moodle

Pedagogical excellence
with **2000+ plug-ins** and
a dedicated App.

Available on the App Store

GET IT ON Google Play

Open Source
The most widely used Open Source LMS in the world.

Highly customisable
With themes, roles, permissions. Set up Moodle the way you want.

Standard activities
Moodle comes with over 20 pedagogical activities.

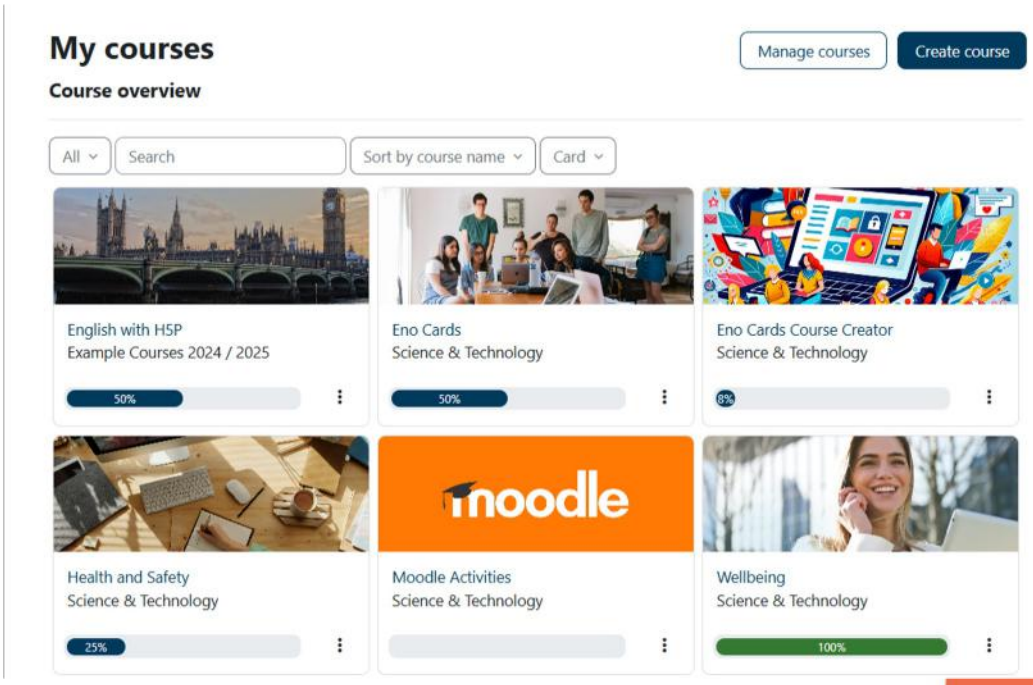
Dedicated mobile application
Available on Apple and Android stores, allowing offline access.

2000 plugins available
Use plugins to add additional functionalities.

Moodle API
Allowing interconnection with different platforms.

Customisable
to suit your needs

WITH THEMES, ROLES AND ADDITIONAL PLUGINS, MOODLE OFFERS ADVANCED CUSTOMISATION.



Theme selection
Moodle offers a wide variety of layouts.

Course format
Choose the course format that suits you best.

Tailor-made roles and capabilities
Create roles with specific permissions.

