Hello Archie Family

Archie Token was launched on March 25, 2022, on Ethereum Network. We did have a dream because we created this token in memory of our beloved "Archie" who went to heaven on November 13, 2021. Our dream was not to hurt our holders by pumping and dumping. We setup an anti-whale system to prevent that from happening, along with a high tokenomics. Unfortunately, with the volatile crypto market and things that happened to eth prices caused our chart to crash. Along with those reasons, we could not attract more investors due to the fact of our tokenomics and our decision not to list on any exchanges. Some of these decisions may have looked bad in some eyes, I can look back and say that we made the right decisions. Because of the fact, we did have plan from the beginning to have our own blockchain and be independent from all this so called "traditional crypto" practices.

Even though, we didn't do much better of attracting more people into our project, we never stop investing on utilities. After our launch on March 25th, we introduced our Archie Staking and Farming along with Lucky strike on April 10th. Lucky strike was a total failure because of the gas that eth charges on uniswap. I have asked our holders not to use Lucky strike at all. But our staking was one of the best in the industry to offer. We have 30, 60 and 90 days with as much as 144% apy paid out. When I offered 144%, there were critics that said it is a gimmick. Of course, I have to arrange more tokens from the dev bag to accommodate the pay out, but we did take care of

each and every individual who have staked. We continued our staking program till October 7th.

Our decision not to go into CEX exchanges have hurt us for adaption of new holders and exposure in the market. At the same time, it would have hurt us a lot more because of what was happening in that sector of crypto industry.

As I always said to you all, my dream of buying a cup of coffee with Archie Coin one day somewhere in this universe. For that, we needed to focus more on research and development of upcoming Blockchain. I have devoted all my time and resources into it. We have hired engineers from all over the world to work on this project. For simple fact, it is more than just a Blockchain. It is a complete eco-system within crypto world that no one ever tried to do. Creating a crypto that will generate revenue from our ArchieMetaverse projects and services that everyone needs and will use and happy to pay for it.

Corona was a pandemic for us and our loved ones but, corona has taught us a lesson. Which is to do things untraditional way and we will be fine. Have you thought about having online class for your little kids? Of course, adults have been taking online classes such as continuing education or even post graduate classes. But for little ones? Never heard of it until Corona. Have you heard of meeting your doctor online via a phone app to get medicine for sickness? Now you know how that works.

These examples made me think. Are we behind on our uses of technology? Yes indeed. We need to look forward and think about the possibility of connecting Web 3 with AI (Artificial Intelligence) to do our day-to-day necessary small things even. How can we use that to create revenue by offering services or play-2-earn games and even having a real estate project in an imaginary virtual world and connect that to the real world. That is when the idea of ArchieMeta came up.

Again, the traditional crypto industry metaverse idea was brought to me again from lots of our holders to sell acres of land and use the money to build the Metaverse. I did not want to do that. So instead, we thought about another way to help our holders to have real passive income and that is when we introduced our ArchieNeko NFT. These NFTs are made from the image of our beloved Archie and assigned a position in the ArchieMetaverse. For example, we have planned for 72 projects in first phase of ArchieMetaverse. Projects planned includes Casinos, Raceways, shooting range, golf range, convention centers, night clubs, cruise ship and so on. All these projects need to be manned to have the real effect of these projects even though software's and smart contracts are doing the real work behind the scenes. In a way, instead of selling acres of land in virtual world, we are introducing a new way of using NFTs to pass the revenue to our holders. Then the next scenario came out about the NFTs. If

we allow people to mint them, then how are we really give them assigned duties and prices. So, we ended up minting every one of them and made it available for our holders to buy what they need based on the passive income anticipated based on the studies and factual data. Again, these are simply based on figures and actual may vary. Please do your own research. ArchieNeko NFT are ready to be bought and available in our website www.archienekonft.io. Please visit and if you are interested in owning one, please email me at info@archieneko.com or come to our 24 hours voice chat.

Meanwhile, we have been working on our Layer 1 Blockchain which is EVM Compatible and POS based. ArchieChain is very much needed to serve our purpose of using our own ArchieMetaverse. Lower gas fees and faster transaction are a few benefits to talk about.

While we are working on our blockchain, we always have to be realistic in business. We are a brand new blockchain and it will be hard for people to adapt to it. To tell you all the truth, even listing on Dextools is very hard for a new blockchain. Once the business picks up and of course everyone will list us and support us. We need to survive till then and still have people to come to our ArchieMetaverse and that's when the idea of Archie Aggregator opened up to us.

Archie Aggregator is decentralized exchange where once we list a blockchain, any token or coin that has liquidity and tradable can be swapped to any token/coin within our blockchain listing criteria. Let's elaborate, we all have tried to go from a token in ERC20 to a token in BEP20 for instance. You know what you all have to do to get this transaction done and it takes hours or even days. Now imagine, you have a swap in front of you that can swap against 50 blockchain and many more to be added, almost all wallets and DEXs such as Sushi Swap, Doge Swap, Pancake Swap and Uniswap to name a few. Currently, you will need whatever the gas required for each blockchain in your wallet but, that will change soon. We are working on integrating \$ARC to use as the gas all across all tokens/coins that is in the Archie Aggregator. Isn't that amazing? Soon it will be reality.

Now let's touch on our Blockchain, it is a Layer 1 EVM Compatible with Near-Zero Gas and based on POS. When I say Near-Zero gas, we have set it at 4 gwei and the speed of 2 seconds. Now how can we use our blockchain to build our future. \$ARC is the native coin of ArchieChain. Any transaction on ArchieChain is fueled by \$ARC. Not only that, when we are up and running and people see that our blockchain is working as we promised, ArchieMetaVerse is running smoothly, there will be other projects who want to deploy their token on our blockchain. That will bring more interest for our Blockchain along with the opportunity that they can pair against \$ARC for liquidity. Imagine several projects that will buy \$ARC and lock it as their pair liquidity and you can see where I am going with this.

Again, we will make it there one day. Do not think it will be done overnight. We have to build trust and security in people's mind to earn their business.

ArchieMetaVerse consists of two islands totaling over 13000 acres. As I mentioned above, it will have almost everything that you see in your real world day-to-day. City Hall, all departments of government body (police/fire/ambulance/water/park/toll/roads and bridges and so on). Along with all kinds of entertainment business on land and on water with cruise ship. We focused on more entertainment and gaming purpose and few real time services such as: meeting places. Convention centers. Technology and people's uses are outgrowing every day and we can always accommodate by adding more projects. We have minted 15000 Archie Neko NFTs and only assigned 9352 for current projects.

We are estimating about 3 Years to finish the Archie MetaVerse except for the third phase, which is the Archie Realty. We may start Archie Realty in 3 years. I am being realistic in here and will try to explain why.

First part of our Archie MetaVerse will be the Play-2-Earn section. As you all know the gaming and entertainment attracts individuals and families to our MetaVerse. We will have all types of games along with real life events in our Archie MetaVerse. To name a few, Casino, raceway, shooting range, golf course, night clubs, Cruiseships, conventions center, marina and so on.

Second part of our Archie Metaverse is e-Commerce. When we mention e-Commerce, it is about retail establishments that people will be or already are using to buy things. But being realistic almost everyone is into it now-a-days and by the time we get to it, it may not be good for us. Now, why didn't I try to do it faster? Good question let's look at it from a business perspective. If we are aiming towards e-Commerce rather than Play-2-Earn as we are doing, it will take lot more marketing and infrastructure and other things to accommodate the e-Commerce than play-2-earn gaming section. In other words, our holders are average people, and we are not hyping so much if our holders have to wait for a long time for their ROI. That's why I chose to do Play-2-Earn first and then work on to e-Commerce if, it is available. But then again, I have a plan B for everything.

Plan B of e-Commerce has to be presented after we talk about the third section of the Archie Metaverse. My all-time dream project, Archie Realty.

Archie Realty will be our flagship project within ArchieMetaverse and outside here in the real world. The need of new homes that is up to the new technology using the highest energy efficient will be needing for our future generations. Currently, homes are built with traditional ideas, and we are stepping into new era of people using their home not just to reside

but to explore the world. I may sound kind of crazy to you now, have you ever thought about running your entire business in a mobile device? Then my crazy thinking will be true one day. The new generation will need their dwelling to be used for multi-purpose and not just a place to reside anymore. We have our plans in place to build homes throughout the world to take advantage of this need by using highest available technology and applying the actual need of the new generation. For this, you may think why a crypto project trying to build homes? That is when I will say things are changing. There will be more people adapting to use crypto for their daily use and governments will regulate the crypto and it will be common for people to use their investments and buy a home with defi. Now, this is not going to happen overnight and that's why I stated above our flagship project only will start after all regulations are in place. Then only we can really use our defi crypto to sell or buy as a normal situation. It sounds a little crazy but think about what happened during corona. The abnormal was the normal.

