

Standard Single Speed Pool Pumps

This page covers the single speed pumps that we offer to our customers.

Standard Single Speed Pool Pumps

At Pool Stop, we offer the Jandy line of single speed pool pumps.

Jandy Flo Pro™ Variable Speed Pump

Product Features:

Jandy Flo Pro Pump Design - this pump produces great flow and is probably quieter than your current pool pump.

Three Year Warranty - not every company can offer this, but as your source for Jandy Professional products, we can.

Compact Size - designed as a "drop in" replacement for most other non-efficient swimming pool pumps.

2" Unions - for simpler installation and easy removal for future service needs.

Adjustable Base - allows the pump to line up with almost any pre-existing plumbing setup.

Large Capacity Basket - heavy duty construction

Different Sizes - this pump is offered in 1.0 HP to 2.5 HP models depending on your pool needs. We carry the 1.5 and 2.0 HP models on our service vans.

****This pump is also available in a high efficiency variable speed model that can save you 75% on your pool energy costs.**

The Jandy Flo Pro Pool Pump is designed to work as a great drop in replacement pump for older pumps like the Pentair Challenger, Pentair WhisperFlo, Hayward Super 2, and many other swimming pool pumps. Its compact size our other variable speed pumps, so it fits into those tighter spaces that you often find on an equipment pad. This is our most common pump because of its versatility. We carry these in stock and have them available for quick installation when the need arises. If it is time for a new pump, call and schedule your service visit today with one of our licensed professional Pool Stop technicians.

Jandy Stealth™ Single Speed Pump

Product Features:

Jandy Stealth Pump Body - a proven performer that produces more flow with less noise.

Three Year Warranty - not every company can offer this, but as your source for Jandy Professional products, we can. "E-Plus"

Energy Efficiency Motor - saves up to 20% in energy costs versus standard efficiency motors.

2 x 2.5" Unions - designed for installation on 2" or 2.5" piping

Large Capacity Basket - this pump has the LARGEST capacity basket in the industry. Great for leafy situations.

Different Sizes - this pump is offered in 0.5 HP to 5.0 HP models depending on your pool needs.

Available with SVRS (Safety Vacuum Release System) which meets VGB compliance standards.

****This pump is also available in a high efficiency variable speed model that can save you 75% on your pool energy costs.**

The Jandy Stealth Pool Pump has a carefully engineered design that is both quiet and efficient. It has a larger basket than the Flo Pro pump.

This pump is a good retrofit option if your equipment pad has the space for it. If you are not sure about the space, feel free to email us a picture of your equipment pad and we will do our best to help you in this determination.

Why should you use Pool Stop for your pump installation?

State Licensing - our technicians carry the proper state licensing for your safety and peace of mind.

Experience - we have considerable experience installing variable speed pumps and optimizing the pool for maximum savings.

Our Reputation - Pool Stop Custom Pools has an established reputation for great service and value.

Extended Warranty- with Pool Stop you get a full three year parts/labor warranty when installed by our professional technicians.

If you purchase pool equipment online and install it yourselves, most manufacturers either void your warranty or drastically reduce it to only 60 days.

If you are ready for a new pump, call our office and set an appointment with one of our professional repair technicians. We will carefully evaluate your system and recommend the very best pump for your application.
