Nourishing children's dreams

A Project of **youth for seva**

**1592**

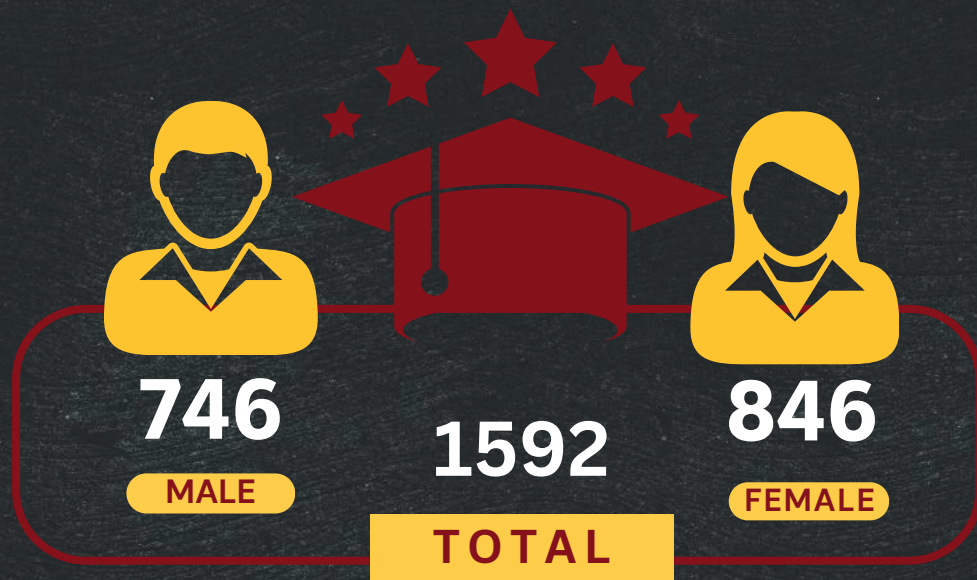

**Total Scholars**

The Vidya Chetana initiative, established in 2009, has been pivotal in supporting the education of underprivileged children, providing essential financial aid to nearly 6000 students over the years. In 2015, the program expanded its focus to include higher education for talented students from economically disadvantaged backgrounds, offering scholarships to those facing significant financial challenges. This support enables them to pursue higher education after completing PUC (10+2).

Beyond financial aid, Vidya Chetana adopts a holistic approach to student development. We offer value-based and skill-building sessions on topics such as leadership, communication, Financial management and resume building to prepare students for their future careers.

## SCHOLARSHIP DISBURSEMENT

Selected students are categorised stream-wise & granted funds accordingly

## ENGAGEMENT WITH SELECTED STUDENTS

Students also benefit from our career counselling, 21st century skills session, employability readiness program & more.

## SELECTION

Our volunteers conduct a need assessment to identify eligible students for scholarship

# Beyond Scholarship Program

Vidya Chetana adopts a holistic approach to student development. We offer value-based and skill-building sessions on topics such as leadership, communication, Financial management and resume building to prepare students for their future careers.

**Exposure visits** are conducted to help students broaden their awareness, foster connections, and develop networks among peers.

**AIKYAM** - one day Camp, workshops are organized for the students to enhance their skills, leadership abilities, and interpersonal development. Additionally, external experts are invited to facilitate skill development sessions, ensuring students receive guidance from a wide range of professional resources.

The program also provides various volunteering opportunities to raise awareness of social issues and encourage active involvement in causes such as lake cleaning, conceptual painting, and teaching in government schools. These activities aim to instill a spirit of service (seva manobhava) among students, further enriching their personal and professional growth.
