge with the CustomFlex® storage system. This unique and practical inner door system allows you to arrange shelves, clips and compartments in all shapes and sizes in hundreds of different layouts, so there's always one that works best for you at any time.

LED Touch Display

Touch controls with new white LED digital display.

High Efficiency LED Lighting

LED lighting ensures a good spread of light shines downwards in the fridge. An intelligent fan function prevents warm areas in the upper part of the fridge and creates an even temperature in all fridge levels, even freezing for better food preservation.

Self-Closing Door

An elegant solution, with no risk of slamming. Automatically closes from an opening angle of 25–30 degrees.

REFRIGERATION ICONS

KEY FEATURES GUIDE

TwinTech® NoFrost

Pioneering TwinTech® NoFrost technology for exceptional freshness. One cooling system chills the freezer, keeping it NoFrost. The other cools the fridge, ensuring that the fridge temperature is cold, stable and with the correct level of humidity, so as not to dry out your fruit and vegetables.

Frostmatic

Ideal for freezing fresh food quickly, preserving the flavour, colour, texture and nutritional value.

Multi Air Flow

The Multi Air Flow technology provides the precise temperature and humidity your ingredients need to stay fresh in your fridge, nutritious and full of flavour for even longer.

CustomFlex®

Keeping all your fresh ingredients to hand is key to creating fresh, delicious dishes. Now the CustomFlex® refrigerator from AEG lets you organise your fridge storage just the way you want.

LCD Touch Display

Sleek touch controls that are intuitive and ready to use.

Ice & Water

Dispenser through the door for water and ice cubes.

High Temperature Alarm

Highlights an increase in the temperature in the freezer compartment.

NoFrost

Never defrost your freezer again. NoFrost freezers offer efficient and effective freezing with quicker, more even freezing for better food preservation.

LowFrost

Faster, more efficient defrosting. Time is of the essence when defrosting your freezer. This fridge freezer comes with efficient LowFrost technology, which makes the defrosting faster and less frequent than ever before.

LongFresh

The LongFresh feature is a Zero Degree compartment with adjustable temperature settings and separate humidity. The two Zero Degree compartments in the AEG refrigerator allow you to choose and adjust the humidity and temperature settings in each drawer.

Touch Control

Intuitive touch controls provide instant feedback, are easy to use and look sleek in the kitchen.

Soft Close Doors

Soft Close door hinges that automatically close from an angle of 23–30 degrees – providing an elegant solution to slamming doors.

LED Lighting

Premium and modern lighting system in the fridge thanks to the bright LED light with rise-on effect.

GreenZone

Dedicated drawer which allows you to precisely control the humidity, so you can preserve the flavours and nutrients of your fresh fruits and vegetables.

Coolmatic

Ideal for chilling fresh food quickly and regaining a stable temperature within the fridge once the door has been opened, maintaining food freshness.

DynamicAir

DynamicAir technology maintains the airflow inside the fridge, ensuring a consistent temperature at every shelf so that your ingredients stay fresh.

UltraFresh+

Automatic humidity control and antioxidant release filter inside the fridge compartment, keeping fruit and vegetables market fresh.

MultiSpace

No compromise between kitchen dimensions and your storage requirements. More storage capacity than a standard built-in model for improved organization and flexibility.

SpinView

The revolutionary solution for easy access to those hard to reach items. SpinView rotates with one touch in both directions, allowing full accessibility to the back of the shelf with minimum effort.

MultiSwitch

Fully convertible middle drawer ranging from -18 to +7 degrees. Provides optimal environment for any type of food.

Simple Touch Controls

Our simple to use electronic controls, with Frostmatic function, ensure that you can set the fridge freezer to your desired temperature.

LongFresh

The LongFresh feature is a Zero Degree compartment with adjustable temperature settings and separate humidity. To maintain the deep blushing crimson of a fillet of beef, to ensure the sweet freshness of a lobster tail, or to hold the ultimate flavour of fresh fruit they must be treated and chilled with precision. The two Zero Degree compartments in the AEG refrigerator allow you to choose and adjust the humidity and temperature settings in each drawer. Ensure that each element is at peak condition, by chilling them in unique conditions.

WINE COOLING

Our Wine Cellar Range has dedicated technology for optimal wine storage, to store your wine bottles at the perfect temperature throughout the cooler.

Our wine cellars have a single temperature zone with a range of 5–20, providing the perfect environment for your wine. The UV protected glass door helps to protect your wine from light damage and our internal fan ensures a stable, consistent temperature.

OVENS

Our solutions help you expand your skills in the kitchen and take taste further.

We encourage curiosity and explore new ingredients and techniques that exceed expectations, while also pushing the standards of healthy and sustainable cooking.

However you like to cook and whatever your favourite dishes, there's an AEG oven that's just right for you.

Featuring our intelligent technology, every oven makes it effortless and enjoyable to create great tasting food, exactly the way you like it.

COOKING

GREAT TASTE, AT YOUR COMMAND

Order from your oven with Command Wheel the way you would at a restaurant. Select rare, medium or well done to enjoy perfect results at home without ever dealing with degrees. Why compromise on an oven that doesn't live up to your standards.

Command Wheel

An innovative Command Wheel removes the need for a busy dashboard and makes the cooking experience simple and streamlined for perfection on a plate, every time.

Connected

Easily monitor and set your oven programmes with our AEG App. This allows you to adjust cooking programmes, follow step by step recipes, and even allows you to set cooking programmes based on relevant recipes.

The latest furniture trends are becoming more linear and we have designed our products in line with that. We've also included more glass and less stainless steel for a seamless finish.

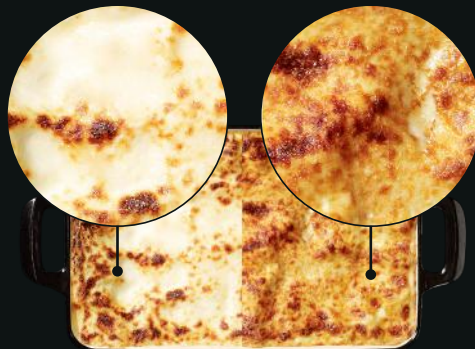

SenseCook

By precisely measuring the core temperature of your food, the Food Sensor lets you know when your rare, medium or well done meat is ready. It also allows you to cook fish, casseroles and vegetables just the way you like them.

Without SurroundCook® With SurroundCook®

SurroundCook®

Expect even, every time with SurroundCook®. Every part of your dish receives the exact consistent heat that it needs.

Pyrolytic Self Cleaning

A total self-cleaning function that automatically locks the oven door and heats up to 500°C, turning food residue to ash.

WELCOME TO THE SMART KITCHEN

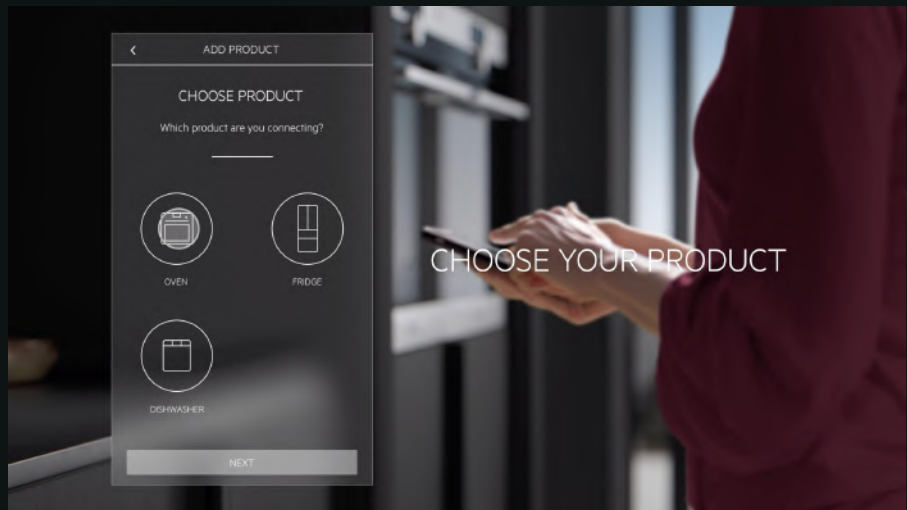

EXPERIENCE OUR INTELLIGENT SOLUTIONS

Get the most out of your experience by connecting your AEG appliances. Our smart products make your everyday tasks both easier and more convenient. You are able to adapt your appliances with your personal preferences via remote monitoring and control. .

My AEG Kitchen App *

To ensure peace of mind whilst owning an AEG appliance download the My AEG Kitchen App. Within the App you'll find user-friendly guides, help to set up your connected oven and the ability to register your product guarantee with ease.

Remote Monitor

Monitor the progress of your food whilst it cooks. You can easily check how your favourite dish is coming along through your smartphone whilst you're away from your oven.

Remote Control

It's simple to start & end the cooking program remotely through your smartphone and if you think the temperature needs adjusting then you can do this simply too.

Send a recipe to your oven

You can send your favourite recipe with its settings directly to your oven via the My AEG Kitchen App and your oven will take care of cooking it to perfection.

Download the 'My AEG kitchen App' on the App Store or get it on Google Play.

*Film shown above is for 'My AEG kitchen App' connection using Apple devices, please click the link for 'My AEG kitchen App' connection using Android devices.

