Dome 

HERITAGE

Dome

NEW

Designed by
JK Design Studio

Make a strong design statement outdoors with the Dome collection. Made from premium concrete, each piece unites raw strength with smooth, sculptural curves, creating a look that feels both architectural and refined. The round dining table offers generous seating for six people and becomes a striking centerpiece, while the matching coffee and side tables complete a cohesive, minimalist setting. With its refined presence and contemporary edge, Dome elevates any outdoor space into a place of pure design and quiet elegance.

CONCRETE ELEGANCE

With its exceptional shape and enduring materials, the Dome Collection is built to withstand the elements while elevating terraces, patios and contemporary garden projects. The natural texture of concrete adds depth and character, making each piece unique.