Now, how is this going to work? There will be home plans that will be converted to NFT, and you will be able to buy that unique NFT home plan. Once we are ready to build that home somewhere in the world, you will have the first refusal to build that home and sell or you can sell the NFT home plan to the new owner to be build and make money.

Let's trace back to the second phase of ArchieMetaverse that left talking about Plan B. Second phase of ArchieMetaverse was e-Commerce and retail establishments and we stated there may be more competition in that sector because giants are there already. So, the Plan B is, we need to support our Phase 3 Archie Realty by helping their need of Home Building Supplies. If you are in home building, you will realize how short are that industry on products. IF we can have a supply chain to support our building project with latest and innovative technology products, I see a way to make money and support ourselves. We are looking to make an auto pilot system that will support our eco system and be generous to our holders.

We do not stop here; we need more utilities, and we are researching and adding many as the days to come. Few of the projects we are currently working on are:

Archie Wallet – 3 FA wallet that will have safety and security in the first place.

Archie Place – An NFT marketplace to be on Archie Chain and later on multi-Chain.

I do not want to brag about upcoming utilities until we are done and tested. As the that happens ,I will

definitely let you all know.

That gives a summary of our eco-system and the project overall. Now let's talk about our ArchieCoin and Archie Token.

ArchieCoin (\$ARC)

ArchieCoin (\$ARC) is the native coin of our own Layer 1 Blockchain ArchieChain. \$ARC will be used as the fuel (gas) for transaction in ArchieSwap. Not only that, but you will also need \$ARC in your wallet to connect to our upcoming ArchieMetaVerse. Not to mention, \$ARC will be used as the fuel for all tokens/coin in Archie Aggregator regardless of which chain they are in. We are configuring the system for you to have one coin \$ARC and our smart contract and API will do the necessary transactions for you in the back end. And, on our ArchiePlace (NFT Market Place) the native coin will also be \$ARC. Above all these, any project that will be deploying a token on our blockchain will need \$ARC and will be able to pair against \$ARC to create their liquidity. These are a few use cases of our \$ARC and will be more to come.

Being the native coin of ArchieChain, there are no tokenomics (No BUY or SELL Taxes). And being on our own blockchain, we have the gas fee at 4 gwei with fast 2 second transaction time.

STAKING

On top of all these, there are three staking options for \$ARC holders.

Staking Validators. Anyone can become a validator on our POS system by having 100000 coins staked using our validated node available in GitHub. We will also have a video and pdf document "how to be a validator "with Archie. As you know, validators share the gas fee we collect on each transaction based on their block creation.

DEX Liquidity Providers You are also able to share the network fee (.25%) by providing liquidity to DEX. Currently, out of total .25%, .17% paid out to Liquidity providers.

Regular Staking. In addition, above two options, you are also able to stake your coins (min 100,000) in our staking dApp which will be available at launch.

PRE SALE

We have originally started a pre-sale on our own ArchieChain and there will be on pink sale starting 4/5 -4/57 Our hard cap on each one is \$75,000 and soft cap at 50%. The pre-sale price is at .00004286 and launch price is .00005054. We didn't want to raise too much money and have a larger Market Cap than \$500k. We will be deploying to other chains later on.

LAUNCH DATE

APRIL 10, 2023. Time will be announced.

ARCHIE TOKEN

We have stopped trading on uniswap on our ERC 20 Archie Token on March 20, 2023, at 11:59 CST. We have taken a screen shot of all holder accounts and published a PDF with all holder accounts that will receive their new token in ArchieChain. I didn't want to miss anyone so that I went down to .002 value and created the list. The way it works is, whatever the value of token that you did have on ERC20 side, you will receive the same value of token (not the count of token because we are going from 10 sextillion to 1 billion token count). You will not have to do anything but to add Archie Network to your original wallet. There are no fees involved in this transition.

Archie Token on Archie Chain will be paired against \$ARC and please note that since \$ARC will be fueling the transaction on ArchieChain, you will need some \$ARC in your wallet.

ARCHIE TOKEN

We have stopped trading on uniswap on our ERC 20 Archie Token on March 20, 2023, at 11:59 CST. We have taken a screen shot of all holder accounts and published a PDF with all holder accounts that will receive their new token in ArchieChain. I didn't want to miss anyone so that I went down to .002 value and created the list. The way it works is, whatever the value of token that you did have on ERC20 side, you will receive the same value of token (not the count of token because we are going from 10 sextillion to 1 billion token count). You will not have to do anything but to add Archie Network to your original wallet. There are no fees involved in this transition.

Archie Token on Archie Chain will be paired against \$ARC and please note that since \$ARC will be fueling the transaction on ArchieChain, you will need some \$ARC in your wallet.

Now let's talk about some use cases of all new Archie Token.

NFTs

There are two NFTs connected to this token.

ArchieMetaNFT

Even though it is directly connected to ArchieMetaVerse by being the avatar NFT of our MetaVerse, we added this collection to Archie Token to build the value. You can mint one of these Avatar NFTs (AVA) at www.archiemetanft.com for .049eth each.

Passive income by renting these to patrons of ArchieMetaverse.

Stake Archie Token with having so many ArchieMetaNFT (see clubs in PDF section of ArchieMetaNFT) to receive a higher APY.

UBET is another place you can make money if your NFT is revealed in the game.

WeCareKitty NFT

These NFTs are created to help WecareKitty Project financially without hurting our chart or accepting donations from our holders. They are available to mint at .079 eth on wecarekittynft.com.

33% of the proceeding from the sale of WeCareKitty NFT will be used for the WeCareKitty Project and 10% will be used to buy Archie Token circulating supply and burn it.

STAKING

Token Staking You are able to use dApp within our website to stake at least 100,000 Archie Tokens. More Details are on the PDF or website.

NFT/Token Staking You are able to receive a higher APY if you hold more ArchieMeta NFT and staking minimum 100,000 archie tokens. More details on website and in PDF

Please note that staking with WeCareKitty NFT will be available next month.

Now let's talk about some MORE use cases of all new Archie Token.

UBET

When we thought about making our project interesting to our holders, we have looked at different things. We came with ideas such as staking Archie Token and ArchieMeta NFT Staking and saved 10% of our tokens for the same purposes. That was not enough, we need our holders to engage in our project daily and make it interesting for everyone

After serious talk and thoughts, we came with idea of **UBET** – You Bet To Win.

Basically, it is a game that any of our Archie Token holder can play to win. They enter the UBET dApp and bet anywhere from 100 Archie Token to 25000 per slots and there are total of 10 slots in a game. Upon finish betting, they can hit to reveal the image of ArchieNekoNFT instantly. They will win the amount based on the image of ArchieMetaNFT revealed. All 5000 NFTs, whether they are minted or not, will have a unique assigned rarity number assigned by us. List is available in ArchieMetaNFT.com.

Not only the player wins, the owner of NFT also wins with game. Another reason you should own a ArchieMeta NFT.

LAUNCH DATE:

Monday April. 17, 2023. Time to be Announced.

*There will be no pre-sale or private sale with this token.
Our current holders will be the first one to be on this token.*

Your new tokens will be air dropped to your wallet that holds ARCHIE token from ERC-20 and you will not have to do anything other than download Archie Network into your Wallet. We will announce the contract address for the Archie Token in ArchieChain and you just have to import that. Remember \$ARC is the gas on Archie Chain and make sure you have \$ARC in your wallet to enable transactions.

Please go through the rest of the pages in this pdf and always we are open 24/7 on our telegram chat. Our chat is more a customer service space than just a pumping and hyping. We are there for you 24/7 please join and get your questions answered.

I have tried my level best to explain and give you a summary what is being going on and please our Telegram Voice chat is open 24 hours and please join as k any questions.

Hoping to do much better with our All New Blockchain and I will need lots of your prayers and support.

Thank you

Revenue Based Crypto

Can we change the way we do traditional crypto and use New technology available with Web 3 and AI (Artificial Intelligence) and create business that will bring revenue ?

NOT A TRADITIONAL

Pump and Dump

archie AllianceTM
Complete DeFi Eco-System

Introducing

archiechain™

Introduction of Archie Chain and Benefits

ArchieChain is a Proof-of-Stake (PoS) and EVM-compatible blockchain that aims to bring cheap and fast transactions to crypto users. ArchieChain focuses on scalability, security, robustness, and utility to benefit its users. ArcCoin (\$ARC) is the native coin used on the ArchieChain blockchain. \$ARC is used for paying gas fees for transactions as well as smart contract deployment and interactions. ArchieChain will ultimately provide ArchieCoin (ARC) users with access to tokens, blockchain games, NFTs, decentralized applications (DApps), and the ever-growing Defi ecosystem. To further allow use in decentralized applications, we also created an ERC20 version of ARC called Wrapped ARC (\$WARC). \$ARC and \$WARC can be converted to each other at a one-to-one ratio.

Purpose of Archie Chain

The main goal of **ArchieChain** is to increase the use cases of **ArcCoin** by providing it with much-needed utility. **ArchieCoin (ARC)** users are able to create smart contracts and benefit from fast and cheap transactions.

