The Turner Hastings Difference

At Turner Hastings, we understand that home is where the heart is. Every Turner Hastings product - from the smallest chrome fitting to the most elaborate fine fireclay sink is designed and manufactured to create unique, inviting and luxurious living spaces that stand the test of time.

Our exclusive range allows you to design a kitchen, Butler's pantry, laundry or bathroom that is a true reflection of your appreciation for unparalleled quality and design.

Culture of Customer Care

We are an Australian family-owned and operated business since 1996. For over twenty-nine years our culture of customer care allows us to serve the Australian market the way they deserve - to the highest level.

Rest assured with Turner Hastings' industry leading guarantee!

Worried about breakages in transit? Worry no longer! We are pleased to announce a new industry-leading guarantee, if there is **damage in transit, we will replace the product free of charge within 365 days** of the invoice date.

Terms and conditions apply. Please refer to our website for further details.

Why You Should Consider TitanCast Solid Surface for Your Bath

WHAT IS TITANCAST? TitanCast is a solid surface material made from a blend of premium light materials, with a ratio of 50% high-quality mineral fillers (such as Titanium and Quartz) and 50% resin. This unique formula of higher than industry average level of high-quality resin ensures the baths' quality allowing us to guarantee it with a lifetime warranty.

Using this superior material, the Turner Hastings TitanCast Solid Surface Freestanding Baths and Basins are unparalleled in quality, performance, durability, and beauty. They are **non-porous, hygienic, stain and chemical resistant, and a repairable material.** The advanced blend of premium materials that are light in nature make the baths easy to install. Any scratches or marks can easily be buffed out with a refurbishing pad throughout the bath's lifetime. Furthermore, the white finish is crafted to match high-quality ceramics creating a cohesive look in your bathroom.

Made in South Africa, and rest assured with a **lifetime warranty** and backed by our **365 Transit Guarantee.**

Refined Luxury

CLASSIC STYLE WITH MODERN FUNCTIONALITY

Refined Luxury in your bathroom combines classic style with modern functionality. It aims to create a sophisticated and upscale atmosphere within the bathroom space.

INVEST IN HIGH QUALITY materials and fixtures. The goal is to create a bathroom that not only looks luxurious but also stands the test of time. Adequate lighting is essential in showcasing the beauty of Carrara marble and brass elements. Incorporate both natural and artificial lighting for a well-lit space. Add depth and texture to the design through the use of plush towels, soft bath mats, and decorative accessories. Layering adds richness to the space.

PATTERNS & TEXTURE

Consider incorporating subtle patterns or textures through wallpaper, tiles, or accessories to add a touch of personality without overwhelming the space.

Why You Should Consider MagnaCast Mineral Composite for Your Bath

Discover the perfect harmony of resilience, hygiene, and elegance in our mineral composite baths and basins.

MagnaCast is crafted from a unique mineral composite material that offers a host of features and benefits that will transform your bathroom experience.

WHAT IS MAGNACAST? MagnaCast is made in Europe, from a blend of dolomite and elastic resin, creating a mineral composite that is exceptionally durable and resistant to impact. This robust material ensures your bath and basin will withstand everyday use and potential mishaps, providing peace of mind for years to come.

Mineral Composite, the core material of MagnaCast, possesses inherent anti-bacterial properties. Laboratory tests and ISO certification confirm its effectiveness in preventing the growth of harmful bacteria and germs. This makes it easy to maintain a sanitary bathroom environment by simply using regular cleaning agents. Say goodbye to concerns about bacteria lurking in your bathroom.

Narva 160 x 74 MagnaCast Freestanding Bath

The smooth finish of MagnaCast products not only enhances their aesthetic appeal but also plays a crucial role in their functionality. The nanocoat surface ensures resistance to extreme conditions, preventing bacterial growth and water absorption. You can expect your MagnaCast bath and basin to maintain their quality and ease of care.

MagnaCast's Mineral Composite baths and basins redefine your bathroom experience with their remarkable features and benefits. You can enjoy the perfect blend of durability, hygiene, and comfort, ensuring your bathroom remains a welcoming and pristine space. Say goodbye to the worries of bacteria, and embrace a bathroom experience that is both luxurious and hassle-free.

Are You Looking For An Easy to Clean Basin to Handle Everyday Use?

Consider a fine fireclay basin, they are known for their exceptional durability, hygiene, style, and are making a splash in bathroom design. These fireclay basins, fired at high temperatures, are resistant to stains and scratches, offering long-lasting beauty.

