About Us

Indifit is a privately owned, independent company whose success has been built on unrivalled levels of personal service.

We really care about our customers - and we invite you to put us to the test to prove it! You will find a wide range of essential products in this catalogue designed for many industries including shop-fitting, contract furniture manufacture and general fabrication to name a few.

For pricing, availability or further technical information, simply send an enquiry directly from the product listing and we will reply immediately. **Alternatively call us on 01279656189.**

We guarantee you will always find us helpful, efficient and friendly. Our phones are answered by human beings who understand the products - never by a machine with a menu!

Call us and you will be talking to people with decades of experience, who really know about the products they are selling.

We do more than just quote price and availability - we are happy to help you specify product and advise the most economical and appropriate solutions.

We hold comprehensive stocks of the most popular items, which are despatched the same day as order, normally by next day carrier.

Timed deliveries are also available at extra cost. Non-stock items are usually available on short lead times. (Minimum quantities may apply. Please enquire).

We will be pleased to supply free of charge samples for prototyping and evaluation purposes and strongly recommend taking advantage of this service when fit, colour or pattern are crucial. Samples are usually despatched the same day.

What Makes Us Different?

Here at Indifit, we strongly believe that we are the best supplier in the UK for engineering components.

We have a small but mighty team consistently putting blood sweat (and sometimes tears) into striving to grow our business through sheer dedication to our customers.

We offer a completely personal service to each and every customer regardless of your spend and ultimately we want to be considered as an extension to your business.

- Over 50 years' experience
- **FREE** samples for prototyping
- 95% of our range ex stock for **next day delivery**
- **NO** minimum order charge
- We can cross reference **ANY** competitor part numbers
- Can't find what you need? **Just contact us for a fast answer**

**WE WILL SAVE YOU
MONEY
TIME
HEADACHES!**

- ARE YOU TIRED OF SUBSTANDARD SERVICE FROM YOUR CURRENT SUPPLIER?
- FED UP WITH A "COMPUTER SAYS NO" ATTITUDE?
- LONG DELAYS ON YOUR PRODUCTS?
- BAD COMMUNICATION?

**WHY
ARE
YOU
PUTTING
UP WITH
IT?**

1

CONTACT US

Contact our sales team with our competitors part numbers

2

WE GET TO WORK!

We cross reference any supplier part numbers which are often the same or very similar match

3

WE QUOTE

We will quote you on all options and advise you of any differences.

4

SAMPLES

Once you are happy with the prices, we will sample you on each item to confirm you're happy with quality fitment etc

5

WE SAVE YOU £££

On average, we tend to see savings for our customer of between 25-40%.

Furniture Castors

Twin Wheel Furniture Castors

- Black nylon construction
- Ideal for light duty applications
- A wide range of fitting options

Twin Wheel Furniture Fittings

- Choose from plate, studed or circlip fittings
- Ideal for light duty applications

Superior Twin Wheel Furniture Castors

- Nylon construction
- Available in multiple colour combinations
- A wide range of fitting options

Light Duty Industrial Castors

- 50mm wheel diameter
- A range of wheel options
- Plate mounted, single bolt hole and studed options available

Double Wheel Apparatus Castors

- 50mm wheel diameter
- Load rating up to 80KG
- Plate mounted or single bolt hole options

Light Duty Castors

Light Duty Single Bolt Hole Castors

- 50-125mm wheel diameter
- Ideal for light duty applications
- A wide range of wheel options

Light Duty Plate Mounted Castors

- Many wheel and tyre options
- Braked, unbraked & fixed frame options
- Ideal for light duty applications

Light Duty Expander Castors

- 50-125mm wheel diameter
- Fits directly into tubes or box section
- Braked and unbraked versions with a choice of wheels.

Light Duty Anti Static Castors

- 50-125mm wheel diameter
- Ideal for cleanroom environments
- Bolt hole & plate mounted options

Light Duty Stainless Steel Castors

- 50-75mm wheel diameter
- Load rating up to 80KG
- Plate mounted or single bolt hole options

Medium Duty Castors

Medium Duty Single Bolt Hole Castors

- 80-200mm wheel diameter
- Thousands of different applications
- A wide range of wheel options

Medium Duty Plate Mounted Castors

- 80-200mm wheel diameter
- Braked, unbraked & fixed frame options
- Suitable for many applications

Hi-Temp Castors

- 100-200mm wheel diameter
- Temperature rating up to 300°C
- Ideal for powdercoating ovens

Medium Duty Anti Static Castors

- 50-125mm wheel diameter
- Ideal for cleanroom environments
- Bolt hole & plate mounted options

Medium Duty Stainless Steel Castors

- 50-200mm wheel diameter
- Load rating up to 350KG
- Plate mounted or single bolt hole options

Heavy Duty Castors

Heavy Duty Pressed Steel Castors

- Up to 250mm wheel diameter
- Weight Loading up to 800KG
- A wide range of wheel options

Heavy Duty Fabricated Castors

- Up to 300mm Wheel Diameter
- Weight Loading up to 2200KG
- A wide range of wheel options

Heavy Duty Double Wheel Castors

- Up To 250mm wheel diameter
- Weight Loading up to 4500KG
- Braked and unbraked versions with a choice of wheels.

OVER 30,000
Castor & Wheel Options

Foot Master Castors

Stud Mounted Levelling Castors

- Handwheel/ratchet height adjustment
- Weight loading up to 800KG
- 42-75mm wheel diameter

Plate Mounted Levelling Castors

- Handwheel/ratchet height adjustment
- Weight loading up to 1500KG
- 42-97mm wheel diameter

Stainless Steel Levelling Castors

- Stud or plate mounted
- Ideal for cleanroom environments
- 50-63mm wheel diameter

The Pride of
Top Quality

Specialist Castors

Gate Castors

- Swivel & fixed options
- Load capacity up to 70KG
- 100mm wheel diameter

Stair Climber Castors

- 150mm wheel diameter
- Elastic rubber on steel centre
- Ideal for sack barrows

Scaffold Castors

- 8" wheel diameter
- Fits directly into scaffold tubes
- Ideal for scaffold towers

Waste Bin Castors

- 160-200mm wheel diameter
- 175-205KG weight loading
- Plastic & steel centre options

Castor Buffers

- Available in a range of colours
- 6-32mm bore options
- Designed to protect equipment from damage

