

CNG Filtration

2903-5900NG Spin-On Natural Gas Fuel Filter

P/N 2903-5900NG

Wheeler Fleet Solutions aftermarket Spin-On Fuel Filter Water Separator is designed to perform equal to or better than the performance of OEM Cummins Filters.

- Burst Pressure rated at 667 psig
- Offers high efficiency removal of suspended liquid and solid impurities
- Flow rates up to 120 lbs. per hour
- 100% efficient at 10 microns

CROSS REFERENCE P/N

CUMMINS	3606712, 3607140
Fleetguard	NG5900

SPECIFICATIONS

Overall Height	180 mm
O.D.	94 mm
Thread	1 1/2-16
Gasket O.D.	87.4 mm
Gasket I.D.	76 mm
Normal Operating Pressure	100-150 psig
Proof Pressure	250 psig
Burst Pressure	667 psig
Rated Flow	120 lb/hr @ 100 psig inlet
Particulate Filtration Efficiency	99.99% @ 10 micron
Aerosol Filtration Efficiency	99.87% @ 0.3 micron
Operating Temperature	-40 to 250° F