While Ethereum suffers from high transaction costs, on **ArchieChain**, even the “most expensive” transactions will cost mere cents

archiechain™

www.archiechain.io

[White Paper](#)

Main Goal of Archie Chain

The main goal of ArchieChain is to increase the use cases of Archiecoin by providing it with much-needed utility. Here are a few examples of potential use cases:

Participating in the NFT market through minting and exchanging NFTs by paying for gas with \$ARC.

Taking part in the upcoming metaverse revolution through ArchieChain-powered NFTs.

Participating in DAOs and funding entire communities.

Partaking in lucrative GameFi opportunities and engaging with the growing blockchain gaming community.

Joining decentralized exchanges to swap tokens and speculate on their value

Accessing advanced financial instruments such as staking, lending, borrowing, and liquidity mining.

Benefits of Archie Chain

Benefits of Archie Chain

ArchieChain is an EVM-compatible blockchain that aims to complement the original ArchieCoin(ARC)

Being EVM compatible, assets on ArchieCoin (ARC) can be easily swapped via a cross-chain bridge to other EVM-based chains and sent back to the ArchieCoin (ARC) network as needed.

ArchieChain is 7x times faster than Ethereum and 300x times faster than Bitcoin. Having a fast block time helps to allow for more transactions to take place. When more and more individuals and companies start using the blockchain, the fast block time helps to prevent network congestion.

EVM Compatible

Cross Chain Capability

Proof of Stake

01

02

03

04

05

06

IBFT Proof

IBFT Proof-of-Stake (PoS) consensus: Community users can participate in the network which ensures a permissionless and decentralized blockchain.

Decentralized The Governance

Community members (token holders) can make proposals, delegate, vote on the blockchain parameters & events, and influence governance decisions.

Low gas fees

Having low gas fees are important because it helps support further decentralization. When fees are low, the blockchain can have more use cases that previously wouldn't be possible with high fees.

TestNet/MainNet to Metamask

Adding Archie Chain TestNet/MainNet to Metamask

Step 1

The first step is to open your web browser and go to the MetaMask plugin, then to the Network tab (left side of your profile). Here you will see all the list of Networks which is available by default on MetaMask

Step 2

Click "Add Network" to enter information such as Network Name, RPC URL, and Chain ID; however, you must ensure that the information is right.

ArchieChain Main Net

Please use the information provided as exactly:

- | | |
|------------------------|---|
| 1. Network Name: | Archie MainNet |
| 2. New RPC Rule: | https://rpc-main-1.archiechain.io |
| 3. Chain ID: | 1243 |
| 4. Currency Symbol: | ARC |
| 5. Block Explorer URL: | https://archiescan.io |

ArchieChain Main Net

Please use the information provided as exactly:

- | | |
|------------------------|---|
| 1. Network Name: | Archie TestNet |
| 2. New RPC Rule: | https://rpc-test-1.archiechain.io |
| 3. Chain ID: | 1244 |
| 4. Currency Symbol: | ARC |
| 5. Block Explorer URL: | https://testnet.archiescan.io |

arcCcoinTM (ARC)

STABLE COIN OF ARCHIE CHAIN

ArchieChain introduces a native cryptocurrency - ArcCoin(\$ARC). This community-focused token serves as a primary governance token for the ArchieChain blockchain and comes with various use cases. It's worth noting that the entirety of the \$ARC coins supply will be pre-mined upon the release of the main net. \$ARC is used for fueling transactions, smart contracts, and dApps.

Total Supply: 10,000,000,000. (10 Billion)

(ARC)TM

arccoin

STABLE COIN OF ARCHIE CHAIN

no

BUY Tax OR SELL Tax

ArchieChain (ARC) is a decentralized public blockchain that has high performance and EVM compatibilities.

Native coin of ArchieChain (ARC) will be \$ARC, which will be pooled against USDT for stability. Wrapped \$ARC will be known as \$WARC.

Main Features of being on Archie Chain are:

- ✓ Decentralized Governance
- ✓ Near-Zero Gas fee
- ✓ POS – Green Technology
- ✓ EVM Compatible
- ✓ Fast Block Time
- ✓ Cross-Chain Compatibility
- ✓ Better awareness in the market since we share the "ARCHIE" name

And many more...

(ARC)TM
arccoin
STABLE COIN OF ARCHIE CHAIN

✓ Near-Zero Fees

✓ Low Supply 10 Bill

✓ Staking Options

✓ Liquidity against USDT

✓ Will be Deployed on Multi-Chain (\$WARC)

✓ Major Exchange Listings Q2 & 3 2023

✓ NFT Marketplace Native Coin Q3 2023

✓ Dev/Team Coins Delivered on schedule Only

✓ Native Token of ARC Chain

✓ Used as Gas on ARC

✓ To deploy Other Tokens

✓ Coin of ArchieMeta

Staking dApp will be available from the launch and you will be able to stake:

- ▶ Archie Coin
- There are no fees other than usual gas fees to send and receive coins.
- ARC will be the gas used on ArchieChain.

Rules:

- a) Min Arc Coin to be staked: 100,000.
- b) Staking rewards are calculated at the end of the staking pool time and user can withdraw their staking coins and rewards according to the pool they are in.
- c) If the user wants to unstake amount before unstaking time, then 10% will be deducted as an early withdrawal fee and added to the staking pool, and also no reward will be allocated. Plan more detail is explained in the table

ARCHIE COIN (\$ARC) STAKING PROGRAM

As an added benefit as holder of Arc Coin, we are offering our holders a unique staking platform. We have set aside 10% (1 billion) of our Arc Coin for the staking pool. While you are helping the project by locking your coins in a staking pool, we want to thank you for your patronage and share part of our coins to you. There are no fees to use our dApp except for the little gas that you pay to stake or unstake. Notably, ArchieChain is set at 4gwei for gas charge.

In this dAPP 4 types of staking plan are available

• In the current staking pools, we are offering:

18% APY
30 DAYS

24% APY
90 DAYS

30% APY
180 DAYS

36% APY
360 DAYS

10% Early Withdrawal Fee applies. See below for more details.

Plan	Amount	days	No of Months	APR	Monthly	Total Token Received	Emergency Withdrawal
							10%
1	100000	30	1	18%	1.50%	101500	90000
2	100000	90	3	24%	2.00%	106000	90000
3	100000	180	6	30%	2.50%	115000	90000
4	100000	360	12	36%	3.00%	136000	90000

ARCHIE Token Allocations

Total Supply:
10,000,000,000

Description	PCT%	Number of Tokens
Liquidity	17%	1,700,000,000
Pre-Sale	35%	3,500,000,000
Developer	10%	1,000,000,000
Marketing	20%	2,000,000,000
Team	5%	500,000,000
Staking	10%	1,000,000,000
Archie Foundation	3%	300,000,000
TOTAL	100%	10,000,000,000

- Developer wallet will be locked for 1-year
- Liquidity will be locked for 1-year
- Team coins will be on a 1-year vesting program.
- Archie Foundation coins will be locked for 1-year.
- Marketing/Dex coins will only be used for expenses to market and list on DEX.

ARC COIN / WARC COIN MULTI-CHAIN OFFERING

We are a brand new blockchain and we should realize that crypto is all about trust and adaptivity. It is very important to have our project be visible to as many as people as possible. We need to build our blockchain and eco-system on Archie Chain. At the same time, we need people to use our system and be familiar with what we are trying to achieve for our holders.

For that purpose, we will be launching on Pancake Swap (Binance Smart Chain) by swapping our ArchieCoin(\$ARC) on our ArchieBridge to WARC(Wrapped ARC).

WE WILL BE ON OTHER BLOCKCHAIN LATER. PLEASE CHECK THE ROAD MAP FOR MORE DETAILS.

ArchieChain

BSC(Binance Chain)

Pre Sale is open on ArchieChain and Pink Sale Pre Sale will be announced soon

archieswapTM

DEFI EXCHANGE OF THE ARC CHAIN

DeFi Exchange for the ArchieChain (ARC) that is a **Layer 1 EVMCompatible** BlockChain with **near-zero Gas** and **Fast BlockChain**.

arccoinTM (ARC)

STABLE COIN OF ARCHIE CHAIN

The ArchieSwap protocol enables crypto trades without the reliance on a centralized intermediary. The protocol achieves this through decentralization, liquidity pools, and automated market maker.

Benefits of ArchieSwap

archieswapTM

DEFI EXCHANGE OF THE **ARC CHAIN**

**INCREASED
TRANSPARENCY &
NON-CUSTODIAL.**

One of the main benefits of DEXs is the high degree of determinism achieved by using blockchain technology and immutable smart contracts. Whereas in centralized exchanges (CEXs), such as Coinbase or Binance, the platform facilitates trading using the internal matching engine of the exchange, DEXs execute trades through smart contracts and on-chain transactions

Traders and liquidity providers interact with DEXs directly from their crypto wallets, retaining full custodianship of their assets. All transactions are subsequently defined and processed via smart contracts.