Castor Wheels

Light Duty Castor Wheels

- Wheel diameter from 50mm
- Plain bore & roller bearing options
- Hundreds of wheel and tyre configurations

Medium Duty Castor Wheels

- Wheel diameter from 80mm
- Plain bore & roller bearing options
- Hundreds of wheel and tyre configurations

Heavy Duty Castor Wheels

- Wheel Diameter from 125mm
- Weight loading up to 7000KG
- Huge range of options to suit every application

Pneumatic Castor Wheels

- 200-400mm wheel diameter
- 75-350KG weight loading
- Plastic & steel centre options

Adjustable Levelling Feet

Light Duty Levelling Feet

- Thousands of options from stock
- Range of base diameters and stud lengths
- Fixed, articulating & tilting options

Medium Duty Levelling Feet

- Thousands of options from stock
- Range of base diameters and stud lengths
- Fixed, articulating & tilting options

Heavy Duty Levelling Feet

- Plain or bolt down base options
- Stainless steel options from stock
- Weight loading up to 3750KG

Levelling Feet Accessories

- Can be used with a number of different feet
- Perfect for the shopfitting industry

Pallet/Stillage Feet

- Plastic and steel versions available
- Low MOQ's
- Quick delivery

Can't Find What You Need?

We have OVER 1 million parts

Anti Vibration Mounts

Female Anti Vibration Mounts

- Designed to reduce vibration
- many different configurations
- also used as levelling feet

Female/Female Anti Vibration Mounts

- Designed to reduce vibration
- many different configurations
- also used as levelling feet

Male/Female Anti Vibration Mounts

- Designed to reduce vibration
- many different configurations
- also used as levelling feet

Male Anti Vibration Mounts

- Designed to reduce vibration
- many different configurations
- also used as levelling feet

Male/Male Anti Vibration Mounts

- Designed to reduce vibration
- many different configurations
- also used as levelling feet

Threaded Tube Inserts

Plastic Threaded Tube Inserts

- Designed to fit directly into tube
- For use alongside our adjustable levelling feet
- Manufactured in Europe

Metal Threaded Tube Inserts

- Designed to fit directly into tube
- For use alongside our adjustable levelling feet
- Manufactured in Europe

All Metal Threaded Tube Inserts

- Designed for heavy duty applications
- For use alongside our adjustable levelling feet
- Manufactured in Europe

Weldable Threaded Plates

- Available in a range of sizes
- 304 & 316 SS as standard
- Thread sizes up to M20

Need It Fast?

95% Of our range available for NEXT DAY Delivery

Blanking Tube Inserts

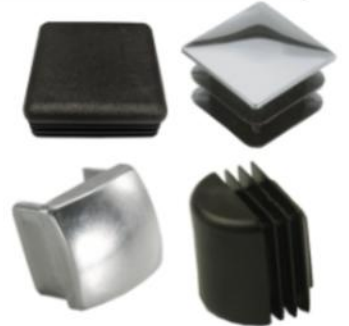

Round Tube Inserts

- Designed for use on round tube
- Metric & Imperial options from stock
- A range of different materials/colours from stock

Square Tube Inserts

- Designed for use on square box section
- Metric & Imperial options from stock
- A range of different materials/colours

Rectangular Tube Inserts

- Designed for use on rectangular box section
- Metric & Imperial options from stock
- A range of different materials/colours

Oval Tube Inserts

- Designed for use on oval tubes
- Metric & Imperial options from stock
- A range of different materials/colours from stock

Tube Connectors

Straight Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- No core/steel core options

2 Way Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- No core/steel core options

3 Way Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- No core/steel core options

4 Way Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- No core/steel core options

5 Way Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- No core/steel core options

Tube Connectors

6 Way Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- No core/steel core options

Pivoting Tube Connectors

- Used in a multitude of different applications
- Ideal for extending box section tube
- 20-40mm square options

Threaded Tube Connectors

- Ideal for extending box section tube
- 20-40mm square options
- Suitable to work alongside our levelling feet or threaded castors

External Tube Fittings

Plastic Ferrules

- To fit on the outside of tubes
- Designed to protect from damage
- Metric & Imperial options from stock

Rubber Ferrules

- Often used on mobility equipment
- Fantastic anti-slip properties

Stand Off Feet

- Designed to lift equipment off the ground to prevent scratching
- Various options available

Saddle Feet

- Designed to lift equipment off the ground to prevent scratching
- Various options available

PVC Wire Tips

- Designed to protect wire or threads
- A range of sizes available from stock

PVC Handles

Plain PVC Handles

- To fit on the outside of tubes
- Designed to protect from damage
- Metric & Imperial options from stock

Grip PVC Handles

- Often used on mobility equipment
- Fantastic anti-slip properties

Bulbous PVC Handles

- Designed to lift equipment off the ground to prevent scratching
- Various options available

Adhesive Buffers

Cylindrical Adhesive Buffers

- Adhesive buffer for use on furniture
- Strong adhesive & anti-slip properties
- Supplied on sheets for easy application

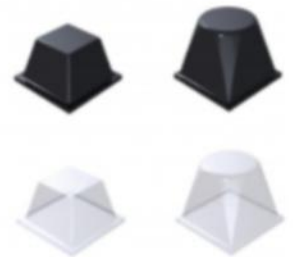

Domed Adhesive Buffers

- Adhesive buffer for use on furniture
- Strong adhesive & anti-slip properties
- Supplied on sheets for easy application

Square Adhesive Buffers

- Adhesive buffer for use on furniture
- Strong adhesive & anti-slip properties
- Supplied on sheets for easy application

Recessed Adhesive Buffers

- Adhesive buffer for use on furniture
- Strong adhesive & anti-slip properties
- Supplied on sheets for easy application

Handwheels

Round Thumb Screws

- Available in both male & female
- Used for many applications
- Range of different sizes

Wing Knobs

- Available in both male & female
- Used for many applications
- Range of different sizes

3 Lobe Handwheels

- Available in both male & female
- Used for many applications
- Range of different sizes

4 Lobe Handwheels

- Available in both male & female
- Used for many applications
- Range of different sizes

Bridge Handles

Nylon Bridge Handles

- Reinforced Nylon construction
- Resistant to chemicals
- Many sizes available

Aluminium Bridge Handles

- Provides a high-end finish
- Machined threads
- Many sizes available

Steel Bridge Handles

- Provides a high-end finish
- Machined threads
- Many sizes available

Stainless Steel Bridge Handles

- Provides a high-end finish
- Machined threads
- Many sizes available

Bridge Handles, Pull Handles, Machine Handles, Ledge Handles, Bow Handles & Folding Handles

Our machine and pull handle range has grown to include a various materials, including Duroplast, glass filled nylon, die cast aluminium, anodised aluminium, and stainless steel.

