

The background of the top half of the image is a complex, abstract geometric pattern. It features a mix of teal and gold colors. The pattern consists of various shapes, including circles, squares, and rectangles, some of which are filled with a dense, diagonal hatching or 'wood grain' texture. Other shapes are solid teal or gold. The overall effect is a rich, layered, and somewhat chaotic yet harmonious composition.

ORBITAL

ORBITAL

Light, Colour & Texture

The texture catches the light, she lets us discover the colours.

What a magnificent challenge it was for our passionate and talented team of designers to try to capture these three basic elements and to bring them into balance. So, the magic formula consists of finding the colours that create emotions , underlining the importance of the texture and welcoming the light that accentuates the created harmony.

In all modesty, we tried to create a collection ORBITAL that embraces the symbiosis of these three important elements.
