

YOUR INSPIRATION GUIDE

2024 EDITION

More than 400 NEW products.

INTRODUCTION

Welcome to our 2024 Inspiration Guide, as your trusted partner in the product media industry, we offer products that last and people love to use. Enduring products that people will appreciate. Inside this guide, you will discover more sustainable products, timeless bestsellers, quality brands, and our 'Create Your Own' service for custom solutions. Carefully selected for your customers' unique style

to make their company logo and values stand out in the best way possible. Excitingly, we introduce Roly, our newest brand. Together with our brand Elevate, this will be a dynamic partnership offering the broadest range of promotional clothing in Europe – from Roly's entry-level t-shirts to Elevate's luxurious recycled jackets, and everything in between.

Join us on this journey towards a more sustainable product media industry, while we assist you in elevating your brand and leaving a lasting impression. Our commitment goes beyond sustainability; we empower you and your customers to make conscious choices with transparency, data-driven insights, and third-party validation.

Dive into our 2024 inspiration guide and discover the perfect solutions for your brand, combining sustainability with style.

A photograph of two men standing on a city street. The man in the foreground is wearing a red long-sleeved shirt under a green quilted puffer vest. The man behind him is wearing a red hoodie. They are standing in front of a building with ornate metalwork.

ENDLESS POSSIBILITIES ON CLOTHING

Roly and Elevate joined forces!

We are excited to introduce you to the dynamic partnership between Roly and Elevate. In this ambitious partnership, Roly will provide deep inventory for a wide selection of t-shirts, polos, hoodies, bodywarmers and jackets.

Roly's unmatched sourcing capabilities and purchasing power will ensure that this collection is positioned with the best prices in the market. A printing turnaround from 1 day after order confirmation will be organised for these products, providing the fastest fulfillment in the market. Together with the long-established Elevate collection, this creates the largest range of promotional clothing. From entry price level Roly t-shirts to high-end Elevate NXT recycled jackets, available printed throughout Europe. Read more about the brand Roly and the products and services we have to offer in this digital catalogue.

**We support
you through
the sustainable
transition.**

As promised.

The world is changing and so are we. We aim to reduce the environmental footprint of our activities all along the supply chain. We are committed to phasing out all virgin fossil-based plastic products and packaging from our collection by 2030. We are transparent, share data and partner with third parties for proof & validation.

RETHINKING PLASTICS 2030.

In pursuit of a more sustainable product media industry, our objective is to minimise the environmental impact throughout the entire supply chain. With our long-term strategy “Rethinking Plastics 2030”, we are committed to phasing out all virgin fossil-based plastics from our collection by 2030. We are changing how we design, use and reuse plastics. There are 3 actions we must take:

INNOVATE, CIRCULATE AND ELIMINATE (I.C.E.)

Innovate, by replacing virgin fossil-based plastics with bio-based plastics and by looking for new materials.

Circulate, by using recycled materials, but also by reusing, repairing and rethinking our business models and take-back systems.

Eliminate, by removing virgin fossil-based plastic from product and packaging.

As we value sustainability, we’re going all in to reduce our ecological footprint. And we are getting there. Recently EcoVadis has awarded our work with a Platinum rating, placing PF Concept in the top 1% of businesses in our market for their performance in the field of corporate social responsibility and sustainable business operations.

Want to know more about our commitment to sustainability? Delve into our Sustainability Report 2023 where we showcase our initiatives, accomplishments, and aspirations for a more sustainable product media industry.

Turning plastic waste into building blocks for schools.

PF Concept supports UNICEF the Netherlands.

We have initiated a multi-year partnership with UNICEF the Netherlands to help fund their 'Plastic Bricks' program. As part of our long-term strategy, 'Rethinking Plastics 2030', we are providing funding for the program which converts plastic waste into building blocks for classrooms and schools while providing fair remuneration for plastic collection and training in entrepreneurship. Today, this program has established over 284 classrooms and over 14,200 children have gained access to education.