We stock a large number of handles that are suitable for furniture and cabinets, including steel and aluminium bow handles and anodised pull handles for drawers and doors.

Our handles are supplied in four main fixing types: fixing from above and below with nuts and threaded bolts, compression fitting, or snap-in fitting for thin walled sheet material.

We have a handle to suit most applications, large stocks, low MOQs, unparalleled technical advice, and custom manufacturing capabilities to customise or modify any product to your specific needs.

Index Clamping Levers

Female Plastic Clamping Levers

- Ideal for use on machinery
- Chemical resistant
- Many different sizes/configurations from stock

Male Plastic Clamping Levers

- Ideal for use on machinery
- Chemical resistant
- Many different sizes/configurations from stock

Steel Female Clamping Levers

- Ideal for use on machinery
- Chemical resistant
- Many different sizes/configurations from stock

Steel Male Clamping Levers

- Ideal for use on machinery
- Chemical resistant
- Many different sizes/configurations from stock

Stainless Steel Female Clamping Levers

- Ideal for use on machinery
- High-end finish
- Many different sizes/configurations from stock

Index Clamping Levers

Stainless Steel Male Clamping Levers

- Ideal for use on machinery
- High-end finish
- Many different sizes/configurations from stock

Female Adjustable Tension

- Ideal for use on machinery
- High-end finish
- Many different sizes/configurations from stock

Male Adjustable Tension

- Ideal for use on machinery
- High-end finish
- Many different sizes/configurations from stock

T Handles

Female Thermoplastic T Handles

- A wide range of styles, shapes and configurations
- Typically used where a pulling action is required
- Manufactured with a range of thread types

Male Thermoplastic T Handles

- A wide range of styles, shapes and configurations
- Typically used where a pulling action is required
- Manufactured with a range of thread types

Female Duroplast T Handles

- A wide range of styles, shapes and configurations
- Typically used where a pulling action is required
- Manufactured with a range of thread types

Male Duroplast T Handles

- A wide range of styles, shapes and configurations
- Typically used where a pulling action is required
- Manufactured with a range of thread types

Female Duroplast Offset T Handle

- A wide range of styles, shapes and configurations
- Typically used where a pulling action is required
- Manufactured with a range of thread types

Revolving Handles

Male Thermoplastic Fixed Revolving Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Male Duroplast Fixed Revolving Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Female Thermoplastic Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Male Thermoplastic Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Self Fixing Thermoplastic Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Revolving Handles

Thermoplastic Revolving/Folding Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Female Duroplast Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Male Duroplast Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Moulded Bore Duraplast Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Duraplast Revolving Handles

- Fitted to wheels and cranks to give more rotational force
- Various material options and configurations

Cranking Handles

Thermoplastic Non Folding Crank Handles

- Designed for strength, ergonomics and durability.
- Side handles make cranking and turning the hand wheel more comfortable

Thermoplastic Folding Crank Handles

- Designed for strength, ergonomics and durability.
- Side handles make cranking and turning the hand wheel more comfortable

Cast Iron Crank Handles

- Designed for strength, ergonomics and durability.
- Side handles make cranking and turning the hand wheel more comfortable

Detent Pins & Index Plungers

Detent Pins

- Designed for quick release applications
- Stainless options available
- Used in many applications

Spring Loaded Index Plungers

- Often used in medical applications
- Stainless steel options available
- A range of different finishes and sizes

Plate Mounted Index Plungers

- Available with or without rest position
- Ideal for enclosures
- Ideal for scaffold towers

Cam Action Index Plungers

- Turn the cam lever by 180° to allow the plunger pin to be fully retracted and locked in place
- Ideal for hygiene sensitive environments such as catering or medical applications

Spring Loaded Index Plungers

- These indexing plungers are typically used where high precision and a locking mechanism are not required
- A locking nut is included as standard

Detent Pins & Index Plungers

Threaded Ball & Spring Plungers

- Blackened steel or stainless steel options
- Frequently used in machinery building, sports & leisure equipment, medical devices and machine fixtures

Metal Spring Loaded Index Bolt

- Suitable for a wide range of positioning, locking and locating applications including shop fitting, point of sale and work holding

Mini Index Plungers

- Used in a wide variety of positioning, locking and locating applications such as shop fitting, point of sale, display and electrical cabinets and enclosures

Cam Action Index Plungers

- Indexing plunger specifically designed for mounting in thin walled sheet material

Indexing Plungers, Index Bolts, Ball & Spring Plungers, Cam Plungers & Quick Release Detent Pins

An extensive range of high quality index plungers, spring plungers, cam plungers, plunger pins and indexing bolts. Our index plungers are manufactured from stainless steel and heavy duty blackened steel.

Index plungers are mechanical devices with a spring loaded retractable pin. The pin protrudes into a locating hole and there by locking or indexing a workpiece into place. The user can retract the plunger knob and pin to allow the workpiece to move. Our plungers are supplied with a variety of different grips, knobs and locking functions to suit many applications.

Locks & Latches

Rubber & Stainless Steel Bonnet Latches

- Provides a dampening effect to secure against vibrations while driving
- Corrosion resistant

Stainless Steel Butterfly Latches

- Butterfly latches are ideal for use on flight cases, enclosures and storage boxes

Stainless Steel Toggle Latches

- 304 stainless steel construction is strong, durable and offers a high level of resistance to corrosion, solvents, oils, grease and other chemical agents

Compression Latches

- Installed on doors, drawers and hatches on various types of enclosures and cabinets

Snap In Slide Latches

- Applications include access panels, covers and doors on various types of machinery and equipment

Locks & Latches

Quarter Turn Cam Locks

- Rotate the lock knob by a quarter turn (90 degrees) to lock or unlock the cabinet

Quarter Turn Wing Cam Locks

- The wing knob provides a comfortable and durable quarter-turn locking mechanism
- Available with or without keys

Diecast Cam Locks with Hex Keys

- Die cast zinc construction ensures high strength and durability. Once installed these latches have an IP54 rating against dust and splashing water.

