SCHOOL PERFORMANCE INFORMATION REPORT

John Septimus Roe
Anglican Community School

This information is provided with the aim of meeting the requirements of the Schools Education Act 2013 and the School Education Regulations 2014 Subsection H. Assistance Act of 2008. The information provides a statistical overview of some of the major elements of the School's daily operations. However, such information does not provide a full and accurate summary of the various activities and achievements of our staff and students. To this end, we encourage all viewers of this site to refer to our Facebook page and other information contained in the School's Website to further appreciate the ethos and offerings of the School.

Who we are

John Septimus Roe Anglican Community School (JSR) is a school of the Anglican Schools Commission, situated in Mirrabooka, just 10km from the Perth CBD.

JSR is a vibrant co-educational Anglican School that is continually evolving to meet the needs of our diverse student body and adapt to the demands of a rapidly changing world. Through innovative teaching practices, state-of-the-art facilities, and a commitment to nurturing well-rounded individuals, we ensure that each student receives an education that prepares them not only for academic success but also for a fulfilling and purposeful life beyond the classroom. Our dedication to excellence and continuous improvement drives us to remain at the forefront of educational innovation and best practices.

Diversity is at the heart of JSRACS, where we deliver exceptional education while embracing the challenges and opportunities of tomorrow. Our holistic approach encourages every student to discover and develop their spiritual, intellectual, social, physical, and creative potential.

At JSR, we celebrate the uniqueness of each member within our community and foster a global outlook that encourages all to appreciate the richness of the human experience within themselves and in others.

Spanning from Pre-Kindergarten through to Year 12, JSR offers a comprehensive educational journey, nurturing students at every stage of their development and preparing them for the future with confidence and competence.

Following the successful completion of a substantial Capital Development program spanning from 2022 to 2024, our two school campuses have seamlessly merged into a unified community. This milestone has brought about a host of benefits and opportunities for our students and staff alike.

The consolidation of our campuses into a single entity has created a cohesive and collaborative environment where resources, expertise, and experiences are shared more efficiently. Students now have access to enhanced facilities and expanded learning spaces, enabling them to engage more deeply in their educational journey.

Moreover, the merger has fostered a stronger sense of community and belonging among our students, parents, and staff. It has encouraged greater interaction, collaboration, and support within our school community, enriching the overall educational experience.

As we move forward as one unified entity, we are excited about the possibilities this merger brings. It represents a new chapter in our school's history—one that is marked by innovation, synergy, and a shared commitment to providing the best possible education for our students.

Today, JSR has an enrolment of 1810 students from approximately 1250 families. At JSR, we prioritise pastoral care as a cornerstone of our educational approach. We firmly believe that by nurturing this aspect of our students experience, we lay a solid foundation for building a thriving school community, from which all other aspects naturally flourish. The quality of our relationships forms the essence of our school's atmosphere and sets the tone for our collective experience.

What we value

The School's Vision, Mission, and Values statements serve as a clear and comprehensive expression of our core principles and aspirations. They encapsulate our fundamental beliefs, purpose, and the ideals that guide all experiences in our school.

Together, these statements not only define what we stand for but also inspire and unify our school community. They provide a roadmap for our endeavours, ensuring that we stay true to our ideals and continue to make a positive impact on the lives of our students and beyond.

Vision Statement

John Septimus Roe Anglican Community School will be a dynamic, Christian community that offers a broad, high quality education to students from diverse backgrounds. We will embrace the educational challenges and opportunities of the future, where each student will be encouraged to explore their spiritual, intellectual, social, physical and creative capacities. We value the individuality of all community members and cultivate a global perspective that all may seek the best of the human spirit in themselves and other.

Mission

We provide an education which, secure in the traditions of our past and our Christian belief, opens students' minds to the rich diversity of the world in which they live and challenges them to be curious and explore everything they find with integrity and compassion. We will do this in an engaging, relational environment which nurtures self-expression and self-worth while promoting the uniqueness of each student.

Faith in Christ.
Faith in each other.
Faith in ourselves to make a difference.

Hope in Christ.
Hope for each other.
Hope for a better future.

Love for Christ.
Love for each other.
Love that knows no boundaries.

Teaching and Learning

A School's curriculum is the total of all activities, both formal and informal, which take place both inside and outside the classroom. At John Septimus Roe Anglican Community School, this includes the traditional subject disciplines as well as the many co-curricular activities that are offered to students, including camps, outdoor education, music, various sports, clubs and societies in order to develop resilience, leadership skills and self-esteem in our young people.