UNDYED & AWARE™

AWARE™ – DARINGLY SIMPLE TRACEABILITY

How can we build trust in sustainability claims? By ensuring trusted traceability for every step of the supply chain with Aware™ technology.

Starting from the very origin of an item's fabric, this innovative solution brings unprecedented transparency to the supply chain. By embedding a physical tracer into sustainable raw materials. This tracer can be authenticated with the Aware™ hand scanner from every tier of the supply chain anywhere, anytime. The blockchain platform securely records production information, creating a digital replica of the material's journey, ensuring accurate data for recycling processes. Digital tokens, the Aware™ Crypto TCs™, validate every step, upholding the integrity of the supply chain information. The user-friendly Virtual ID acts as a digital product passport for consumers and simplifies making informed choices.

UNDYED

These products are made from 'Undyed' fabric. No dyes, water or chemicals are needed in this innovative process, which means it has less negative impact on our planet. Starting with textile waste from manufacturers and traders, the colour of the waste dictates the final hue. After manual sorting and quality checks, the waste is recycled into cotton fiber without chemicals. Blended with other recycled fibers, like polyester, viscose, acrylic, EcoVera™, or Tencel™, the resulting yarn is strong and high-quality. Through careful processing, the material is formed and spun into the final, more sustainable coloured yarn.

GRS certified materials.

Tracing recycled inputs from source to store.

OUR GRS CERTIFIED COLLECTION

GRS certified products are made from verified recycled materials, with a traceable supply chain from the original source. To be GRS certified, a product must contain at least 50% recycled materials. Together with our printing facility in Poland, we have obtained the Global Recycled Standard certification for a multitude of our printed products, including clothing and bags.

Together for a sustainable future

Add value to your business and customers by consciously choosing recycled products, you take responsibility and inspire others to do the same. With each product, you communicate what your brand is all about.

Green Points

With every product in this catalogue, we mention a value in Green Points. These points can be used to navigate the collection and identify the more sustainable options. We have identified 8 different elements that give a transparent overview of the impact of a product. Elements scored are for instance the material, the country of origin or the recyclability of a product. Every product has a Green Passport on our PF Store explaining in detail how we score the products. This makes it easy to compare products and make a choice based on your own sustainability strategy.

CO2

To measure the environmental impact of our products we have calculated the CO2 footprint using an ISO 14067 certified carbon tracking tool. This tool aims to assess the environmental impact of a product through its life cycle, going from extraction, transformation, production, packing, shipping, and use of product to the end of life.

**Products
selected
with care.**

As promised.

We've categorised our products in this chapter in a straightforward and effective sequence, you'll discover cost-effective quality items. Followed by products with improved features and greater durability. And for the utmost in excellence, explore our trusted, branded articles renowned for their quality and performance. Furthermore, we are dedicated to sustainability. You can assess the environmental impact of our products through our Green Points system and the CO2 emissions of our items, ensuring transparency in our commitment to reducing our environmental footprint.

Recycled classics

In our pursuit of environmental responsibility, we launched new and recycled versions of our bestselling articles. We are striving to replace existing products with more sustainable alternatives.

Americano[®], the perfect replacement for disposable cups.

Single-Use Plastic (SUP) items often find their way into our oceans. The European Union is taking a lead in the global fight against marine litter and plastic pollution. In this context, the Americano[®] takes a big role in replacing disposable cups with reusable ones. The Americano[®] Collection offers a mix and match approach for every campaign, colour scheme and budget. All crafted in Europe and fully customisable to promote your brand, while staying true to your sustainable values.

- Made in Europe
- Recycled and more sustainable choices
- Mix and match colours to create your ideal mug
- Available sizes: 250 ml, 300 ml, 350 ml
- Diverse lid options to suit your preferences
- Microwave and dishwasher safe

**Helping
you to
replace your
disposable
cup.**

As promised.

CREATE YOUR OWN

A WORLD OF POSSIBILITIES.