DEXs allow users to maintain full custody of their funds via their self-hosted wallets during trading.

DECENTRALIZATION

Smart contracts are predefined agreements that operate by autonomously executing commands. Combined with governance models, DEXs effectively transfer ownership of both the platform and assets to its users. Obviously enough, there is no centralized entity.

NO MANIPULATION.

CEXs are infamous for manipulating markets and conducting insider trading. With no one there to benefit from such actions, DEXs clearly have no way of directing prices in their favor.

archie AllianceTM
Complete DeFi Eco-System

Benefits of ArchieSwap

PERMISSIONLESS ACCESS

The vision behind many DEXs is to have permissionless accessible, end-to-end on-chain infrastructure with no central points of failure and decentralized ownership across a community of distributed stakeholders.

This typically means protocol administrative rights are governed by a decentralized autonomous organization (DAO), made up of a community of stakeholders, which votes on key protocol decisions.

SECURITY

Hosting DEXs is often done in a distributed manner to prevent attacks. Moreover, hackers can only interact with liquidity pools on a trading platform and not with the users that interact with the exchange.

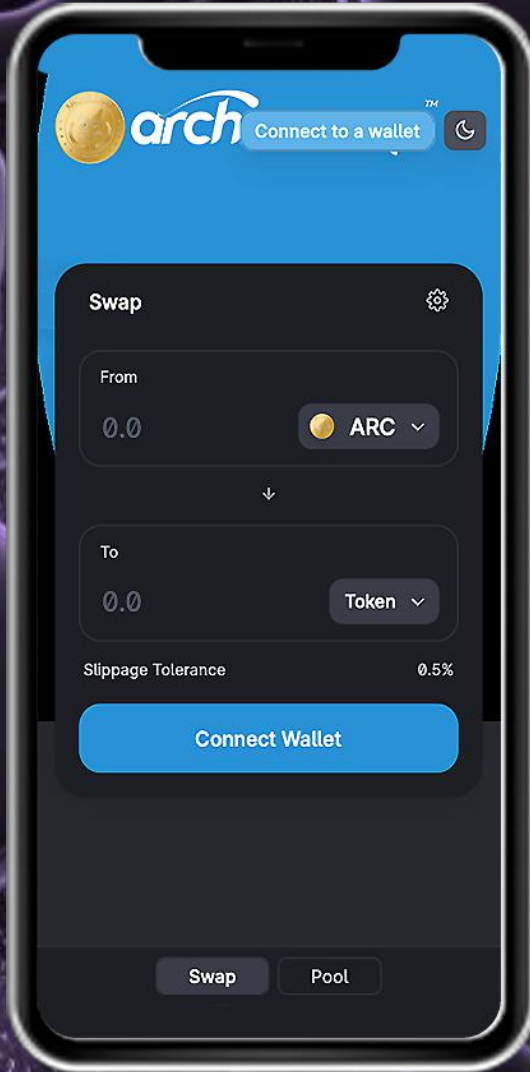

TOKEN ACCESSIBILITY

Thanks to their decentralized nature, everyone can list an asset on DEXs without having to rely on a vouching or verification system operated by the platform's owners.

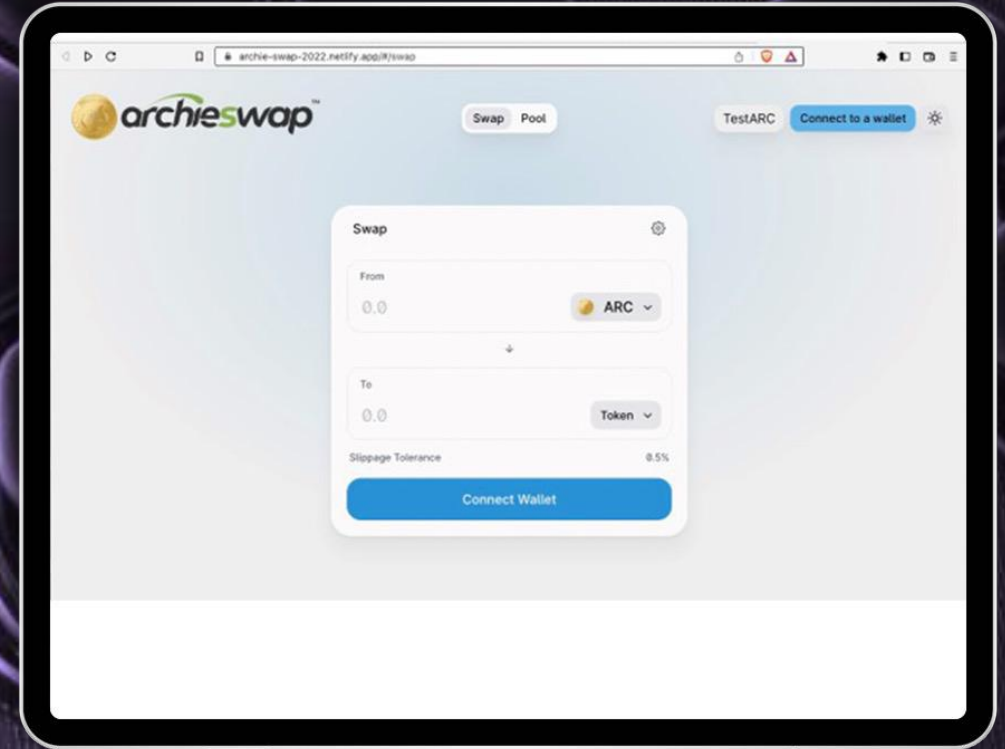

DEFI EXCHANGE OF THE ARC CHAIN

DeFi Exchange for the ArchieChain (ARC) that is a Layer 1 EVMCompatible BlockChain with near- zero Gas and Fast BlockChain.

The ArchieSwap protocol enables crypto trades without the reliance on a centralized intermediary. The protocol achieves this through decentralization, liquidity pools, and automated market maker.

Block Explorer for ARC

ArchieScan is the leading Blockchain Explorer, Search, API and Analytics Platform for ARC(Archie Blockchain), a decentralized smart contracts platform. Built and launched in 2023 it is one of the safest and fastest running independent project built around ARC and its community with the mission of providing equitable access to blockchain data.

ArchieScan is a Block Explorer for ARC

ArchieScan is a service on which any user can view ARC network statistics. The main task of the platform is to display information about the latest blocks and transactions of the network.

ArchieScan is the most trusted tool for navigating through all the public data on the ArchieChain (Archie Blockchain). This data includes transaction data, wallet addresses, smart contracts and much more.

The team behind ArchieScan includes seasoned developers and industry professionals, who developed the ArchieScan app to make the ArchieChain more accessible to everyday users.

What is ArchieScan used for?

ArchieScan allows users to view the assets held on any public Archie wallet address. Using ArchieScan, enter any Archie address into the search box to see the current balance and transaction history of the wallet under consideration. ArchieScan will also display any gas fees and smart contracts involving that address.

✓ Users can use ArchieScan to:

- ✓ Calculate Archie gas fees with the ArchieScan gas tracker
- ✓ Lookup and verify smart contracts
- ✓ View the crypto assets held in or associated with a public wallet address
- ✓ Observe live transactions taking place on the Archie blockchain
- ✓ Lookup a single transaction made from any Archie wallet
- ✓ Discover which smart contracts have a verified source code and security audit
- ✓ Keep track of how many smart contracts a user has authorized with their wallet
- ✓ Review and revoke access to a wallet for any decentralized applications (DApps)

archiescan™
Block Explorer for ARC

USE CASES OF

ARCHIESCAN

- ▶ Users can view any transaction of the Archie blockchain on ArchieScan. These transactions include failed and pending transactions.
- ▶ ArchieScan can also keep track of the progress of an incoming transfer. One way to track a transaction using ArchieScan is to look it up on ArchieScan using its hash key. The hash provides users with an estimate of how long the transaction will take to confirm. The page refreshes once the transaction is complete.
- ▶ ArchieScan also works as an analytics platform. Anyone can use ArchieScan to analyze on-chain metrics like changes to ARC.
- ▶ Only information that is public on the Archie blockchain is displayed on ArchieScan, so information like a user's private keys can't be viewed on the app. ArchieScan doesn't store any private keys and is not involved in any of the transactions shown. The app also cannot be used to solve a transaction failure.

ARCHIESCAN APPLICATIONS

Blockchain wallets can provide different kinds of data, but the view is limited to the data related to the keys that the wallet manages. Explorers are used for viewing data related to transactions carried out on all wallets of a given blockchain.

