**ILLUSIONS**

# A

Explain in your own words if you have any idea what an optical illusion is.

---

---

---

---

---

---

---

# B

Peruse the picture and explain what you see. Why is this an optical illusion?

---

---

---

---

Write a dialogue between the two animals in the previous picture. What are they saying to each other?

# THE TALE OF YOUR MISSING TAIL

You are a group of geckos. You have lost your tail and it won't grow back. You need to solve the mystery of your missing tails. But be careful. There are animals trying to eat you and humans trying to step on you. You need to use your gecko powers to find your tail without getting caught.

ENTRANCE

# Z

Watch the video. Discuss what is happening to this person? Follow the directions.

We will try to recreate this experiment. Focus and carefully follow the directions. Try not to move or laugh.

Let us recreate the experiment.

- 1** One of you is the doctor.
- 2** One of you is the participant.
- 3** One of you is the extra hand.

## WHAT WE NEED:

- 🌀 A table
- 🌀 A cloth
- 🌀 A barrier
- 🌀 A ruler