A principal objective is the promotion and recognition of academic achievement and the pursuit of excellence in all fields of endeavour. Students are encouraged to work hard and to develop high levels of self-discipline.

From Kindergarten to Year 12, the school's curriculum inspires students to achieve distinction according to their abilities and individual interests. The curriculum emphasises the need to work independently and in partnership with others. It develops in students the ability to think critically, communicate clearly and develop the 'whole' child. Above all, the curriculum seeks to inspire a love of learning and of truth.

The school recognises that students differ widely in their academic and other abilities, but believes that all students can benefit from being encouraged and challenged within a caring Christian environment. Additional curriculum support, extension and enrichment is provided by class teachers and staff within our Education Support Services Team.

Pastoral Care and Wellbeing

The overall well-being of each individual person is of paramount importance in the Anglican tradition of Schooling. It is the responsibility of all members of the school community to promote this in their formal and informal dealings with one another.

To create an environment where each individual can flourish, John Septimus Roe Anglican Community School endeavours to establish compassionate connections between all members of the school community.

School Governance

John Septimus Roe Anglican Community School operates under the oversight of a School Council, which is entrusted with governance responsibilities delegated by the AngliSchools' Board. This governance structure ensures that all aspects of the school's operations, policies, and strategic direction align with the values and objectives set forth by the Anglican School Commission Board.

The School Council plays a vital role in guiding decision-making processes and ensuring accountability within the school community. Their authority extends to matters such as financial management, policy development, and the overall well-being of the school. The vision and direction of the School Council is implemented by the Principal and the Executive Team. By operating within this framework, John Septimus Roe Anglican Community School upholds its commitment to excellence and accountability in education, guided by Anglican principles and values.

Music Tutors	43%	56%
Support Staff	78%	22%
Total	71%	29%

Teaching Staff Qualifications

Total: 146

Staff Professional Development

In 2024 there was 100% teacher participation in professional development and learning. A total of approximately \$157,512.60 was spent in this area. This represents an approximate average expenditure of \$1,149.73 per teacher on professional development provided to the School by external providers. It should be noted that teaching staff also attend AISWA training sessions which are provided to independent school staff at no additional cost.

This is in addition to school-based professional development delivered in the workplace. The school has approximately eleven professional development days allocated in each school year.

Funding Sources

The total gross income for the year ending 31 December 2024 was \$39.5 million. Information on the School's Finances will be published on the My School website <http://www.myschool.edu.au> and is available to the public to view, later in the year.

Student Enrolment

ENROLMENT

John Septimus Roe Anglican Community School provides education for students from Pre-Kindergarten (3-year olds) to Year 12. In 2024, the total enrolment was 1739 students at the School's August census.

The enrolment comprised 694 students in the Primary School and 1045 students in the Secondary School; with an overall gender balance of 51.5% male and 48.3% female students and 0.2% indicated as Other

STUDENT ATTENDANCE

In 2024, the average attendance rate for students at JSRACS was 91%.

Regular school attendance is essential for students to maximise their potential. JSRACS, in partnership with parents, promotes and values consistent attendance among students. Parents hold legal responsibility for ensuring their children attend school regularly. Additionally, school staff monitor absences as part of their duty of care.

To minimise disruptions to students' learning, the school discourages travel during term time. However, exemptions may be granted in cases where students are representing their club, school, or state in official capacities.

JSRACS has established protocols for reporting absences. Parents are required to notify the school prior to 9:30 am on the day of absence via the absentee line on the school's app, or leave a message on a designated mobile number, or email. This proactive communication ensures that the school can maintain accurate attendance records and promptly address any concerns regarding student absences.

Academic Achievements

NATIONAL ASSESSMENT PROGRAM – LITERACY AND NUMERACY (NAPLAN)

JSR is proud to report that our students have demonstrated commendable performance across all year levels in the 2024 NAPLAN assessments. These results underscore our commitment to academic excellence and the dedication of our students, teachers, and broader school community.

