# Tips from Seniors

**ZHONG TAI**

Hey freshies, Welcome to the Hall 1 Family :) Coming into hall, I had my worries too. I didn't know which activities to join, whether I'd gel well with the other residents and of course concerns about my studies. Having been part of this wholesome community for a year, I can assure you that these worries quickly disappeared (studies still important hor).

All it took was a leap of faith :D I ended up joining multiple sports and recreational games, attended several hall events and made many new friends. I believe that hall life is determined by how you choose to interact with the hall community so take every opportunity you have and fully immerse yourself. These years you spend will definitely become a core memory and forge long-lasting friendships. Without a doubt, studies should be your priority, but taking a breather and building a strong peer support is equally valuable.

Take this chance to venture beyond your comfort zone and have fun!

**BFF**

HELLO FRESHIES!! Welcome to the highly spirited Hall 1! A place full of warmth, energy, and real family vibes!

Here in Hall 1, you'll get to try out loads of exciting CCAs and activities. For example, I'm part of Unisus, our very own cheerleading team! Yes, it might sound unexpected but trust me, it's an amazing experience and one you'll rarely get outside of university. So YESSS, come join cheerleading!

But Hall life isn't just about CCAs. It's about the friendships you'll build from late-night chats in the hallways to spontaneous weekend meetups, the bonds you form here will stay with you for a long time.

Living in Hall 1 will take you on an emotional rollercoaster you'll laugh, cry, scream, and cheer... but that's the beauty of it. Embrace the chaos, enjoy the journey, and make the most out of every moment! Hall 1 awaits you.

**ZHAN**

**KARA**

Hello freshies! Welcome to hall 1! I hope that you find your stay here enjoyable and fun :) for those staying away from home for the first time, i understand the fear and anxiety you might have. Initially i was worried that living alone i wont be able to take care of myself well and i'll feel lonely but honestly my stay here has not only allowed me to make more friends but also helped me find a group of people i can call family.

I recall being sick and yet surrounded by people taking care of me, buying medicine from Prime supermarket on the way back from their classes and making sure i was okay.

I also didnt think that I will be involved in so many activities in hall. Honestly, im still looking into many of the clubs and activities but wow I honestly didnt think Hall life would be so interesting and fun in my first year - taking part in hall 1's fiesta, becoming a CGL etc.

If you're worried or have any questions dont hesitate to reach out to anyone of us :3 See you around!!!

HEY FRESHIES!! 🥰🥰

Get ready for an INSANE ride because this place is bursting with crazy fun people, hype events, and memories you'll be telling stories about forever. 🙌 Whether you're going all-out at orientation camps, rocking performances with Hall 1 Jam Band, cheering your heart out at Fiesta, or making spontaneous 2 a.m. supper runs, there's never a boring moment around here. 🥰🥰

When I first moved in, I thought I'd just hide in my room and survive — spoiler alert: Hall 1 pulled me straight into the action, and I never looked back! Everyone here is super welcoming and approachable, so don't hesitate to jump into anything that looks fun or just ask someone to hang.

More than the events and late-night adventures, Hall 1 is where you'll grow alongside friends who truly look out for you. You'll discover new interests, challenge yourself, and make bonds that last well beyond your NTU days. So brace yourself for the laughs, inside jokes, lifelong friendships, and those crazy, cherished memories you'll treasure forever. 🧡

## BAOYAN

Hiiii Hall 1 freshies, welcome to the Hall 1 Family!! I am so excited to meet all of you and I hope you are also looking forward to meet all of your fellow residents. Trust me, you're going to make some great memories here—whether it's late-night chats, spontaneous outings, or just hanging out in the common areas.

Moving into a new environment can feel overwhelming, but rest assured, you are stepping into a supportive space filled with friendly faces and helping hands.

There'll be plenty of chances to join in on activities, meet new people, and get involved, so keep an open mind and give things a shot. Whether you're super outgoing or more laid-back, there's space for everyone here. Looking forward to an awesome year ahead with all of you

## ARFAN

Hi! Welcome to Kampong life! I hope that all of y'all are looking forward to creating many memorable and fun memories at Hall One.

If only I had piece of advice to share, it will be for you to join any of Hall One Main Committees, Recreational Games or Sports! Not only will you get to meet new people and forge new friendships, but you also get to develop holistically, where you will gain interpersonal skills!

Balance is key at University, it's more than just attending lectures or tutorials. Joining clubs and societies will contribute to you becoming a well-rounded graduate, ready to take on your next challenge. With that being said, I hope that you find your sense of belonging at Hall One! Let the adventure begin!

Hello and welcome to Hall 1, everyone! I'm super excited to see all your faces and be part of your journey here! Just last year, I was a freshie myself too, stepping into Hall 1 but very quickly, this place became a second home for me where I can be safe and grow myself in new ways I never thought were imaginable.

