

**COLO**  
INTELLIGENT SPORTSWEAR

A full-page background image of an American football player in a red uniform, running with the ball. The player is wearing a red helmet and is captured in a dynamic, forward-leaning pose. The background is a dark red with glowing white geometric lines forming a grid pattern. The overall lighting is dramatic, highlighting the player's form.

# AMERICAN FOOTBALL

# TECHNOLOGIES

## SUBLIMATION

Printing technique on polyester materials. This technology is built on ecological, water-based inks that are safe for humans. Fabrics are dyed at high temperature. Ink in form of gas penetrates the fibers, allowing for very strong colour saturation with soft, imperceptible to the touch durable print, ensuring highest comfort of usage.

Printings are done with highest quality special machines on selected finest fabrics.

## FLEX FOIL

One of the most durable of methods printing on clothing which involves heating a thin, single-colour foil into the material using a specialized thermo-press. It guarantees exceptionally durable, flexible print which is smooth and pleasant to the touch. Wide range of colours allows you to create print tailored to Customer needs, while maintaining timeless simplicity and excellent quality.

## COMPUTER EMBROIDERY

Highest quality print consist on automatic sewing of pattern into fabric. Main advantage of embroidery is attractive in not only appearance but also is tremendously high durability. Modern embroidery machines and wide range of thread colours allow us to make multi coloured, often complicated prints while achieving most elegant look.

## COLOTECH PROCOOL

The special four channel construction of polyester yarn serves for optimal moisture management. Clothes manufactured with PROCOOL technology guarantee maximum comfort in all situations and keep the body at constant, comfortable temperature. Knitwear produced with this technology has structure that absorbs moisture very quickly, gives feeling of freshness, coolness and dryness.

## INTELLIGENT FABRIC

Material which is using special fiber structure was created to perfectly balance level of moisture, thank to which even in most intense work out moisture from skin is effectively removed, ensuring feeling of dryness and freshness. Fibers perfectly insulate, they are protecting against heat loss in colder conditions, while providing breathability so that body can cool down in warmer weather conditions.
