# The week

## Day 1:

When you land at Hurghada Airport, you will be picked up to ensure a comfortable transfer to the yacht. After settling into your cabin, you'll have the chance to meet fellow travelers over dinner. The yacht will remain in the port for the first night.

## Day 2:

In the early morning, the yacht sets off from the port toward our first spot, where we'll enjoy breakfast on the way. The instructors will give a briefing and an introductory theory session for beginners. Once the yacht is anchored, the yacht and the island will serve us as our training base. Whenever it is matching into the day, you will have a delicious lunch. In the evening, after dinner, we'll gather with the instructors for a relaxed debrief of the day and briefing of next day.

## Day 3-7:

We will ancor on 2-3 different spots with different impressions. You'll spend the week kitesurfing, efoiling, wingfoiling, diving, snorkeling, wakeboarding, relaxing, disconnecting and enjoying grilling fresh meat and seafood, along with other fun experiences on the yacht's deck. In the evenings, you can relax in the cozy indoor lounge on the upper deck to watch videos and hang out. If you prefer, unwind at the bar, soak in the Jacuzzi, or even join a party on the island. On the final day, we'll have one last morning session before the yacht makes its way back to the port, where we will spent our last evening. Up to you to relax or join a beach party which last the whole night.

## Day 8:

It is Saturday and time to say good bye and to recognize that you regret for not having done this experience earlier, but your joy outweigh this by far.

After breakfast, we'll arrange your transfer to the airport, ensuring you arrive in time for your flight.