- Transparency: They allow you to check balances and spending on smart contract addresses such as when users are participating in an Initial Coin Offering, ICO.
- Checking if a wallet address is valid to a blockchain before sending crypto to a person.
- Checking if a transaction has been sent to the person it is being sent to. It is like having some public evidence that you have sent through cryptocurrencies to the person. Owners can check their wallet balances.
- Explorers can help to explain what is wrong with transactions that have not yet gone through or been confirmed and the stages of confirmation.
- It can help a user to know the current cost of a transaction or gas and therefore help to plan gas spending for future transactions.
- Sometimes it can help know if a group is the one that mined a transaction and probably help in making decisions of whether to invest more computing resources for future mining activity.
- It can help user developers who are programming their wallet if they are working properly to send, receive and store cryptocurrencies.
- Explorers can be used alongside other software such as nodes to corroborate data and information, for instance, to confirm other tools whether they are working appropriately.
- Developers can also check what functions and features they need to include in their wallets or other software using these explorers.
- As research tools, explorers can help make important decisions related to personal, group, and company finances.

archieMeta™

Built with vision

ARCHIE METAVERSE

The need exists to change the current crypto space where the value of your project is only tied to hype and buying or selling the coin/token. Your project can fail instantly just by hype failing, one whale selling off their holdings, or a pump and dump group coming through. In order to survive long-term, a cryptocurrency project needs to have a product/service that generates revenue and this needs to be what the value is based on. This is what we are doing with Archie Metaverse. The demand for services provided in Archie Metaverse will drive the value of Archie Coin independent of the Crypto Market.

Archie Metaverse is a photo-realistic Metaverse beginning with the play to earn Archie Island which offers games and experiences in a photo-realistic virtual reality environment. There are total 72 projects planned in our ArchieMetaverse and we are estimating to finish the entire Play-2-Earn

projects in 3 years. Please review and refer to our NFTs to see how those will be connected in the ArchieMetaverse and how you can be part of the project without heavy investments and still have a potential to earn revenue.

Next will come e-commerce where actual products and services can be purchased in Archie Metaverse.

And finally, a real estate component will be tied to actual properties in the real world represented in Archie Metaverse.

The value of Archie Coin (\$ARC) will be determined by the success of the Metaverse rather than buying and selling Archie Coin. As a result of Archie Coin gains value, so indirectly will the tokens listed on Archie Chain which will have liquidity tied to Wrapped Archie Coin (WARC).

Welcome to Archie Metaverse (Island of Archie), a photorealistic metaverse island built on its own unique Archie blockchain; a living experience that is designed to exist continuously and in real time, just as it does in the physical world.

Planning and development of this nearly 13000 acre(20 square miles) scenic island Metaverse is already underway. From the tranquil river estuary, breath-taking mountains and sun- drenched beaches, to the modern and futuristic architecture of its city structures, Archie Metaverse is designed to be a beautiful, harmonious blend of both landscape and cityscape.

ArchieMeta and you...

- The metaverse is considered next evolution of the internet. It will take many forms, including gaming, online communities and business meetings where people collaborate via a digital facsimile or avatar of themselves.
- In the metaverse, people use avatars to represent themselves, communicate with each other and virtually build out the community. In the metaverse, digital currency is used to buy clothes -- or weapons and shielding in the case of video games -- and many other items. Users can also virtually travel through the metaverse for fun with no goal in mind using a virtual reality headset and controllers.
- What is the difference between the internet and the metaverse?
- The internet is a network of billions of computers, millions of servers and other electronic devices. Once online, internet users can communicate with each other, view and interact with websites, and buy and sell goods and services.
- The metaverse doesn't compete with the internet -- it builds on it. In the metaverse, users traverse a virtual world that mimics aspects of the physical world using such technologies such as virtual reality (VR), augmented reality (AR), AI, social media and digital currency. The internet is something that people "browse." But, to a degree, people can "live" in the metaverse

The opportunities are immense when it comes to the metaverse. While heavyweight tech entities are endeavoring to sculpt their name to become market leaders in this industry, it is the right time for you to capitalize on this curve by launching your own virtual world.

The rapid evolution of the metaverse is expected to benefit a plethora of aspects of our real-world ecosystem, including education, healthcare, gaming, entertainment, arts, etc. The advancement of AI and exquisite blend of VR/AR with user's data would give them whole new experiences.

Experts believe that the metaverse in 2040 will be a much-more-refined and truly fully-immersive, well-functioning aspect of daily life for a half billion or more people globally. So, metaverse for business is a key for entrepreneurs like you. From social media, e-commerce to real estate, the options are limitless.

Host conferences, events, parties, business meet-ups, or any activities in the virtual world through availing our metaverse development services. With diverse avenues to personalize the platform, you can provide out-of-the-world experiences to your customers.

A TRILLION DOLLAR INDUSTRY

Experts firmly believe that the market will be valued at over 1 trillion in the near future. How colossal is this value? Take advantage of this potential market to evolve as a metaverse tycoon.

NEED FOR IMMERSIVE EXPERIENCE

People often get bored with conventional events/activities. They show great interest when new technologies, such as AR/VR are utilized in their daily routine. Providing this engaging experience will bring new audiences all across the globe.

A DIGITAL WORLD IDENTITY

Be it a brand or individual, everyone would love to have a digital identity for themselves. Metaverse is the right place to strongly build their own digital identity and gives them all the possibilities to perform diverse activities, similar to the real world.

BE AN EARLY ADOPTOR

The virtual world realm is getting really hot, and many newcomers are trying to capture this space. Developing your own virtual world and bestowing a unique service would make you stand out in the crowd. Now is the time to lead the metaverse race!

FUTURISTIC TECHNOLOGY

Metaverse makes users wander all over the world by simply sitting in their room with the help of the internet. From meetings to fun events, everything is possible in this virtual world. Tech enthusiasts are trying their best to leverage this technology.

Next generation living

Play-2-Earn Game section will be launching in First Quarter of 2023 with the exception of Everest Gaming Centre in Q2 of 2023.

ENTERTAINMENT | GAMES

ArchieMeta will have various real world businesses whose real products/services will be mimicked in ArchieMeta. Visitors will be able to purchase these products/services and have them shipped to their actual homes or businesses. The types of products and services will be evaluated at a later time depending on how the market develops.

SHOPPING | OUTLETS

In the 13,000 acres that make up ArchieMeta, there will be both Commercial Real Estate and Residential Real Estate. The commercial real estate, consisting of the various businesses in ArchieMeta, is private and will never be sold.

HOMES | RENTALS

We will be releasing the Play2Earn Games and Entertainment section of the Metaverse first because this is something with which visitors are already familiar. Our goal through gaming and entertainment is to get our visitors comfortable with a Web3 Virtual World in an environment that feels familiar. This will eventually make it easier for them to use the E-Commerce and Real Estate aspects of ArchieMeta as they come available in the next phases.

People will have access to games, entertainment, conferences, meeting spaces, conventions, trade shows, night clubs, private beaches, vehicles, sightseeing, and much more! All in a Virtual Reality Web3 environment! These experiences, though Virtual, will be designed to feel real just like being in the real world through available VR technology such as headsets, suits, etc.

PHASE 1:

PLAY 2 EARN & ENTERTAINMENT

SECTION 1

BUSINESS ON LAND

City Hall | Law Enforcement
| Fire Department | EMS |
ArchieFi | Public Works |
Toll Authority | Waste
Management | Water
Authority | Parks and
Recreation | Urgent Care

Just as in the physical world, the Island of Archie has a city government. The city government, housed in city hall, will be responsible for powering metaverse utilities, promoting economic development, and public safety.

SECTION 2

BUSINESS ON LAND

Casinos | Nightclub | Hotels
| Auto Dealership | Market |
Stadiums | Recreational
Centers | Airport |
Convention Center | Motor
Speedway | Utilities | Bank

Whether you want to go to a casino and play to win or want to take your family out for some entertainment, ArchieMeta has it all. While you are in shooting range practicing, your kids can be in the game arcades.

SECTION 3

BUSINESS ON WATER

Cruise | Sightseeing | Casino |
Night Club | Game Centre |
Circus | Dining | Marina |
Beaches

One of the largest cruise ship to take you around the island while you dine or play in the 7-star Royal Archie Casino. Enjoy the beaches and have a ride in your boat and a five star marina club.

SECTION 4

GAME CENTERSS

Game Arcades with different games for everyone in the family.

If you just want to IOUNGE and play some games by yourself or with your friends, let ArchieGame be your playing ground They'll be great games for everyone's enjoyment!

How to Enter And Play in

archie **Meta**™

BANK OF ARCHIE™

AN ARCHIE META EXCHANGE

Bank of Archie(BOA) is the DeFI Exchange of ArchieMeta. Bank of Archie (BOA) allows anyone that has \$ARC or \$WARC to convert their Archie Holdings to ArchieMeta crypto holdings with ease of a swap. Bank of Archie is deployed on ARC Chain (ARC) and it conveys all benefits of Archie Chain.

Bank of Archie has a 1% charge for every swap that happens. Value ration will be 1:1 for all tokens except \$ARWD is 1:1000 against \$ARC and/or \$WARC.

