WELCOME

TO THE NEW YEAR 2025 EDITION!

Happy New Year 2025!

The New Year is a time to look back and to look forward. Some people make resolutions to break bad habits, create new ones or maintain existing ones. Toddle About also has a resolution it intends to keep; to continue to help families love life with little ones and provide you with a wealth of local information for all things bump, baby and toddler. So, take a look at a **springtime recipe** (p.9) to make with your budding chefs, our round up of **family events** even if it's chilly outside (p.12) happening near you, and lovely **keepsake craft** perfect for a rainy day (p.13).

Of course there is so much more to do with your little one so if you are looking for classes to try for a week, our daily activity planner is split by area, weekday and class type so you can easily find what you are looking for. Check out the Daily Activity Planner from p.22. Let's plan some adventures with our little ones and make this year a great one!

Wishing you a very happy new year.

Meltdowns VS Tantrums

HOW TO RECOGNISE AND HANDLE YOUR CHILD'S MELTDOWNS

by Laura Dumbleton-Jones

"I remember visiting playgroups with my son when he was little, no one spoke about their child kicking or breaking things. I felt like I was the only one, who felt on edge at the prospect of going on any outings, in case my child erupted over having the wrong type of bread for their sandwich. I felt embarrassed. I now know that many parents experience children having meltdowns and tantrums. You are not alone."
Laura, Kids' Coach and Trainer

Parenting is a rollercoaster ride filled with joy, frustration, and everything in between. One common challenge is dealing with meltdowns. This guide will help you understand the difference between tantrums and meltdowns with tips for calming both you and your child.

UNDERSTANDING MELTDOWNS vs TANTRUMS:

Tantrums: Tantrums are deliberate attempts by a child to get something they want or to avoid something they don't. They often involve crying or throwing themselves on the floor.

Meltdowns: Meltdowns are overwhelming sensory or emotional experiences that young children can't control. They might cry, scream, or lash out due to hunger, tiredness, frustration, or feeling unsafe.

The Key Difference: Meltdowns are involuntary reactions, while tantrums are attempts to control a situation. Recognising this can help you manage your expectations and choose the **most helpful response**.

SPOTTING THE SIGNS:

Meltdowns may seem sudden, and we often hear parents say, "It just came out of nowhere," but there are often warning signs. These can include:

Physical: Increased hunger, thirst, fatigue

Behavioural: Clinginess, withdrawal, irritability

By recognising these signs, you can help prevent meltdowns. Offer healthy snacks, establish routines, and create a calming environment.

CALMING A MELTDOWN:

When a meltdown happens there are lots of things you can do to help a child resolve them:

Show Calm: Children feed off the emotions of those around them, so not joining them in their emotional state can be really impactful. Take deep breaths which will help you to be the calm anchor that they need, and will also show your child how they can access calm.

Reassurance: Let your child know you are there for them and that they are safe. A hug or simply being present can help.

Create a Safe Space: If possible, remove distractions and find a quiet place for your child to access calm.

AFTER THE MELTDOWN:

Talk it Out: Once your child is calm, have a gentle conversation about what happened. Help them identify their triggers and highlight what helped them to access calm

REMEMBER:

Be Kind to Yourself: Parenting can be challenging at times. If you lose your cool, forgive yourself, be ok with saying sorry. Reflect on the situation so you can take a different approach next time.

Seek Help: If meltdowns are frequent or severe, there may be other reasons. For example a child might be neurodivergent e.g. autistic. You can call your GP for support as a first step.

First-time Swimming Guide For Parents: A Comforting Approach

Taking your baby swimming for the first time can be an exciting yet anxious experience. Whether you choose to start taking your little one to the pool from a young age or if you'd rather wait a few months, the experience doesn't have to be one that fills you with dread. In fact, studies have shown that time spent one-on-one with your little one in the pool can strengthen your bond with them and helps to release the endorphins that are so needed during the early days of parenthood.

In a bid to support you to get the most out of your first time in the pool together, local swim school owner Tamsin Brewis has put together a step-by-step guide to help ease your worries and make the outing enjoyable for both you and your little one.

Choose the right pool - One of the biggest considerations when looking for lessons or suitable sessions for your little one is the temperature of the pool. At Water Babies, we only swim in pools which have been heated to at least 30°C. If your baby is less than 12 weeks old, or weighs less than 12lbs, the temperature of the pool must be 32°C.