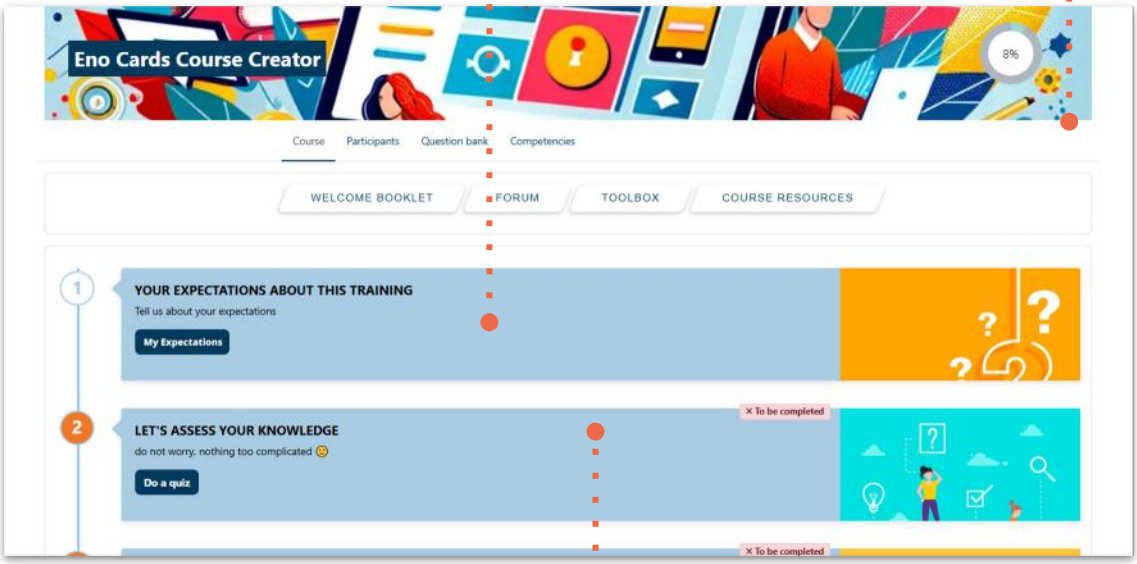
Custom plugins
Moodle lets you build specific plug-ins.

Attractive and fun courses

MOODLE OFFERS A RANGE OF DIFFERENT FORMATS THAT CAN BE USED TO STRUCTURE A COURSE ACCORDING TO THE CONTENT AVAILABLE AND THE TARGET AUDIENCE.

Customisable tile
The format allows you to modify colours, icons, images and teaser text for the theme.

Gamification and challenge
With the Level up! plugin, you can challenge your learners to gain experience.



Access restrictions
With restrictions, your learners must validate milestones before continuing.

Progression and validation
Visibility of progress and completions already completed.

More than 2000
Plugins available

ENHANCE FUNCTIONALITY BY
LEVERAGING OVER 2000 PLUGINS

Wide choice of themes
The theme is a plugin that can be changed very easily at the interface level.

Gamification activities
Make your training courses fun with escape games, Level Up!, H5P, Treasure hunts...

Educational activities
Many complementary activities: H5P, Treasure Hunt, Virtual Classroom...

Video conferencing tools
Moodle can embed various virtual classroom tools such as Big Blue Button, ZOOM...

Course format
Allows you to adapt the layout and ergonomics to the course content.

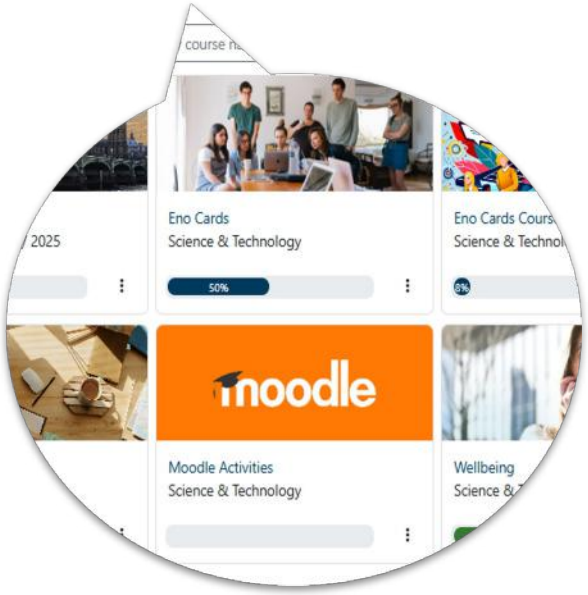
Issue certificates
The Moodle community offers a wide range of attestation / certification plugins.

