seafood towers clearly a step above the rest

MyGlassStudio elevates fresh seafood to a whole new level, utilizing hand-made/hand-decorated plate glass, formed and annealed for a minimum of 24 hours for incredible strength and durability to withstand the rigors of commercial food service. Coupled with powder coated metal stands, the Seafood Towers come complete with stainless steel drains to keep food from sitting in melted water. Stocked in 3 color options—crackle blue or crackle white, allowing the food to shine through, or elegant dark grey with gold marbling for a touch of sophistication.