# Trainers / Lessons

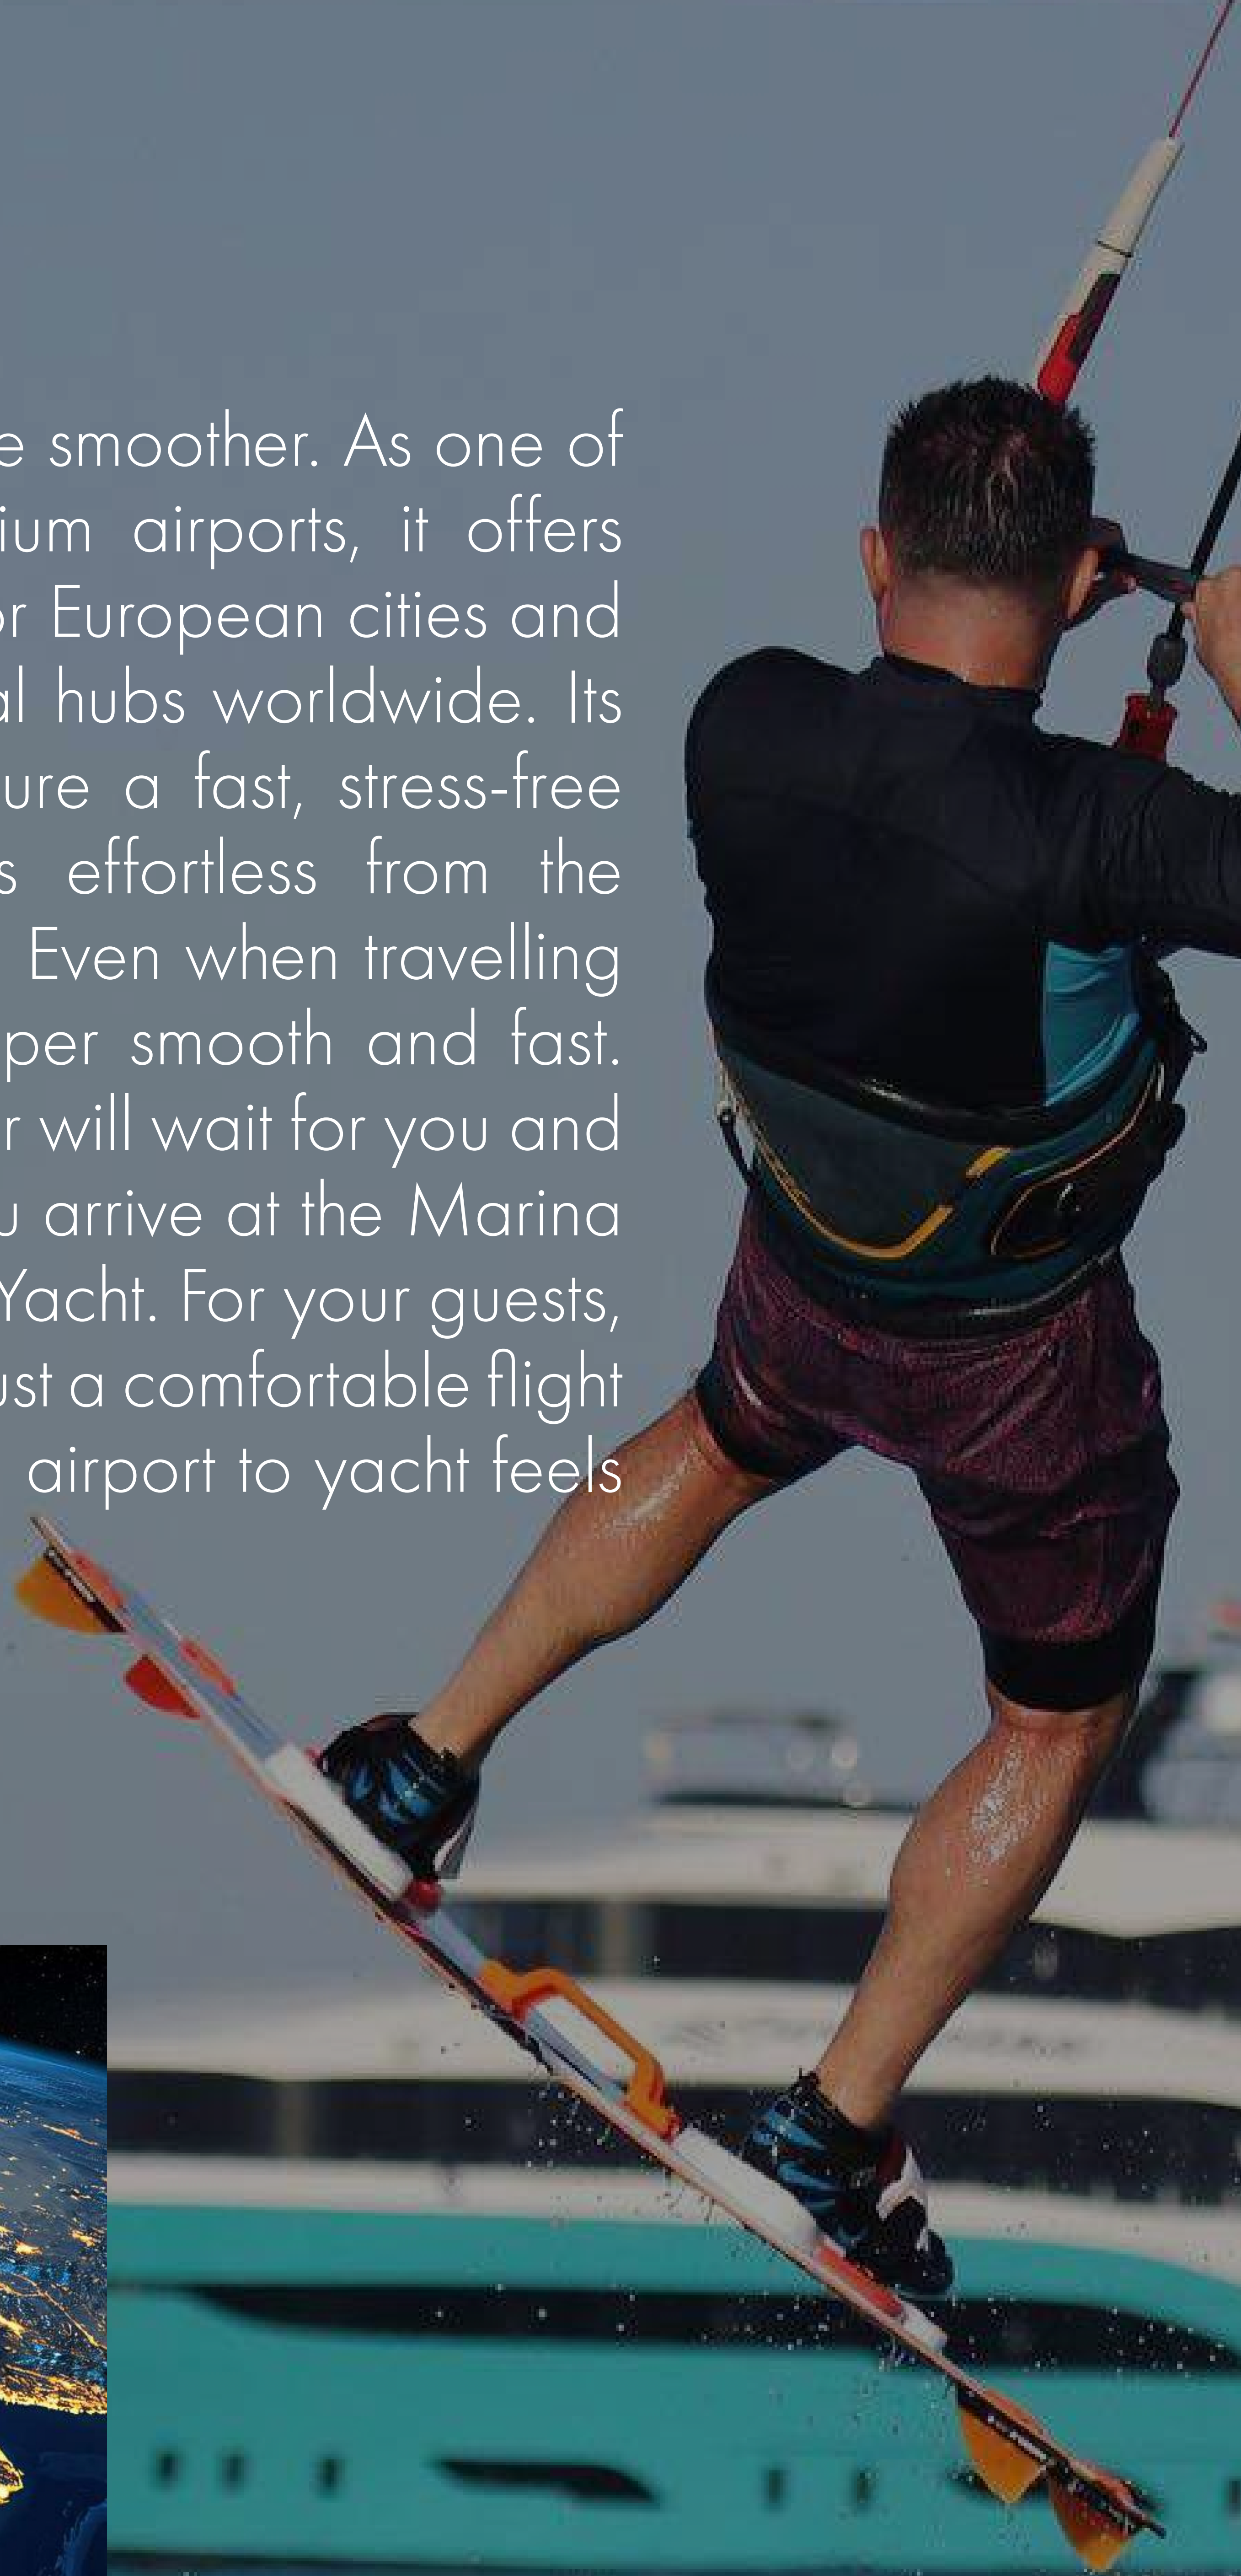

We offer top-level coaching right on the safari: a certified IKO kite instructor for beach-based kitesurf lessons, and an experienced and certified e-foil trainer working directly from the boat. With state-of-the-art equipment and true 1:1 guidance, you benefit from focused, intensive training in the best conditions. This setup ensures fast progress, safe learning, and the most effective sessions you can imagine. Ask us for your individual training program.

# How to reach

Reaching Hurghada couldn't be smoother. As one of Egypt's most connected premium airports, it offers frequent direct flights from major European cities and seamless links from international hubs worldwide. Its modern, efficient terminals ensure a fast, stress-free arrival, so your journey feels effortless from the moment you step off the plane. Even when travelling with bulky luggage it goes super smooth and fast. Once you have landed, a driver will wait for you and just after a 20 minutes drive you arrive at the Marina and you can onboard on your Yacht.
