Imagine a theme park constructed entirely from shipping containers, each one transformed into a unique museum space by rock legends themselves. Every band, artist, or rock icon participating in the G.O.A.T.! event is given their own container to design. These spaces will reflect their personal journey, art, and history—whether through rare memorabilia, 3D video installations, or cutting-edge technology.

"A MUSEUM LIKE NO OTHER: CONTAINER EXHIBITS BY THE STARS"

G.O.A.T.!! OFFERS A DEEP DIVE INTO ROCK HISTORY

Through spectacularly curated exhibits, G.O.A.T.!! allows fans an intimate look at the artistry, stories, and legacies of the biggest names in rock. HEAVY METAL CONTAINERS AS WORKS OF ART

From classic collectibles to groundbreaking digital experiences, each artist is free to tell their story in their own way. What better way to honor the legacy of the greats than to let them craft their own memorials? Together, these containers form a mobile, flexible, and modular museum—a true testament to the spirit of rock.