Time it right - During the newborn days, when your little one is likely to sleep for most of the day, it can be hard to plan your routine around nap time. But when your child is a little bit older, it's best to plan your pool visit or swimming lesson around their usual nap schedule so you can both get the most out of your time together.

Get comfortable - Before getting in, let your baby dip their toes in the water. This helps them acclimate to the sensation. When you get into the water, keep your baby securely in your arms. Close contact will provide them with comfort.

Have fun! - Use gentle splashing or soft movements to engage your baby - you could even bring along a few bath toys for added fun. Singing can soothe your baby and create a joyful atmosphere. It also helps drown out any pool noise and helps your little one focus on you.

GATHER THE ESSENTIALS: What do I need to pack for a swimming lesson for me and baby?

You'll be relieved to know it's not as much as you think! Different pools and swimming schools will have different rules about what your little one should wear, but at Water Babies we ask that every water baby wear our double nappy system. This is a paper or reusable swim nappy, with an approved neoprene Happy Nappy over the

top. We advise that toddlers under two swimming in a pool that's at 30°C wear a wetsuit.

Here's a short list of the other items to remember.

- Changing mat - a small, rollable one is great.
- Towel - one for you, one for baby!
- Warm clothes and hat - these are

for your little one to wear after their lesson. A fleece or cotton onesie (depending on the time of the year!) is a good option as they're easy to pull on and zip up in a rush. Pulling on a pair of jeans after swimming is rarely a fun, or quick, experience!

- Snacks - a good distraction for older children while you get dry and changed!

Valentine's Day Craft

MACRAME HEART

Celebrate Valentine's Day by crafting a beautiful macramé heart with your little ones! A fun, hands-on project to create a heartfelt decoration or gift together.

YOU WILL NEED:

- Heart shape frame (metal or wood, available from Hobbycraft)
- Macrame string, single twist type that unravels - in any colour & thickness
- Measuring tape
- Sharp scissors
- Comb or pet brush

TUTORIAL:

1. Cut a piece of string 20 cm long, fold it in half and place it on top of the frame
2. Fold the loop behind the frame, then pull the two strands through the loop.
3. Pull. You have made the Lark's Head Knot.
4. Repeat steps 1-3 with as many strings as you need to cover the frame
5. Brush the strings
6. Trim the fringe (adults only!) To make it easier, use a piece of card 3-4cm high.
7. Brush and trim again if necessary.
8. Take a long piece of string and tie a Lark's Head Knot in the middle of the heart. Tie a simple knot to create a loop to hang the heart.

NOTE: the fringe might flop down with time, especially if it's longer than 3 or 4cm. You can simply brush it to tidy up or you can use spray starch to stiffen it.

Craft courtesy of Isabella Strambio, the author of *Mindful Macramé*, a beautifully illustrated book that combines the art of macramé with the practice of mindfulness and includes 17 projects with breathing exercises and questions to reflect on. Published by Search Press on 10th January.

MYFIRST CAMERA 3

Written by Sophie Healy, Toddle About Subscriber

The MyFirst Camera 3 is a 16MP digital camera for kids, featuring a selfie lens, Full HD video recording, and a protective sleeve. Choose from Chill Giraffe, Cool Dinosaur, or Cute Kitten designs. Perfect for ages 5-13. £89 from uk.myfirst.tech.

If your little one loves grabbing your phone to take blurry photos, the myFirst Camera 3 is a perfect alternative to channel their creativity. Specifically designed for young kids, it fits smaller hands and features simple menu navigation.

We got this camera for our 5-year-old, who loves taking photos. He was thrilled to have his own camera. The silicone case keeps it safe, and the strap lets him wear it around his neck, reducing the worry of drops. He quickly learned to use the buttons and loved the large screen to view his photos and show them off. The selfie lens and the ability to take both photos and videos were big hits. The quality is

impressive for a child's camera.

We plan to get another one for our other child for Christmas since they both enjoy it so much! With three different designs and colours, there's something for everyone.

The myFirst Camera 3 is perfect for budding photographers, giving them independence without risking your own phone or camera. Its lenses allow detailed close-ups and long-distance shots. Be ready to be photographed often though - my son wants to take his camera everywhere with him!