BANK OF ARCHIE™

AN ARCHIE META EXCHANGE

There are several different projects in our ArchieMeta. To name a few: casinos, shooting range, ship, arcades, night clubs and so on. In order for you to have the right experience and still have the every day common life effect, we need to separate the type of crypto used in our ArchieMeta.

For example:
We have 3 different casinos in our upcoming ArchieMeta. 1. Everest, 2. Venus and 3. Royal Archie. Even though, \$ARC and WARC are the official crypto currency of our ArchieMeta, we need to separate the use to make it more adventurous in our ArchieMeta. A person who wants to play in Everest Casino will have to surrender his \$ARC or WARC for Everest Casino Cash (\$ARCE) which carries the same value but can't be swapped for any other token or used in any other place other than in our Everest Casino.

This will create a real-world experience as we do every day in our life. More information in next pages coming up.

There will be a total 5 Tokens that will be deployed on ArchieChain for Bank of Archie.

- | | | |
|----|----------------------------|--------|
| 1. | Archie Everest Casino Cash | \$ARCE |
| 2. | Archie Venus Casino Cash | \$ARCV |
| 3. | Archie Royal Casino Cash | \$ARCR |
| 4. | ArchieMeta Cash | \$ARCM |
| 5. | Archie Rewards Cash | \$ARWD |

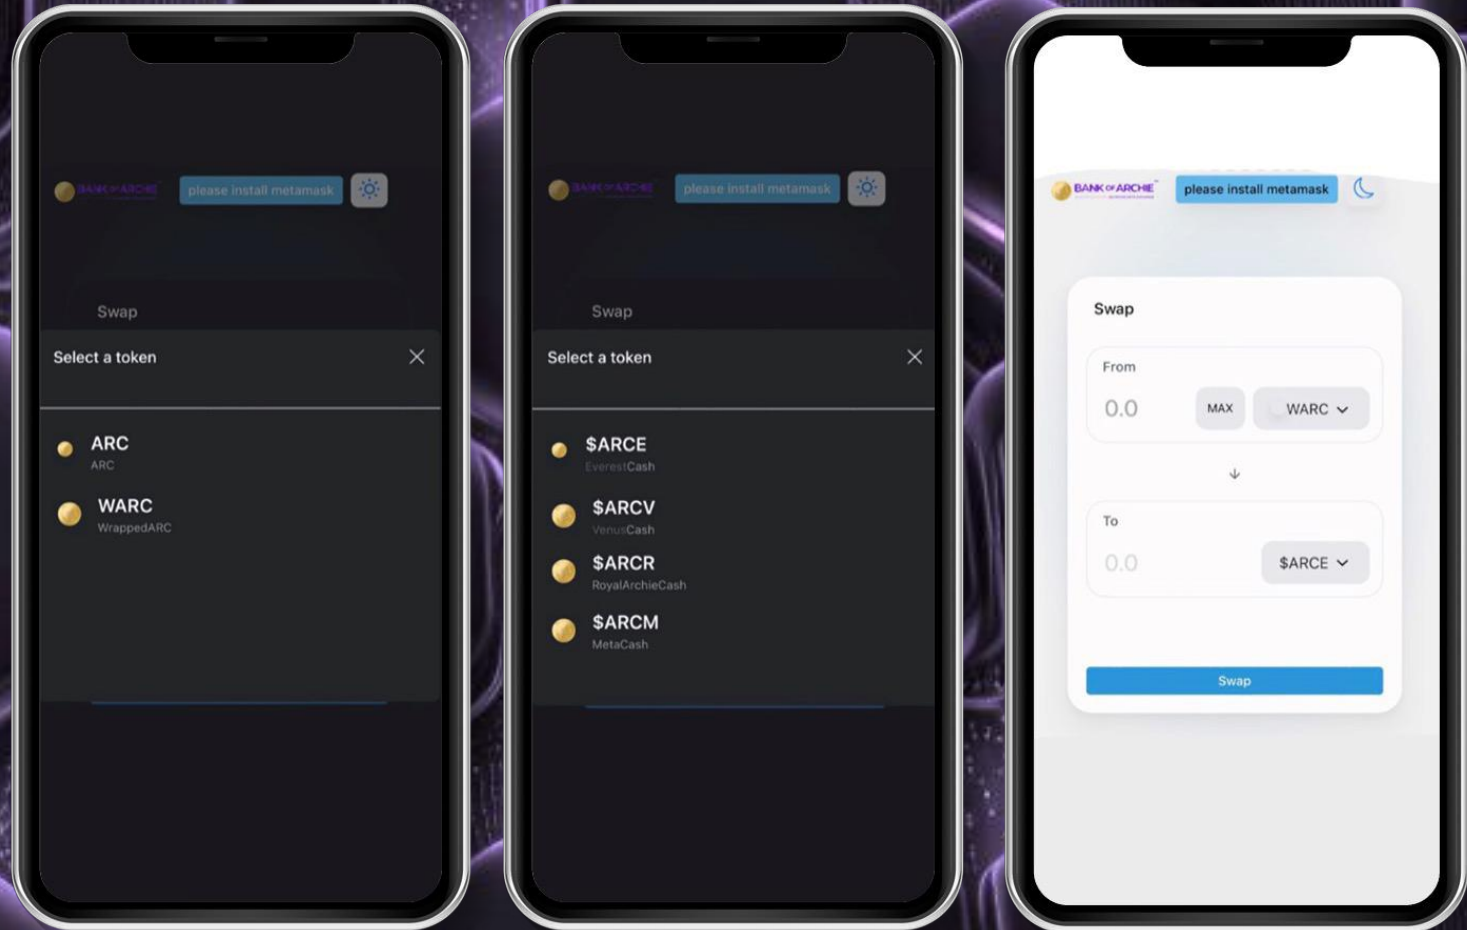

All these tokens are for use within ArchieMeta through Bank of Archie and except for Archie Reward Cash Token, they are not transferable from wallet to wallet or to person. Please take a note of it.

BANK OF ARCHIE™

AN ARCHIE META EXCHANGE

When you swap \$ARC or \$WARC to any of the tokens within ArchieMeta Internal Exchange, the amount of token that you receive will be in equal value in **USD\$**.

When you swap it back to \$ARC or WARC, it will convert back to actual value of \$ARC or \$WARC.

To play with crypto in our metaverse project, you must enter **ArchieMeta** website and connect your wallet with **\$ARC**.

For entering & playing in Archie Everest Play 2 Earn Gaming Center, patron must have \$ARC or \$WARC in their wallet before connecting their wallet to Bank of Archie to buy \$ARCE.

How to buy \$ARC or \$WARC

1. ArchieSwap
2. ArchieAggregator

Please note: At the time of this presentation is published, there are only **ArchieSwap** and **Archie Aggregator** ready. We will be on several exchanges and please check updated information on our official websites.

archie Aggregator TM

MULTI-CHAIN **DEFI EXCHANGE**

Why ArchieAggregator?

Archie Aggregator is Multi-Chain swap that will help anyone from swapping between chains and tokens. We thought about this idea to make it easy easy for people to come to our Archie Metaverse and use the service.

As you all know, ArchieChain is a brand-new chain and the reality is there. How will be able to market our newly created ArchieChain to gain the trust and easiness to use to all people from all over the world ? We can dream of it and claim that we have the fastest blockchain with 2 seconds transaction and a near-zero gas (4 gwei). Truth is, we need to let people know about what we are trying to do and that takes time and effort.

In order to achieve this, we thought of a multi-chain swap such as Archie Aggregator. As you all know, ArchieCoin(ARC) is the native coin of ArchieChain and also you will need ArchieCoin (ARC) to enter into our Archie Metaverse. We purposely did this to create awareness of our ArchieChain and let others know about the use cases.

Let's talk about a real case scenario:

A person holding a token in Akash Network wanted to visit our Archie Metaverse.

That person can use Archie Aggregator to swap his/her token from Akash Network to ArchieCoin (ARC) on Archie Network and enter and play in our Play-2-Earn center. Not only how convenient that is, he/she is able to swap back to their native token through Archie Aggregator upon leaving our Archie Metaverse. Now, there is a convenience fee. Please check the actual fee before you swap. But imagine how hard it is for you to swap across chains ? And how long will it take?

Now you now why we created this utility for our Archie Metaverse.

NFTs & Archie Metaverse

ArchieNeko NFTs are created in the image of our beloved Archie. These are not just an image itself but, these images are used to participate in the operation in our upcoming ArchieMetaverse.

It was given enough priority to design a revenue stream for these NFTs rather than having a value and demand that raise the price or sometimes this become worthless. We have attached our ArchieNeko NFTs as the main work force behind our ArchieMetaverse. For example, there are 72 projects planned so far in the ArchieMetaverse and could add more as we needed it. Every one of those projects need manpower to run it. Let's take city hall for an example, Mayor, Council Members and clerks and so on. Each one of these are assigned from the NFT list and has a income in percentage of the revenue collected for that project itself.