In Hall, I joined UNIFIC , and that's where I really started learning to dance properly for the first time. From fun dance practices to chill supper and yap sessions, those moments contributed to my vibrant and amazing first year in Hall 1, becoming a place where I laughed, grew, and built some of my strongest friendships.

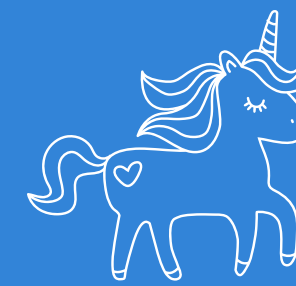

This year, I'm back as a GL for Hall 1 Orientation (yay!) and I genuinely can't wait to help make your first steps into hall life smooth, exciting, and memorable. I hope you're looking forward to orientation because I promise you, it's also the start of something really special. Some of my closest friends in my NTU journey are ones I met during orientation! So whether you're the kind to vibe quietly or live life like it's a party and cheer your lungs out, there's a space for everyone here.

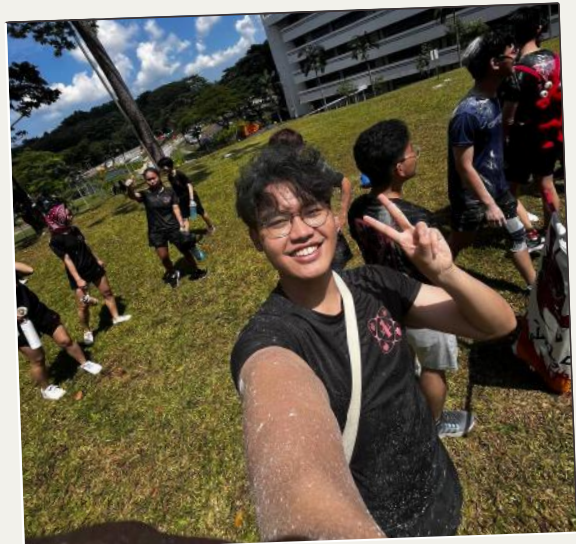

To all of you starting this new chapter: I wish you nothing but the best. May your time in Hall 1 be filled with laughter, late-night talks, new friendships, and unforgettable memories. Try new things, step out of your comfort zone, and most importantly, enjoy every moment. We're all rooting for you—welcome to the fam

# HALL ONE BEST HALL!

**HAIKEL**

Hi freshies! And a warm welcome to Hall 1, your home away from home!

As you take the step into hall, you may feel a mix of emotions. Excitement with a slight sense of unease, and a strong anticipation of what's about to come next. I know I felt like that when I entered. I completely didn't know what to expect!

But the strong sense of community and friendly neighbours in Hall 1 had put my mind at ease. I never truly understood what it meant by the "Kampung Spirit" until I stayed in Hall 1. Friendly seniors and neighbours will not hesitate to lend that helping hand. And not to mention, the friends that you will meet here will stick with you forever.

The one thing about Hall Life that really stands out is that you dictate what your Hall Life will be! In Hall 1, there's a plethora of CCAs, from the various sports and recreational games, to the different main committees like Dance, Jamband, Cheer, Community Engagement, Outdoor Activities, and so much more! Hall 1 offers a vibrant mix of activities that caters to all.

I hope that you look forward to spend your time with Hall 1 and create meaningful memories with the friends you make. Here's to an amazing start to your Hall 1 adventure and to many more fun times ahead! See you guys around! :)

## NETBALL (F)

With 7 players on the court at any time, the aim of a Netball game is for the shooters to shoot as many goals as possible. Facing another 7 opponents on court, each player has a different role and each role is equally important. These roles involve shooting, attacking and defending. Although there are many strict rules in the game of Netball, it is truly an enjoyable sport which tests not only physical fitness but also how to outsmart your opponents!

## SOFTBALL (M&F)

Softball despite its name is far from a soft sport — for starters the ball isn't even soft. It's as hard as a baseball but slightly larger. Considering the pitcher stands far closer than a baseball pitcher, it is fair to say that softball players have just about as much time to react as their base-ball counterparts. Softball fields are also much smaller than baseball fields, making softball a faster-paced game. Players have to be quick in the outfield and be able to run between bases, and those who excel in the infield need lightning fast reflexes to play successfully. Interested in a fast-paced sport? Do you think you have what it takes? Sign up now to find out more, even if you have no softball background, do join us for training!!!

## SWIMMING (M&F)

Hello, we are the Hall 1 Swim/Water Polo team! Whether you're new to swimming or have competitive experience, we welcome everyone to join us at our weekly swimming training at the NTU swimming pool. It a great sport to bond with your friends and maintain fit throughout your hall stay.