**Your WiFi network frequency must be 2.4 GHz.

Hey Google turn my oven down by 20°C

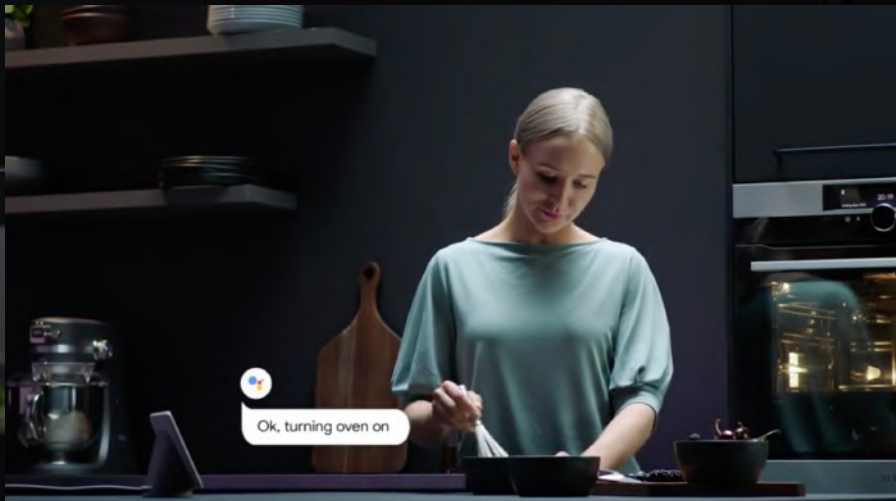

Sure, reducing oven temperature by 20°C

Google Assistant

Your AEG WiFi** connected oven works closely with connected devices such as the Google Home Mini to really help you excel in the kitchen.

Google Assistant allows you to control your oven with your voice, so if your hands are covered in flour but you want to turn the oven down, just ask it to do so!

Ok, turning oven on

THE EXTENDED FAMILY

The CookView® Camera

Our WiFi connected oven features an internal CookView® camera located in the handle with a clear view into the oven cavity. It's wirelessly linked to the My AEG Kitchen App and allows you to watch a live feed of your food being cooked that you are able to see wherever you are.

Are you proud of what you are cooking? Then why not share the picture taken with the CookView® camera directly from your oven through social media and share with your family and friends.

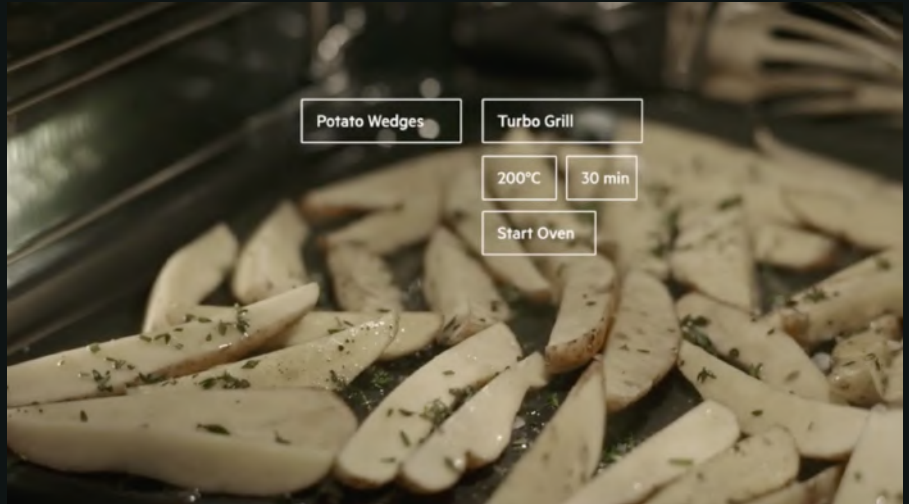

CamCook

CamCook technology works in multiple ways. It operates either through the CookView® camera in our ovens or simply through the camera in your smartphone or tablet.

The technology recognises your favourite dishes, letting you achieve the same perfect result every time – for truly effortless cooking.

And for added ease, save your favourite dishes in the preferred cooking settings, for reliable results.

Steamify®

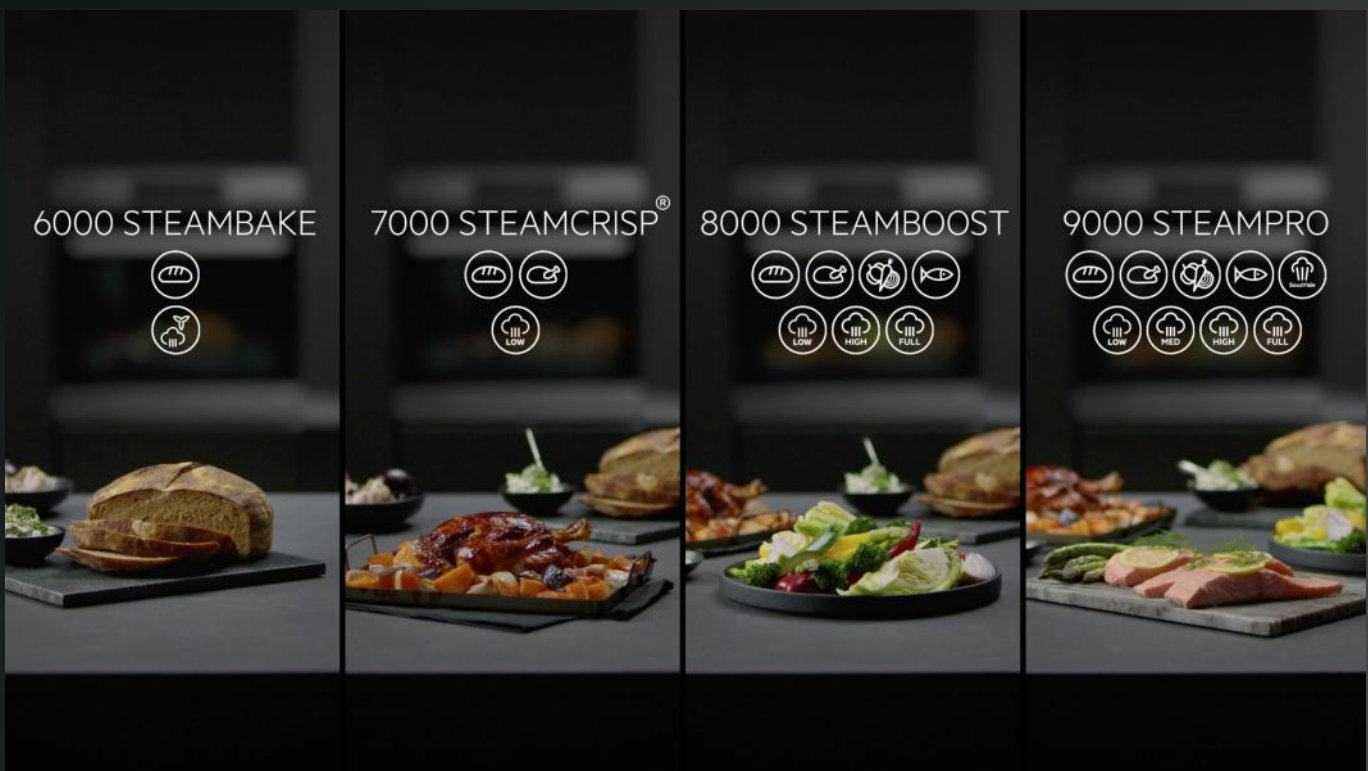

The Steamify® function handles all the steam settings so that you can cook exactly as you normally would.

Simply enter the cooking temperature and the oven automates everything related to the steam, enabling you to enjoy the healthy and flavourfull taste of steam cooking. Access Steamify® through the My AEG Kitchen App.

FOR MAXIMUM FLAVOUR, ADD STEAM

Our range of ovens with steam is one of the best ways to take taste further. It dispenses just the right amount of steam to lock taste and moisture into the food and make vitamins and nutrition stay. It also preserves textures and fibers, giving you more vibrant greens, more tender meat and make leftover bread as good as fresh again.

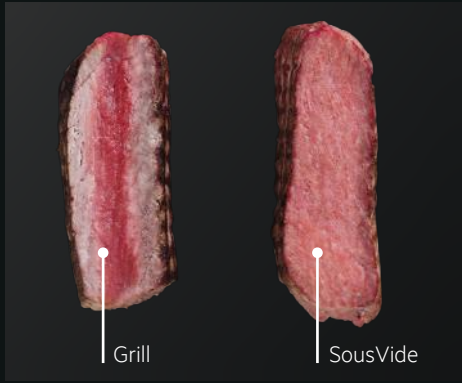

WHY STEAM?

Food stays moist. Prevents food from drying out.

Preservation. Preserves nutrients, vitamins and minerals.

Evenly cooked. Cooks food more evenly from surface to core.

More efficient. Delivers heat more efficiently to the food than dry, hot air, so the temperature can be lower.

SteamPro

SteamPro with SousVide means you can create tastier and healthier dishes. Cook with absolute purity, sealing in all the aromas, taste and nutrients under vacuum, then applying gentle steam heat to cook delicious dishes.

SteamBoost

Turn flavour up to full, whether you are baking, roasting, poaching or steaming with SteamBoost. The right amount of steam locks in the natural moisture to deliver juicy and succulent dishes.

SteamCrisp

By combining steam and traditional heat, food is cooked gently from the outside to the centre, enhancing food taste and achieving better results. Perfect for all your favourite roasting and baking recipes.

SteamBake™

Adds a bit of steam for the right colour and crust, improving all of your baking results.

COOKING ICONS

KEY FEATURES GUIDE

SteamPro

Our SteamPro multifunctional ovens provide you with the SousVide function, a powerful tool that has been used by professional chefs for many years. They also include all of the benefits of our SteamBoost and SteamCrisp models.

SteamBoost

The introduction of steam makes all the difference. Locking in the natural moisture to deliver a whole range of juicy and succulent dishes including meat, fish, casseroles and vegetables – even desserts. Our SteamBoost models have 3 levels of steam (humidity), low, medium and high.