Some of the projects in the ArchieMetaverse are not revenue directly collected from patrons but are supported by other projects within the Metaverse. For example, cleaning service (Project NO. 2.18.A) is supported by all the projects within ArchieMeta by giving 1% for their revenue and in turns Cleaning Service Projects pays its expenses and NFTs. More details are available at www.archienekonft.io.

The whole idea behind these revenue and passive income is to stay away from traditional Metaverse that sells acres of land to people and really there are no use cases other than claiming their ownership of a virtual land. Here is another perfect example how Archie Team thinks different than others to create a Revenue Based Crypto system that will stay in business forever.

Many non-utility NFTs have no real value other than the value a buyer or community believes it to have, based upon the rarity of its collectability or current hype surrounding the subject. This is where ArchieNeko vastly differs...in a very good way... from other NFT projects currently available.

There are two collections within Archieneko NFT.

1. ArchieNeko
2. Hachi

ArchieNeko collections has 9352 nfts currently minted and ready to purchase.

Hachi collections are the Bank of Archie (Project 2.17.A) and it has a total 300 assigned. They share the revenue from the Bank of Archie swap. Bank of Archie swap fee 1% of the total transaction.

Please do your research and make sure you visit www.archienekonft.io before you purchase.

Exclusive Avatar Model NFTS

Please refer to [ArchieMetaNFT](#) pdf for details

Exclusive Avatar Model NFTS are the newest addition to ArchieNeko Family. We are introducing this collection to fill the need of "Avatars" that visitors needed in the ArchieMeta. Visitors often will use these avatars in our ArchieMeta to attend a concert or even to visit our Casinos or any other projects.

There will be a total of 150,000 avatars altogether and will be released in 30 phases. These Avatar Models will represent almost all major races and ages to make it interesting and the diversification of our ArchieMeta.

Each character will be named accordingly and released as a separate collection. Benefits will be the same for all but, prices

- ✓ 30 Phases
- ✓ Total 150,000 Avatars
- ✓ Staking Functionality
- ✓ Passive Income through Rental
- ✓ Club Rewards and Benefits for Owning Multiple NFTs

archie^{meta}NFT™

Exclusive Avatar NFT for ArchieMeta

These are 3D base photo realistic character based NFTs that you can use as Avatars to enter the ArchieMeta.

These characters will be used to animate and will be available to you to enter and walk around or play in our upcoming Metaverse project. In addition to it, it will have more benefits for people that buys them in quantity. There are seven (7) exclusive clubs and they all have added benefit based on the amount of NFTs you owned. Only requirement is to have them in one wallet:

1. Elite Club (Between 25 – 49 ArchieMeta NFTs)
2. Top Gun Club (Between 50 – 74 ArchieMeta NFTs)
3. Admirals Club (Between 75 – 99 ArchieMeta NFTs)
4. Club 777 (Between 100 – 149 ArchieMeta NFTs)
5. High Rollers Club (Between 150 – 199 ArchieMeta NFTs)
6. Meta Master Club (Between 200 – 499 ArchieMeta NFTs)
7. Archie Executive (Over 500 ArchieMeta NFTs)

You will be able to stake these NFTs once Archie Token (\$ARCHIE) launches on ArchieChain soon.

WE CARE KITTY NFTs are being created mainly to help the Archie Foundation's We Care Kitty Project. There will be a total of 10000 NFTs to be minted on the first phase showcasing different characters of a kitty. These NFTs will have extensive benefits such as our ArchiemetaNFT (club membership and rewards). More details, please refer to Club Details on www.archiemetanft.com

How does this work and benefit our Archie Foundation and Archie Token Holders:

1. 33% of all proceedings from these NFT sales will be directly used for Archie Foundations need.
2. 10% of all proceedings from these NFT sales will be used to buy ARCHIE Token and will be burnt to lower the circulating supply.
3. Holders of these NFTs will have staking options along with other benefits as mentioned in the ArchieMetaNFT.com besides the rental income opportunity.

archie **ro**ken TM

ON ALL NEW ARCHIE CHAIN

First token to be deployed on our Archie Chain

Archie Token on ArchieChain will be the first token to deploy on ArchieChain. Liquidity will be created against ArchieCoin (ARC), which is the stable coin of ArchieChain.

Archie Token will be replacing the existing Archie Token from ERC-20 and all current holders will receive their token via air drop to their wallets prior to launch. The value was taken on the day of stop trade in effect March 20, 2023. Holders doesn't have to pay any fees to receive their token and there is a [pdf document](#) of each wallet that will receive the new tokens. Please refer to the list to make sure your wallets are there.

Benefits of Archie Token

BUY BACK & BURN

Low Taxes

Staking NFTS

We Care Kitty PROJECT

Ubet & Win

Staking dApp will be available from the launch and you will be able to stake:

➤ Archie Token

- There are **no** fees other than usual gas fees to send and receive coins.
- **ARC** will be the gas used on ArchieChain.

Rules:

- Min Archie Token to be staked: 100,000.
- Staking rewards are calculated at the end of the staking pool time and user can withdraw their staking tokens and rewards according to the pool they are in.
- If the user wants to unstake amount before unstaking time, then 10% will be deducted as an early withdrawal fee and added to the staking pool, and also no reward will be allocated. Plan more detail is explained in the table

ARCHIE TOKEN (\$ARCHIE) STAKING PROGRAM

As an added benefit as holder of Archie Token, we are offering our holders a unique staking platform. We have set aside 10% (100 million) of our Archie Token for the staking pool. While you are helping the project by locking your tokens in a staking pool, we want to thank you for your patronage and share part of our tokens to you. There are no fees to use our dApp except for the little gas that you pay to stake or unstake. Notably, ArchieChain is set at 4gwei for gas charge.

In this dAPP 4 types of staking plan are available

- *In the current staking pools, we are offering:*

12% APY
30 DAYS

18% APY
90 DAYS

24% APY
180 DAYS

30% APY
360 DAYS

10% Early Withdrawal Fee applies. See below for more details.

Ubet ARCHIE DRAW

When we thought about making our project interesting to our holders, we have looked at different things. We came with ideas such as staking Archie Token and ArchieMeta NFT Staking and saved 10% of our tokens for the same purposes. That was not enough, we need our holders to engage in our project daily and make it interesting for everyone

After serious talk and thoughts, we came with idea of UBET – You Bet To Win.

Basically, it is a game that any of our Archie Token holder can play to win. They enter the UBET dApp and bet anywhere from 100 Archie Token to 25000 per slots and there are total of 10 slots in a

game. Upon finish betting, they can hit to reveal the image of ArchieMetaNFT instantly. They will win the amount based on the image of ArchieMetaNFT revealed. All 5000 NFTs, whether they are minted or not, will have a unique assigned rarity number assigned by us. List is available in ArchieMetaNFT.com.

Not only the player wins, the owner of NFT also wins with game. Another reason you should own a ArchieMeta NFT.

Rarity Listing of ArchieMeta NFT

We have assigned a unique rarity number to each one of our [ArchieMeta NFT](#). Based on that and refer to the table below to see the payout for each category. There are 10 different categories that consists of different amount of ArchieMeta NFTs as shown below.

LEVEL	No of NFTs	Winning Pct (%) to Player	Pct (%) of Winning NFT to Owner
Level1	1000 NFTs	50%	10%
Level2	900 NFTs	60%	10%
Level3	800 NFTs	70%	10%
Level4	700 NFTs	75%	10%
Level5	550 NFTs	80%	10%
Level6	550 NFTs	90%	10%
Level7	400 NFTs	100%	10%
Level8	300 NFTs	200%	10%
Level9	200 NFTs	500%	10%
Level10	50 NFTs	1000%	10%

There are a total 5000 NFTs in ArchieMeta NFT Collection. Of which, as per the table shown above, we will assign the rarity classification for the UBET winning purposes.

