

**WELCOME**  
to St Hilda's

**St Hilda's**  
ANGLICAN SCHOOL FOR GIRLS

**“There are so many opportunities available to you in Senior School and I implore you to try as many as possible to spark your passion and find your tribe.”**

*Andrea McNally, Deputy Principal*

# Dear Future Year 7 Students

**Starting Senior School can be quite daunting, especially with so many new faces, and it is normal to feel nervous about such a big transition. However, you can be rest assured that we will help make the change as smooth as possible.**

The transition to Senior School is a lot of fun. It starts with Orientation Day in September where you will get to meet the rest of the 2027 cohort and engage in some fun activities. Then, during the first few days of Term 1 in 2027, you will spend some time exploring the Bay View campus, enjoy some confidence-boosting activities, make new friends, and get to know your teachers who will help you throughout the year and beyond.

You will be assisted by your Head of Year and Homeroom Teacher who are there to guide, mentor and care for you with any challenges you may face.

There are so many opportunities available to you in Senior School and I implore you to try as many as possible to spark your passion and find your tribe.

I look forward to you commencing your journey with us at St Hilda's and hope we can spark an extraordinary future for you in whichever path you decide to take.

Kind regards,

**Andrea McNally**  
*Deputy Principal*

# Year 7 Subjects

## English

You will gain an understanding of how texts are constructed and the role that language plays in shaping social beliefs and values and attitudes. You will also learn about different forms of writing and the significance of different contexts.

## Humanities

You will be introduced to the disciplines of Economics, Geography, History, and Politics and Law to develop expertise in the different skills of each subject and a deep knowledge of content.

## Languages

French or Japanese are offered, and each course aims to enable all students to communicate proficiently in a language other than English through a sequence of learning. It also provides students with essential communication skills, an intercultural capability, and an understanding of the role of language and culture in human communication.

## Mathematics

You will be exposed to essential mathematical skills and knowledge in Number and Algebra, Measurement and Geometry, and Statistics and Probability. The numeracy capabilities required for your personal, work and civic life are developed and the fundamentals on which mathematical specialties and professional applications of mathematics are built.

### Physical and Health Education

The primary objective of Physical Education is to give every student the opportunity to reach full movement potential through participation in a varied range of physical activities including; swimming, volleyball, hockey, athletics, basketball, softball, netball, water polo and fitness. In Health, the focus is on feelings and relationships, cyber safety, puberty, sun protection and smoking. The program is developmental, considering the growth and development, knowledge, needs and maturity of students.

### Homework

You may be required to complete class work, worksheets, assignments, prepare and revise for assessments, as part of our Learn program.

### Science

Students study four topics during the year: Introductory Chemistry, Earth and Space Science, Physics and Biology. Experiments in the science laboratories are a key feature of this course.

# Other Courses

## Digital Technologies

Students are introduced to the School's computer systems and learn about the different types of networks, including wired, wireless and mobile networks. They learn to manage their folders and files, and acquire a basic knowledge of hardware and software. Students investigate how digital systems represent text, image and audio data in binary. They use a range of techniques, appropriate digital technical terms and technologies to design, develop, review and communicate design ideas, plans and processes.

## Design Technologies (Food)

Students explore how technologies shape society through the Food Specialisations context. They investigate the role of food in daily life and its connection to health and wellbeing, identifying nutritional values and food properties to guide preparation and presentation.

## Entrepreneurship (ESSTEAM)

Entrepreneurship (ESSTEAM) introduces and establishes enterprise skills and opportunities to connect with real-life problems. The ESSTEAM program aims to solve sustainability problems through the lens of Science, Technology, Engineering, Arts and Mathematics.

## Lean In (Leadership)

All students engage in Lean In. This program strengthens inclusive leadership capability and equips girls to challenge limiting stereotypes at a pivotal stage of adolescence.

## Drama

Drama engages and inspires students, helping them build confidence, creativity, problem-solving and teamwork skills.

In Year 7, students learn to make and respond to drama through devised and scripted work. They explore dramatic forms, use the elements of drama to create meaning, and develop skills in design, play building, voice and movement. They shape performances for specific audiences and work both independently and collaboratively.

By the end of the course, students appreciate drama as an art form and have strengthened their confidence and creativity through workshops and performance.

## Dance

In Year 7 Dance, students explore techniques from a range of genres, including contemporary and cultural styles. They learn the elements of dance and work individually and in groups to create choreography. They rehearse and perform both their own work and set repertoire, and respond to practical tasks in written and verbal form. Students also view and reflect on professional dance works.

The course builds confidence, teamwork and an appreciation of dance as an art form. It is inclusive and challenging for all students, regardless of prior experience.

## MoneyVest (Financial Literacy)

The MoneyVest program provides structured financial literacy education, teaching students to budget, invest, evaluate risk and make informed decisions about money.

## Belonging

**Focus 1:** As the girls transition to our Senior Campus and continue to grow in the tradition of St Hilda's, it is important that they understand and appreciate the history, culture and traditions and values of the School. This course endeavours to invoke a sense of belonging through an appreciation of the people who have made the school what it is, the values it upholds as an Anglican school, and how the students can contribute to St Hilda's tradition and history. Students will discover and appreciate historical figures, old scholars, customs, celebrations and values to find their place in St Hilda's story.

**Focus 2:** Students will explore the art of mindfulness and discover how mental wellbeing can assist students in navigating the challenges of transitioning to Senior School. Students will learn a variety of strategies, to develop their mental strength.

## Music

Students participate in a wide range of musical activities, including listening to and learning about different musical styles and instruments. Students are taught the basics of music analysis and theory through exploring a variety of musical genres. They investigate how music can be used to convey ideas and emotions, focusing on how music is used in movies.

Many girls also gain valuable ensemble experience through joining groups such as the Whitby Chorale, the Senior Concert Band, the Jazz Band, the Senior String Orchestra and the Senior Orchestra.

All students are encouraged to enrol in instrumental or vocal lessons with a professional teacher either inside or outside school.

## Visual Arts

Students have opportunities to use and apply visual art language and artistic conventions in their design and production process. Projects encourage personal responses and engage students in exploring themes, concepts, 2D and 3D techniques and processes.

## Year 7 Outdoor Education Experience

The four-night experience will be based out of our Yeagarup campus with activities conducted around the Yeagarup/Pemberton region. The Year 7 program is an introduction to expedition style outdoor education. The experience is designed to ignite an interest in the natural world, encourage adventure and develop relationships between students.

# Cocurricular

## SPORT

SWIMMING

AFL

VOLLEYBALL

BADMINTON

T2

T3

T4

### Drama

Cocurricular Drama opportunities for our students to shine include the involvement of the whole school in Arts Festival and the Year 7 and 8 Production.

### Music

There are numerous choirs, orchestras, bands, and ensembles which meet every week of the school year, and each group is given many performance opportunities both in school concerts and Chapel services as well as in countless events outside of school for the wider community.

### Dance

Cocurricular Dance offers opportunities for live performance in the roles of dancer and choreographer, working with specialists throughout the school year to create dynamic dance pieces for public performances.

### Outdoor Education

These optional programs are designed to explore outdoor activities and environments that students have shown an interest in. In Year 7 we offer before school surfing and weekend surf camps to Lancelin.

### Clubs and Committees

Environmental Committee

St Hilda's Senior School also has over 40 Clubs and Committees, which students can join. It's an opportunity for students to connect on a social and fun level in an area they are passionate, interested or have a particular talent in.

Chess Club

Coding Club

Community Service
