

EMIL & HUGO

————— FINEST WALLPAPER —————

MOANA

„At the seaside, time is in no hurry“

For our **EMIL & HUGO** collections, we have been able to visit many special, breathtaking and diverse corners on our trip around the world. Given that *MOANA* means “**ocean**” in many Polynesian languages, we are leaving solid ground behind for our latest collection and are taking a deep dive into the fascinating underwater world of Polynesia.

The aspect of life under the surface of the water creates a sense of peace and calm. It opens up this strange, captivating world with its unique and fantastic biodiversity. This is precisely the flair that we want to convey with the various designs, **soft structures and colours** and thus recreate a relaxed mood on indoor walls.

The **CORALLIUM**, **ANTHOZOA** and **CORAL STONE** designs graphically and artistically reproduce countless corals motifs. **VENUS**, **TRIDACNA** and **JACOB** cleverly show how shells with delicate mother of pearl can be used as an eye-catching feature on the wall. **ANUBIAS**, **ATLANTIS** and **REEF** feature imaginative depictions of the underwater flora, a mystical, sunken island kingdom or a diverse scenery with a wide variety of fish and other sea creatures native to tropical coral reefs.

The **MOANA** collection includes 27 design wallpapers and 20 monochromes from the **SHINE**, **SEDA** and **STONE** series, both produced in non-woven direct and digital printing techniques, as well as 10 digital murals in two different dimensions. The extensive colour selection ranges from off-white, beige, light gold, taupe and warm grey to aqua, coral red, dark brown, deep sea blue and anthracite.
