Voxie Tactics Partnership with GRID

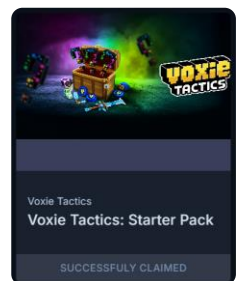

[Voxie Tactics is now officially live on GRID!](#)

[GRID](#) is a modular gaming network by 1KIN Labs engineered to power tomorrow's multi-chain, mass-market Web3 gaming ecosystem. According to 1KIN Labs' [Medium article](#), the GRID aims to achieve the following goals for its ecosystem participants:

- Gamers can play any game on any protocol they want, but it all feels like they are just using 'one Web3 thing' to do so.
- Node Operators run services under the hood that simplify the experience for all gamers across the industry.
- Web3 Newbies only have to learn one Web3 platform to access their favorite games regardless of chain or protocol.
- Web3 Games & Studios benefit from the GRID's ecosystem and user base without migrating off the chain they opted to integrate.
- Chains & Protocols increase their network activity and retain their hard-earned communities while simultaneously capitalizing on the GRID's network effect.
- Stakeholders (users, games, studios, and foundations) share in the governance process, keeping the GRID's singular access point to the entire industry decentralized.

GRID also recently [announced](#) that its [GRID Pack](#) is the first Web3 gaming digital product listed in Amazon. The pack features 10 Credits to redeem digital rewards in GRID for \$9.99.

[Voxie Tactics](#) is one of the 120+ games currently in the GRID ecosystem. The game is also currently listed in the Rewards section of GRID with the exclusive **Voxie Tactics: Starter Pack**. After the user has logged in into GRID for the first time, the user account is given 1 Credit which can be used to claim rewards in the GRID ecosystem. The Starter Pack can be claimed for 1 credit in the Voxie Tactics page on GRID. Once claimed, the page will show the instructions on how to redeem the pack in the Voxies Marketplace.

Voxies also participated in an [X Space](#) hosted by GRID on September 17th, where they discussed Prestige Mode and whether it is the ultimate online game loop.
