

## NEW PRODUCT - SPF 625

# WELD SEAM MILLER

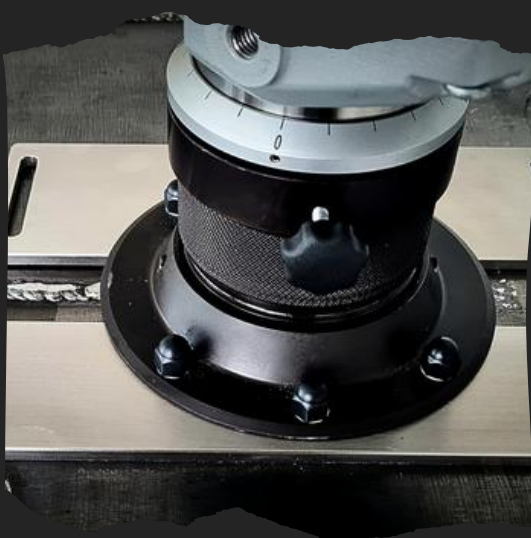

### HIGH PERFORMANCE

- Portable high-performance surface milling machine for precise processing of weld seams
- Processes seams up to 6 mm high and 25 mm wide
- Creates a smooth, even surface for optimal post-treatment
- 2300 W electric motor with stepless electronic speed control (1600–3000 rpm)

### PREMIUM HEAVY-DUTY

- Full-wave control electronics for constant, material-appropriate cutting speed
- Safety features: overload protection, soft start, and restart protection
- High-quality screw-in milling cutter with 3 double-sided carbide inserts
- 50 cm long, extendable guide rail with two strong permanent magnets for precise guidance

**QUALITY AND PRECISION  
ENSURE PERFECT  
RESULTS WITHOUT  
COMPROMISE**