Simple, intuitive ergonomics

MOODLE CREATES GREAT LEARNING EXPERIENCES WHILE CONTINUOUSLY IMPROVING THE USER EXPERIENCE

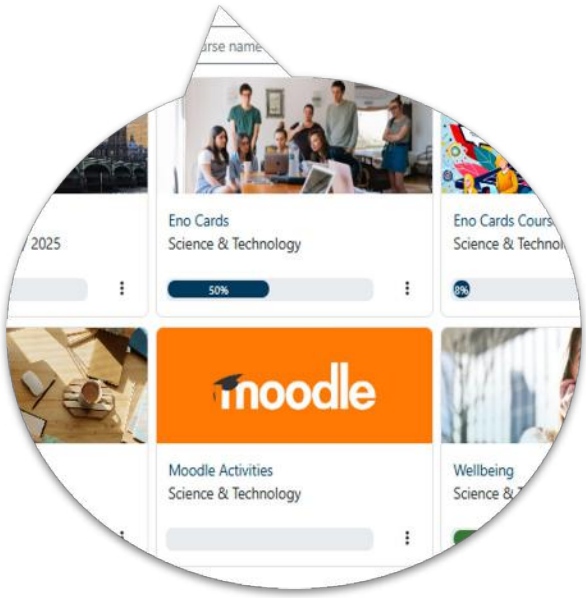
Dashboard
On a single page, learners can view their progress and meet course requirements.

A modular welcome
Easily communicate with your learners using tools such as the slider, blocks...



Follow the course
Employees can then carry out their activities or exchange ideas, test themselves, train, stay informed...

The Catalogue
Define mandatory courses according to pre-set criteria or let the learner browse the course catalogue.

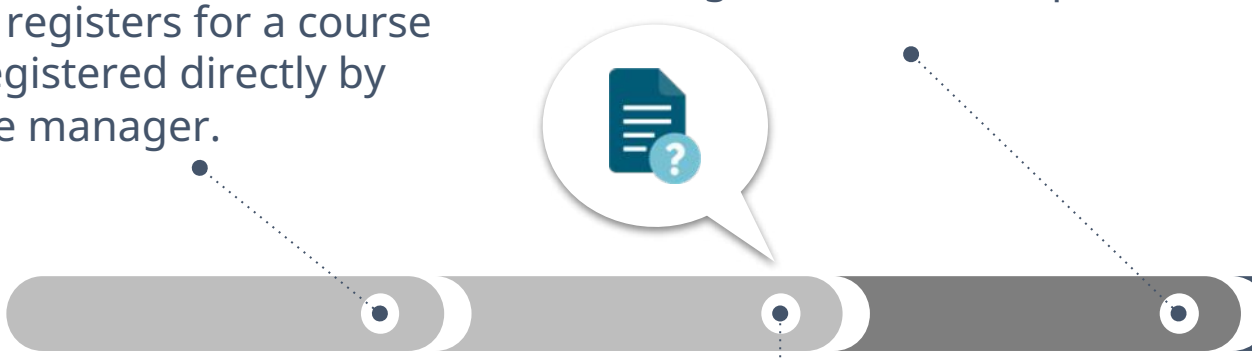


The Moodle **journey**

EXAMPLE OF A USER'S PATH THROUGH MOODLE'S ACTIVITIES AND METHODS.

Course registration
Louise registers for a course or is registered directly by her line manager.

Activities
Louise can watch videos, chat on the forum, hand in assignments, take a quiz...



Positioning
Louise takes a positioning test which, depending on her result, opens up additional content.

Quality feedback
Louise answers a satisfaction questionnaire that will help us improve our training.

Evaluation
Louise is assessed on her knowledge and receives a grade that gives her access to feedback.

Certificate
A certificate is issued and sent by email with an authentication code.