SteamCrisp

By combining steam (to produce low humidity) and traditional heat in the Quarter steam programme, food is cooked gently from the outside to the centre, enhancing food taste and achieving better results. Perfect for cooking the Sunday roast.

SteamBake™

Adds a bit of steam for the right colour and crust, improving all of your baking results.

Steamify®

Mastering precise results with steam has never been easier. Select your desired cooking temperature and Steamify® will automatically add the optimal amount of steam.

Connected

Easily monitor and set your oven programmes with our AEG App. This allows you to adjust cooking programmes, follow step by step recipes, and even allows you to set cooking programmes based on real time food images.

SurroundCook®

Hot air fan that circulates the air more effectively than a conventional oven so that your food gets evenly cooked anywhere in the oven.

SenseCook

Food sensor that adapts to what you are cooking and helps you get the results you are aiming for. Just tell the oven how you want your dish cooked and the oven will let you know once your food has reached the right temperature.

Multifunction

Multifunction ovens have all of the familiar cooking functions, including our extra large hot air fan.

Dual Multifunction

Both oven cavities are multifunctional, which means they have all of the traditional cooking functions including True Fan.

Command Wheel

The Command Wheel gives you an intuitive way to operate all the cooking settings. It swiftly responds to your actions so that you always have control of every step of the cooking process.

ProSight / EXCite Touch Controls

Full-touch electronic control panel – simple to operate and beautifully designed.

Retractable Controls

High quality finish stainless steel retractable knobs.

800w Quartz Grill

Flexible cooking thanks to microwave functions and integrated quartz grill.

CookView

With the CookView camera and connection to the AEG app you can start to visually control and finetune the cooking progress straight from the app.

Pyrolytic

With our Pyrolysis function, this self cleaning oven heats up to 500°C and turns food residue to ash.

Catalytic Liners

The catalytic lining absorbs the grease from cooking and is activated by regular heating to 220°C. The grease residue is oxidised leaving the catalytic surface clean.

XXL

All of our single ovens have an extra large capacity, allowing you to cook on all 5 levels simultaneously.

Telescopic Runners

Allows you to pull the shelves smoothly out of the oven. This enables you to efficiently and safely access the contents of your oven

Fully Programmable

Precise timer that switches off the oven when you want. Ideal for dishes with a long cooking process.

3 Vacuum Settings

Seal your food under a range of air extraction levels, from 50% – 99% efficiency, ensuring that marinades don't leak from the bag and that no unnecessary air enters it.

Non-Vented Installation

Self ventilating microwaves, allows for more flexibility when installing.

FUNCTIONS

SousVide Cooking

SousVide cooking is an old cooking technology used by professional chefs to cook vacuum packed food slowly at a low, accurately controlled temperature.

Full Steam

The SteamBoost oven with Full Steam function makes more of the flavours within your food. Combining all of traditional oven functions with the added benefit of steam.

Humidity High

The function is suitable for cooking delicate dishes like custards, flans, terrines and fish.

Humidity Medium

The function is suitable for cooking stewed and braised meat as well as bread and sweet yeast dough. Due to the combination of steam and heat the meat gets a juicy and tender texture and yeast dough bakes get a crispy and shiny surface.

Humidity Low

The function is suitable for meat, poultry, oven dishes and casseroles. Thanks to the combination of 25% steam and 75% heat, meat gets a tender and juicy texture along with a crusty surface.

True Fan Cooking

Our true fan cooking system gently circulates hot air through the oven cavity. As the oven heats up faster, lower temperatures and shorter cooking times are used to achieve delicious results.

Conventional Cooking

Top and bottom elements heat the oven, providing traditional cooking on one shelf position, which is ideal for baking breads or fruitcakes.

Au Gratin

For dishes such as lasagne or potato gratin.

Bottom Heat

Oven is heated by the bottom element only. Food is gently reheated, ideal for pies and pastries, as it keeps the pastry crisp.

Turbo Grilling

Heat from the top element is circulated by the fan, sealing and crisping the food.

Grilling

Fully controllable powerful grill, ideal for family-sized portions of food.

Steam Assisted Fan Cooking

An improved version of the traditional True Fan cooking, combining steam with an extra large hot air fan.

Pizza Setting

Designed to ensure pastry bases, quiches and pizzas are cooked to your taste.

Moist Fan Baking

Retains moisture within the ovens, thus achieving light fluffy results whilst using the oven in an energy efficient way.

Slow Cooking

Two slow cook options, dependent on the quantity of food being cooked. Low temperature combined with patience will guarantee a good result.

Defrost

Defrost your frozen food gently in half the usual time. Ambient air is quickly circulated inside the oven cavity.

Fast Grilling

Combining grill, fan and bottom heat to efficiently produce delicious dishes. Excellent on semi-processed food such as chips and spring rolls.

Bread Baking

Optimum temperature and environment for baking yeast mixtures. Using radiant heat and steam to bake a variety of loaves to your taste.

Dough Proving

Creates the perfect environment to assist bread baking by proving your yeast mixture correctly.

Eco Roasting

Economical setting for roasting large joints or poultry. Simply select the appropriate cooking time depending on the weight of the food, and the oven automatically switches off once the cooking is complete.

Pyrolysis

A total self-cleaning function that heats up to 500°C and turns food residue to ash.

Quarter Steam & Heat

25% steam and 75% heat locks in moisture and browns the outside for irresistible flavours.

Microwave & Grill

Combines traditional microwave and grill functions.

Microwave & Oven

Combines traditional microwave and oven functions.

Defrost by Weight

Take the guesswork away and defrost your food by weighing it during the process.

Auto Favourite

The Auto favourite function has 3 pre-set functions, these are Soften Butter, Melt Chocolate and Mug Cake. You can overwrite these with your favourite recipes.

Steam Regeneration

A great alternative to using the microwave, this function gently reheats previously cooked food using steam, without compromising on flavour or texture.

THE COMPACT RANGE THAT FITS INTO YOUR LIFESTYLE

With our widest range of high performance appliances, you can mix and match our ovens and compacts – the way you want – and it all aligns beautifully with a single, stylish design.

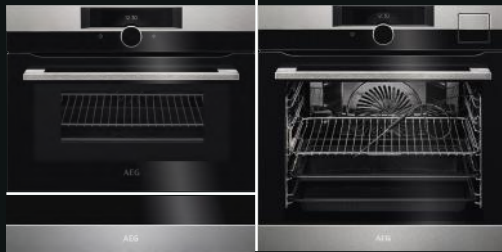

The Compact range also fits perfectly with our full size appliances.

Square Alignment Compacts

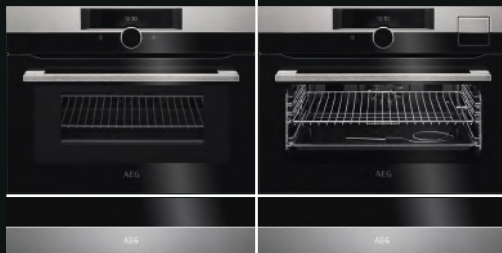

Create your ideal kitchen in a combination to suit your needs. By grouping your compact appliances in a cluster, a column or a sleek horizontal run you create your own, individual look.

Horizontal Alignment Oven and Compacts

Compact Appliance, Warming Drawer or Vacuum Sealer and an AEG Single Oven.

Horizontal Alignment Compacts

Two Compact Appliances with two Warming Drawers or Vacuum Sealers.

Vertical Alignment Oven and Compact

Compact above an AEG Single Oven.

THE PERFECT DESIGN ALIGNMENT

Our oven and compact range offer the perfect design alignment options, both horizontally and vertically.

For matching design alignment including user interface, pair appliances with the same controls using the below chart.

Product Description	Command Wheel Control	EXC ite Touch Controls	ProSight Touch Controls	Retractable Rotary Controls

AEG

WHY LIMIT YOUR EXPECTATIONS?

At AEG we design our appliances to meet the diverse needs of the most ambitious chefs. Why limit your roasting to Sundays? What about a crisp, turnip salad on meat-free Monday, or succulent, sustainable haddock on fishy Friday? With AEG technology you can be adventurous and sustainable, with absolutely no compromise to taste.

CHALLENGE THE EXPECTED

HOBS

At AEG we believe that a hob should look as good as it performs. Which is why all our induction hobs are designed not just to bring out the best in your cooking, but also to give you the flexibility you need while cooking and to look fantastic in your kitchen.

IN THIS SECTION

Induction Hobs

SENSEPRO®

MAXISENSE®

SLIM INSTALLATION

TAKE THE GUESSWORK OUT OF COOKING

Why guess when you can be precise about each degree with the SensePro® hob. The wireless food sensor measures inner temperature and communicates heat adjustments to the hob. So you can achieve perfect core results.

SensePro®

The most advanced induction hob with sensor technology, equipped with a wireless food probe that enables precision cooking.

TotalFlex

The TotalFlex hob automatically detects pots and pans of various shapes and sizes, and creates a dedicated cooking zone for them. Offering you the freedom to move cookware almost anywhere on the glass surface.

Hob2Hood

The AEG Hob2Hood adapts to your cooking to keep your kitchen free of steam and vapours automatically.

Slim Installation

The slim, space-saving design embeds into worktops as shallow as 12mm, even with a drawer below.

HOB ICONS

KEY FEATURES GUIDE

ActiveTouch

The user interface is not visible until a pan is placed on the hob. The user interface contains DirekTouch for instant heat control with one touch, minute minder and auto bridge.

SenseFry®

Use the intelligent touchscreen on the SenseFry® induction hob to select the food and desired result. Rare, medium or well-done.

Touch Control

Efficient touch controls enable you to set the hob's heat level precisely, while its flat surface is easy to clean.

TFT Touch Display

A single, full colour touchscreen provides complete control over the hob. Monitor live feedback for each zone and adjust the settings accordingly.