Fino 55 x 38 Above Counter Basin - Matte White, Bathroom design by Adore Bathrooms & Kitchens, Hunters Hill

Fino Round 382 Above Counter Basin - Gloss White

FINE FIRECLAY BASINS are fired at very high temperatures, resulting in a strong, non-porous finish that resists stains and scratches. Fine fireclay is a popular material choice for bathroom basins for several reasons:

DURABILITY

Fine fireclay is a very durable material that is resistant to scratches, chips, and stains. It is a long-lasting material that will stand up to the wear and tear of daily use in a bathroom. It is this process that makes it less fragile than standard ceramic, and therefore much more resistant to impact.

Many imagine a basin in their bathroom will chip or smash easily if an accident happens like if a perfume bottle drops into the basin. Fireclay is not like this, it will absorb the impact.

HYGIENE

Fine fireclay is a non-porous material that is easy to clean and maintain. It is resistant to bacteria and other microbes, making it a hygienic choice for a bathroom basin. This means that stains and dirt have a hard time penetrating the surface and are more likely to stay on the top layer, making them easier to wipe off.

STYLE

Fine fireclay basins come in a range of styles and shapes, from traditional to modern, allowing you to choose a basin that suits your personal style and the overall look of your bathroom.

SUSTAINABILITY

Fine fireclay is an environmentally friendly material that is made from natural clay and minerals. It is a sustainable choice for a bathroom basin that has a low impact on the environment.

If you're looking for a basin that is easy to clean, durable, and stylish, a fireclay basin is an excellent choice. With its resistance to stains and scratches, you can enjoy a pristine and functional bathroom for years to come.

INTRODUCING

Whisper FLUSH™

ULTRA-QUIET FLUSHING PERFORMANCE

Our next-generation rimless toilet suite engineered for performance and peace of mind. With a whisper-quiet flush and hygienic rimless design, it delivers powerful performance without the noise. The sleek silhouette and soft-close seat complement a modern bathroom aesthetic, while its water-saving functionality meets today's environmental standards. Experience discreet luxury with every flush.

SCAN TO WATCH OUR

WHISPERFLUSH VIDEO

Fino WhisperFlush Floor Mounted Pan in Matte White with Thin Seat

Fino WhisperFlush Floor Pan with Thick Seat

Fino WhisperFlush Toilet Suite with Thin Seat

5 Advantages of our WhisperFlush Toilet

WHAT IS A WHISPERFLUSH RIMLESS TOILET? Traditional toilets feature a “box rim” design, where water is released through holes under the rim when flushed. In contrast, rimless toilets eliminate this hidden rim, allowing water to be powerfully propelled around the bowl in one seamless motion. A rimless toilet without the rim inside the pan is the most hygienic choice for your toilet, they are very easy to clean and has an excellent flush performance as water is propelled around the bowl.

1. Effortlessly Clean

With no rim or crevices for dirt to hide, the fully glazed open-rim bowl is easy to maintain. A single wipe keeps the surface spotless, supporting a cleaner, more hygienic bathroom.

2. Exceptional Hygiene

Our advanced WhisperFlush technology ensures a thorough, splash-free flush every time. Combined with the rimless design, it minimises bacteria build-up and keeps your space fresh and hygienic.

3. Powerful, Quiet Performance

The Fino range features a precise and efficient flush that’s surprisingly quiet. WhisperFlush delivers high-performance flushing with minimal noise – discreet, yet effective.

4. Premium Comfort and Durability

Choose between a slim or standard soft-close seat – both crafted for comfort and backed by a 5-year warranty.

5. Contemporary Design Versatility

Available as a back-to-wall suite or floor pan in matte white or gloss white and is covered by our 365 Transit Guarantee for peace of mind.

Our Signature Selection

A collection of versatile products to suit a wide range of Australian trends.

SINK STAIN & SCRATCH TEST VIDEO

Why You Should Consider Fireclay for Your Kitchen Sink

Designed and built to handle the knocks of everyday life, fine fireclay sinks are highly durable without compromising on style.

WHAT IS FIRECLAY? Fine fireclay, is a 100% natural organic and recyclable material used by craftsman. Fired at very high temperatures that reach up to 1200°C, the clay is transformed into a durable, impact resistant dense material.

The special glaze coating that is fused with the fireclay sinks a non-porous, uniform surface which will not rust or stain over time, and is highly resistant to scratching.