Our 2024 Average NAPLAN results have been benchmarked against the following comparison groups: Similar Schools Average, State Average, and National Average, with the following observations having been made:

- JSR average results outperformed all comparison groups, across all assessment areas except for the Numeracy assessment of the Year 3 cohort.
- The Year 3 Numeracy average of 404 was on par with the National average, and 1 point behind the Similar Schools average of 405.
- The average delta between JSR results and the comparison groups is lowest in Numeracy (comparison groups average -2.5% across all cohorts) and highest in Writing (average -3.9% behind JSR results across all cohorts).
- The JSR results are closest to the comparison groups in Year 3 Numeracy and furthest ahead in Spelling (average 5.5% and as much as 6.9% vs the Similar Schools result), also for the Year 3 cohort

It is important to note that while NAPLAN results provide valuable data, they represent just one aspect of our students' overall educational journey at JSRACS. We believe in nurturing well-rounded individuals who excel not only academically but also socially, emotionally, and creatively.

NUMERACY

In the area of numeracy, the results for Year 3 in 2024 indicate that student performance is one point below that of similar schools. These lower-than-expected results have been consistent over the years, with 2022 being an exception due to an exceptionally strong cohort in mathematics. Based on this data the school has implemented a mathematics program in the early years to align with the current initiatives that are successfully enhancing reading and writing skills. The anticipated

implementation of the Whole School Approach to Numeracy in 2025 is also expected to contribute positively in this area in the coming years.

In contrast, students in Years 5, 7, and 9 are outperforming their peers in similar schools, with the exception of Year 5 in 2021. This trend of superior performance has been consistently maintained.

WRITING

In the area of writing, John Septimus Roe Anglican Community School (JSRACS) has significantly outperformed similar schools across Years 3, 5, 7, and 9 in 2024. However, it is important to highlight that the 2023 Year 5 results, which now represent the current Year 6 cohort, showed underperformance, falling below the national average. This trend indicates a need for close monitoring of this group as they transition into Year 7 in 2025.

On a positive note, the current Year 5 cohort is excelling notably, with JSRACS scoring an average of 508 compared to 486 for similar schools. This demonstrates a strong performance that we aim to build upon in the coming years.

SPELLING AND GRAMMAR AND PUNCTUATION

In the areas of spelling, punctuation, and grammar, the 2024 results clearly show that John Septimus Roe Anglican Community School (JSRACS) has outperformed both similar schools and national averages. This outstanding achievement is a reflection of the successful implementation of specific programs that target these essential skills.

Among these programs are "PLD" (Promoting Literacy Development), which provides structured materials and support to enhance literacy skills; "Talk for Writing," a creative approach that encourages students to develop their writing abilities through storytelling techniques;

and "Education Perfect," an online learning platform that offers interactive resources and assessments designed to reinforce spelling and grammar skills.

The positive outcomes from these targeted initiatives underscore our commitment to enhancing literacy instruction and demonstrate the effectiveness of our focused strategies in fostering student success. As we continue to build on this strong foundation, we are excited to see further improvements in our students' writing capabilities.

Year 12 Results

PATHWAYS

6

Pathways Available

2024

To best cultivate their talents; and experience meaning in their education, Year 12 students have a wide choice of courses within specialised pathways. JSRACS offers six pathways, including ATAR and General courses, an onsite Endorsed Hospitality Training program, Trade Preparation Pathway, and Vocational Certificates through Careerlink and UniReady.

Each pathway delivers a quality educational experience enabling students to develop and become lifelong learners in an ever-changing world.

WACE GRADUATION

135 students achieved WACE

95.07%

Achieved their WACE

ATAR 2024

JSRACS achieved a median ATAR of 85.80 in 2024, being the Highest Median ATAR achieved in all Schools that are part of AngliSchools

90⁺_{34%}

80⁺_{68%}

70⁺_{90%}

<70_{10%}

CERTIFICATE PATHWAY

The School had 10 Year 12 students who successfully completed a Certificate II qualification, 43 Year 12 students who achieved a Certificate III qualification and 18 Year 12 students who achieved a Certificate IV qualification.

TOP SCHOOL COURSES

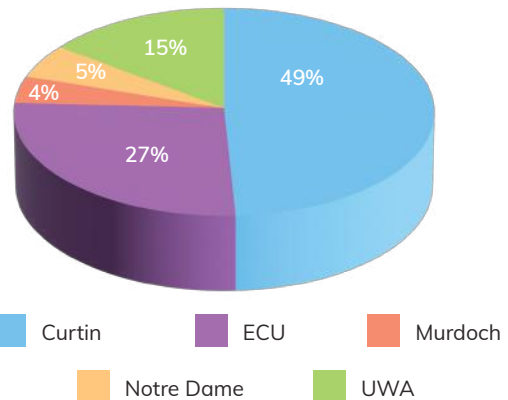

JSRACS was named in the top schools (based on the percentage of students in the top 15 per cent in a subject across the State) for Literature.