DirekTouch Slider

This hob's direct-access heat controls enable you to switch directly to exactly the right temperature with one touch. Simply touch the correct level on the slide control.

SenseBoil™

A sensor actively monitors the progress of boiling water and automatically reduces to a simmer once boiled, keeping it ready for you to add your ingredients.

SensePro®

The most advanced induction hob with sensor technology, equipped with a wireless food probe that enables precision cooking.

MaxiSense®

The MaxiSense® induction hob has self-sizing cooking zones. Each zone detects the size and shape of the pan you're using, however large or small.

Single Bridge

Two zones can be paired at the touch of a button, providing a single bridge for cooking. By automatically aligning to share both temperature and time settings, it's optimised for using large pots and pans at once.

FlexiBridge

A multi-purpose zone that allows you to customize your own cooking area, combining up to 4 segments with a consistent and even heat distribution.

Double bridge

Two zones can be paired at the touch of a button, providing a single bridge for cooking. It's optimised for using large pots and pans by automatically aligning to share both temperature and time settings.

TotalFlex

The TotalFlex hob automatically detects pots and pans of various shapes and sizes, and creates a dedicated cooking zone for them. Offering you the freedom to move cookware almost anywhere on the glass surface.

Hob2Hood

Hob2Hood automatically turns on your cooker hood and lights when you start using the hob. The cooker hood will adjust according to the cooking levels on the induction zones.

Pure Black Design

Unique hob with pure black design. The hob controls and cooking zones are visible only when needed. When not in use, the surface is clean black, nothing to disturb the kitchen design.

Cast Iron Supports

Cast iron pan supports provide a robust and durable cooking support with professional design. Safe, long lasting and easy to clean.

Extendable Zone

Extendable zone, optimised for cooking with a wide range of pot sizes.

Slim Installation

AEG induction hobs have the slimmest platform on the market, allowing a worktop as thin as 28mm with an oven beneath the hob.

Easy Installation

Our Optifix™ spring system is self-installing and self-centering. Simply place the hob into your cut out.

KEY FEATURES GUIDE

Step Power Controls

The flame can be precisely set in 9 different levels to deliver reliable and consistent heat, every time. For cooking without guesswork.

Easy Clean

Because the surface around the pans stays cool as you cook, you can get rid of spills as you go along. Nothing gets burnt on and there's nowhere for dirt to hide.

Minute Minder

Perfect cooking results guaranteed by setting the cooking time length and the acoustic signal lets you know it has finished.

Auto Ignition

Total control of the ignition through a single-handed operation of turning the knob to automatically light the hob.

PowerSlide

From boiling to simmering to keeping warm. When you need repeated quick heat changes to create a dish, simply slide your pan from heat to heat.

Rotary

Classic rotary control knobs.

FUNCTIONS

Cook Assist

An innovative assisted cooking function. Select the dish and the desired result – rare, medium, well-done – to ensure consistent frying.

Count-Up Timer

Set a reminder or use the count-up timer to keep in control of your cooking.

Minute Minder

Each induction cooking zone has an independent 99 minute timer. The timer will switch the zone off after the time has elapsed.

Eco Timer

Energy saving timer that switches off the zone and uses residual heat to complete the last few minutes of cooking.

Zone Booster

Power booster function to reach high temperatures extra fast.

AutoMax

The hob will apply full output of heat at the beginning, before automatically dropping to the required setting.

SousVide Cooking

Cook to perfection with SousVide, a professional approach to cooking. Applies low temperature and stable temperature to vacuum packed food.

Pan Detection

The user interface is not visible until a pan is placed on the hob.

Auto Off

Safety mechanism that turns off the hob after a given time, depending on the selected heat setting.

Melting

A gentle melting function, perfect for chocolate or butter.

Burners

Number of burners.

Wok burner

Extra large burner designed for a large wok.

Stop & Go

A function that reduces all zones in operation to a 'keep warm' setting.

TripleZone

Triple extendable zone, optimized for cooking with a wide range of pot sizes.

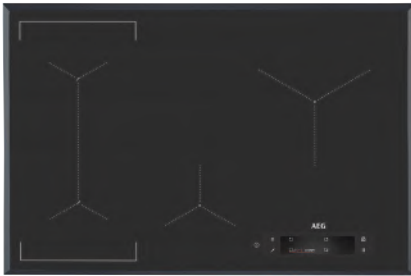

Pause

A function that reduces all zones in operation to a 'keep warm' setting. Available with our new models.

AEG

GAS COOKING WITH ABSOLUTE ASSURANCE

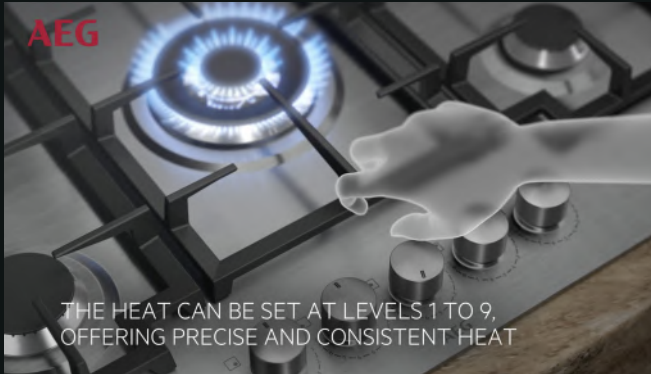

TouchSure Hob

The advanced TouchSure hob from AEG comes with a range of reassuring safety features that provide absolute confidence in – and absolute command over – gas cooking. It's a traditional method harnessed with our responsive technology, instilling confidence to turn up the heat.

NOTHING COMPARES TO SEARING OVER A NAKED FLAME

StepPower Controls

Thanks to StepPower the flame can be precisely set in 9 different levels to deliver reliable and consistent heat, every time. For cooking without guesswork.

StepPower with LED

LED lights with StepPower let you see the status of the hob at a glance. And residual heat indication shows whether pan supports are still hot after use.

Hob2Hood

The AEG Hob2Hood adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it.

AEG

TOTALFLEX LETS YOU COOK ANYWHERE ON THE HOB'S SURFACE

The TotalFlex induction hob offers you maximum flexibility when cooking. Place pots and pans of all shapes and sizes almost anywhere across the hob's large responsive glass surface without compromising on space, taste or precision.

CHALLENGE THE EXPECTED

FREEDOM IN KITCHEN DESIGN

Plan your kitchen, and your cooking, with the freedom your creativity deserves. Without having to bother about cooker hoods, or the sizes of your pots and pans. Enjoy ultimate flexibility, with the **AEG Induction Hob with integrated Extractor**. It's your kitchen, your way..

Easy Installation

Our Optifix™ spring system is self-installing and self centering. Simply place the hob into your cut out for it to secure into place.

Easy Cleaning and Maintenance

The 2-in-1 Filter combines both a charcoal filter and grease filter that captures odours and grease, which can be easily removed for cleaning and maintenance. This Filter can be washed in the dishwasher and regenerated in the oven.

DirekTouch Slider

This hob's direct-access heat controls enable you to switch directly to exactly the right temperature with one touch. Simply touch the correct level on the slide control.

HOB2HOOD®

LED LIGHTING

COOK WITHOUT DISTRACTIONS

Hob2Hood

AEG Hob2Hood technology adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it.

As you cook, the hood activates automatically, monitoring the fluctuating heat and steam of every simmer and boil, effortlessly maintaining the freshness of your kitchen. Your attention stays, as it should, on preparing, finessing and enjoying your dish.

AEG

SilenceTech

Our advanced hood technology allows Cooker Hoods to extract at a low 54dB, allowing you to enjoy the full cooking experience without loud sounds from your appliance.

Breeze Function

The breeze function quietly refreshes the air in your kitchen to create a more enjoyable atmosphere to relax or entertain. This function will automatically switch off for your convenience.

Touch on Glass Controls

Smooth and precise control of all your hood's functions with a simple touch on glass – easy to use and easy to clean.

HOOD ICONS

KEY FEATURES GUIDE

Hob2Hood

A wireless function that when paired with suitable hobs, it automatically activates and regulates the cooker hood according to your cooking activities. It provides a fresher kitchen environment so you can focus on achieving great taste.

Touch on Glass Controls

Smooth and precise control of all your hood's functions with a simple touch on glass – easy to use and easy to clean.

Push Button Controls

Precise control of the setting levels allowed through the squared push buttons.

Designer Filter Cover

High efficiency filter hidden with perfect black glass covers – the perfect look and easy to clean in the Dishwasher.

LED Lighting

LED lighting enables excellent visibility throughout the entire cooking process and provides ambient lighting in the kitchen.

Dimmable LED Lighting

Crisp bright illumination, or a gentle glow? Dimmer-controlled LED lighting means you can adjust the effect at the touch of a fingertip.

Black Glass

Beautiful design with unique black glass.

Anti Fingerprint Stainless Steel

The anti fingerprint stainless steel finishing protects the surface of your cooker hood from fingerprints.

Stainless Steel with Glass

Perfect combination of stainless steel and glass to create a unique and professional style in your kitchen.

FUNCTIONS

Fan Speeds

Number of fan speeds, allowing you to adjust the power, noise and energy consumption.

SilenceTech

Reduces the noise level down to our lowest number of decibels so that you can cook powerfully and enjoy all your favourite food without annoying sounds from the appliance.

Breeze Function

Refreshes the air in your kitchen after cooking at a very low noise level so that you have a more enjoyable and quiet atmosphere to relax or entertain.

Remote Control Included

Easy and fast control of all the hood's functions thanks to the remote control.