More on our CCAs

## BOGGLE

Boggle is a word game where after a good shake of 16 dice, players duel against each other to write as many words as they could think of to gather as many points as possible under the pressure of time slowly ticking away. Points are earned based on the quality and quantity of words written and challenging your opponent for bogus words that they have written off their board. Through Boggle, you can amaze your friends with your knowledge of obscure words, improve your pattern spotting skills and make new friends in a fun and cosy environment.

## CHINESE CHESS

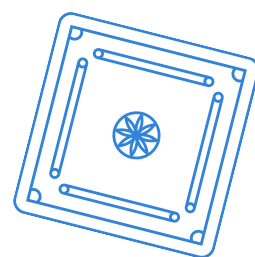

Chinese Chess, or Xiangqi, is more than just a game; it's a blend of art, culture, and intellect that has been enjoyed for centuries. Whether you are a seasoned player or a curious beginner, Hall 1 Chinese Chess offers a supportive environment for you to learn, compete, and enjoy the game. We host weekly meetings, friendly matches and strategic discussions to challenge yourself against fellow enthusiasts.

We look forward to seeing you at our first meeting!

## CARROM

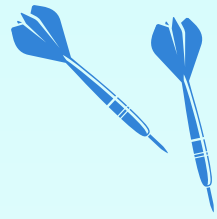

Like the clacking sound of pieces clattering against each other? A natural sharpshooter when flicking things? Just want to try something new? Whether you're looking for a fun new activity or a dab hand at "tabletop pool", Hall 1 Carrom welcomes you! Why not join us?

## CONTRACT BRIDGE

Contract bridge is a card game that tests how much you can multitask and memorize in a short period of time. Each game consists of four players split into two pairs using a standard 52-card deck, the game kicks off with the bidding stage, where you and your partner communicate through clever bids, aiming to win a set number of tricks with a chosen trump suit or no trumps at all. Once the bidding is done, the real fun begins! The declarer tries to achieve the contract with the help of their partner's face-up cards, while the defenders work together to thwart their plans. Each turn is a chance to outsmart your opponents and showcase your card-playing prowess. Whether you're playing for fun or diving into competitive tournaments, bridge offers endless opportunities for enjoyment and skill development. Join us and see if you and your partner can read each other's minds!

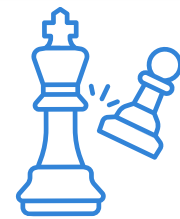

## DARTS

Darts is a game of accuracy and focus, but here at hall one it's also about having fun and bonding with friends. Fun fact each dart can weigh anywhere from 18g - 25g! Throw all your heart out with our very own hall dart recreational group! Have a game or two and make some new friends along the way. Spend some of your free time in the hall with us as all it takes is a will to throw! Feeling competitive? Rank it out with each other over different game modes like 501 and cricket! Welcome to hall one darts club!

## INTERNATIONAL CHESS

Are you looking for a fun, chill environment to learn something new? Or an existing player looking to improve and have casual chess matches with fellow oners? All experience levels are welcome! Hall One International Chess promises an enjoyable experience!

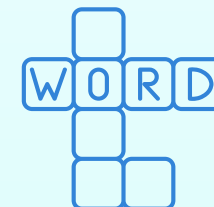

## OTHELLO

Othello, also known as Reversi, is a fun game that everyone can enjoy! It's played on a square board with black and white discs. The goal is to flip your opponent's pieces to match your color. It may seem easy at first, but Othello is actually a tricky game that requires clever thinking and strategy. Even though it's simple to learn, it takes a lot of practice to become a master. Every move you make in Othello opens up new possibilities, so it's like solving a puzzle with every turn. So, get ready to have loads of fun while challenging your brain with Othello!

## SCRABBLE

Scrabble is both a board game and word game. Players randomly select 7 letters at any time in their rack and the aim is to form words to score as many points as possible in a 1 vs 1 or 2 vs 2 battle. With more experience, you may find yourself wanting to play crazier words with more obscure meanings. Simultaneously, you will also start to think of increasingly crafty plays which require a balance of luck and logic.

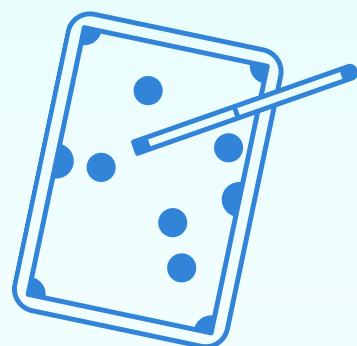

RECREATION

## SNOOKER

Snooker is basically pool's big brother. The objective of the game is to get more points than your opponent. Points are earned by potting balls alternating between a red and a colour ball. Alternatively, you can snooker your opponent and get points if they make a foul. Come join our snooker team and challenge yourself!
