

Creativity starts here.

Play with Care

dantoy is a proud Danish family-owned company with a passion for developing toys that children and parents can trust.

Our products are designed with a focus on play, learning, and, most importantly, responsibility and durability.

Allmost all our toys are produced in
Denmark,
focusing on durability and eco-conscious solutions.

That's why most of our range is certified with the
Nordic Swan Ecolabel
ensuring strict
environmental and health standards.

*We have chosen the Nordic Swan Ecolabel because
it is one of the world's strictest and most ambitious environmental labels.
We did it for you. And for the environment.*

*At dantoy, we believe that great play goes hand in hand
with care for both children and the planet.*

Hard to earn *but* easy to choose

"The Nordic Swan Ecolabel is one of the world's toughest and most ambitious ecolabels."

It helps consumers and businesses choose among the most eco-friendly products and services.

The label sets strict requirements for environmental, health, and quality aspects across every stage of a product's life cycle, from raw materials to disposal, ensuring sustainability at every step.

Key points:

- The official ecolabel in the Nordic region
- Strict criteria for environment, health, and quality
 - Covers the entire product life cycle
- Helps consumers make sustainable choices

www.svanemaerket.dk

***"With the help of the Nordic Swan Ecolabel,
we ensure that we constantly choose the right suppliers
and focus on ethics, the environment and health requirements.
We experience that the Nordic Swan Ecolabel is more relevant than ever."***

*Marck Andre Højbjerg Matthiasen
CEO at dantoy*

Sustainability in focus

For us, sustainability isn't just a goal – it's an integral part of how we think, design, and produce.

Our products are nearly 100% recyclable, and our design ensure long life and minimal environmental impact.

When a product is built to last, it reduces the need for replacements – and in turn, reduces overall resource consumption.

In addition, we closely monitor our resource use and are actively seeking out new, more sustainable and recyclable materials to incorporate into our products.

All our packaging and wooden products are **FSC certified**, meaning they come from responsibly managed forests that respect nature, wildlife, and local communities.

We're also highly conscious of the energy we consume. Our entire operation – including production, warehousing, and administration – runs exclusively on certified green electricity.

***Our goal is to combine functional and aesthetic design
with environmental responsibility
– for the benefit of both our customers and the climate –***

Awards and certifications

Dantoy is one of the largest toy manufacturers in Scandinavia, and we are aware of the responsibility we hold.

Therefore we are proud and thankful for the recognition we have received.

Dantoy supports UN's 17 goals

We are committed to developing Dantoy in alignment with the UN's 17 Sustainable Development Goals.

Dantoy supports the UN's 17 goals through various initiatives. These include setting environmental requirements for suppliers to meet Swan certification standards, making donations, purchasing green power, and more.

Dantoy selects a few of the UN's 17 goals to focus on for a period of time before shifting attention to new goals. We are currently mainly focusing on goals 12, 13, and 17.

12. Responsible Consumption and Production

At Dantoy, we ensure a responsible production process by manufacturing our plastic toys in-house at our factory in Denmark.

Dantoy demands responsibility from suppliers regarding production and environmental standards.

We focus on reducing packaging, sorting, and reusing materials.

13. Climate action

We use 100% certified green electricity.
We are increasing the amount of recycling in packaging — both cardboard and plastics.

We are increasing the utilization of our production waste.

We will reduce our consumption of fossil fuels by switching to hybrid vehicles for our sales cars.

17. Partnerships for the goals

Most of our market is certified with the Nordic Swan Ecolabel.

Dantoy is a partner in Operation Clean Sweep. - an organisation working towards a cleaner environment.

classic

The Classic series has a history that goes back 60 years. With its colorful products, it captures children's attention and encourages play and creativity. The series is popular, durable, and strong, and all products are Nordic Swan Ecolabel certified and made in Denmark, meeting the high standards for safety, quality, and environmental responsibility.

RECYCLED PASTEL^S

FROM WASTE TO PLAY

Our Pastel Line is made from recycled material and is certified with the Nordic Swan Ecolabel. The light-colored recycled plastic used in this line is collected in a closed loop, where it is cleaned and processed. Making it possible to create a recycled line in delicate pastel colors.

Blue marine Toys[®]

This series celebrates the beauty of the ocean. The collection is made from recycled plastic sourced from fishing and maritime industries. Each toy is unique – the tones and colours vary depending on the materials collected. It's environmentally friendly and made with care for our shared future.

dantoy GREEN BEAN

You can make a conscious choice. We reuse the factory's own waste in our production, helping us reduce waste and minimize our impact on the climate. By utilizing surplus materials, we create unique products where no two are exactly alike – colors and expressions depend on what's in the machines on any given day. In this way, we turn waste into value and take active responsibility for the environment.

PLAYFUL WOOD

Our wooden toys are designed to imaginative play and to care for the planet. All wood is FSC-certified and sourced from responsibly managed forests that protect nature, wildlife, and people. Durable, timeless, and made with care for a greener future and the joy of play for generations to come.

Tiny by Dantoy is a series developed for the youngest children, focusing on activities that stimulate motor skills, vision, and the sense of touch. The series can be used both indoors and outdoors and includes, among other things, dining sets.

Several of the products are made from bioplastic, and most of the series are Nordic Swan Ecolabel certified, produced in Denmark, and approved for contact with food.

"At dantoy, we believe that every series tells its own unique story. Our collections are thoughtfully created – from the choice of materials and design"

The products in the Green Garden line motivate children to play outdoors, where they can explore nature, imitate adults, and even grow their own vegetables. Through role play, children have the opportunity to learn, develop, and create their own experiences. Made in Denmark and Nordic Swan Ecolabeled.