Slotted/Square Cam Locks

- Widely used on doors, drawers and access panels on various enclosures and cabinets

Stainless Steel Cam Locks

- Die cast zinc and stainless steel. All cam locks are have an IP54 rating, giving protection from dust and splashing water

Locks & Latches

Push Button/Push To Close Locks

- Manufactured from lightweight and strong polycarbonate
- Supplied with or without keys

Stainless Steel Barrel Bolt Locks

- Highly polished finish making it suitable for locking doors in a wide range commercial and domestic settings

Enclosure Locks, Toggle Latches, Compression Latches, Cam locks & Cabinet Locks

An extensive range of locks and latches for enclosures and cabinets, including heavy duty toggle latch clamps, stainless steel adjustable toggle latches, spring loaded toggle latches, cam locks, quarter turn latches, compression latches, grabber latches and cylinder locks. We hold large stocks in the UK and most products have low MOQs.

Our enclosure locks are tried and tested, and specified by large and small manufacturers across the globe. We focus on product quality, fast shipping, unrivalled technical support and value for money.

Hand Control Wheels

Thermoplastic Hand Control Wheels

- Designed for strength, ergonomics and durability
- High Impact Resistant thermoplastic

Steel Hand Control Wheels

- These hand wheels are painted in a tough, black finish and supplied with a steel central hub with machined bore and keyway.

Stainless Steel Control Wheels

- These hand wheels are supplied with a stainless steel central hub with machined bore and keyway.

Aluminium Hand Control Wheels

- For use on various types of industrial machinery and equipment. From lathes, machine tools, drilling machines and bandsaws

Plastic & Metal Control Handwheels.

Our hand wheels are designed for strength, ergonomics and durability. Some applications benefit from a side handle. Side handles make cranking and turning the hand wheel more comfortable. A folding side handle is useful where space is at a premium.

Control Hand wheel Applications:

Machine building
Railroad
Lathes
CNC machines
Packaging and processing equipment
Construction industry
Heavy machinery

Hinges

Plastic Hinges For Aluminium Extrusions

- Compact and strong thermoplastic hinge designed for mounting on aluminium extrusions, Cabinets & Panels

Concealed Removable Enclosure Hinges

- Stainless steel construction
- hinge incorporates a simple, tool-free mechanism for removing the enclosure door, providing greater access and ease of maintenance

Diecast Zinc Hinges

- Commonly used on a wide range of applications, from industrial and commercial furniture to vehicle storage, enclosures, electrical cabinets and much more

Adjustable Torque Positioning Control Hinges

- Acetal polymer construction, plus zinc plated screw and polycarbonate pin ensure this hinge is both lightweight and strong

Plastic Hinges With Threaded Inserts

- Commonly found on doors and covers on access panels on machinery, industrial generator parts, and HVAC components

Hinges

Plastic Countersunk Hinges

- Commonly used in conjunction with t-slots to create doors, panels and guards on furniture and equipment constructed from aluminium profile extrusions

Stainless Steel Door Hinges

- Features a removable central pin to allow the door or hatch to be quickly removed without disconnecting the hinge leaf. Mounting is with countersunk screws or bolts

Constant Torque Positioning Hinges

- Commonly used on doors, hatches and access panels on cabinets and enclosures for IT and telecoms equipment, HVAC & manufacturing machinery

Diecast Zinc Hinges C/W SS Pin

- Strong, durable and have an attractive, compact appearance
- Nickel plated steel or stainless steel pin options

Plastic Lift Off Hinges

- High impact resistant thermoplastic lift-off hinges benefit from a strong while lightweight construction and concealed threads for a secure installation

Hinges

Diecast Lift-Off Hinges

- Strong construction and concealed threads for a secure installation

Triple Detent Plastic Hinges

- Designed to give hands-free access to the interior of enclosures and cabinets

Enclosure Hinges, Detent Hinges, Positioning Hinges, Lift-Off Hinges, Concealed Hinges, Removable Hinges

We supply hinges for specialist applications, including detent hinges where a door or access panel needs to remain open, either a specific angle or at any point in the hinge range. Our lift off hinges allow doors and access panels to be removed for easier access and inspection.

Our stainless steel hinges are suited to large doors and environments exposed to water and moisture.

Cable Glands

Nickel Plated Brass Cable Glands

- Wide range of sizes in both metric and PG (Panzer-Gewinde) standards

Cable Glands With EMC Protection

- REACH & RoHS compliant and CE and UKCA certified.
- Metric and PG (Panzer-Gewinde) standards

Nylon Cable Glands

- REACH & RoHS compliant and CE and UKCA certified.
- Metric and PG (Panzer-Gewinde) standards

Nylon Cable Glands With Strain Relief

- Cable glands are comprised of a UL approved nylon claw, UL94-V2, NBR (nitrile rubber) O-ring and NBR hermetic seal, providing excellent mechanical properties and an IP68 rating.

Plastic & Metal Cable Glands, EMC Cable Glands & Compression Glands

Cable glands are an essential safety component in many types of electrical enclosures and cabinets.

Cable glands offer several safety features:

Cable glands attach and fix cables to electrical cabinets and enclosures, preventing cables being pulled, twisted and preventing strain on the cable

Cable glands create an environmental seal to keep out moisture, dust, contamination and corrosion.

Some cable glands provide continuous EMC protection for shielded cables.

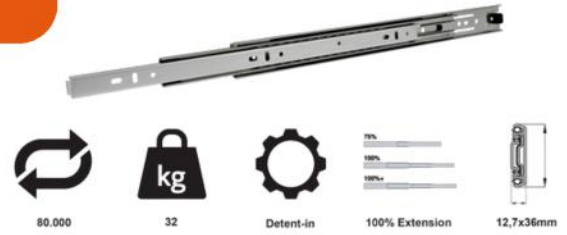

Provide cable management and organisation.

All Cable Glands are REACH & RoHS compliant and CE & UK CA Approved.

