# FINSAUNA

- Best value indoor saunas
- Elegant full glass fronts
- Sophisticated accents & perimeter lighting
- Full sauna experience in free-standing sauna

FINSAUNA was founded by a dedicated team of sauna enthusiasts with a deep passion for sharing the transformative benefits of sauna bathing with the North American audience.

Experience the warmth and serenity of authentic Nordic craftsmanship with FINSAUNA's indoor lineup. Built to complement any home's interior, each sauna exudes Scandinavian quality in every detail, from the careful selection of durable European woods to the refined, sophisticated aesthetics that elevate any space.

**Therma 78**

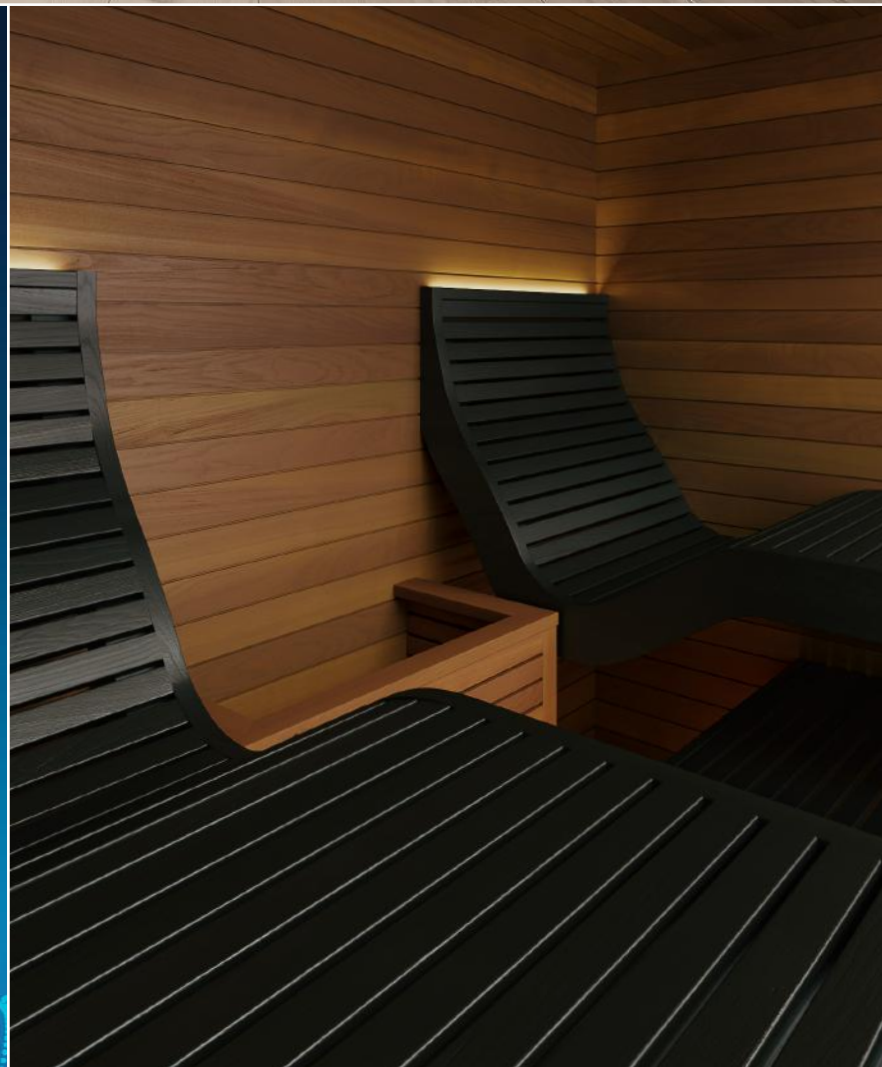

- Furniture-grade sauna cabins
- Ergonomically refined benches and headrests
- Luxurious low voltage lighting for beauty and ambiance
- Premium sauna accessories included

Auroom crafts its saunas from the finest sustainably sourced woods of Northern Europe, meticulously milled to the most exacting standards. Using only chemical-free, thermally modified timber, these saunas embody exceptional quality, beauty, and durability.

With hidden fasteners and an entirely seamless design inside and out, Auroom saunas aren't just assembled – they're crafted.

Each Auroom modular sauna kit includes every structural element, allowing discerning buyers to create a luxurious, spa-quality retreat in the comfort of their home.

- Wood-fired and electric models
- Large stone capacity
- Unique stainless steel mesh design
- High-quality craftsmanship
- Efficient heating

IKI sauna heaters were born out of a passion for authentic, high-quality sauna experiences, rooted in Finland's deep sauna tradition. Founded in the 1990s, IKI set out to create heaters that offered a perfect balance of modern engineering and classic craftsmanship.

Known as the pioneer of the 'rock-tower' style heaters, the company became renowned for its innovative stainless steel mesh design, which allows for a greater stone capacity and a uniquely soft, enveloping steam. Every heater is handcrafted in Finland using premium materials, combining functionality and aesthetics.