With Create Your Own, just about anything is possible. Looking to create your own custom-made product with custom materials, products in your company's PMS colour, special accessories or a unique printing – Create Your Own makes it possible. And only in a few simple steps. As the leading procurement specialist for the largest range of product media, we offer competitive prices, short delivery times, low minimal quantities and full compliance. With our Create Your Own collection you can create your own custom-made products in a few simple steps.

**Empower
selling.**

As promised.

Our digital tools help you to inspire your customer. Our large inventory and fast branding enable any project. Our sales experts are at your service to support you to win with your customer. Ordering is efficient thanks to our outstanding web shop.

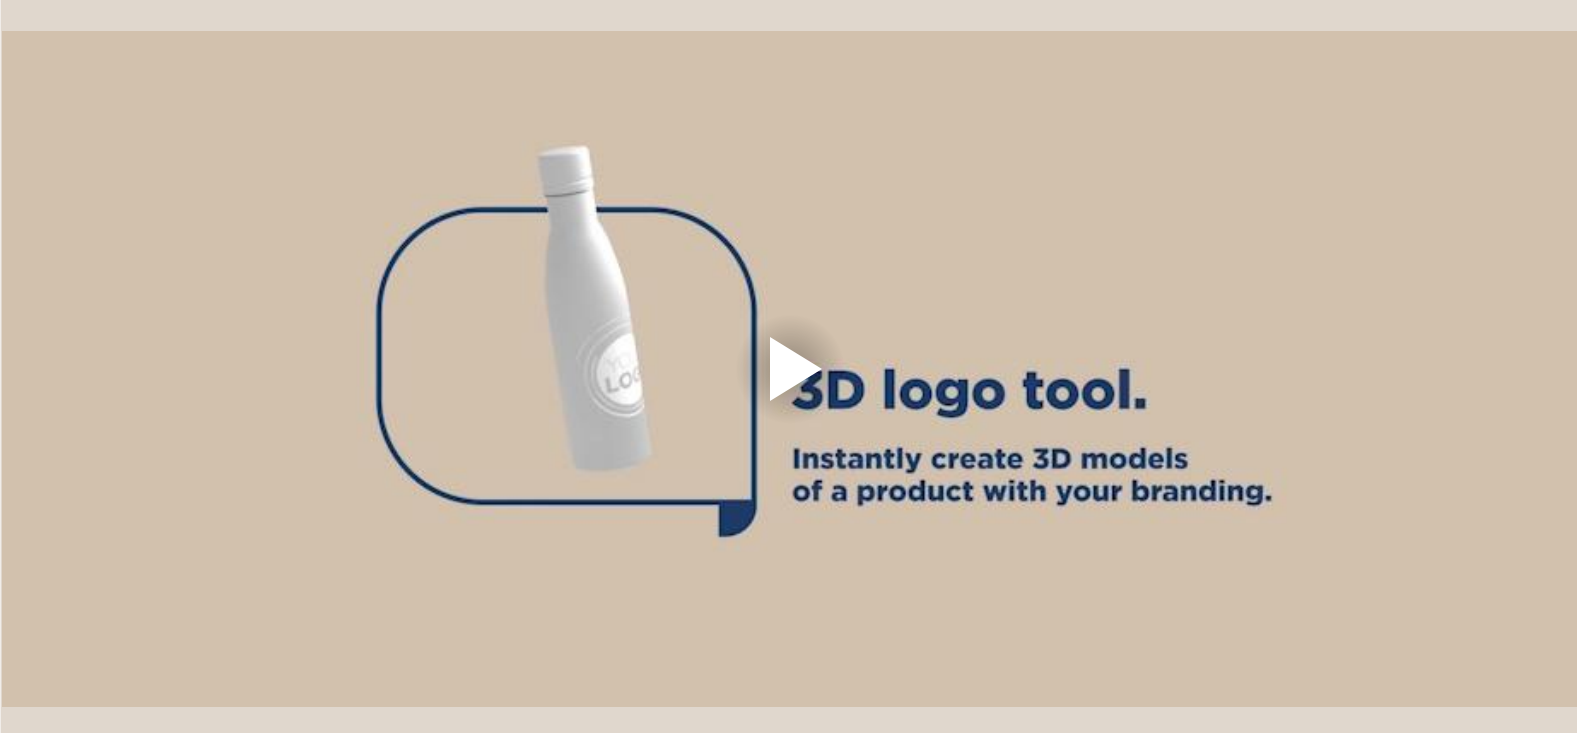

As we are serious about
being your preferred
product media expert, we
have developed tools to
help inspire your customer,
saving you valuable time
and allowing you to focus
on selling.

DIGITAL TOOLS TO EMPOWER YOUR SELLING.

3D LOGO TOOL

Instantly create 3D models of a product with your branding.

