

# SKATE

deep seater 1 s

footrest

side table

With a laid-back personality, this furniture collection is perfect for outdoor use. The curved seat of the lounge chairs draw inspiration from a skateboard. The round and curled-up sides give it grace and comfort, leaving the loungers unaware of its seating. An aluminium powder coated frame and a polyolefin rope finish make the furniture durable, outdoor-proof and weather-resistant. The materials are lightweight, easily separated, and can be recycled after use.