DISHWASHERS

It's not just about the food – the style of cutlery and plates affect our perceptions of what we eat. A dark chocolate dish looks best when served on an angular plate, while a round plate is better for cheesecake. So you need a range of tableware that complements your food presentation and can be cared for in the most efficient way.

Slimline Fully Integrated Dishwasher

QUICKSELECT

PROCLEAN

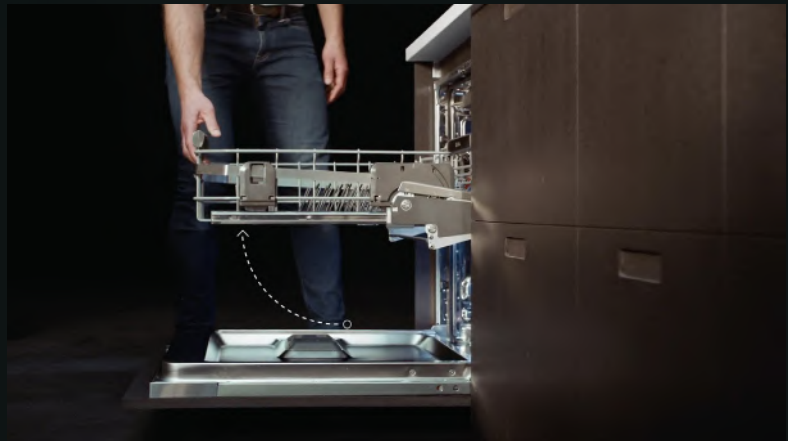

COMFORTLIFT®

BRING YOUR DISHES TO YOUR LEVEL

ComfortLift®

Raise your standards – and the lower basket of your dishwasher to a more convenient level with ComfortLift® technology. The ComfortLift® dishwasher is the first of its kind to gently slide the lower basket up for easy, ergonomic loading and unloading. That means less bending down, to make your life more comfortable.

SatelliteClean

The double rotating spray arm leaves every load spotless, delivering three-times better spray coverage with no extra water.

QuickSelect

An intuitive slider lets you control your dishwasher on your own terms. Simple, premium control that adapts the wash according to your lifestyle, allowing you to select when you want your dishes clean. The machine does the rest.

AirDry Technology

Uses natural airflow to finish the drying. By automatically opening the door by 10cm in the last part of the cycle, you will get maximum drying performance while effectively reducing your energy costs – leaving your dishes spotless.

Sliding Hinge

Allows you to install the dishwasher with any door length without the need to cut the kitchen plinth. This is also suitable for plinthless kitchens. The best solution on the market – patented by AEG.

MaxiFlex

The MaxiFlex drawer from AEG accommodates almost everything. From multiple cutlery sets to oversized utensils. Flexible dividers mean every load is customisable.

SUPERIOR CLEANING AND FULL COVERAGE

With our ProClean range of dishwashers we deliver superior cleaning and drying, ensuring that you can clean more at the same time and get a great cleaning result with superb drying.

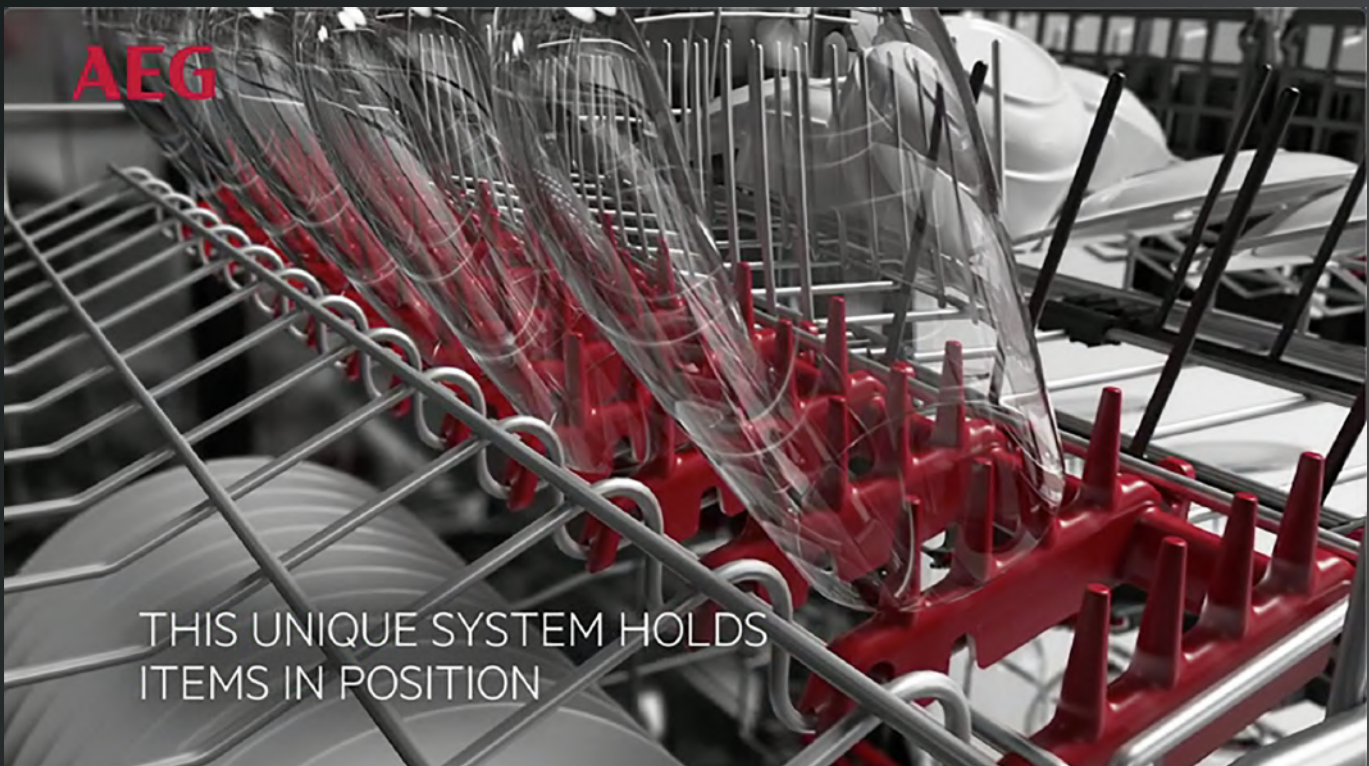

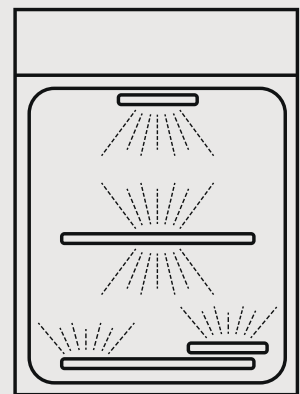

ProClean

Our ProClean models have a larger usable internal space, combined with five spray levels, satellite and ceiling spray arm plus GlassCare package..

5 Spray Levels

Multi level spray reaches every item anywhere, giving you our most efficient spray coverage.

THIS UNIQUE SYSTEM HOLDS
ITEMS IN POSITION

Glass Care Programme

A Special 45°C glass programme ensures perfect washing results while protecting your most precious glass, crystal and china.

XXL Interiors

The XXL interior of this dishwasher gives you an additional 10 litres of space – more capacity for those irregular shaped items.

SprayZone

Heavily soiled items, such as lasagne or crumble dishes, can be washed with a normal load with SprayZone. This feature activates a dedicated zone designed specifically for dishes with stubborn residue.

Features	Standard Models	ProClean	Benefits
Internal Space	Suitable for plate sizes up to 31cm diameter	Suitable for plate sizes up to 33cm diameter	Fit more dishes in!
Spray Levels	2 – 4	5	More spray levels for better cleaning.
Satellite Spray Arm	Selected models	Included as standard	Sprays from continuously varying angles and covers a lot more area compared to a standard spray arm.
Ceiling Spray Arm	Selected models	Included as standard	More spray levels for better cleaning
GlassCare Package	Selected models	Full package included as standard	Protects delicate glasses with soft grips, soft spikes and a dedicated glass programme. No more hand washing old and fragile glass.

DISHWASHER ICONS

KEY FEATURES GUIDE

ComfortLift®

The ComfortLift® basket rises on special hinges, ensuring less bending when loading and unloading dishes.

SprayZone

Heavily soiled items, such as lasagne or crumble dishes, can be washed with a normal load by selecting the SprayZone option.

MaxiFlex

The MaxiFlex drawer from AEG accommodates almost everything. From multiple cutlery sets to over-sized utensils.

Connected

Control and monitor your dishwasher remotely by connecting it to the 'My AEG Kitchen' app. This allows you to choose and customise programmes, follow step by step maintenance and even alerts you when the rinse aid and salt is running low.

GlassCare package

Delicate wine glasses are protected with our soft spikes, soft grips and dedicated GlassCare 45°C programme.

ProClean

Our ProClean models have a larger usable internal space, combined with five spray levels, satellite and ceiling spray arm plus GlassCare package.

QuickSelect

Simple, premium control that adapts the wash according to your needs, allowing you to select when you want your dishes clean.

InteriorLight

Locate items at a glance thanks to the bright internal light.

24 Hour Time Delay

Run your dishwasher when it suits you, thanks to the up to 24 hour delay start function.

TimeBeam

Keeps you informed on the progress of the programme by projecting the remaining time on the floor.

TimeSaver Function

50% less time thanks to increased power speed and water pressure.

Sliding Hinge

With this dishwasher you can choose to install it normally above a plinth. Alternatively, the sliding hinge is perfect for plinthless kitchens or for installation above a small cupboard.

XXL Interior

The XXL interior of this dishwasher gives you an additional 10 litres of space, more capacity for those irregular shaped items and plates up to 33cm in diameter.