Unlike other synthetic sinks in the market which are known to stain and scratch easily. Rest assured with our lifetime warranty and our 365 Transit Guarantee

Turner Hastings is so confident in the enduring strength, and impact-resistance of its genuine European fireclay sinks that we are backing it up with a guarantee never before offered in this industry!

We guarantee your sink won't be damaged by pots and pans, so to give you peace of mind, we will replace it for you free of charge if you do somehow damage it!

Inset or Undermount?

WHAT TO CONSIDER WHEN DECIDING YOUR INSTALLATION STYLE

Choosing the right sink for your kitchen or laundry is a critical decision in the renovating or building process. Fireclay sinks have gained immense popularity due to their timeless charm and durability. However, when it comes to installation, two primary options stand out: inset and undermount.

Novi 60 x 46 Fireclay Butler Sink in matte white, undermount installation.
Kitchen design by Studio Priscilla. Photography by Romeo Archi

Cuisine 46x46 Inset/Undermount Sink in gloss white, inset installation. Laundry design by Kate Nixon Design Studio, Yarranabbe House NSW, Photography by Maree Homer

UNDERMOUNT SINKS are installed beneath the countertop, providing a clean and modern look.

EASY CLEANING

With no rim or lip on the edge of the sink, cleaning is easy! Simply sweep crumbs and spills directly into the sink.

MAXIMISE SPACE

With no overhanging rim, maximise space on your benchtop.

UNDERSTATED ELEGANCE

Undermount sinks are often chosen for their ability to showcase the beauty of high-end countertop materials, such as granite or quartz. The uninterrupted flow of the countertop material creates an elegant and luxurious look.

INSTALLING AN INSET SINK, also known as a drop-in or top-mount sink, is a popular choice for many homeowners.

EASE OF INSTALLATION

Makes them a great choice for DIY, the process typically involves dropping the sink into a pre-cut hole in the bench top and securing in place.

VERSATILITY

Inset sinks work well with various benchtop materials, including laminate, solid surface, and timber. You can easily replace or upgrade an inset sink without the need for significant benchtop modifications.

The Refined Laundry

DESIGNING A BEAUTIFULLY FUNCTIONAL LAUNDRY

Far more than a utility space, today's laundry can be a refined extension of your home's design. With thoughtful planning, timeless fixtures and purposeful storage, even the most compact laundries can feel calm, efficient and beautifully put together. It's all about pairing style with smart functionality making everyday tasks feel just a little more elevated.

 B. Cuisine 60 inset/undermount in gloss white, laundry design by Built to Desire Kitchens
 C. Novi 60 x 46 Fireclay Farmhouse Butler Sink in matte white, laundry design by Newline Kitchens, photography by Simon Whitbread photo.

ADD A HANGING RAIL

For hanging washing to dry or hang clothing after ironing.

OPEN SHELVING

With functional storage such as baskets, containers and jars can add style to the laundry room and break up the utilitarian feel.