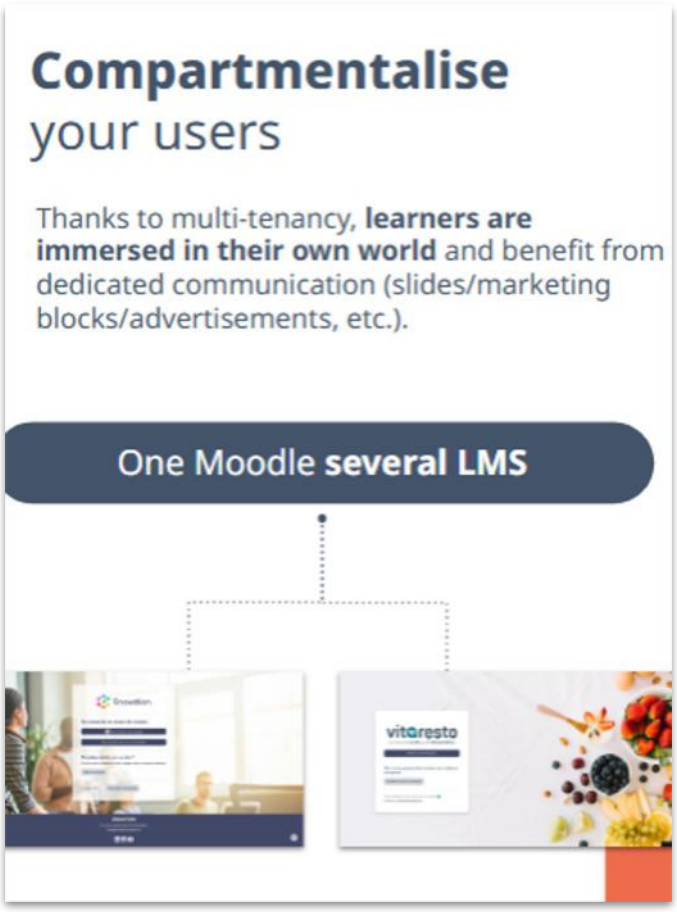
Completion
restriction and certificate

MANAGE THE TIMING AND SEQUENCING
OF LEARNING CONTENT.
DELIVER CERTIFICATES DYNAMICALLY

The management of completions and restrictions allows you to control the learner journey.

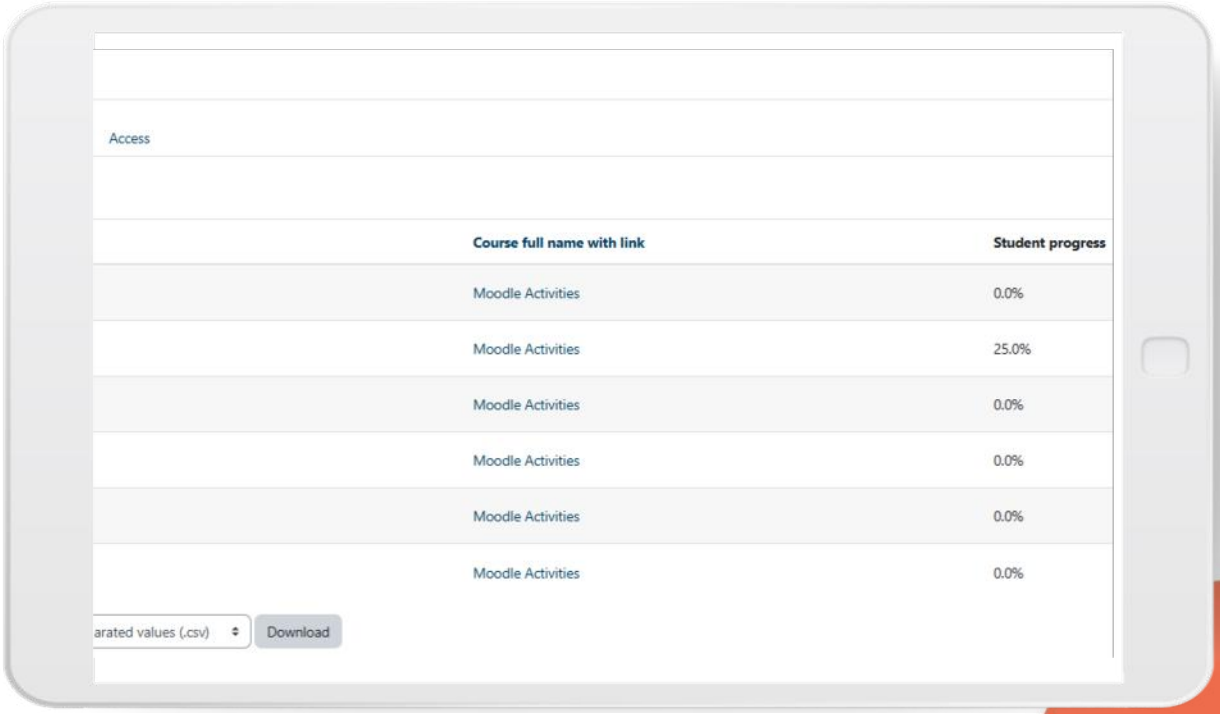
Access to resources can be **conditional on successful completion of a previous activity**, membership of a group, date or level.

