About Us

We create premium hand-poured soy wax candles designed to bring warmth, relaxation, and elegance into every space. Made with eco-friendly ingredients and long-lasting fragrances, our candles combine sustainability with luxury for everyday moments and special occasions.

Founded in 2026 by Meemansa Wanisha, Rudransh Candles started with a simple belief - that the flicker of a candle can transform any space into a sanctuary. What began as a passion for natural aromatherapy has grown into a brand dedicated to crafting the finest soy wax candles in Phagwara, Punjab.

Our candles are crafted using 100% natural soy wax, which is biodegradable, renewable, and burns cleaner than traditional paraffin wax. We source only the finest fragrance oils and essential oils to create captivating scents that evoke memories, calm the mind, and uplift the spirit.

At Rudransh Candles, we believe that self-care and sustainability should go hand in hand. That's why every candle we make is free from toxins, phthalates, and harmful chemicals. Our cotton wicks ensure a smoke-free, even burn, allowing you to enjoy hours of aromatic bliss without worry.