DrawerSlides

Light Duty Drawer Slides (32KG)

- 32KG load rating
- 100% full extension
- 250-500mm lengths in 50mm increments

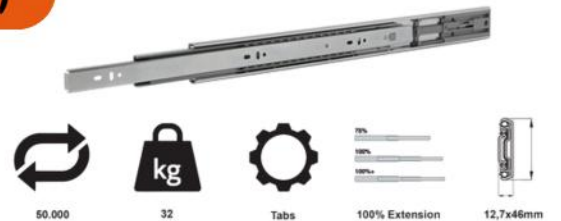

Medium Duty Drawer Slides (45KG)

- 45KG loading rating
- 100% full extension
- 250-700mm lengths in 50mm increments

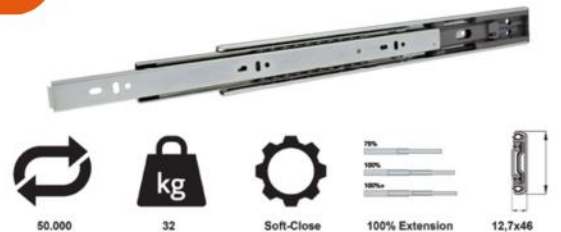

Side Mount Drawer Slides - Push Open (32KG)

- 32KG loading rating
- Push open/positive stop
- 350-550mm lengths in 50mm increments

Side Mount Drawer Slides Soft Close (32KG)

- 32KG load rating
- Soft close/controlled comfort slide
- 350-500mm lengths in 50mm increments

Heavy Duty Drawer Slides With Tabs (60KG)

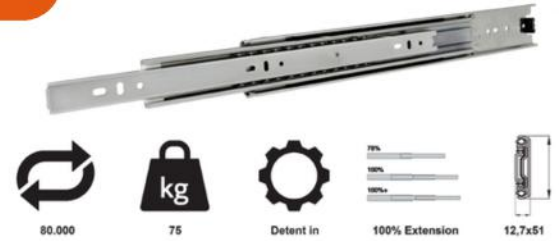

- 60KG load rating
- Complete with tabs
- 350-700mm lengths in 50mm increments

Drawer Slides

Heavy Duty Drawer Slides (75KG)

- 75KG load rating
- Tested to 80,000 cycles
- 250-1050mm lengths in 50mm increments

Heavy Duty Drawer Slides (100KG)

- 100KG load rating
- Tested to 80,000 cycles
- 350-1500mm in 50mm increments

Adhesives & Cleaning Supplies

Bond-It Glass Cleaner

- A fast-acting, high quality glass cleaner with a non-smear formula. Excellent for cleaning mirrors
- Trigger spray for easy application on 1L bottle

Bond -It Monster Wipes

- Heavy duty strength wipes suitable for cleaning up paint, adhesive, sealant, expanding foam, bitumen, oil, grease and much more!

Bond-It Multi Wipe Spray

- Trade strength cleaning solution for cleaning up paint, adhesive, sealant, expanding foam, bitumen, oil, grease and much more!
- Comes in a handy spray bottle

Bond-It PVCU Solvent Cleaner

- Effectively removes ingrained dirt and restores surface colour without leaving a residue

Bond-It A43 Threadlock

- Used as a locking compound for direct application to lightly oiled components
- Replaces spring washers and lock nuts

Adhesives & Cleaning Supplies

Bond-It A70 Studlock

- Resistant to fuels, oils, hydraulic and refrigeration fluids. Also acts as a lubricant during assembly to ensure accurate torquing and protection against corrosion

Bond -It Aerosol Spray Adhesive

- Non-chlorinated, exceptionally powerful, long lasting, multi-purpose adhesive in a can. Gives exceptionally strong adhesion for a wide range of demanding uses

Bond-It AnchorBond Adhesive

- A 2-part system applied in one single action to produce a cost-effective, tough chemical resistant fixing

Bond-It B3 Expanding Foam

- For fitting doors, windows and insulating pipes and filling gaps and can reduce the need for mechanical fixings

Bond-It Silicone Remover

- Removes all types of silicone and sealant by breaking up and digesting the material, leaving surfaces clean and ready for re-sealing

Adhesives & Cleaning Supplies

Bond-It Expanding Foam Gun Cleaner

- A dual purpose, solvent-based solution for effective cleaning of expanding foam applicator guns and removal of wet/uncured foam

Bond -It D4 Waterproof Wood Adhesive

- Provides the user with a waterproof D4 grade wood adhesive with none of the safety issues associated with conventional isocyanate containing (polyurethane) D4 grades

Bond-It "The Beast" PU Glue

- One-part moisture cure polyurethane adhesives specially formulated for waterproof bonding. These products are seawater proof and are resistant to acid and chemicals

Bond-It GP200 Silicone

- Ideal for applications in bathrooms, shower rooms, utility rooms and general DIY applications including kitchen work tops

Bond-It Gripbond Pro Hybrid Sealant

- "Hybrid" sealant for use in areas requiring a tough elastic rubber joint or as an adhesive with superior bonding strength

Adhesives & Cleaning Supplies

Bond-It HT30 High Temp Sealant

- Specifically designed for high temperature use, it is UV resistant and weatherproof. After curing HT30 will resist temperatures of 250°C permanently and up to 300°C for short periods

Bond -It Lami-Mate Timber Sealant

- A polymer enhanced, flexible sealant and gap-filler designed for sealing all tongue and groove laminate and hardwood flooring and for sealing around timber windows and door frames

Bond-It "MEGA FOAM" PU Expanding Foam

- Used for draught-proofing around timber flooring to provide an effective dust and air tight seal.
- It can also be used for sealing around all types of fitted furniture

Bond-It Mitre Kit Adhesive

- High strength bonding system comprising a cyanoacrylate adhesive with an aerosol activator to ensure full and rapid curing on acid surfaces

Bond-It Multi-Purpose Spray Lubricant

- High performance, multi-application fluid which has excellent de-watering, anti-corrosive and general lubricating properties

Adhesives & Cleaning Supplies

Bond-It Silicone Release Spray

- A clear, non-staining, non-volatile silicone lubricating oil in an aerosol can that provides a clear barrier

Bond -It WP100 Oxime Silicone

- High grade LMN silicone for perimeter sealing of external door and window frames.
- Rapid curing with good adhesion properties and additional uPVC adhesion promoters

Bond-It WP70 Oxime Silicone

- A low modulus neutral cure (LMN) silicone for perimeter sealing of external door and window frames

Industrial Tapes

Hazard Warning Tape

- Material: PVC film coated with rubber pressure sensitive adhesive
- Ideal for marking floors, walls and overhead
- Good water and abrasion resistance