Unlock dynamic certificates with the “Custom Certificate” plug-in.



Manage reports easily

BUILD CUSTOM REPORTS THAT FOCUS ON RELEVANT DATA.



Tracking course completion
Choose from a wide range of data sources and custom filters to sort the data.

Activity completion tracking
Choose exactly how you want to assess the progress and course completion.

Course viewing statistics
Create reports from various sources and stay in control of access rights.

Specific additional reports
Integration of powerful statistical plug-ins: Intelliboard / LearnerScript, Power BI.

Compartmentalise your users

Thanks to multi-tenancy, **learners are immersed in their own world** and benefit from dedicated communication (slides/marketing blocks/advertisements, etc.).

One Moodle **several LMS**

Training catalogue
for your learners

The catalogue makes it easy to present your training courses to your audience.

Create filters
Add as many filters as you like to make it easier for your learners to choose from your courses.

Description
Insert additional information about the course such as course overview / PDF / documents / links, etc.

Add visual cues
You can set images to easily identify courses, acting as a sign-post for your learners.

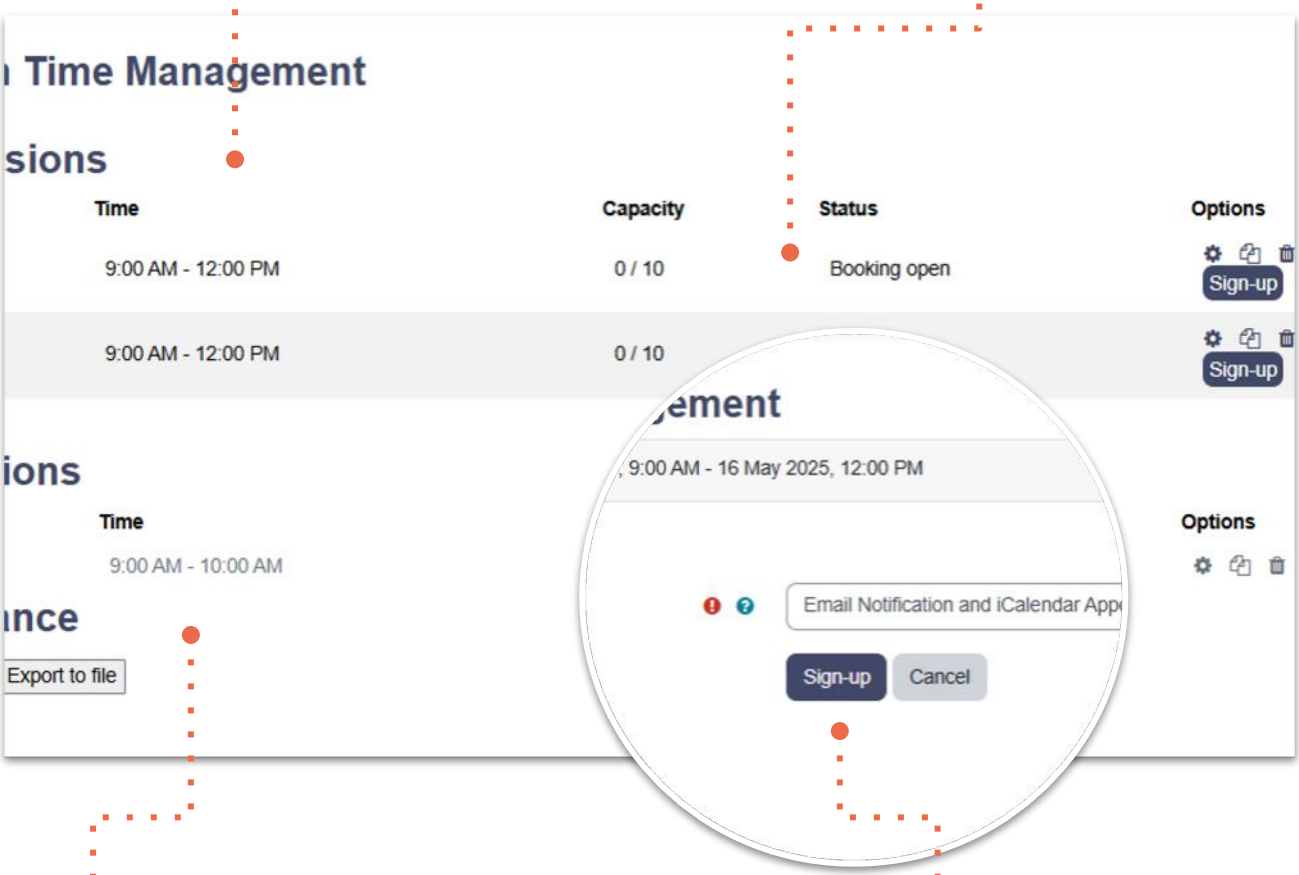
Additional information
You can configure the display of additional information, such as free access.

Integrate **in-person sessions**

CREATE IN-PERSON SESSIONS WITH NOTIFICATIONS AND ATTENDANCE SHEETS WITH THE FACE-TO-FACE ACTIVITY.