BIOplastic

Made from sugarcane

The beautiful BIO plast line is made from sugarcane. This collection contains more than 90% bio-based content and is 100% recyclable. The toys in the dantoy Bio line are designed in subtle shades with light tones and are suitable for both indoor and outdoor play.

FAIRYTALES

Princess and Thorbjorn

The Fairytale line is created for both girls and boys and comes in bright pink and blue colors. It invites magical moments filled with creativity and role play – whether in an imaginative world at home or on a fun trip to the beach.

dantoy

classic RECYCLED

Our Classic line has been made environmentally conscious with a focus on recycling and care for the environment. The products still feature the familiar Classic colors, but with a more matte surface – while offering the same great play experience.

Important symbols of quality

Blue Marine Toys are made from maritime gear e.g. nets, trawls and ropes from the fishing industry.

Made from 100% recycled, Nordic Swan Ecolabelled materials collected from in-house production.

Bioplastic toy, made of at least 90% sugarcane, a sustainable raw material. Our bioplastic is 100% recyclable. dantoy BIO products are of the same high quality as our conventional plastic toys.

FSC stands for Forest Stewardship Council, an international organization that promotes responsible management of the world's forests.

The Braskem "I'm Green" symbol may only be used if the amount of sustainable raw materials contained in the product has been verified. "I'm Green" PE (bioplastic) is made of at least 90% sugarcane (ethanol). Ethanol, a form of alcohol, is extracted from sugarcane, after which it is used to make bioplastic.

Plastic toys that carry the Nordic Swan Ecolabel comply with one of the world's most stringent environmental certifications. Ecolabelled products may not contain phthalates, synthetic fragrances or endocrine-disrupting chemicals (EDCs). To qualify for eco-labelling, the entire life cycle of the product, from raw material to production, use, disposal and recycling, is assessed.

99% of dantoy's plastic toys are both designed and manufactured in-house at our office and factory in Hobro, Denmark.

All dantoy toy products comply with the European EN71 standard, and our products therefore meet the safety requirements for toys sold in the EU. Our child use and care articles, cutlery, drinking and feeding utensils are certified in accordance with EN14372 and EN14350.

dantoy is certified to environmental standard ISO 14001, which means that via environmental focus, the company aims to minimise harmful environmental impacts by using sustainable processes, minimising consumption of energy, water and raw materials, recycling spillage and waste, and maintaining a healthy working environment.

dantoy is certified to quality standard ISO 9001, which obliges us to observe high standards, including uniform quality, product safety, quality control and assurance (taking random samples and testing), as well as written procedures that ensure that our production processes are standardised.

All dantoy toy products carry the CE mark, a key indicator of product compliance with the EU legislation that enables the free movement of products within the European market.

dantoy is "Der Grüne Punkt"-accredited. This is a German eco-label implemented by Duales Systems Deutschland GmbH that verifies that dantoy collects and recycles used packaging.

dantoy is a partner in Operation Clean Sweep, an organisation working towards a cleaner environment whose aims include reducing the discharge of plastic granules from manufacturing companies into the sea.

All dantoy are approved for food contact **except Blue Marine, Classic Recycled and Recycled Pastels.**

All dantoy products are dishwasher safe, **except for items containing metal parts and Playful Wood.**

All dantoy products with this label are microwave safe.

Role play

*Fantasy, food, and play
that never stop!*

*You can be anything you dream of,
grill master or a shopkeeper,
where you can display crispy vegetables
and fruits like little sparkling treasures.*

*The ice cream stand, you can serve ice
cream in all the colors of the rainbow.*

*Tasty cakes are ready - little magical
creations that taste of rainbows and
secret dreams.*

*Every day can turn
into a new adventure.*

Sand & Water

*The sun smiles, and
the sea winks at us.*

*We build sandcastles with secret tunnels,
where mermaids hide their treasure.
The sand drips like golden fairy dust through
the sieve, and suddenly the bucket becomes
a volcano, splashing water over our feet.*

*Small boats sail away on adventures –
maybe to an island made of ice, maybe
to a land of chocolate biscuits.*

*Let the whole beach become our magical
playground.*

Package: L:15 H:17 W:15 cm

Vehicles

Small wheels, big dreams.

*By the shore, the cars
dance across the sand, leaving tracks that
disappear in the foam of the waves.*

*In the garden, they find new paths between
flowers and leaves, over little hills and under
green arches of grass.*

*When the rain comes, the play moves
indoors - through pillow tunnels, up sofa hills,
and down carpet valleys.*

*Every route is a new story - Every ride is
a journey we invent
ourselves.*

Make & Create

*Creativity is the magic
in everyday moments.*

*With beads, modeling clay, and colorful
materials, everyone can play, explore, and
create their own unique
universes.*

*Here it's all about ideas, play, and
curiosity – not about getting it perfect.*

*Shape, build, design, and invent! When
imagination takes the lead, the most
wonderful figures, patterns, and stories
come to life.*

RECYCLED PASTELS

Snow

*“The sleds soar down
the hills, snow spraying in
all directions, while we dig tunnels and
fortresses with our little snow shovels,
like tiny explorers on a grand expedition.*

*Red cheeks and peals of laughter
follow every thrilling race, echoing
through the crisp winter air. With each
icy slope and snow-covered path, a new
adventure unfolds.*

*The magic of winter is
alive, and we are
right in the middle of it!*

PLAYFUL WOOD

dantoy

Step into the world where big adventures will be created.

Become a brave policeman or put on your firefighter vest and rescue teddy bears from blazing towers.

Make magical ice cream and brew coffee in your own little café.

Help dolls and teddy bears with doctor and dentist sets, and watch as every little tooth sparkles like stars in the night sky.

Here, imagination, play, and adventure grow together!