AirDry

Uses natural airflow to finish the drying. By automatically opening the door by 10cm in the last part of the cycle, you will get maximum drying performance leaving your dishes spotless.

SatelliteClean®

The double rotating spray arm leaves every load spotless, delivering three-times better spray coverage with no extra water.

Light Beam

This dishwasher is so quiet it projects a tiny red or green beam on to the floor to tell you when it's running and when it's finished.

Deluxe Interior

Selected models have a higher level of internal finish, including stainless steel drawer handles and knife supports in the cutlery drawer.

Dual Spray Arm (slimline)

Water is evenly distributed in every dishwashing cycle with the dual spray arms. The rotating sprinklers make sure water gets into every corner, so your dishes come out sparkling.

DISHWASHERS

The AEG range of dishwashers is designed to meet the frustrations and needs of dishwasher users. The models are designed to give a better quality wash and superb drying results, combined with a larger capacity and useful features such as our glasscare package which looks after your best wine glasses.

WHY COMPROMISE ON CARE?

Since AEG began in 1883, we have always set new challenges. Why trust your most precious clothes to the dry cleaners? Why waste valuable energy, water and time on a wash cycle? AEG gives you the confidence to redefine the expected.

No need for compromises. Let's demand a higher standard for laundry care... and the environment.

LAUNDRY

Imagine putting your precious sweater in the washer. Imagine trusting a dryer with a silk dress.

We've not only imagined it, we've done it. Washed the black dress time after time. Dried a soft wool sweater over and over. Every time they emerge without shrinking or fading, still vibrant and soft. Because AEG has redefined what a washer and dryer are. Protectors of fabric. Defenders of colour. Guardians of fibres.

Unprecedented care for the life of your clothes. Imagine that.

Built-In Washing Machine

Built-In Washer Dryer

Freestanding Washing Machines

Freestanding Tumble Dryers

Freestanding Washer Dryers

DESIGNED WITH CARE

Our unique, innovative design is more than a pretty face. It also conveys superior quality and technical advancement. For our new range, we increased the size of the door and porthole for ease of use and a modern look, and reinvented the control panel.

Premium Design

We've been inspired by the electric turbines manufactured at the AEG Turbine Factory in Berlin.

The positioning of the door handle at 2 o'clock makes it easy to open.

Easy to Use Control Panel

A total self-cleaning function that automatically locks the oven door and heats up to 500°C, turning food residue to ash.

Complementary Design

AEG Tumble dryers are designed to complement our washing machines and are available with stacking kits.

Built-In Laundry

Achieve that seamless look with our built-in range. Our integrated washing machines feature the same wide variety of functionalities as our freestanding ones, including ProSteam® and ProSense® technology.

OUR WASHING MACHINE RANGE

Our washing machine range is structured into 4 series levels. As you go up the series levels, our washing machines step up in the level of fabric care, and include all the technologies from the series below.

With our freestanding and built-in washing machine ranges both packed full of technology, you don't have to compromise on washing performance.

FULL STEAM AHEAD

ProSteam®

Why needlessly waste water, energy and your time? By steaming instead of washing, you can refresh and remove creases from your clothes in just 25 mins – saving more than 40 litres of water*. Helping you care for your wardrobe and the planet.

↓ **96%**

less water than a normal wash

↓ **25 MINS**

to refresh, revice and uncrease fabrics

↓ **30%**

fewer creases when steam is added to the wash cycle

AEG

PROSTEAM® TECHNOLOGY OFFERS A WASH CYCLE WITH A PLUSSTEAM OPTION OR A SEPARATE STEAM PROGRAMME

*Use steam to refresh clothes and save more than 40l of water per cycle, tested on 1kg delicate garments using the FreshScent programme compared to using the Delicates programme.

NO FADING, WASH AFTER WASH*

SoftWater

The AEG SoftWater® technology purifies and softens water by filtering out unwanted substances like calcium and magnesium.

Not only will this allow you to lower the temperature and save energy - it will also prevent colours from fading, and preserve the shape and softness of your favourite clothes.

Available on 9000 series washing machines.

ALL MAINS WATER CONTAINS MINERALS THAT CAN BE HARSH ON FABRICS

*Even after 50 washes, colours will keep their intensity and black won't fade to grey. Test for colourfastness performed on black polyester after 50 washing cycles at 30°C.

AFTER 50 WASHES

AEG

ÖKOMIX TECHNOLOGY
PRE-MIXES DETERGENTS
AND SOFTENER SEPARATELY IN WATER

ÖKOMix

Unique pre-mixing of detergent, softener and water to reach every fibre.

AEG

IN AEG WASHING MACHINES, EVERY LOAD IS WEIGHED TO TAILOR EACH CYCLE

ProSense®

Adjusts time, water and energy consumption to the size of the load, even if it is just a single shirt or your entire weekly wash. This is thanks to specific sensors that will intelligently control the cycle settings and take care that your clothes are only washed for the exact amount of time needed.

AEG

NEVER TOO MUCH AND NEVER TOO LITTLE.
JUST PRECISE DOSAGE.

AutoDose

Intelligent technology senses the weight of the load and automatically calculates the optimal amount of detergent and softener to add to each wash cycle. Ensuring your whites stay bright and colours keep their vitality, wash after wash.

OUR TUMBLE DRYER RANGE

Our tumble dryer range is structured into 3 series levels. As you go up the series levels, our tumble dryers step up the level of fabric care, and include all the technologies from the series below.

Features	6000 SERIES	7000 SERIES	8000 SERIES
 AbsoluteCare® System			✓
 SensiDry® Technology		✓	✓
 ProSense® Technology	✓	✓	✓

AEG

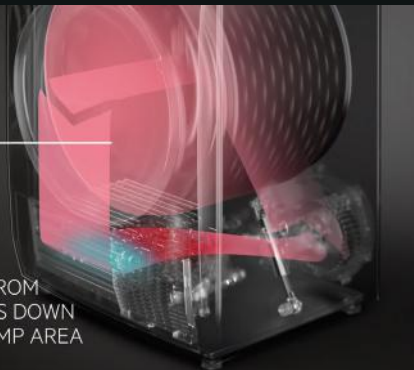

ABSOLUTE CARE® SYSTEM
CONTROLS PRECISELY THE TEMPERATURE
AND MOVEMENT OF THE DRUM

AbsoluteCare® System

AbsoluteCare® System, a tailored program that precisely controls the movement and temperature of the drying drum. Delicate woollens with 'hand wash only' care labels are kept flat against the drum during rotations to replicate flat drying.

AEG

THE HUMID AIR FROM
THE DRUM MOVES DOWN
TO THE HEAT PUMP AREA

SensiDry®

Using low temperatures without extending drying times, AEG SensiDry® Technology ensures that garments are never subjected to unnecessary heat.

AEG

PROSENSE® TECHNOLOGY USES ADVANCED
HUMIDITY AND TEMPERATURE SENSORS

ProSense®

ProSense technology, which uses advanced humidity and temperature sensors to adjust the drying time and energy consumption for every size of load - whether it's a day's or a week's worth of washing.

OUR WASHER DRYER RANGE

We've taken the best technologies of our washing machines and tumble dryers and incorporated them into our washer dryers and incorporated them into our washer dryers, such as ProSense® and ProSteam® which can be found within our 7000 series.

Features	7000 SERIES
 ProSense® Technology	<input checked="" type="checkbox"/>
 ProSteam® Technology	<input checked="" type="checkbox"/>
 DualSense® Technology	<input checked="" type="checkbox"/>

AEG

DEDICATED WASH AND DRY
CYCLES FOR OUTDOOR WEAR
CLEAN AND PROTECT TECHNICAL FABRICS

DualSense®

DualSense® technology tailors the temperature and motion of the drum to different fabrics. Everything from textured jackets to soft jumpers can be carefully washed, dried and cared for in one go.

AEG

ÖKOMIX TECHNOLOGY
PRE-MIXES DETERGENTS
AND SOFTENER SEPARATELY IN WATER

ÖKOMix

Unique pre-mixing of detergent, softener and water to reach every fibre.

AEG

PROSENSE® TECHNOLOGY USES ADVANCED
HUMIDITY AND TEMPERATURE SENSORS

ProSense®

ProSense technology, which uses advanced humidity and temperature sensors to adjust the drying time and energy consumption for every size of load - whether it's a day's or a week's worth of washing.

AEG

PROSTEAM® TECHNOLOGY
OFFERS A WASH CYCLE WITH A PLUSSTEAM
OPTION OR A SEPARATE STEAM PROGRAMME

ProSteam®

Using the PlusSteam® option to end a washing cycle with steam, reduces creasing by up to 30%. You can also refresh clothes with a separate steam programme to remove unwanted odours from garments.

BUILT-IN RANGE

Achieve that seamless look with an integrated washing machine or washer dryer. Our integrated machines feature the same wide variety of functionalities as our freestanding ones, including ProSteam®, ProSense® and DualSense® technology.

Softer water, kinder to clothes

Because our advanced SoftWater technology purifies and softens water before it enters the drum, detergents can work much more effectively at low temperatures, delivering 60°C cleaning performance at only 30°C. So colours will keep their intensity wash after wash, and black won't fade to grey.

ProSense®

Adjusts time, water and energy consumption to the size of the load, even if it is just a single shirt or your entire weekly wash. This is thanks to specific sensors that will intelligently control the cycle settings and take care that your clothes are only washed for the exact amount of time needed

AWARD WINNING QUALITY.

Woolmark

The Woolmark Apparel Care programme helps consumers identify quality laundry appliances that are approved by The Woolmark Company for use on woollen fabrics.

Woolmark Blue

It is the Woolmark Apparel Care certification of wool cycles that identifies a machine as safe in which to wash handwash only woollen fabrics.