Customisable
Add as many additional fields as you wish (location / price / theme, etc.). You can also manage available spaces.

Notifications and calendar
Set up notifications for confirmation, waiting list, cancellation, reminders...
Also notify all external parties (iCalendar compatible).



Attendance sheet
The face-to-face activity allows teachers to maintain a record of attendance, replacing or supplementing a paper-based attendance register.

Quick registration
With a simple click, register or get on the waiting list for upcoming sessions.

Discover the **depth and breadth of Moodle**

MOODLE NATIVELY EMBEDS EXTERNAL ACTIVITIES AND RESOURCES.

Resources
Easy documents drag and drop.

Glossary activity
Easily maintain an up-to-date glossary.

Test / Quiz activity
Create tests with different types of questions.

Chat activity
Chat live with your learners.

SCORM package
Upload activities from external tools.

Collaborative forum activity
Create a social space to foster collaboration.

Feedback activity
Collect feedback from your learners

Assignment activity
Create tasks requiring document delivery.

Boost Moodle with H5P

LIVEN UP YOUR COURSES WITH ACCESS TO 50+ H5P GAMIFICATION AND ANIMATION ACTIVITIES

Interactive video
Make your videos more dynamic.

Dynamic presentations
Make your presentations more dynamic: quizzes, videos...

Branching scenarios
Create branching teaching scenarios.

360° discovery
Create interactive animations.

Drag and drop
Build a drag and drop activity.

