

# KNOWSLEY: DON'T LET SHINGLES STRIKE:

## A big shield against shingles

### Looking after your health starts with one simple step.

The shingles vaccine is one of the most effective ways to protect yourself against shingles and the long-term pain it can cause. If you are soon to be turning 65, or aged 70 to 79 you will be eligible for the vaccine. You may also be eligible if you are aged 50 and over with a severely weakened immune system.

At Primary Care Knowsley, we're here to make the process easy, safe, and stress-free, and if you're not currently registered with a GP, we're welcoming new patients across our 11 friendly practices in Kirkby, Halewood, and the wider Knowsley area.

### What Is Shingles?

Shingles is a painful skin rash caused by the same virus that causes chickenpox. It can flare up later in life and lead to serious complications, including long-lasting nerve pain.

The shingles vaccine helps prevent this from happening – and if you do still get shingles, your symptoms are likely to be milder and shorter-lived.

### Why Get the Vaccine?

- It's free on the NHS for those eligible
- One dose (or two, depending on the type) provides lasting protection
- It greatly reduces your risk of shingles and its complications

### Who Can Get It?

The shingles vaccine helps protect against shingles. It's available on the NHS for **all adults turning 65**, those aged **70 to 79**, and those aged **50 and over with a severely weakened immune system**.

Contact your GP practice if you think you may be eligible or have not had an invitation and believe you should have.

#### Not a Primary Care Knowsley Patient?

No problem - shingles vaccines are available at most NHS GP practices. Just contact your current surgery to check eligibility and book your appointment.

#### Join Primary Care Knowsley

We're always happy to welcome new patients! You can register with us quickly and easily. Simply click the button on the bottom right or use the NHS App. Protect your future self by booking your shingles vaccine today.