BE BOLD WITH COLOUR

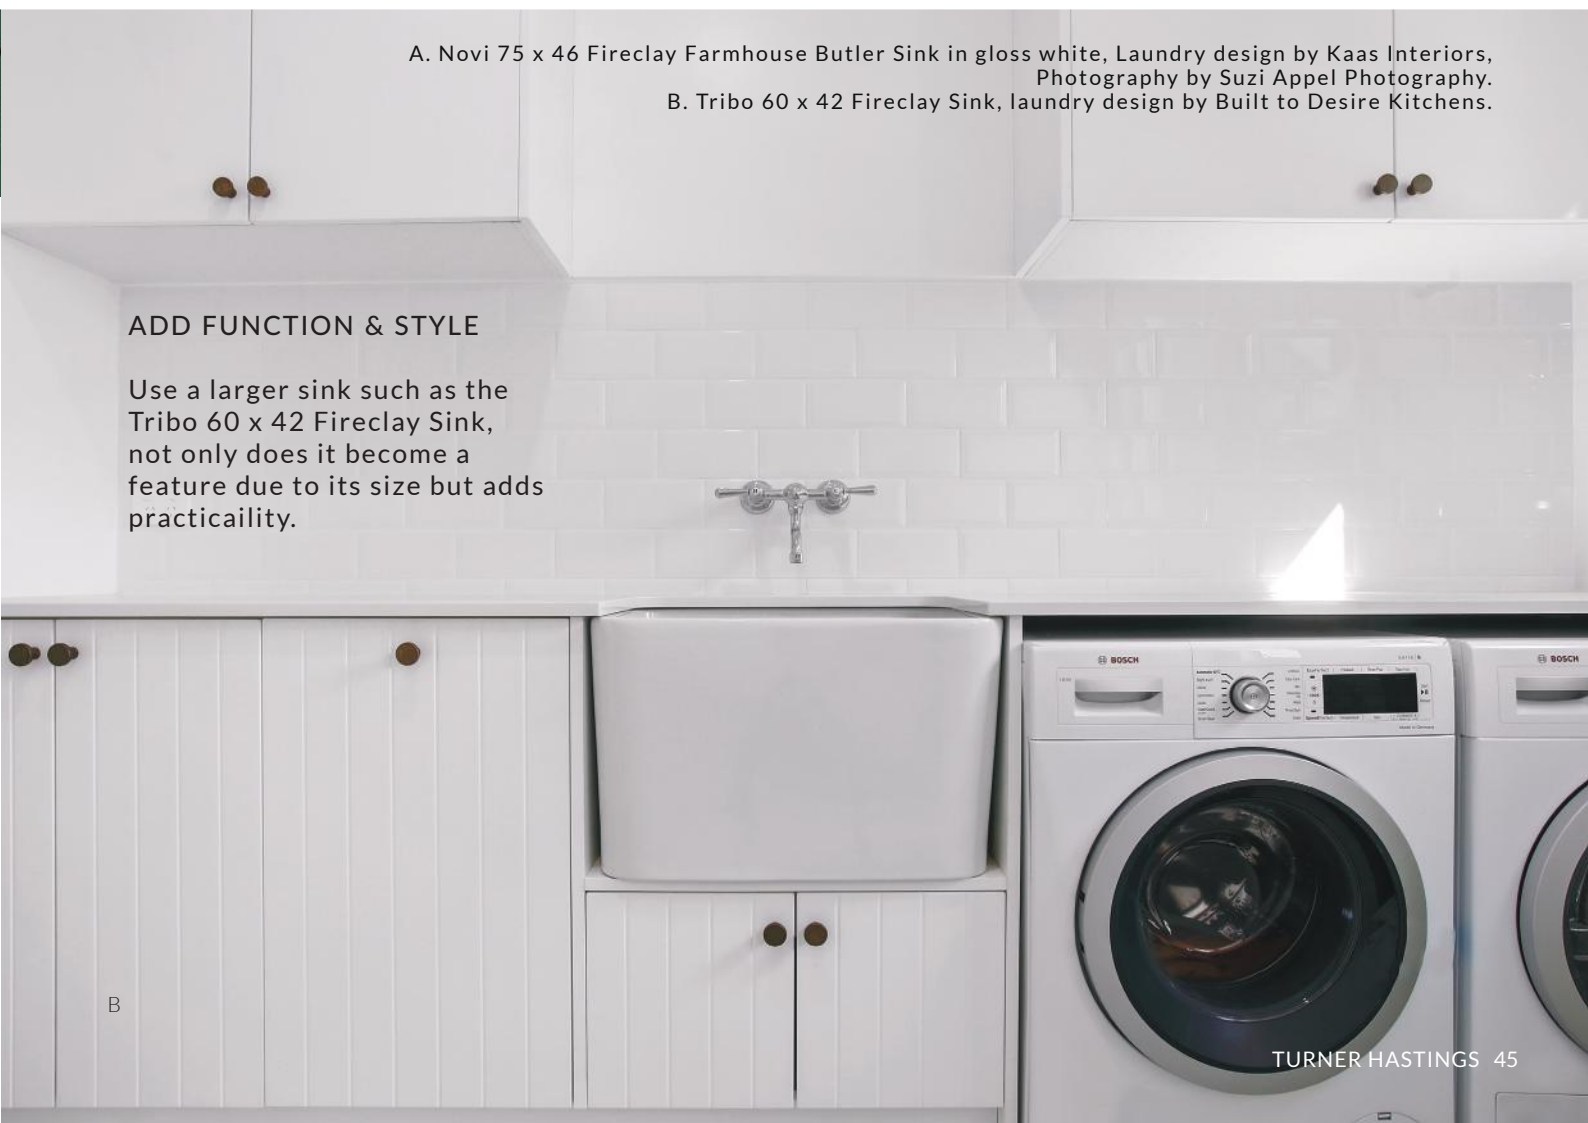

Choose to go dark or bold with your cabinetry particularly if your kitchen is light or neutral. Using the same style of cabinetry such as a shaker style and using similar hardware finishes will complement the kitchen.