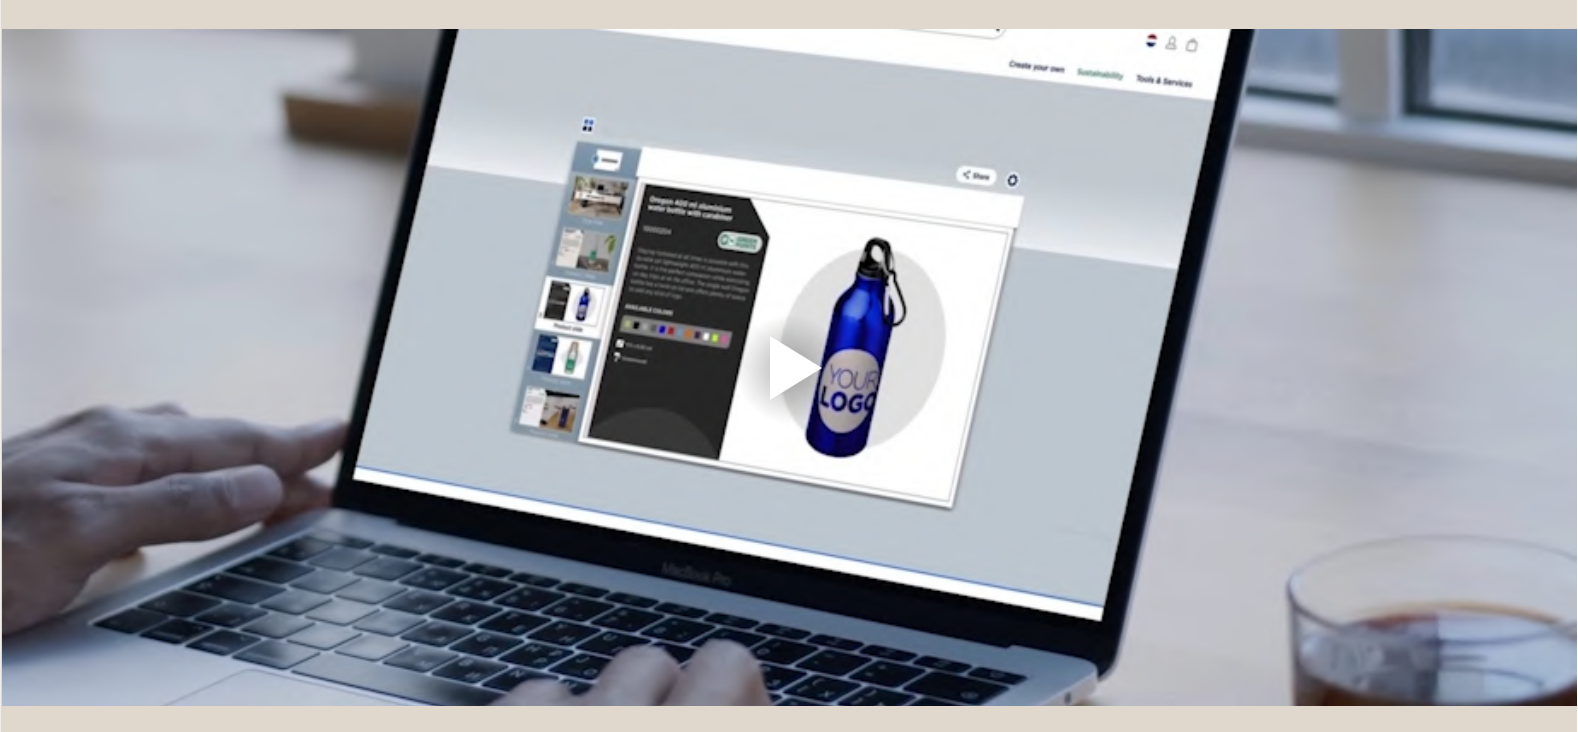

MOOD SCENE GENERATOR

Upload a logo, position it and let our tool create a gallery of mood scenes based on your design and uploaded logo.

CATALOGUE CREATOR

Inspire your customers with branded catalogues.

DEBOSSING

Debossing is a printing technique that entails using a heated die to press a design into the surface of a material, resulting in an indented effect

DIGITAL PRINTING

Digital printing is a method in which precise ink droplets are sprayed onto a surface to create an image, and the ink solidifies when exposed to UV light

DIGITAL STICKER

A digital sticker is a label with adhesive backing that is produced using digital printing technology. These stickers are created from digital files and can include a variety of designs and text.

DOMING

Doming is a technique that produces a 3D effect by applying a liquid resin over a printed surface. This method is frequently used for labels and provides added protection for the printed design.

SCREENPRINT

Screen printing is a printing method that uses a mesh screen to transfer ink onto a substrate. This process is commonly employed to produce vibrant and long-lasting prints on a wide variety of items.

TRANSFER

This process involves printing a desired design on an initial material, such as fabric, and then using heat and pressure to transfer the design onto your merchandise.

LASER ENGRAVING

Laser engraving is a precise technique that utilises a focused laser beam to remove material and produce permanent and intricate markings on a variety of surfaces. The process vaporises material, generating high heat to incise designs.

IN MOULD LABELLING