Woolmark Green

The gentleness required is exactly the same as for Woolmark Blue, but the programme uses less energy and water, hence the symbolic green labelling.

Ariel and Lenor certified

Our washing machine range is certified by Ariel and Lenor for their efficient use of liquid detergent and fabric softener. Any machine with ÖKOMix technology has received the premium certification by Ariel and Lenor. The certification guarantees that 90% of fabrics in a washing load are evenly covered with liquid fabric softener. AEG, Ariel and Lenor have partnered to provide you with their combined unique care expertise for fabrics.

FREESTANDING RANGE

TUMBLE DRYERS

Never dared to tumble dry wool, silk or outdoor garments before? Now you can tumble dry everything you wash with the AbsoulouteCare® system. The tailored programming precisely controls the movement and temperature of the drying drum, so silks keep their shape and wrinkles are reduced.

8000 Series
with AbsoluteCare® and SensiDry®

T8DEC846R

TECHNOLOGY

AbsoluteCare®

Our unique AbsoluteCare® system precisely controls the movement and temperature of the drying drum. Woollens are kept flat against the drum to replicate flat drying. Outdoor garments are given just the right amount of heat to restore the full functionality of their waterproof membrane. Every fabric gets the right movement and temperature to dry it completely, while preserving its quality, look and feel.

SensiDry®

SensiDry® technology reduces the drying temperature by almost half (compared to a condenser washer dryer) – reducing damage and wear, and maintaining the texture of your fabrics.

ProSense®

Automatically adjusts the time, water and energy consumption to suit any load size.

AbsoluteCare®

SensiDry®

GOURMET 7 KETTLE | K7-1-6BP-U

EXACT RESULTS

With precision temperature control from 40°C to 100°C, you can prepare water at the perfect heat.

Master precise temperatures required for enjoying different drinks and dishes.

Whether it's water for baking or baby food at 40°C, green tea at 80°C, or coffee at 95°C, the kettle will automatically stop heating upon reaching your pre-selected temperature.

Dimensions 23.2cm x 22.2cm x 26.1cm

GOURMET 7 TOASTER | T7-1-6BP-U

GOLDEN PRECISION

Choose from seven settings
to create the ideal results.

Different kinds of breads require different
warming settings.

Choose from seven browning options, for soft
brioches or tougher bakes like ciabatta. Toasted
to precision, customised with the twist of a dial.

Dimensions 31.5cm x 18.4cm x 20.1cm

PLANCHA GRILL | A9HL33

INDOOR BARBECUE

Instantly turn your hob into a barbecue and get perfect outdoor grill taste all year round with the Plancha Grill.

Heat is distributed quickly and evenly across the plate, ensuring all ingredients are grilled to perfection no matter where you place them.

The non-stick coating reduces the need for oil, giving you healthier dishes without compromising on taste or texture.

Works perfectly with your induction hob and can be used on all other hob types too.

Dimensions 22cm × 43.2cm × 1.8cm

SALT BLOCK | A2SLT

HIMALAYAN SALT BLOCK

The Salt Block provides a platform for seasoning and serving food naturally and healthily.

Sourced from pink rock salt in the Himalayas, the block can be heated in the oven, on the hob, or chilled in the fridge or freezer.

Dimensions 8cm x 33cm x 22cm

FUSION WOK | FUSION-WOK

STIR-FRY IN A FLASH

Get fresh flavours fast with the Fusion Wok.

Simmer and stir-fry with all the advantages of wok cooking but with the speed, energy-efficiency and temperature control of modern induction technology.

The support ring enables the same ergonomic movements as with a rounded wok and is ideal for serving too.

Suitable for induction hobs only.
Includes support ring.

Diameter 34cm

NON-STICK FRYING PAN SET | A9ALFPS1

EVERYDAY FUNCTIONALITY

Combine functionality and performance
in everyday cooking.

This set of aluminium-coated, champagne coloured frying pans are ideal for everyday frying, searing and browning with little or no oil.

Each pan has a non-stick coating and delivers fast and even cooking whilst keeping food tender and moist.

DUPONT certified non-stick coating.
Suitable for all hob types. Oven safe up to 250°C.

Diameter 26cm and 30cm

COOKWARE SET | A3SS

COOKING MASTERED

Three-piece stainless steel cookware set to master everyday cooking.

Can be used on any heat source.

The non-stick coating on the frying pan makes it easy to cook and easy to clean.

Includes: 24 cm non-stick frying pan, 16 cm pot + lid, 20 cm pot + lid.

BAKERY TRAY | A90ZBT0M

BAKING MASTERED

Enjoy freshly baked goods
with a perfect golden crust.

Perforations in the tray helps the heat and steam to circulate around the dough to create a crispy texture while keeping the interior soft and tender.

The non-stick aluminium tray makes it easy to clean. Designed to be used with AEG steam ovens.

Dimensions 46.6cm × 38.5cm

STEAM SET | A9OZS10M

PROFESSIONAL PERFORMANCE

Take your steam cooking performance to the next level with the same tools used by professional chefs.

Small perforations in the containers allow steam to circulate around the food, locking in flavour and giving even cooking results.

This high quality set comes in a full range of sizes to match all types of ingredients, from fish and meat, to rice and vegetables.

Includes 8 pieces. Stainless steel. Designed to be used with AEG steam ovens. Dishwasher safe.

LARGE STEAM TRAY SET | A9OBGC23M

ENHANCED FLAVOUR

Designed for larger quantities of food to enhance the flavour of the ingredients.

Small perforations in the containers allow steam to circulate around the food, locking in flavour and giving even cooking results.

Suitable for fish, meat, rice and vegetables.

Includes 2 stainless steel trays. Designed to be used with AEG steam ovens. Dishwasher safe.

Dimensions 32.5cm × 34.4cm

SOUSVIDE BAGS | A3OS1M

RESTAURANT QUALITY RESULTS

Now you can use the SousVide technique to get restaurant quality results at home.

SousVide maximises all the flavours to their fullest. Just vacuum seal your chosen ingredients and the chemistry between natural flavours and nutrients will expand to create great tasting, succulent dishes.

