Although Egypt is world renowned for its history and culture, its exceptional golf scene remains a hidden gem. From championship courses along the Mediterranean and Red Sea to desert layouts near the Pyramids, Egypt offers world-class golf in truly spectacular settings. Few people realize that Egypt's connection to golf dates back over two centuries, with the country's first golf course established as early as 1882, making Egypt one of the earliest adopters of the game outside Europe. This first-of-its-kind brochure showcases Egypt's complete golf landscape and introduces golf-led itineraries where the game takes center stage, seamlessly combined with authentic culture, lifestyle, and iconic heritage. Our goal is to position Egypt as one of the world's most exciting and undiscovered golf destinations.

Egypt Golf Reimagined

We proudly present a one-of-a-kind concept that reveals Egypt's hidden gem golf experiences featuring carefully selected courses, intelligently designed routes, and seamless on-ground operations, all crafted to help you sell with confidence.