"Caution Electric" Tape

- Material: Polyethylene (PE) film
- Under ground marking tape for use with buried cables
- Printed with "Caution Electric Cable Below"

Anti-Slip Tape

- Material: PVC film with diamond sand compound and natural rubber based adhesive
- Self-adhesive slip resistant tape ideal for hazardous areas

"Fragile" Parcel Tape

- Material: OPP (oriented polypropylene) film with acrylic adhesive
- Used for sealing applications (cartons, boxes, bags and packages)

Double Sided Foam Tapes

- Material: Polyethylene foam coated on both sides with adhesive
- Coated with pressure sensitive acrylic adhesive

Industrial Tapes

Non-Adhesive Barrier Tapes

- Material: Polyethylene (PE) film
- Ideal for marking out or cordoning off areas
- Durable in all weathers

Aluminium Foil Tapes

- Release paper carrier with acrylic emulsion based adhesive
- Used for pipe lagging, duct sealing, heating and ventilation

Fleece Tapes

- Self-adhesive harnessing tape
- Widely used by vehicle manufacturers
- Excellent noise damping properties

Gaffer/Duct Tapes

- Adhesive coated with vacuum hotmelt (synthetic rubber)
- Water resistant, highly adhesive and leaves no residue

Masking Tapes

- Ideal for masking out areas to be painted
- Can easily be removed without leaving residue or causing damage

Industrial Tapes

Parcel Tapes

- Material: OPP (oriented polypropylene) film with acrylic adhesive
- Used for sealing applications (cartons, boxes, bags and packages)

Petroleum Tapes

- Protects against corrosion and weathering effects on pipes, valves, joints, metal surfaces, bolts, nuts, washers, and cables above and below ground

PTFE Tapes

- Yellow – Suitable for use with gas and hot water pipes
- White – Suitable for use with water only
- Resistant to almost all chemicals

PTFE Insulation Tapes

- General purpose electrical tape
- Used for insulation, protection and fixing
- Manufactured to BS EN 60454-3-1 standards

PVC Non Adhesive Tapes

- Material: Premium grade plasticised PVC film
- Bonds together without adhesive
- Used for permanent wrapping type applications

Industrial Tapes

Self-Amalgamating Tapes

- Tape which amalgamates with itself when applied under tension
- Primarily used for waterproofing, corrosion protection, jointing and repair of cables

Silicone Tapes

- Ideal for repairing and sealing broken cables, leaking pipes and broken seals
- UV, water and weather resistant

UV Resistant Blue Masking Tapes

- Premium quality for use on wall, wood, metal and glass
- Ideal for masking out areas to be painted

Cable Ties & Fixings

Standard Nylon Cable Ties

- Available in a variety of sizes
- Our Standard Cable Ties are RoHS compliant, Low Smoke Generating & Zero Halogen
- Material: Nylon 6,6

Releasable Cable Ties

- Ideal as a temporary fastening solution and can easily be released by hand.
- Our Releasable Cable Ties are RoHS compliant, Low Smoke Generating & Zero Halogen

Coloured Cable Ties

- Available in a variety of sizes & colours
- Can be tightened by hand or using one of our tensioning tools.

Fluorescent Cable Ties

- Available in a variety of sizes & colours
- Can be tightened by hand or using one of our tensioning tools.

UV & Heat Stabilised Cable Ties

- Flammability Rating: UL94-V0
- Installation Temperature: -20oC to +80oC
- Working Temperature: -40oC to +80oC

Cable Ties & Fixings

Screw Mounted Nylon Cable Ties

- Swivel & fixed options
- Load capacity up to 70KG
- 100mm wheel diameter

Push Mounted Cable Ties

- Ideal for fastening bundles of cable, hoses, pipes etc and then fixing securely, using a screw

Cable Tray Fixing Cable Ties

- The cable tie provides a permanent solution to the problem of fixing cables to cable trays
- Snaps apart to slot into cable trays

Double Loop Cable Ties

- Material: UL approved Nylon 66, 94V-2
- The cable tie creates two loops to allow separation of two wire, cable or hose bundles

Button Head Cable Ties

- Material: UL approved Nylon 66, 94V-2
- Two piece cable tie allows for parallel entry and exit through the head

Cable Ties & Fixings

Marker Cable Ties

- Tie and identify bundles of cable in one operation
- Flat area for imprinting or writing information

Metal Detectable Cable Ties

- Nylon cable tie with metal content is specifically designed to be detectable by metal detectors
- Ideal for applications in the food, pharmaceutical and chemical processing industries

Stainless Steel Cable Ties

- Self-locking head design speeds installation and locks into place at any length
- Provides a strong, durable method of cable bundling

Cable Tie Adhesive Bases

- Self-adhesive tie mounts are designed to support light weight wire bundles
- For heavy support, mounting hole is provided for screws

Screw Mounted Cable Tie Bases

- Material: UL approved Nylon 66, 94V-2
- Saddle design provides maximum stability to wire bundles

Cable Ties & Fixings

Masonry Mount Screws

- Used for fixing cables to walls without using screws or plugs
- For use with cable ties up to 9mm wide

Cable Tie Eyelets

- Material: UL approved Nylon 66, 94V-2
- Ideal fixing solution for heavier cable in more restricted areas

Stainless Steel Cable Tie Bases

- Fire and corrosion resistant
- A strong cable tie mount, designed to accommodate a range of stainless steel cable ties

Nylon Cable Clips

- Self-adhesive
- Suitable for mounting of wires and cables, as well as for bundling

Nylon P Clips

- Clips are designed to hold cables, tubes and components
- To apply, just clamp down on loosen cables and screw it to chassis

Cable Ties & Fixings

Rubber Lines P Clips

- Liner: TPE black rubber
- A range of P-clips for secure clamping of pipes, cables and hoses

Wiring Grommets

- Material: PVC
- Provides protection for wires and cables passing through panels

Fast Fit Grommets

- Provides protection for wires and cables passing through panels
- Snaps in neatly and quickly

Blanking Grommets

- Provides protection against dust and water
- Acts as a blanking plug for later insertion of wires and cables

**Looking For More
Electrical
Components?**

**Request Our Indifit
Electrical Catalogue**

Cable Management

Heat Shrink Tubing

- Applications: Electrical insulation, cable bundling, pipes and wires giving good physical protection