Avatar NFTs of ArchieMeta.
 Total NFTs available: 5000
 Minting Price: .049 eth
 Minting Site: www.archiemetanft.com

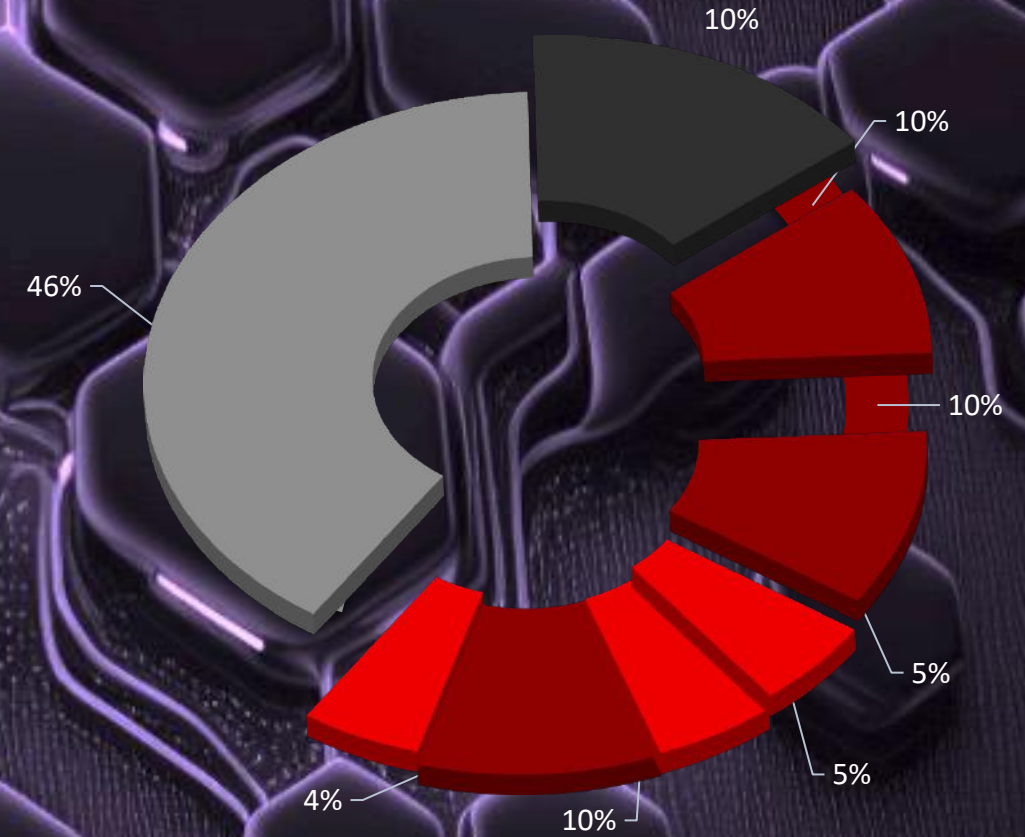

- There are two payout:
 - To the player from column C
 - To the owner of the NFT 10%
- Amount to bet:
 User can bet minimum 100 to 25000 Archie Tokens.
- NFT to be used:
 If a user reveals an NFT which is not minted yet, in this case smart contract will record this NFT ID and rewarded amount to the owner of NFT.
- Fees to play:
 There are no fees to play on UBET other than the low Gas Fees or Archie Chain

Tokenomics

We will have two different tokenomics :
Initial First Month and Regular after First Month

Tokenomics are very much needed for a project to succeed. When we were thinking about setting up a tokenomics for our new project, we have taken lots of things in consideration including the mistakes we have made on our original token.

We need to support our liquidity and of course ,our marketing needs. So, we decided to have the very minimal on two categories. In addition to that, we have separated transfer tax from sell and made it lower since lots of our holders were concerned about that.

Disclaimer: ARCHIE taxes are subject to change according to market conditions. However, the contract is hardcoded to never go above 9% taxes on buys and 9% taxes on sells*

First 30 Days

Liquidity

Buy **2%** Sell **7%**

Transfer Tax will be 2%

Marketing

Buy **2%** Sell **8%**

Transfer Tax will be 2%

Total

Buy **4%** Sell **15%**

After 30 Days

Liquidity

Buy **3%** Sell **3%**

Transfer Tax will be 2%

Marketing

Buy **2%** Sell **4%**

Transfer Tax will be 2%

Total

Buy **5%** Sell **7%**

Summary

We are very happy that you are here. Thank you for all your support and expecting the same coming forward.

As you can see in this presentation, we are only taking credit for what have been done. We will be working hard on future utilities and will keep you informed. We believe in under promising and over delivering. Bottom line is, can you make money with us? We will be working hard for you.

Stop by our main chat or voice chat, let us know how we are doing. We open and your voice will be heard.

Thank You from Archie Family.

ARCHIE TM FOUNDATION

WE CARE KITTY TM
PROJECT

ARCHIE TM

f FOUNDATION

The story of Archie is true, the story of a cute, friendly, and fiercely loyal kitty. Founded in 2022, with a vision to generate wealth for a decentralized community in a safe and secure environment, leveraging Defi protocols and to impact the globe for good, thereby cherishing the memory of our beloved Archie.

The Archie Foundation reiterates our commitment to the welfare and upliftment of the weaker community to reflect our love and respect for each other.

The Vision

The vision of Archie Foundation was always to help the neediest . We have set aside 5% of our original Erc-20 Archie token and since the project was not doing that great, we have decided to hold it off. That being said, when we migrate to our new ARC Chain Archie, we will be bringing that money value to the Archie Foundation wallet along with an extra 5% from the new ARCHIE token on ARC Chain will also be added. We are focusing more on the kitties with new token.

We will be sponsoring kitties who are affected by sickness (especially leukemia) and homeless ones to find a cozy home for them. We will reach out to several animal shelters and rescue teams and comb the operation. Then again, we will not sell our token to hurt our chart to do that. Instead, we will use 33% of the NFT (we care kitty NFT) sales to do that.

Besides kitties, you will find detailed information about our foundations vision in the following pages.

Setting an inspiring **Role model** through our **Impactful Framework**

Following up on the vision and mission of Archie, the Foundation along with a strong worldwide community will be the hands and feet to impact the world for good through SMART goals that will be reviewed quarterly with our investors. At Archie, we are driven by the potential of our business to touch the lives and shape the future. To achieve this goal, we did set aside 5% of tokens (500,000,000,000,000,000,000) from the total supply into the Foundation in our original Erc-20 Archie Token. We will migrate those token value to our new ARC Chain ARCHIE Token and add another 5% of the new ARCHIE Token to the wallet. We will not sell these tokens to hurt our chart in stead will use the money from the We Care Kitty NFT project as stated before.

Foundation and **CSR** Objectives

The Archie Foundation - our Corporate Social Responsibility (CSR) arm - established with a purpose majorly to:

- ▶ We Care Kitty Project (Rescue and shelter)
- ▶ Help and uplift the uniquely abled children
- ▶ Educate Girls, Empower women
- ▶ Sponsor under-privileged villages

ARCHIE TM
f FOUNDATION

WE CARE KITTY TM
PROJECT

ARCHIE TM

f FOUNDATION

Animal **Rescue** and **Shelter**

The Archie Foundation is named after our beloved cat Archie who left us untimely. We believe, it is our responsibility to support kitty welfare in whatever possible manner. We want to partner with NGOs and provide assistance to kitties in distress and emergency funding for life- saving veterinary care of low-income families. Too many families lose beloved pets and members of their families because of unexpected medical emergencies. The Archie Foundation addresses this need by providing emergency funding to low-income families. We would like to extend a helping hand and support through Service Providers of cat treatments, cat rescue and rehabilitation service.

WE CARE KITTY TM

PROJECT

archiENeko TM
making your dreams come true

Stay with **Children** who are **Uniquely Gifted**

Our primary focus is to meet the needs of children with special needs in third-world countries and the inner cities of western nations, including the USA, where we hope to function as a non- governmental organization (NGO) or partner with other NGOs. We want to invest in the lives of children in impoverished regions to help with hunger, malnutrition, access to drinking water, sanitation, education, and last but not least, to stand in the gap to provide access to equipment for special needs.

We would also like to adopt deserving schools, as part of the mission to improve the academic standards of the differently abled children. This includes ensuring improvements in infrastructure, buying necessary classroom furniture, blackboards, desks and benches, toys – and consistent distribution of other school supplies.

Educating Girls | **Empowering Women**

Archie Foundation will give special emphasis to girls and women whether it's helping educate to eradicate the stigma against girls, to educate girls, empower them to stand up for themselves and their kin. We will help fund women-owned businesses and help educate girls to provide equal opportunity and level the playing field. Funds will also be used to assist NGOs that are working against sex trafficking and violence against women.

Financial aid provided to disadvantaged children on a case-to-case basis is complemented by a sustained effort to improve the infrastructure and learning environment.

archieNEKOTM
making your dreams come true

Looking forward: Forging a Sustainable CSR model

The CSR initiatives of Archie Foundation are drawn up by the enhanced CSR goals and include promotion of sustainable practices in schools. The "AchieNeko" Scholarships will be awarded to include assistance to girl children who show exceptional ability in maths and science subjects. This pioneering CSR initiative comes in the light of recent UN reports that say that women account for only 33% of world's researchers and are a minority in digital information technology, computing, physics, mathematics and engineering. From the funding of initiatives aligned with Archie Foundation, our objective has grown to embrace the larger goal of furthering the United Nations Sustainable Development Goals (UN SDG) through our CSR programmes.

Sponsoring Villages

Another area of focus for the Archie Foundation will be to sponsor and uplift small villages in third-world countries. We will partner with NGOs to educate villages, build up small-scale industries in these villages to create jobs to help keep the population from migrating to the congested bigger cities. The foundation will look into partnerships with government and non-governmental agencies in order to meet the energy and internet connectivity needs in these villages, which we think will open up opportunities in a self-sustaining manner.