In-mould labelling is a technique used in plastic container manufacturing, where a pre-printed label is positioned inside a mould before shaping the plastic container. During production, plastic material is heated, placed into the mould, and merges with the label to create a unified product.

SUBLIMATION

Sublimation printing is a digital printing process that uses heat and pressure to transfer dye from a printed material to different materials. It is commonly used to print on polyester fabric but can also be used on other materials such as ceramic, metal, and plastic.

EMBROIDERY

Embroidery involves the creation of patterns by stitching threads onto a fabric.

360 LASER ENGRAVING

360-degree laser engraving allows for precise engraving on more complex rounded products.

360 DIGITAL PRINTING

360-degree digital printing enables full-colour printing on the entire surface of an object and is frequently employed for customising products.

LITHOGRAPHY

Lithography involves using a printing plate with areas that attract ink and repel water to produce high-quality prints.

PADPRINT

Pad printing is a printing method that involves transferring ink from an engraved plate, typically made of metal or silicone, to the surface of 3D objects with irregular or curved shapes.

RELIEF MOULDING

Relief moulding refers to the process of creating a raised design on materials. This is often achieved by using special dies to press the design into the material, resulting in a tactile, three-dimensional effect.

SCREENROUND

Screenround utilises the same technique as screen print, except the product is turned and moved during the printing process.