B

A. Novi 75 x 46 Fireclay Farmhouse Butler Sink in gloss white, Laundry design by Kaas Interiors, Photography by Suzi Appel Photography.
B. Tribo 60 x 42 Fireclay Sink, laundry design by Built to Desire Kitchens.

ADD FUNCTION & STYLE

Use a larger sink such as the Tribo 60 x 42 Fireclay Sink, not only does it become a feature due to its size but adds practicality.

B

Our White Sinks

More than any other kitchen fixture, your sink is the heart and soul of the kitchen environment. It's perhaps the most used object in your kitchen.

IN MATTE BLACK

COUSILLER

In the ever-evolving world of interior design, one finish continues to make a bold yet refined statement, matte black. Loved by designers and homeowners alike, it brings both contrast and elegance to modern spaces.

What sets our matte black fireclay sinks apart is the depth and purity of their colour. Crafted with an exceptionally high-quality glaze, they achieve a true, solid black, free from the flecks and grey undertones often seen in synthetic granite alternatives. The result is a sleek, uninterrupted finish that delivers striking sophistication to kitchens, laundries, and butler's pantries.

Australian's Love

AN OUTDOOR KITCHEN

6 REASONS WHY YOU SHOULD CONSIDER FIRECLAY FOR YOUR OUTDOOR KITCHEN SINK

1. DURABILITY made from a blend of clay and glaze that is fired at high temperatures, resulting in a durable, non-porous surface that can withstand the elements. Unlike other materials, fireclay sinks do not rust, chip, or stain easily. It is highly scratch resistant, unlike other synthetic sinks in the market which are known to stain and scratch easily.

2. HEAT RESISTANCE they can handle hot pots and pans without sustaining damage. This makes them an ideal choice for outdoor kitchens where grilling and cooking over an open flame are common close to the sink.

3. EASY TO CLEAN and maintain, thanks to their non-porous surface. It also ensures the sink will not stain over time and will not be stained by leaf tannins making them an ideal choice for outdoor use.

4. UV STABLE highly durable glazing, as the colour is sprayed onto the sink prior to it being fired at very high temperatures (in excess of 1200°C) in the kiln. This means the colour is fused into the clay which makes it impossible to the UV to fade the finish on the sink.

5. ENVIRONMENTALLY FRIENDLY fireclay sinks are made from natural materials and do not contain any harmful chemicals or toxins, making them an eco-friendly choice for homeowners who are concerned about the environment.

6. AESTHETICALLY PLEASING fireclay sinks come in a range of styles and colours, making them a versatile choice for any outdoor kitchen design. Available in inset/undermount or butler/farmhouse style there is a fireclay sink to suit your space.

WHAT ABOUT THE COLOUR FADING IN THE SUN?

Colour glazing is done before the sinks are fired. For this reason, the matte black and concrete look finish has exactly the same features as gloss and matte white sinks, therefore they are UV stable and therefore cannot be affected by sunlight.

Our Concrete Look Sinks

Enjoy the look and texture of concrete, but with durability, ease of cleaning and the other benefits of fine fireclay. These sinks are non-porous, stain resistant and UV stable, unlike concrete which is likely to stain, fade over time and requires maintenance.

THE NAPLES PULL-OUT MIXER TAP

With a distinctive, modern pull-out design with a slim single lever handle for optimal control. Designed in England, and expertly crafted in Italy. The tall goose neck spout of the Naples pull out spray mixer provides added functionality and flexibility allowing you to reach into the corners of even the largest of sinks.

Made from lead-free brass, our tap guarantees durability and safety, while its minimal lever handle design offers the convenience of controlling temperature and flow with a single handle, simplifying operation and adjustment.

Sustainable Practices

We are committed to environmental awareness and responsibility to reduce our environmental impact. We have sustainable practices within our internal operations and across our supply chain minimising our environmental footprint. We recycle all of our packaging material by reusing or recycling in the appropriate way.

Protecting Our Environment

Our factories have an ISO 14001 Certification or are working towards this. They use any unfinished, unfired material or waste material from production processes to be repurposed into new products, resulting in zero waste, and protecting the environment.

Ethical Practices

We care for people. The majority of our factories are in developed democratic nations such as Turkey, Italy, Portugal, and England where these countries have anti-slavery laws.

Reducing Chemical Use

To better serve our customers in their homes, our products are created in such a way that they result in easy-to-clean, bacteria resistant surfaces that do not require the use of harsh chemical cleaning products.