Sleeving

- Material: PVC
- Flexible
- Excellent electrical, physical and chemical properties

Conduit

- Corrugated conduit
- Ideal for keeping cables protected and organised
- High flexibility & fatigue life - Very High abrasion, impact and shock resistance

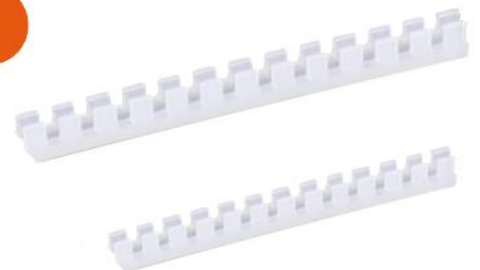

Spiral Wrap

- Material: Polyethylene
- Lightweight protective wrap for hose and cable protection
- Water, oil and fuel resistant

Grommet Strips

- Provides a smooth edge to panels
- Ideal for circular or irregular shaped openings
- Protects cables routed through sharp edges

Cable Management

Cable Glands & Accessories

- Suitable for indoor and outdoor use
- Used when waterproof seal is required

Nylon Glands

- Essential safety device for sealing, supporting, and organising various types of power, data, control, and telecoms cables in a wide range of indoor and outdoor environments

Cable Jointing

- Suitable for use with both armoured and unarmoured cables up to and including 1kv

Cable Clips

- Suitable for securing cables and wiring to wood, masonry and compressed board; for fastening materials on bricks, blocks and concrete; withstands bending up to 45°

Tools

Cable Tie Tensioners & Cutters

- Cable tie tensioning and cutting tools
- Quicker fastening and cutting of cable ties
- Trigger mechanism to reduce operator fatigue

Cable Strippers

- Used for insulated and uninsulated terminal crimping
- Material: Steel alloy jaws
- Main Body: SS41 Steel with black oxide finish

Terminal Crimping Tools

- High strength through hardened steel
- Anti-slipping handles
- Pressure adjustable tensioner
- Replaceable jaws

Heat Shrink Terminal Crimping Tools

- High strength through hardened steel
- Anti-slipping handles
- Pressure adjustable tensioner
- Replaceable jaws

Flag Terminal Crimping Tools

- High strength through hardened steel
- Anti-slipping handles
- Pressure adjustable tensioner
- Replaceable jaws

Tools

Uninsulated Terminal Crimping Tools

- Swivel & fixed options
- Load capacity up to 70KG
- 100mm wheel diameter

Cord End Terminal Crimping Tools

- High strength through hardened steel
- Anti-slipping handles

Copper Tube Terminal Tools

- High strength through hardened steel
- Anti-slipping handles

Superseal/Econoseal Crimping Tools

- High strength through hardened steel
- Anti-slipping handles
- Pressure adjustable tensioner

Cable Cutters

- Used for cutting copper and aluminium cable

Drill Bits

HSS Jobber Drill Bits

- High level of durability
- Ideally suited for hand held drilling applications
- Suitable for steel, cast iron, copper, brass, iron and plastics

HSS Stub Drill Bits

- Shorter length offers greater rigidity
- Ideally suited for hand held drilling applications
- Suitable for steel, cast iron, copper, brass, iron and plastics

Black Smith Drill Bits

- Reduced shank
- Ideally suited for hand held drilling applications
- Suitable for steel, cast iron, copper, brass, iron and plastics

Masonry Drill Bits

- Material: High grade steel with zinc plating
- Carbon steel shank
- Tungsten carbide tip

Cone/Multicut Drill Bits

- Material: High grade steel
- Designed for machining thin sheets
- Also used on non-ferrous metals and plastics

Drill Bits

Spot Weld Drill Bits

- Material: Cobalt steel
- Standard helix
- 115/180° point
- Designed to drill spot welding points

SDS Drill Bits

- High specification and performance
- Unique flute shape to ensure fast drilling and rapid waste removal

Auger Drill Bits

- For use with power & hand tools
- Designed for the precise drilling of deep holes

Flat Drill Bits

- Ground point and cutting edges
- Hexagon shank
- Suitable for drilling shallow holes in soft and hard woods, plywood, chipboard and MDF

Holesaws & Arbors

- 4-6 teeth per inch
- Variable pitch cutters allow for faster cutting
- Suitable for metals, nail-embedded wood, plywood, plastics, pipe and stainless steel

Drill Bits

Glass Drill Bits

- Precision ground carbide tip avoids chipping
- May be used in hand or power tools
- Suitable for drilling glass, tile and ceramics

Lip & Spur Drill Bits

- Suitable for use in furniture making, dowelling and other wood working applications

Pilot Drill Bits

- Material: High grade steel
- Pilot point to prevent tip slipping
- Ideal in joinery and maintenance applications

Wall Plugs

- Recommended to use when fitting in shelves, electrical fittings, boilers, radiators, lighting, bathroom fittings, etc.