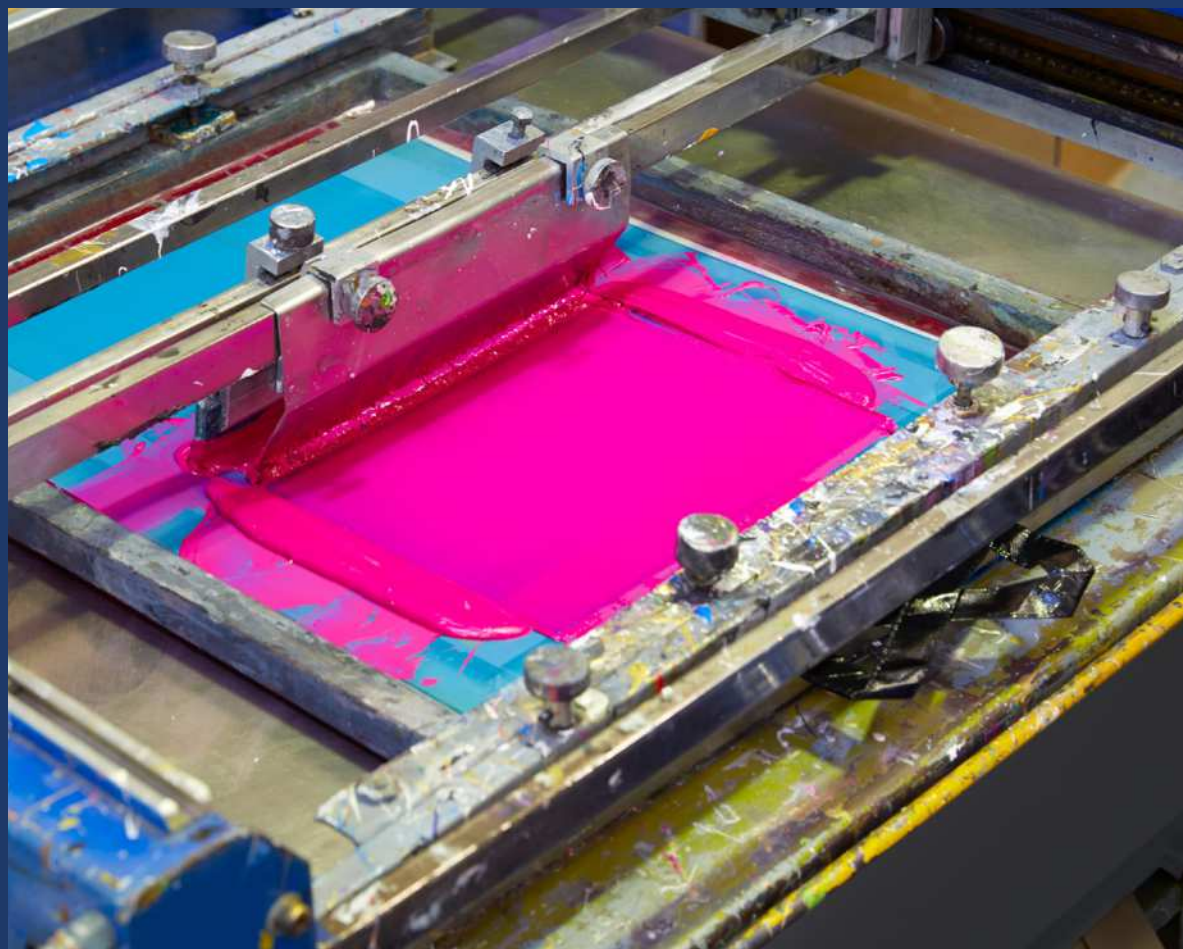

HOT STAMPING

Hot stamping is a printing process that uses heat and pressure to apply foil between a die and the surface to be stamped.

PRINT TECHNIQUES

PF Concept - Poland Operation is an One-Stop-Shop and full service product printing service with a complete range of stock. Located in Poznan, Poland, PF Concept has built a stock and printing facility.

With the One-Stop-Shop solution PF Concept takes away all hassle. We offer all-in printing services based on all-in product prices. Branding done by PF Concept is fast with the possibility for next day shipment, delivered all over Europe, directly to the end customer if required. This service is unique in the market and will help to quickly deliver branded products.

Disclaimer