Student Destinations

RETENTION RATES AND POST SCHOOL DESTINATIONS

Of the 77 JSR students who applied to attend university, 43 had an ATAR. The remaining 34 places were filled by students who completed the Uni-Ready course, achieved a Certificate IV, and/or applied with a performance portfolio. Overall, 75 out of the 77 applicants were offered a position to attend university in 2024.

UNIVERSITY OFFERS BY FIELD OF EDUCATION

Support for Students

At John Septimus Roe Anglican Community School, we prioritise academic support for all students with a comprehensive and tailored learning program. Our dedicated staff participates in ongoing training to develop Individual Education Plans (IEPs) and adjust teaching strategies to meet the unique needs of each student. This ensures that every child receives the targeted assistance necessary to thrive academically and reach their full potential.

In addition to our classroom strategies, we provide further support through the Education Support Services (ESS) Team. This team is dedicated to helping students who face challenges in accessing the curriculum

appropriate for their year group. They offer both in-class support and withdrawal programs focusing on Literacy and Numeracy.

Moreover, our commitment to holistic student support extends beyond academics. We have invested significantly in enhancing our support framework by employing specialised professionals, including a Speech Pathologist, an Occupational Therapist, a Social Worker, and two Psychologists. These professionals collaborate closely with our Executive Team, teaching staff, and support teams to effectively address academic challenges as well as social, emotional, and developmental needs.

Through this interdisciplinary approach, we create a cohesive and comprehensive support system that benefits every student within our school community. Our dedication to fostering an inclusive and nurturing environment ensures that all students have the opportunity to succeed.

Community Engagement & School Satisfaction

In 2019, John Septimus Roe Anglican Community School (JSRACS) collaborated with researchers from Edith Cowan University (ECU) School of Education to investigate the factors influencing student attraction and retention. This research was conducted by way of an online community survey, including an invitation for all stakeholders to be interviewed in small groups across the community. Due to the success of this initial study, ECU was invited to conduct a similar community survey for JSRACS in Term Four of 2024.

The research employed online surveys and focus group discussions. Surveys were distributed to JSRACS students, parents, and staff to assess their views on various aspects, including:

- Teaching and Learning
- Student Well-being
- School Facilities
- Staff, Leadership, and Governance
- School Communications
- Quality of Education/Value for Money (parents only)

Quantitative (survey) data was collected from 1,065 students, 245 parents, and 85 staff members. Qualitative data was collected through 8 focus groups with students, parents or staff members. All participants had the opportunity to share their experiences and suggestions for improvement

PARTICIPATION

STUDENTS

Students from Years 2-12 participated in the study. Of the 1065 students overall, 525 (49.3%) were male, 506 (47.5%) were female and 34 (3.2%) preferred not to answer. By school grouping, 383 (36.0%) of students were in Years 2-6, 41.5% of students were in Years 7-9 and 22.5% of students were in Years 10-12.

PARENTS

245 Parents from PreK-Year 12 participated in the study. Most (91.8%) had two or less children at the school. The largest representation of parents in the survey was from Years 7-9 (34.9%), followed by Years 2-6 (28.2%).

STAFF

85 Staff members participated in the study. Almost half (47.1%) of staff were secondary teaching staff, one-quarter were primary teaching staff (24.7%) and the remainder were administrative staff (28.1%).

TEACHING AND LEARNING

The student survey covered 15 aspects of teaching and learning at JSRACS. The parent and staff surveys had an additional item relating to whether the school caters for individual needs and provides support or extension where needed. The following figures show the top and bottom five responses for students for all groups for overall agreement and importance responses, followed by selected free text comments about teaching and learning. Full details provided in Appendix 1.

Comparison of TOP 5 staff, parent and student teaching and learning statements - Agreement

Comparison of BOTTOM 5 staff, parent and student teaching and learning statements - Agreement

STUDENT WELLBEING

The student survey included 10 items relating to student well-being. The parent and staff surveys had five additional items, including whether their relationship with the school is valued and teacher commitment to the development of students' spirituality, well-being, and academic improvement. The following figures show the top and bottom five responses for students for all groups for overall agreement and importance responses, followed by selected free text comments about student well-being. Full details provided in Appendix 2.