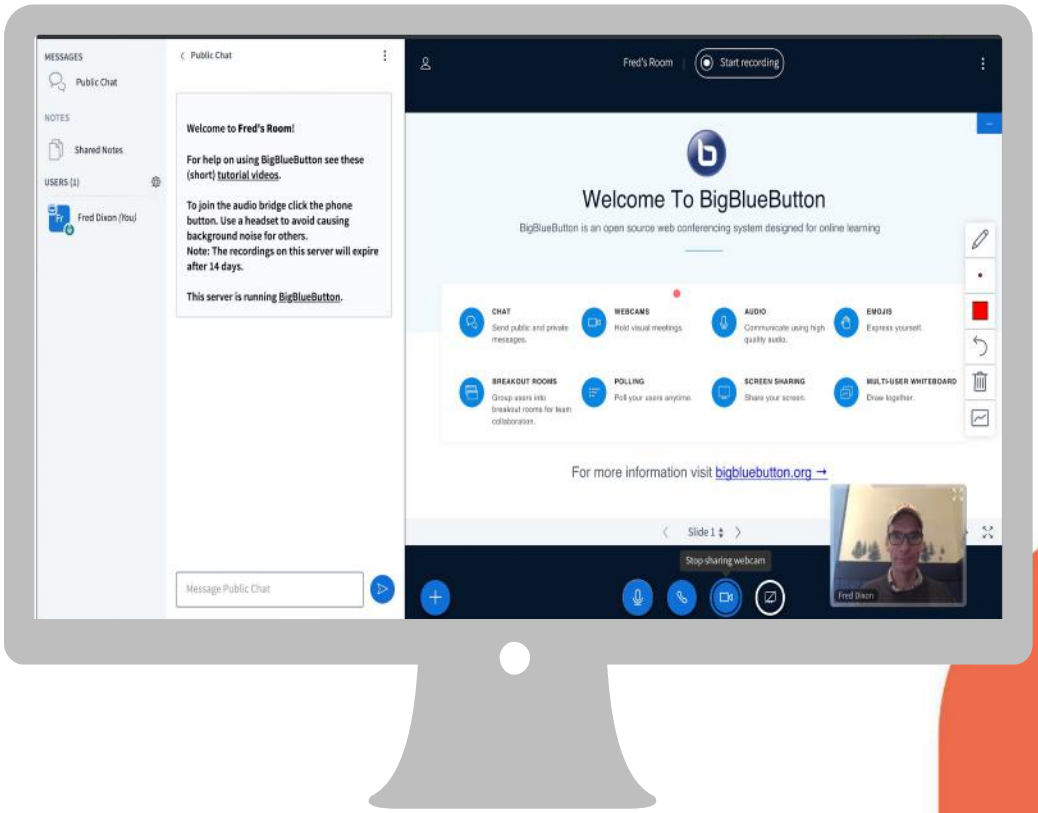
Image sequence
Make your educational activities fun.

Interactive images
Manage action points on an image.

Quizzes, missing words, hidden words...
Use H5P tests for practice.

Integrate virtual classes

BIGBLUE BUTTON OFFERS A VIRTUAL CLASS WITH ITS FREEMIUM VERSION.



Mobile first
Browse the content of your courses,
even when offline.

Manage groups
Group learners to share courses, differentiate activities and facilitate teamwork.

Record your feedback
To use as a resource.

Push polls and questions
Easily send surveys to evaluate participants.

Turn your PDFs into flipping books

TURN YOUR PDF INTO AN INTERACTIVE READER WITH THE FLIPPINGBOOK TOOL IN MOODLE.

Adaptable and responsive
On all media (laptop, tablets, smartphone...).

Zoom
Ability to zoom and define the size of the playback area, embed videos/links...

Digitalisation of media
Ability to download the flipping book in various formats : PDF / HTML 5 file or save on a USB key.

Search and print
Search by keyword and print specific pages.

Go further with **EnoCards**

EASILY ORGANISE PAGES WITH OUR IN-HOUSE ENOCARD PLUGIN.

More than 20 types of layouts

Add **attractive visual elements** to your courses and personalised pages.

No computer skills needed, just choose from up to 20 different layouts from:

Image and text slider - Alert box - News - Accordion FAQ - Timeline - Timeline - Icon buttons - Marketing tile - Calendar - Flashcards...