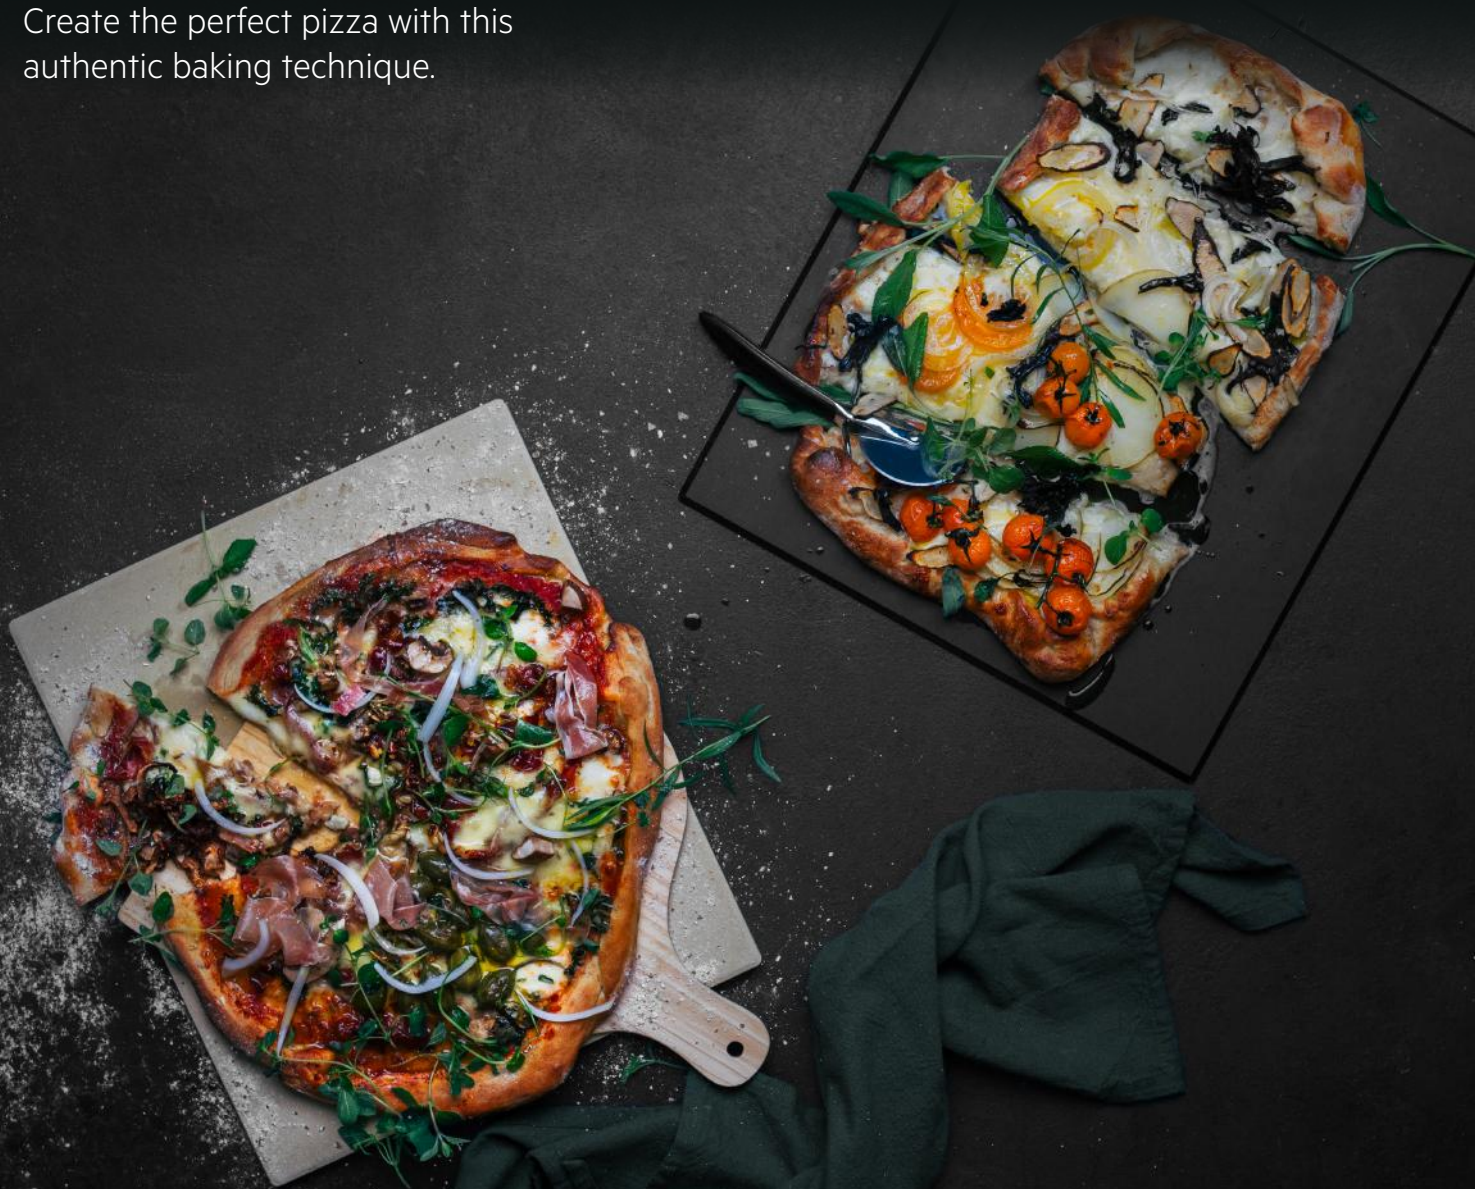

Suitable for professional and home use. Can be used up to 120°C for cooking or down to -40°C for preservation. To be used together with AEG steam ovens with the SousVide programme.

**Contains 25 bags 30cm x 20cm and
25 bags 35cm x 25cm**

PIZZA SET | A9OZPS1

PERFECTLY AUTHENTIC

Create the perfect pizza with this authentic baking technique.

The refractory brick heats up quickly and retains the temperature, giving you the same crispy touch only a professional pizza oven can provide.

Perfect baking results also for focaccia, pastries and other breads.

Can be used for all oven types. Includes 1 stone, 1 wooden sliding board & slicer.

**Dimensions: stone 33cm x 38cm
wooden slide 29cm**

SPINVIEW SHELF | A6RHSW31

REVOLUTIONARY STORAGE

The SpinView shelf puts everything from your refrigerator within immediate reach.

No searching. No rearranging. With a revolutionary design and flexible storage, the unique 360° shelf rotates in any direction making it easier to reach your ingredients, even from the top shelf.

Fits all AEG integrated fridge freezers and fridges.

Dimensions 5.2cm x 42.3cm x 29.5cm

EXTENDABLE SHELF | A6RHES31

DESIGN AND CUSTOMISE

The Extendable Shelf Tray makes it even easier to access your refrigerated ingredients.

The extendable shelf with removable tray can be transported for use outside the fridge, making it easier to load and unload ingredients from your refrigerator.

Fits all AEG integrated fridge freezers and fridges.

Dimensions 8.5cm x 45.5cm x 30.5cm

INSTALLATION DIAGRAMS

AEG has always been committed to supporting its retail partners and professional installers by providing them with best in class installation solutions. AEG kitchens are simple to install and use only one Torx T20 screwdriver to install all of our appliances, allowing installers to save time. In 2018, AEG launched a first of its kind Installer App, giving professional installers access to installation information at their fingertips.

IN THIS SECTION

Refrigeration

- Integrated Fridge Freezers
- Integrated Fridges and Freezers
- Freestanding Fridge Freezers
- Wine Cooling

Cooking

- Single Ovens
- Built-In Double Ovens
- Built-Under Double Oven
- Compacts
- Microwave Ovens
- Hobs
- Hoods

Dishwashers

- Fully Integrated Dishwashers
- Slimline Fully Integrated Dishwasher

Laundry

- Built-in Washing Machine
- Built-in Washer Dryer

Only one Torx **T20** screwdriver to install **all** appliances

Not having to change tools saves **time**

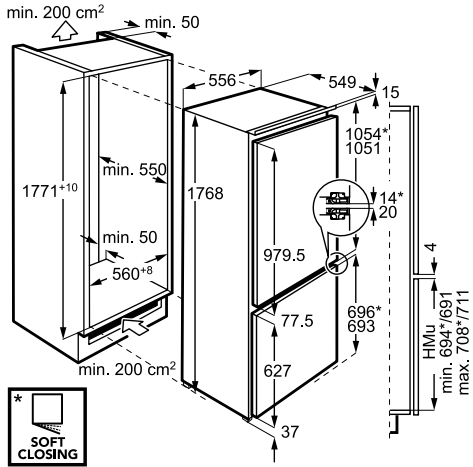

Electrolux is the first manufacturer to design an **installation app*** specifically for professional installers

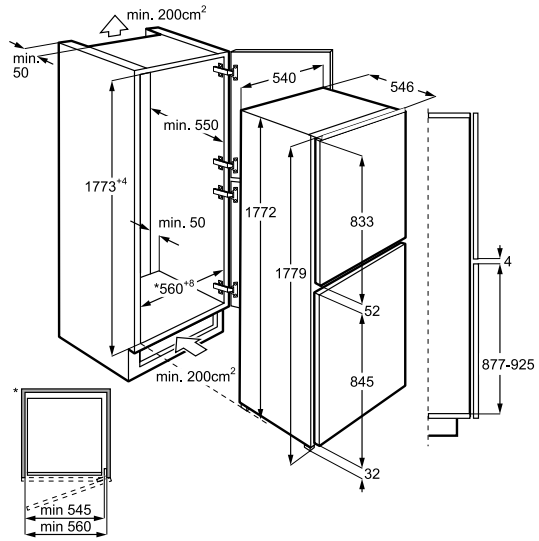

*The app is available for download on Apple and Android mobile phones.

ENERGY INFORMATION

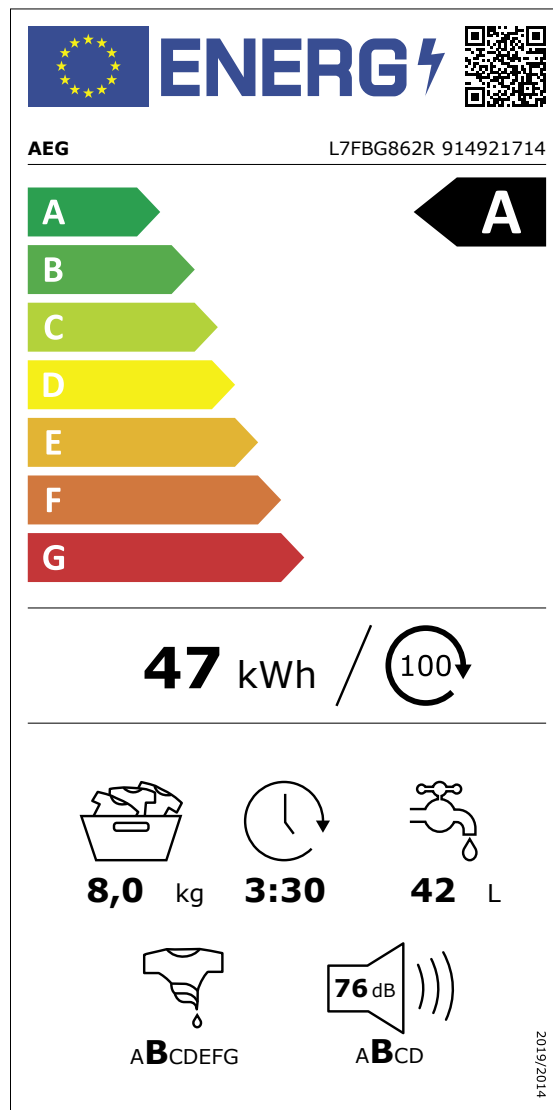

UK & EUROPEAN EFFICIENCY SCALE

This scheme, which covers refrigerators, freezers, wine coolers, washing machines, washer dryers and dishwashers is designed to offer you a standardised method of choosing the most energy efficient appliances. For washer dryers, the label will scale separately washing & drying, and washing.

Energy Label for customers in
England, Scotland and Wales

Energy Label for customers in
Republic of Ireland and Northern Ireland

AFTER SALES SUPPORT & CUSTOMER CARE

Customer Service

Should you need to contact us about your product we have a dedicated AEG customer service team to help. Our team is based in the AEG UK head office and can be contacted by phone on **03445 611 611** or via **aeg.co.uk**

Local service, nationwide

Our national network of Service Force agents provide product maintenance, genuine parts and repairs for all AEG Major Appliances. Genuine AEG parts ensure you continue to experience the excellent performance you expect from your AEG product.

If you require a visit from one of our agents for your Major Appliance please call our Service Force team on **03445 616 616**.

AEG

Premier Partner

We are AEG.

We exist to redefine what you expect out of your household appliances, which is why we want to challenge the boundaries of everyday life.

Since our start in Berlin in 1887, we've never settled for good enough. And we don't think you should have to either.

That's why we never compromise with innovations for your home. We believe in responsible innovations that stand out today and help build a better tomorrow. So you can live on your own terms while also living up to the terms of the environment.

CHALLENGE THE EXPECTED