Comparison of TOP 5 staff, parent and student well-being statements - Agreement

Comparison of BOTTOM 5 staff, parent and student well-being statements - Agreement

SCHOOL FACILITIES

The surveys for parents and staff included six items relating to school facilities. The student survey had only five items since it did not attempt to canvass students' views about the JSRACS strategic building program. The five items asked of all groups are shown below.

Comparison of staff, parent and student school facilities statements - Agreement

STAFF, LEADERSHIP AND GOVERNANCE

Only two survey questions about staff, leadership and governance were the same for all three stakeholder groups, reflecting the different roles, interests and needs of students, parents and staff. Below, the two items are compared and remaining items are then shown separately.

Comparison of staff, parent and student staff, leadership about student well-being & governance

Parent responses for staff, leadership & governance statements – Agreement & Importance

Teacher responses for staff, leadership & governance statements – Agreement & Importance

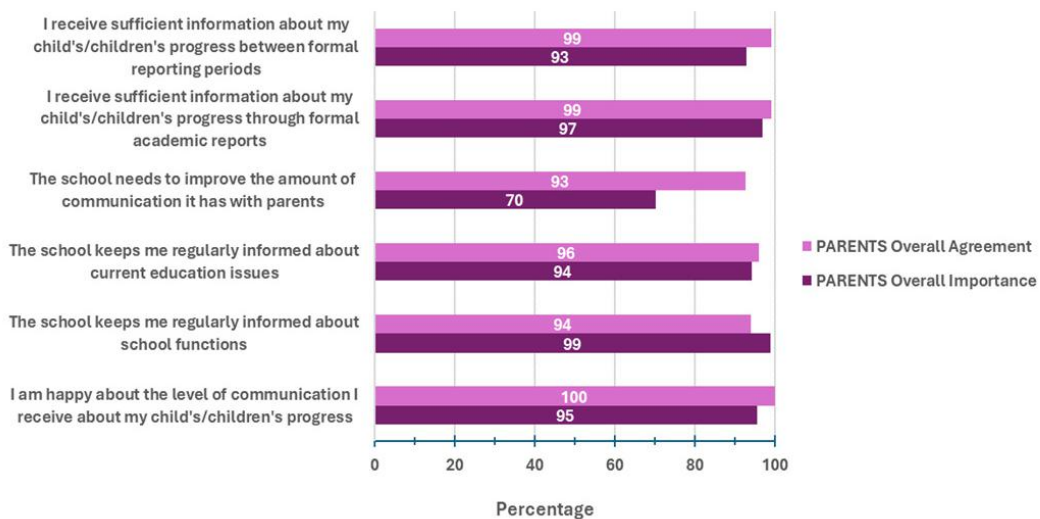

STUDENT COMMUNICATION

The student and staff surveys each had four items relating to school communications. The parent survey covered six items. Since most of the items were worded differently to reflect the differing roles, needs and interests of the stakeholder groups, results are presented separately for each group

Student responses for school communications statements – Agreement & Importance

Parent responses for school communications statements – Agreement & Importance

Teacher responses for school communications – Agreement & Importance

SUMMARY COMMENTS

The interim results for the March 2025 study at JSRACS involved a comprehensive survey of students, parents, and staff. The study included 1065 students from Years 2-12, with a nearly equal gender distribution. Parents of students from PreK-Year 12 (n=245) and 85 staff members also participated.

The survey results covered teaching and learning, student well-being, school facilities, leadership, governance, and communication:

- Teaching and learning reported generally very good results and identified ICT skills, homework, risk-taking and students' non-academic pursuits as areas for improvement.
- Student well-being reported a wide range of results and indicating that children's personal sense of well-being has a number of areas for attention. Nevertheless, students reported they usually felt connected to their school and teachers.
- School facilities and environment were considered very good by all groups.
- Staff, leadership and governance reported overall that teachers were excellent, although to a lesser extent by students. While regular school communication was present, there is a general lack of knowledge about the School Council. All groups reported that the principal's leadership of the school was excellent.
- School communication reported mixed results, with the frequency of communication being high, but with parents and students reporting they would like to be better informed about upcoming school activities and student progress.

Sentiments varied, with positive feedback on supportive staff and teaching quality, but concerns about class sizes, behaviour management and communication issues were noted. Overall, the study provided valuable preliminary insights into the school community's experiences and areas for improvement. The final report which is due in June 2025, will provide detailed results that build on those presented herein and recommendations for future consideration by the School Council and the School leadership team.

Teaching Staff

(1/1/2024 – 31/12/2024)

Executive Team
