

Diesel Particulate Filter & Diesel Oxidation Catalysts Catalog

DPF  **BY GESI**
Fit

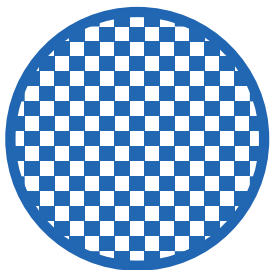

DPFXFIT PRODUCT ADVANTAGES

DPFXFIT™ is an aftermarket Diesel Particulate Filter (DPF) line, designed as a direct replacement to the most common OEM aftertreatment systems.

- Precision-engineered for effortless installation (except cut-out/weld-in models).
- Premium substrates from industry-leading suppliers.
- OEM-quality clamps and gaskets included with every DPF and DOC unit.
- Constructed from durable stainless steel for extended service life.
- Always New, Never Re-Manufactured With No Core Charges.
- North American-designed and manufactured.

SUBSTRATE OPTIONS

Premium substrates from industry-leading suppliers. HE DPFs feature a 300 CPSI (cells per square inch) high-efficiency catalyst that increases back pressure for improved soot capture and combustion. Enhanced filtration process minimizes the frequency of regeneration cycles

PROPRIETARY WASH COAT

Passively regenerates at a lower 380°C, improving fuel efficiency and extending filter life compared to the OEM standard of 700°C.

DURABLE

One piece stainless steel hydroformed canning construction reduces welding while increasing material strength and heat retention.

ACCESSORIES

DPF include all appropriate gaskets and clamps.

**FREE 2-DAY
SHIPPING**