Fasteners - Socket Screws

Socket Cap Heads

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Socket Countersunk

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Socket Button Heads

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Socket Grub Screws

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Socket Flange Button Head

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Socket Screws

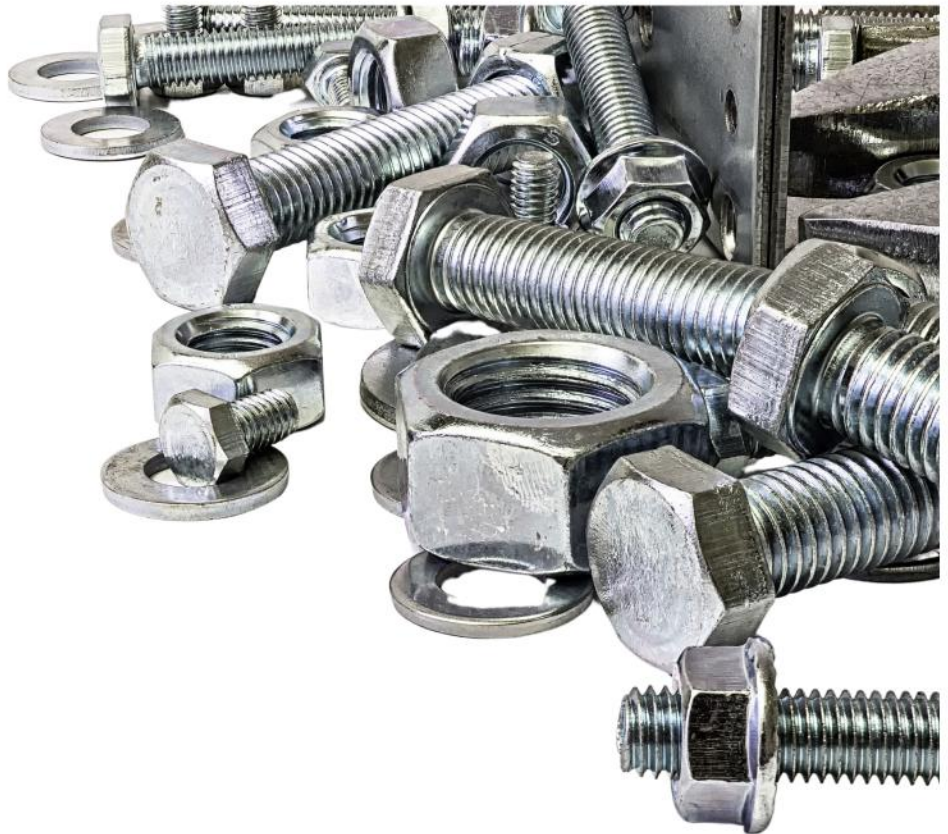

Socket Shoulder Screws

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Socket Wrenches (Allen Keys)

- Socket wrench similar to 'Allen key' product used to fasten socket screws.
- Choice of L or Z shaped profiles

Fasteners - Hex Screws/Bolts

Hex Setscrews

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Hexbolts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Looking For Hex Bolt Protection?

Nut Cover Caps

- Available in Black, White & Grey as standard
- Other colours available upon request
- M4-M36 size options

Fasteners - Machine Screws

Countersunk Pozi

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Countersunk Slotted

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Pan Head Pozi

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Pan Head Slotted

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Cheese Head Slotted

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Self Tapping Screws

Countersunk Pozi

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Pan Head Pozi

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Pan Head Slotted

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Wood Screws

Countersunk Pozi

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Round Pozi

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Countersunk Slotted

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Round Head Slotted

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Nuts

Full Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Lock (Half) Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Nylon Insert Lock Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Dome Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Wing Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Rivet Bushes

Hexagon Rivet Bushes

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Round Rivet Bushes

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Washers

Flat Washers

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Mudguard (Penny) Washers

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Spring Washers

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Shake Proof Washers

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Rivets

Dome Rivets

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Sealed Rivets

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Large Flange Rivets

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Countersunk Rivets

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Multigrip Rivets

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Fasteners - Furniture Fittings

Connector Bolts & Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Threaded Insert Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

Wood Insert Nuts

- Available in a range of sizes
- Various material options including BZP, SS
- **Contact us for more information**

ZipBolt Worktop Fasteners

ZipBolt 10.500

- Thick diecast housing for superior strength
- Suitable for 26-40mm worktops
- Install with a cordless drill or hand ratchet

Zipbolt 10.700HT

- Thick diecast housing for superior strength
- Suitable for 26-40mm worktops
- Install with a cordless drill or hand ratchet

Zipbolt 10.800 Slimline

- Thick diecast housing for superior strength
- Suitable for 16-25mm worktops
- Install with a cordless drill or hand ratchet

Zipbolt 10.858 Slimline

- Thick diecast housing for superior strength
- Suitable for 16-25mm worktops
- Install with a cordless drill or hand ratchet

Zipbolt QT18.100 Ultra Slimline

- Thick diecast housing for superior strength
- Suitable for 12-15mm worktops
- Install with a cordless drill or hand ratchet

Nylon Fasteners

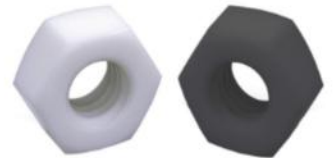

Nylon Screws

- Hundreds of options to choose from
- Low MOQ's
- **Contact us for more information**

Nylon Nuts

- Hundreds of options to choose from
- Available in natural (white) or black
- **Contact us for more information**

Threaded Stand Off Spacers

- Hundreds of options to choose from
- Low MOQ's
- **Contact us for more information**

Nylon Washers

- Hundreds of options to choose from
- Available in natural (white) or black
- **Contact us for more information**

Nylon Spacers

- Hundreds of options to choose from
- Low MOQ's
- **Contact us for more information**

Nylon Fasteners

Nylon Bushes

- Hundreds of options to choose from
- Low MOQ's
- **Contact us for more information**

Panel Fasteners

- Hundreds of options to choose from
- Low MOQ's
- **Contact us for more information**

Snap In Hole Plugs

- A finishing product to neatly conceal holes in flat panel. Standard stock colour black, with white in some sizes and to special order in others. Fixed pattern in nylon, variable in ABS

sales@indifit.co.uk

DO YOU NEED SPECIAL SIZED WASHERS OR GASKETS?

By ingenious yet simple tooling methods, special sizes of washers, discs and gaskets can be produced exactly to your specification in a multiple of materials.

Hundreds of sizes are already available from previous tooling—if we cannot cater for the exact size needed, then specific tooling can usually be produced within 7-10 days, with production immediately after.

Small runs are no problem—and are made economical by our low part-tool-charges.

All we need in order to quote is a rough sketch of the part needed, or for simple washers/discs, purely the dimensions, thickness and material required.

The following materials are available (gaskets in non-metallic only):

ACETAL	NITRILE
ALUMINIUM	NYLON
BRASS	NYLATRON PHOSPHUR
BUTYL	BRONZE POLYESTER
CNAF	POLYPROPYLENE
COPPER	POLYTHENE
CORK	POLYURETHANE
DELIN	PRESSPAHN
ELEPHANTIDE	PTFE
EPDM	PVC
FELT	RUBBER
FIBREBOARD	SILICONE
GASKET PAPER	SPONGE
LEAD	SRBF
LEATHER	SRBP
MELINEX	VITON
MILD STEEL	VULCANISED FIBRE
MILLBOARD	
NEOPRENE	

- **SMALL QUANTITIES WELCOMED**
- **Delivery usually 7-10 days**
- **Wide choice of materials**
- **Self-adhesive available in some materials**

NOTES

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.
